# The International Live Stock Exposition

## THE TWENTY-EIGHTH ANNIVERSARY SHOW

### The Leading Exponent of a Great Movement for the Improvement of Live Stock and Crops

The Twenty-eighth Anniversary International Live Stock Exposition which was held at the Chicago Union Stock Yards from November 26 to December 3, 1927, surpassed all former sessions and elicited praise on every hand. It will go down in history as the best balanced exhibition ever staged in the history of the show. Improved agricultural conditions resulted in the best country attendance in many years and the spirit of the crowds was one of cheerfulness and optimism.

This was reflected in the various sales of purebred breeding stock held during the Exposition and everyone agreed that the live stock industry was on a much firmer foundation than for some time. The high cattle market at the Chicago Union Stock Yards, which reached its peak during International week, resulted in very satisfactory prices for the carloads of fat cattle and the single steers. The railroads supported these sales handsomely and secured superior beef for their dining cars, continuing their assistance in this way of the better beef movement.

The keynote of the 1927 International was quality. The classes were composed of more uniformly good entries and fewer tail-enders than ever before. The judges were forced to deliberate longer than usual before deciding where the honors should fall. The display of carloads of fat cattle was one of the sensations of the show. Heavy weight barrows were admitted to the contests again after several

years absence and resulted in making this department one of the features of the Exposition.

The junior feeding contest continued its rapid growth and brought out the greatest exhibit of baby beeves fed by boys and girls ever assembled. Nineteen grand champions and champions of state and inter-state fairs and over thirty grand champions of county fairs were included in the contest. One hundred and eighty-five baby beeves were sold in a special auction at the close of the show, as compared with one hundred and eight last year. This increase was largely due to the interest aroused by the ten weekly auctions conducted during the fall under the auspices of the International, the best animals being retained for exhibition at the show. Including the International sale, 1,819 head were sold in eleven auctions at an average price of \$15.03 cwt. and a total of \$246,851.15, compared with 1,652 head sold last year for \$12.40 cwt., totaling \$185,236.08.

The small grain exhibits in the Grain and Hay Show were arranged for the first time by states and exhibited under glass. The champion samples of each crop were displayed in a special championship exhibit which added greatly to the interest in this department. A large increase in the junior corn entries was one of the high lights of the show.

Visitors from a larger territory than ever before attended the Exposition, most of the European countries, Mexico, Argentine and several other South American countries and

## INTERNATIONAL LIVE STOCK EXPOSITION

Australia being represented. Prince Albert de Ligne, Belgian ambassador to the United States, personally presented the King Albert cup to the winner in the Belgian horse contest. Secretary of Agriculture W. M. Jardine spent several days at the International and gave official recognition to the foreign visitors.

The United States Department of Agriculture played a leading part in the educational section of the show, presenting attractive displays covering a wide range of timely and interesting subjects. Its corn borer exhibit was always the center of interest. The Meat Shoppe also proved a magnet for the crowds and drove home its lessons even more effectively than in the past.

An innovation this year was a horse show matinee on Wednesday afternoon at which the 1,200 boys and girls club congress trip winners and their leaders were the guests of the Exposition. These youngsters provided one of the stirring events of the show when they paraded in the arena on Monday night distinctively costumed by state groups.

Each night the horse show played to a capacity audience and was universally acknowledged to be the best ever held at this Exposition. One saddle horse class was especially declared to have been the strongest brought together any place in this country.

At the annual meeting of the members of the International Live Stock Exposition Association, A. B. Cook of Townsend, Montana, was elected to fill the unexpired term of the late Thomas Clark on the Board of Directors, and Oakleigh Thorne, Millbrook, N. Y., and C. N. Stanton, Chicago, were elected directors for the coming three years.

The educational influence of the International, which has been steadily growing ever since it was founded, in 1900, reached into even wider fields this year, when for the first time its activities were broadcast over a chain of leading radio stations through the efforts of the National Broadcasting Company. As on former occasions, WLS of Chicago carried on the air an almost continuous running story of the Exposition.

## A FEW NEWSPAPER COMMENTS ON THE 1927 EXPOSITION

This year as never before has the importance of the International Live Stock Show been demonstrated to the American public. This world famed institution is worthy of every compliment that might be paid to its conduct, its purpose and its accomplishments in behalf of the basic industry of America-agriculture in its many phases. The space devoted to displays made by the U. S. Department of Agriculture is of untold educational value to the American people. The grain display, the meat display, and the educational display in the room adjoining are of far greater value than might at first be thought. When it comes to the live stock section—none is better and this applies alike to the single lots in the breeding classes and in the bullock section as well as in the carlot division. Manager Heide is to be congratulated upon his 1927 display and the excellent manner in which he handles it.—THE ABERDEEN-ANGUS JOURNAL.

---

I consider the International of this year better than ever, in fact, it sets a new mark for excellence over all previous years.—Estes P. Taylor, Editor, AMERICAN FARMING.

---

A Great Live Stock University—In the number and variety of its exhibits, in its scope and appeal to the various branches of the live stock industry, in its true character as an international show, and in the size and cosmopolitan character of its attendance, the International has again demonstrated its right to be known as the premier livestock exhibition of the world. Seriously handicapped for room to accommodate its steady growth from year to year, it staged this year what was generally characterized as the greatest show in its history. The problem of taking care of further expansion is a serious one. Notwithstanding this handicap,

the management succeeded in taking care of exhibitors and visitors in good shape this year, and General Manager B. H. Heide richly merited the many compliments which he received upon the success of this show. The true international character of the show was strongly emphasized this year by larger and better exhibits from the Canadian provinces, by the presence of a group of distinguished diplomats representing the government of Belgium who came to present the silver trophy to the owner of the grand champion Belgian stallion, and by the presence of competing teams of college judges from Canadian institutions.

The Junior department of the International has reached such proportions that it constitutes a great international exposition in itself. . . . As a place of meeting for the men engaged in the various activities connected with the live stock industry, the International has no near competitor. Scores of meetings were held during the week, attended by breeders, stock growers, scientists, Government workers, college men, college students, boys and girls. It was a great one-week university, the educational value of which cannot be over-estimated. What a wonderful book it would be if all the proceedings of all these bodies were collected into one volume! What a chronicle of the progress of the live stock industry of the country! What a pity that the International is so big that it is beyond the capacity of any one person to absorb it all!—THE AMERICAN HEREFORD JOURNAL.

---

The International show, which is held in Chicago the first week in December each year, has developed into an event of world-wide significance. It is an institution which attracts thousands of representative people, including many officials of rank from America and other countries who are interested in agriculture and its development.

Considering the magnitude, variety and quality of exhibits, as well as the attendance and the interest displayed, this exposition is without an equal.

Greater interest in the exhibits and more life in the activities seemed to be evident on this occasion than any other in recent years. Entries in many departments made new marks and set new standards.—THE AMERICAN SWINEHERD.

To those who can see underneath the color and the trappings, this show is perennially new. That's why you'll come next year, too. Here the live stock breeder takes inventory of his work. In this court of last resort he can see where he stands in relation to his industry.

Champion sires and dams are not produced to eat. The utility animal is the steer, the barrow, the wether lamb, the work-horse. The top purebred is produced to improve the common herds, to take the long horns off the Texas steer, but ultimately the judgment of the purebred's value must rest on the kind of steers, barrows, wethers and work-mares its offspring become.

Breeders and feeders of utility animals come to the International to get their types corrected in their minds. Many a man leans over the fence at home and thinks that he has about the finest hogs that slop and corn can make. One trip to the International and he determines to go back and get some real pigs into that pen!

"They builded better than they knew," I read the words of Calvin Coolidge, "those breeders and packers and stock yard men who gathered in the hall of the Live Stock Exchange Building in 1899 and planned this International."—THE NEW BREEDER'S GAZETTE.

Whatever educational value the International Live Stock Exposition just closed in Chicago may have been to the agricultural interests, it succeeded in addition in directing

the attention of the public to meat. Increasing interest in meat quality as obtained by scientific feeding was manifest throughout this, the twenty-eighth annual International week.—BUTCHERS' AND PACKERS' GAZETTE.

The International Live Stock Exposition of Chicago has again passed into history. This is a final meeting place for the meat animals of America, and the place where they pass from the hands of the feeders to those of the packers.

The driving of the six-horse teams is a feature every night at Chicago and is put on with a dash and brilliance that makes it an event.

The show of draft horses and beef breeding cattle at Chicago brings out strong classes, and is not usually excelled anywhere. The fat stock show is par excellence the greatest of its kind. The classes are large and the competition the keenest. In cattle, sheep and hogs there is always a great show of animals ready for the butcher. This year there were possibly fewer tail-enders than ever. Feeders, farmers, and agricultural colleges enter into these competitions with a determination to win, and the contest for the grand champion cattle beast of the show is always fought out keenly and closely.—THE CANADIAN COUNTRYMAN.

### The Great Show at Chicago

The 1927 International was a classic in every division. This show becomes greater each year because of the additional importance it commands among recognized stockmen throughout the world. From our own observation while attending the Exposition this year, it seemed that interested crowds were bigger and the exhibits were better than at any previous show. Exhibits of horses, cattle, sheep and swine were there from ocean to ocean representing many states and provinces of North America. It is the final tri-

**PRINCE DE LIGNE AND SECRETARY JARDINE AT 1927 "INTERNATIONAL"**

Left to right: John Clay, President International Exposition; Prince Albert de Ligne, Belgian Ambassador to United States; B. H. Heide, Manager International Exposition; and W. H. Jardine, Secretary U. S. Department of Agriculture

bunal of good stock and coming as it does each year at the close of the vast show season, it results in a climax for the country's best known exhibitors and critics. The International is a live stock and grain and hay educational institution where finished products of experts may be viewed and studied at the greatest advantage. The alert managements of agricultural schools and colleges throughout the United States begin preparing early in the year to enter first class exhibits in the different classes and they are now numbered among the widely known exhibitors of high prize winners each year. This year was no exception as the college exhibits were far reaching in the champion competition. B. H. Heide, Manager, and his co-workers are to be congratulated on the efficient handling of the enormous proposition of bringing out the very best entries from all sections of America. The many weeks spent by Mr. Heide and his force previous to the show at the several state fairs meeting the exhibitors and acquainting them with the merits of showing at Chicago have their fruitful effects and the strenuous and sacrificing efforts of a man believing earnestly in his work provides this great show with the kind of exhibits that constitute a classic among stock shows of the world.—THE CHESTER WHITE JOURNAL.

#### **Its Influence Lives On**

A great International has been held. The prizes have all been awarded. The fat stock and many fine breeding animals have passed through the auction rings. The last of the visitors are returning to their homes and their work. Yet the International lives on, in its influence on the opinions of men engaged in agricultural work.

The International brings together agricultural leaders from all parts of the country. Every manner of farm problem has been discussed during the week, and settled, insofar as conversation could settle it! In that settling process there has been a helpful interchange of ideas, opinions have been revised in many instances, and perhaps some

new and useful thoughts hatched out. This is one of the fine things about the International. It makes an important contribution to the creation, stabilization and standardization of agricultural opinion.—CHICAGO DAILY DROVERS JOURNAL.

One of the greatest Live Stock Expositions ever held in this country came to a successful close Dec. 3rd, 1927, at Chicago Union Stock Yards. This great annual event brought and always has on previous occasions the leaders of the Live Stock and Agricultural interests together from all parts of the country. One of the leading points and active principles of this great Cattle Sale and Show session is the interchange of ideas on the raising and sale of live stock as well as farm products. The display of fat stock, including the best breeds of cattle at this year's event was of the finest class ever shown, and will find a conspicuous place in the International's record for shows.—THE CINCINNATI LIVE STOCK RECORD.

Long live the International! The final tribunal of each live stock year where "the best" is tagged on the work of the live stock man and the farmer; where thousands come to see the improvement made and learn of the better ways of animal production and increased farm crops and fertility; where the country man rubs elbows with the city dweller and each learns at least a little of the other's viewpoint, and a trifle of each other's difficulties. It is a corner, and a valuable corner of our great melting pot (if pots can be said to have corners). Here the young farmer folks vie with each other in their final match of the year and the winners chosen from representatives from every state in our great Union, and where they are shown the activities of the nation's second city. The value to our people in the maintenance of this institution by the Stock Yards Company and their allies cannot be estimated in dollars and cents.—THE DUROC SENTINEL.

The Northwest is unusually well represented at the Chicago show this year. Special trains from Minnesota, the Dakotas and Montana have deposited between seven and eight hundred Northwestern visitors, to say nothing of large delegations of boys and girls who earned a trip to Chicago as a result of achievement in club work. A Northwesterner can find acquaintances at every turn, but, even at that, it is only the small percentage who enjoy the privilege of International week. The attendance is growing each year, particularly attendance from the Northwest, an evidence of our increasing interest in live stock affairs.—THE FARMER (St. Paul).

Canadian exhibitors did well at the big International Live Stock Exposition held last week in Chicago. It is a mammoth show, and while the immense numbers of entries have been maintained, the competition becomes increasingly gruelling each year. Only the animals that approach perfection have any chance whatever, and many candidates for honors that have secured ribbons in state and provincial shows, but come up to this highest court somewhat jaded and stale, are obliged to fall back into second place, while the topmost honors go to the aristocratic animals that are nursed for the big event and brought into the show ring with all the bloom and sprightliness of a school girl. To be found standing at the end of the line where ribbons are dispensed is a distinct honor—a championship is indeed a triumph.—THE FARMER'S ADVOCATE.

This is not a detailed account of the great International. It requires the work of several hard working, trained observers to compile that, now.

Some notion of the growth of this show is indicated by the fact that in the early days one active live stock reporter "wrote" the whole show for his paper.

For instance—this writer—in 1902—was a member of the University of Wisconsin stock judging team—wrote an

account of all departments of the show for the Wisconsin Agriculturist, and wrote accounts of the various divisions for the Zenner "write-up" contest.

"Those who wondered whether the International would last five years must be amazed to see it now," said A. G. Leonard, as we were waiting at the sheep ring last Friday for the auction of the fat lambs and yearlings to start.

Barney Heide's "bigger and better" promise is fully realized each year.—THE FARM RANCH AND MARKET JOURNAL.

One may always speak in superlative terms of the International Live Stock Exposition. It is a growing institution which is continually broadening in character and usefulness. The brains and resources of the breeding and meat producing industry combine to make it pre-eminently successful. It is a practical institution. It deals with concrete facts, and it is essentially educational because it holds these facts up to view in such a way as to impress them indelibly upon the minds of observers. The International of 1927 realized the expectations of its sponsors in every essential respect. It was a great show of excellently fitted breeding and farm work animals and an unequalled show of fat stock. . . . The show broke all records for attendance. It was indeed a banner year. From noon on, the galleries were filled and the auditorium was packed during the evening.—THE FIELD ILLUSTRATED.

#### Another Great International

Trying to describe the International Live Stock Exposition year by year gradually uses up all the adjectives of the English language. Discussions are even harder on the supply of available superlatives. To the eye that sees this great show year after year and studies its significance, it is in truth "bigger and better" each year than those which have gone before. Under the constructive and farsighted management which this institution long has enjoyed, and

the skillful guiding hand of Manager B. H. Heide, quiet and efficient accomplisher of things-as-they-are-planned-to-be, this show continues to be the greatest directing influence in the great live stock industry.

Its ideals have remade and remodeled animal type and quality and character in unnumbered details, conforming always to the trends of modern demands for the products of the industry. It has been the great moulding and directing force which seeks to translate the needs of the modern market into terms of breeding animals which will furnish the foundation and feeding practices which will build the structure of meat animals which will pay profit to breeders and feeders because the market will buy their meat and pay well for it.

It has been careful to stay on sure ground, for it works with forces which are slow in their evolution, yet it has been alert to the new and to the forward look. Witness the boys' and girls' club congress which it fosters—the greatest educational and inspirational force of the generation among farm children. The International builds for the future as well as the present and perhaps the prizes so keenly sought are the least important of its contribution to public advancement. The roots of its growth go deep in the soil of American farm citizenship. Long may it continue!—THE ILLINOIS FARMER.

The International Live Stock Exposition in Chicago is one cheering ray in the agricultural situation. The American people have not lost interest in things agricultural and all those engaged in it have not failed. In the success of those men and women whose exhibits in this display are evidence of mastery of farming and its allied vocations must be the secret of the solution of this perplexing problem.—THE ILLINOIS STATE JOURNAL, Springfield.

The attendance at the show was very good. The first day there were 30,000 visitors, and all through the week the

amphitheatre was pretty well filled throughout the day. The night programs were so popular that it was difficult to get seats.

There were 1,200 boys and girls from the various 4-H Clubs from a great many states, and they were royally entertained with educational trips, banquets and a barbecue.

In the number of entries, the show this year broke all records, when the final count showed 11,500 animals entered in the many classes. It was another great show.—THE INDIANA FARMER'S GUIDE.

Over 1,200 farm boys and girls who came to the International this year from every state in the union added their usual enthusiasm to the big event. With them in a great many cases came their parents or some other member of their families, and this contingent, perhaps more than any other of the visitors, made the exposition seem doubly valuable. These, the country's best informed youths pertaining to things agricultural, gained a larger point of view of what will be their future business. They not only saw the live stock exhibits in a systematic way, but they were also royally entertained by many of Chicago's big business interests, which did their best not only to show them a good time, but also to give them an idea of how they help serve agriculture.—THE IOWA HOMESTEAD.

The aristocracy of America is pouring through the gates of the 28th International Live Stock Exposition, and the sight is so inspiring as to challenge the most pessimistic. For, in all the history of this classic of the live stock world, there never has been a finer representation of pen and pasture, of farm and farm home. With folks from every section of the country looking on, a great panorama of the best in the live stock world is revealed. Picture, if you can, more than 11,000 animals, groomed to a queen's taste, in form and pedigree fitted to suit the most exacting; add to this picture the master breeders here to show their animals,

and the sight of 1,200 boys and girls from Maine to California and from North Dakota to the Gulf, and you have a faint conception of the International Live Stock Exposition as it is being presented this year.

You cannot analyze the spirit of a live stock show. Word pictures fail to visualize the lights and shadows of a competition where there are assembled the choicest products of the paddock and field. One wanders from one part of the grounds to another, and everywhere the thrill of it all grips in a compelling way.—THE KANSAS CITY DAILY DROVER'S TELEGRAM.

The show we closed last week was a marvelous exposition of live stock. As I look back nearly 50 years—what changes. The big overfed four year old steer is gone. The small package takes his place. Relatively two blades of grass grow instead of one. We have made progress. In 1927 we are ahead of a year ago. Every year brings its surprises.

The cattle, the sheep, the hogs, the horses and the crowd are superlative. The latter improve every year. More, they look happy and the great crowd of young folks are joyous and their parents are more prosperous. As I look at the crowd there does not seem to be much discontent.—JOHN CLAY, LIVE STOCK MARKETS.

"What is your opinion of the International this year?" we asked Prof. Geo. H. Brown, head of the Department of Animal Husbandry at M. S. C.

"Well, the Michigan State College is showing the best animals ever produced at that institution and we are getting lower places than we have any previous year," was his reply, which indicated that he believed it was the best International ever held. And that seemed to be the opinion of most of the folks who have followed the show for many years. . . .

After looking over the live stock, the hay and grain, and the educational exhibits at the International, in Chicago,

this year we were mighty proud of the fact that we were from Michigan. There was not one state that made a better all around showing and took home more prizes on a similar number of exhibits. Our only regret was that we were barred from competition in corn because of the corn borer in our state. Without a doubt we could have made some nice winnings in corn if we had had the opportunity. And, remember, this was the best International ever staged.—THE MICHIGAN BUSINESS FARMER.

The Greater International—The kings and queens of stockdom paraded before thousands of town and country folks from every state and many foreign countries at the great International at Chicago, which finished its twenty-eighth exposition last week. This is the world's greatest show of live stock. This year's exhibits set new records of quality in stock, grain, and home exhibits.

The real purpose of the founders of this outstanding institution was never better exemplified than by this year's exposition. The spirit of the gathering was international in scope. World-wide ideals were further established in the minds of leaders and laymen through the study and approval of the finest products of the pen, the field, and the school.

It is impossible to realize the educational advantages growing out of the fitting, showing and judging of the cream of the flocks and herds from far and near. California Stamp, the grand champion steer, and Ed. Hall's grand champion car lot of Angus, and all the other champions and grand champions have been teaching junior and senior farmers all along the way from the field to the block.

America is immeasurably richer because of this last session of the International live stock show. The management is to be congratulated. But still, we are going to look for greater things than these at future International Expositions.—THE MICHIGAN FARMER.

For the last 25 years a quiet, unassuming man who has his office down in the packing house district of Chicago has set aside a week in which the whole of America is invited to his "open house." His name is Barney Heide, and altho you may never have heard of him, you do know by name the great show of which he is secretary. Folks call it the International Live Stock Exposition. Year by year it has grown, and visitors in 1927 found all that the heart of the farmer and his wife could wish for. No one yet has gone away from this great show of live stock and grain with regrets other than that he or she had not taken the opportunity earlier to visit this remarkable exposition.

Two features of this year's International, which closed December 3, aided in making the exposition perhaps the greatest of its kind ever held. Breeders were unanimous, for one thing, that never has quality in the live stock been so uniformly high; and every visitor sensed the magnitude of the meeting of hundreds of 4-H boys and girls. The show was overrun with young folks. The stalls were crowded with the finest of the live stock world, excepting dairy cattle, while the grain and hay show was up to its usual standard in educational features, and the grain itself was of exceptional quality. At a glance, if you can visualize it, there were more than 11,000 head of live stock entered, and more than 5,000 samples of grain and hay. How's that for a feast upon which to delight your eyes?—THE MISSOURI RURALIST.

Meat on the hook and on the hoof was the theme of the 1927 International Live Stock Exposition.

More than 11,500 breeding and fat cattle, hogs, and sheep were on exhibit. The finest in breeding animals that the beef herds of the country have to offer were there. The bacon and the lard hog and the meat and the wool sheep were also there.

The trend in beef cattle production was evident in the fat cattle classes. Three and four-year-old steers

are practically things of the past. There were a considerable number of two-year-olds but most of the entries averaged between 1,000 and 1,200 lbs.—THE NATIONAL PROVISIONER.

---

The 1927 International Live Stock Exposition was in some respects the best of many of the long list of live stock events that had been staged annually in Chicago since 1900.

Originally established with chief consideration for finished marketing and commercial stock, attention and volume of exhibits have largely been transferred to breeding classes of horses, cattle, sheep and swine and to a very extensive grain and hay show.—THE NATIONAL WOOL GROWER.

---

The 28th International Live Stock Exposition was larger and finer than any thus far held. Entries in all departments were unusually large. The attendance both at the day shows and the night horse exhibitions surpassed all records. The large number of visitors was augmented by a goodly sized group of boys and girls club winners from all over the United States. These youngsters were very much in evidence and seemed to get a world of good out of their experiences both at the stock show and in seeing the sights of Chicago. Strange to say, the weather was splendid throughout most of the week. Many who have attended Chicago shows since their inception thought that it was the warmest week which they had ever experienced at an International. Aside from some rain upon Monday, the week was almost ideal for the purpose.

The week of the International is designated as general agricultural week in Chicago. Associations of all kinds hold their annual sessions.—THE NEBRASKA FARMER.

NIGHT VIEW OF ARENA

A noticeable feeling of confidence was in evidence and a marked note of optimism pervaded the atmosphere at the International Live Stock Exposition in Chicago this year. This was the 28th showing of this greatest live stock pageant of the world and as a true barometer of the conditions prevalent in the live stock industry it has had its share of "up and downs."

So with good cattle selling as high as \$19 on the Chicago market, the highest price since the crest of the war prices, it is only natural to expect the cattle men to have a smile on their faces. . . .

There may still be much cause for discontent among many of our general farmers, but the cattle man is "sitting pretty" these days, and a breeder who has good stuff to sell is getting his reward for the lean years since 1920 and 1921.

Assembled at this greatest of all live stock shows were nearly 2,000 cattle, 1,500 hogs, over 1,200 sheep and half a thousand of the best draft horses of the world, representing approximately 600 breeders from nearly every state in the Union and from several foreign countries. This was in the regular classes alone. In addition there were 112 loads of cattle in the carlot show as well as the carlot shows of swine and sheep. There were also several thousand entries in the great grain and hay show which is an auxiliary to the International Exposition.

The educational exhibits are coming to be a more and more important part of the International each year.—THE OHIO FARMER.

The International is beyond description. It is too big to describe, meritorious animals are too numerous even to mention. This year's show was notable for quality throughout. The winners had a world of company in most cases, and even the champions came up through the hottest kind of competition. This applied to the carlot shows and the classes for individual animals alike.

There were no soft spots for easy-money places. Animals that would have looked good in any other show were given the gate. Those which actually topped the open market were thrown out by the sifting committee. To place at all in such a show is creditable and none but "real ones" could achieve it.—OHIO STOCKMAN AND FARMER.

#### Around the Grounds

If you want to meet folks who are doing things in the live stock world the place is the International. They are here from every part of the U. S. A., men who are nationally known as breeders, colonels who officiate at the leading auction sales, sanitary officials, men who are in charge of the live stock investigations in the United States Department of Agriculture, and men who are heading live stock departments in colleges and universities. All of them came down here for the inspiration and the chance to swap experiences. It's worth while.—OMAHA DAILY JOURNAL-STOCKMAN.

The winning of the grand champion bullock award is easily the stellar event at the International, the greatest fat stock show in the world. Sought almost greedily by individual breeders and feeders, it is also the one honor sought by practically all the Agricultural Colleges in the Union and Canada. In the struggle for supremacy in this class there enters not only all the sportsmanship incident to extraordinary individual showing, but also the institutional feeling back of our land colleges, which takes in about all of us. Anyone who has watched the placing of this ribbon at Chicago has sensed this tenseness of interest and will not only know what it means but will never forget it.—THE PACIFIC RURAL PRESS.

The 1927 International Live Stock Exposition surpassed all previous shows from the standpoint of quality of the live stock on exhibition. Weather conditions were ideal with the result that more country people attended than at

any time in the history of the show. Breeders of beef cattle, sheep and horses reported more actual sales and more inquiries for breeding animals than any time during the past ten years.

The International is becoming a great educational institution because of the scope of the exhibits and the added educational features provided each year. The Exposition not only features the live stock show but much space is devoted to the hay and grain show and the exhibits put on by the United States Department of Agriculture, state colleges and experiment stations, featuring the results of experimental work. The meat exhibit of the National Live Stock and Meat Board is another feature that attracts a great deal of attention. The steer exhibition by the boys and girls in the junior feeding contest has grown from a small beginning a few years ago to a large part of the show and many of the entries excel the individuals exhibited by the adults.—THE PENNSYLVANIA FARMER.

### Our Animal Industry

Those who have doubts about the present or the future of the industry of meat production should attend its annual exposition at Chicago. There they might get a broader vision of the progress of this industry, a better understanding of those engaged in it, a clearer conception of its place in our national agricultural and economic structure. For these things are too little appreciated by the public which depends on that industry for an essential part of its living. As a spectacle the International Live Stock Exposition is marvelous, but its real significance is in its expression of the spirit and the achievement of a great industry. We might present figures to show how big that industry is, but they would fall far short of revealing the whole truth. We might record history or indulge in prophecy, but neither would give the reader even a faint idea of what animal husbandry means to agriculture and to our

country. Let us strive however, to understand its importance, to catch the spirit of progress expressed at Chicago, to apply the means and methods of improvement demonstrated there, and above all to take pride in the occupation which is so essential to every other. Those who really see what has been done and is being done in animal husbandry are amazed. Those who look to the future cannot despair in the presence of the young people who will carry on. The twelve hundred boys and girls who participated in the Exposition were impressive in themselves but more so as the representatives of over 600,000 other young Americans, just coming into activity in this our industry of agriculture. The International is more than a show; it is an expression, and even more than that, an inspiration.—THE PENNSYLVANIA STOCKMAN AND FARMER.

The International is a place for reunion of the live stock men of all classes of stock, as well as old friends.

It is here that you get new ideas of the best there is, in the way of stock, feeds and how they are handled, you get a knowledge of things that are worth something to you if you will absorb it as you should.

It is certainly gratifying to the management that the entries in all classes were the largest of any year previous, but what is more essential, the show is being more and more recognized as the greatest place for our young boys and girls to go and see and to learn.

Every boy and girl on the farm should attend the big show if not one year, then another.

We have been attending the International for years but never before were these things brought so forcibly to our minds as this year.

We stood on the sidewalk and saw the hundreds of boys and girls march by. You could tell that they were enjoying every minute of the time and not only having a wonderful time but were there to be benefited by what they saw and heard.

We are not going to give you any details of the many different shows for you have read all about them and heard about them over the radio, so we close by saying: Go to the International, send your boys and girls there, no matter whether they win the trip or not, they deserve it and should go.

They were there from the Lone Star state with their high hats and full of pep; Georgia sent a delegation and many other states were well represented. Thirteen hundred marched to the Wilson plant where a banquet and an entertainment fit for kings were provided and as the News says: "The future kings and queens of American agriculture partook."

If your boy or girl, or both, are not in the 4-H Club work, why not get them in and send them to the big show next year.—THE POLAND CHINA ADVOCATE.

From the standpoint of all concerned the 1927 International was a great success. It overflowed with quality exhibits in all classes, and the buildings fairly bulged with the crowds of visitors who swarmed the aisles and arenas from early morning to late at night. The prediction by officials that this would be the "Biggest International" was not a hasty guess, but an accurate estimate.

So, in Chicago last week was written another chapter in the agricultural history of the world.—THE PRAIRIE FARMER.

Each year the show of live stock at Chicago seems to do the "impossible." The quality of the exhibits in both the breeding and fat classes seems to get a little better each year. Judge Biggar of Scotland, who has judged the grades and crossbreds at two previous International shows, said: "This is the greatest show of fat steers I have ever seen in any country."

A few years ago the South had a prominent place in the winning of Grand Championships in the breeding

classes but in recent years Southern breeders have not occupied such a prominent place among the winners. But this year the cotton belt comes into its own again.—THE PROGRESSIVE FARMER.

The 28th Annual International Live Stock Exposition and Horse Show was, as usual, a great success, over 300,000 attending during the week.

Because of the huge entry list of over 11,500 entries, and the crowded program, it was necessary to open the exposition a day ahead of the schedule. Horses, cattle, sheep and swine from forty-two States in America and five Provinces in Canada were represented.

Cattle were shown from Scotland and horses from France, Belgium, and Scotland. New South Wales grain growers had samples competing in the hay and grain show where there were more than 5,000 exhibits. Among the foreign visitors on the grounds were men from South America, Belgium and England.—THE RIDER AND DRIVER.

You hear every year that "this is the greatest show." And every year that is true. For every year the show gets better and better. You don't have to be a breeder of fine cattle or a grower of prize grain to see that.

And this is the greatest International. Greatest in many ways. In number of exhibits. In quality of entries. In attendance. And, what is most important of all, in the interest manifested by the visitors who flock to this classic of the feedlot.

Perhaps one of the reasons why this is by far the greatest of Internationals is the fact that cattle are back on their feet. Prices are good. Corn and grain are plentiful in these United States. You don't hear so much about farm relief, for somehow or other the farmer is beginning to find farm relief for himself. Especially the farmer who has come to this International, for it certainly teaches the farm-

er the best way to farm relief, through better farming, more profitable feeding, more sensible planting and growing.

Never, in our memory, has there been such an unanimity of opinion at the International as this year. Everybody says: "It's a great show!" And it is.—**STOCK SHOW NEWS.**

The 1927 International Live Stock Show proved to be a real peppy meeting. The enthusiasm and the wonderful showing of all the different lines of stock and the good fellowship that always prevails at the International filled each visitor with a new enthusiasm to go home with the earnest endeavor to make the best better. It was a wonderful show.—**THE SWINE WORLD.**

The 1927 International was one of thrills from start to finish, and even the hardboiled old-timers who remember 'way back when, admitted it was good. Perhaps it's the addition of the boys and girls who stormed the place, 1,200 strong, and sang as they charged out Monday afternoon in a downpour of rain for town, that pepped up the place.

Anyhow, it was a good show.—**WALLACE'S FARMER.**

While the International Live Stock Exposition is primarily a fat stock show and at first thought would be considered to be of interest only to breeders and producers of live stock, one of the features of the opening night was of inspiring interest to everyone who is concerned with the development and education of the younger generation. Headed by a beautiful six-horse team of Clydesdales, eleven hundred 4-H Club boys and girls from forty-four states paraded the great arena, sang their several state songs, and joined with the audience of nine thousand people in "America." The national winners of the numerous club competitions were presented to the crowd, and some very beautiful trophies were awarded.—**THE WESTERN BREEDERS JOURNAL.**

#### International Sets New Standards

Again the International Live Stock Exposition has come and gone. This 1927 show has, as usual, left a new goal that must be attained by the rank and file of the stockmen

**KANSAS DELEGATION OF STOCKMEN AND FARMERS**

in America. It has set up a new standard of perfection in meat animals and draft horses that is not easily reached. It is the star to which any breeder might well hitch his cart.

To say that this show was better than any that had preceded it sounds like old stuff. It is a fact, however, that the show has grown in quality as rapidly as it has in numbers. Its size is only vaguely visualized even by those who saw it. Over 11,000 head of meat animals and a large number of draft horses cannot well be seen at one glance, especially when they are scattered through yards and buildings that cover more than 20 acres of ground.

The improvement in the quality of the show can be appreciated only by those who have seen it since the gates swung open for the first time. . . . Could this improvement have come about in so short a space of time had it not been for the fact that someone pointed the way? That pointer was the International. It has molded the live stock of this country by demonstrating to the producer, the packer and the consumer what best would suit the needs of each.—THE WISCONSIN AGRICULTURIST.

The International Live Stock Show and Exposition, held in Chicago last week, was considered by those best qualified to judge as the greatest quality show of beef cattle ever seen in this country. Foreign Judge Walter Biggar, of Dalbeattie, Scotland, who judged the fat steer classes, spoke most complementarily of the steer show. He was not only highly pleased with the top four or five individuals in the various classes, but declared them to be "exceedingly good throughout." . . .

The breeding cattle were equally outstanding; in fact, the entire live stock show was the "best ever." . . .

The next thing of importance to a great exposition is attendance, for no matter how excellent the exhibits may be if there are but few people to see them, much of the educational value is lost. Fortunately, the weather was ideal throughout the entire period of the show with the

exception of Monday, when considerable rain fell. This, however, did not interfere with the attendance, which was the largest in recent years. Not only was the attendance large, but the interest manifested in the judging program and in the many educational exhibits was intense from start to finish.—THE WISCONSIN FARMER.

A Chicago institution, the International Live Stock Exposition, throws open its doors today for the twenty-eighth annual showing of the products which are the heart of Chicago and the Chicago territory—the fattest, sleekest, best-blooded animals of the agricultural and industrial world.

Cattle, sheep, hogs, horses—the meat of the world and the animal motive power to raise the foods for the edible animals—are gathered at the exposition from the four corners of the world in competition, according to classes, for the title of champion. . . .

It is an exhibition that is an education in itself. City dwellers, who know too little of the industries which support the city in which they live, should see the show at least once.

School children, with their parents or with their teachers, should be taken to the show for its educational benefits. Chicago business men should attend, to remake contacts of earlier days which may have, in recent years, been allowed to lapse.

Thousands come hundreds of miles to view the wonders of the exposition. Chicago's hundreds of thousands should avail themselves of the opportunity to view those wonders, brought to Chicago's doorstep.—THE CHICAGO EVENING AMERICAN.

The Stock Show opens tomorrow. Its alias is the International Live Stock Exposition, but it has been "the stock show" for years.

It brings farmers to Chicago. But, more important, it brings Chicago to the farmers. It is the show that lets the

rural districts know what the rural districts are doing. Its exhibits answer the famous question, "How you goin' to keep 'em down on the farm?" They answer the question by showing what the farmer can do for himself, and what a great Chicago industry is doing for the farmers.

It is worth thinking over, by all administrations and associations of commerce. But to the average citizen it is more notably worth looking over. Why not go and see it?—CHICAGO HERALD-EXAMINER.

The most important annual exposition in America begins today. The live stock show is peculiarly Chicago's own. It could not be otherwise, for here is the capital of the American interior, the greatest live stock and agricultural area on the globe. But the fame of the annual show is not confined to Chicago, nor to the midwest, nor to America. It is properly named the International Live Stock Exposition. And it is more than a stock show; it comprises all agricultural interests.

Chicago does well to support the exposition liberally and to make it an annual event. This city owes to agriculture more than it ever can pay; it should be at the front of every movement for the improvement of the industry from which it has drawn most of the strength which makes it one of the leading cities of the world.—THE CHICAGO JOURNAL.

There is a note of triumph in this year's International Live Stock Exposition. In recent years the show has been a patient demonstration of faith in a fundamental industry. Now that patience and that faith are justified. . . .

These varied improvements have caused a distinct optimism at the present International Live Stock Exposition, with which is coupled the annual International Hay and Grain Show. The present stock show has a record entry list of more than 11,500 cattle, horses, sheep and swine. Forty-two states and five Canadian provinces are represented.

From all over this country and Canada, and from other countries, too, come farmers and agricultural experts to behold the stock show. During the lifetime of the show, Chicago is the agricultural capital of the United States. It would be well for thoughtful Chicagoans of all occupations to make a visit to this show. Especially would it be well for business men to do so.

A visit to the stock show provides entertainment of a sort that is not to be had anywhere else in Chicago. The horse show alone is worth the time and money. And a visit to the stock show may make city men realize that the "farmer" is not a mere word, representing some vague thing far away, but that he is an actuality, close at hand, whose problems are strongly linked with those of business men.—CHICAGO JOURNAL OF COMMERCE.

### The Live Stock Exposition

Every Chicagoan should appreciate the honor done his city by the presence annually of that greatest of agricultural exhibits, the International Live Stock Show.

It marks Chicago as the world's agricultural capital, a distinction which is far too lightly regarded by the average citizen. A little thought as to the large dependence which this community must place upon the production of the farms in the vast fertile region of which Chicago is the principal market will convince any intelligent person that he ought to keep in reasonably close touch with the activities out of which comes the immense wealth drawn from the soil. And the annual exhibit of scientifically developed live stock, which brings to Chicago near the close of every year many thousands of progressive farmers and stock growers, affords very exceptional opportunities to the city man to get a true picture of the country's agricultural greatness.

With the opening of the live stock show at the stock-yards today the city takes its proper place as the center of interest for the progressive forces of the farms and the

ranges. Chicagoans who attend it will find the exhibits very interesting as well as very instructive. And they ought to take special pains to inform themselves concerning the truly scientific methods employed in producing their indispensable foodstuffs. It would be a grievous thing if the people of this city, which depends on agriculture for its prosperity, should become indifferent to the problems and the triumphs of that industry.

The live stock show should be visited daily and nightly by throngs of interested Chicagoans. There is nothing to compare with it anywhere in the world.—CHICAGO DAILY NEWS.

The International Live Stock Exposition is, of its kind, the "greatest show on earth." It has no rival. This is its twenty-eighth year, and it has grown bigger and better with each recurrence.

There are probably thousands of people in Chicago who have never seen it. To them in particular we address this editorial. They have missed an experience which is much too interesting, much too entertaining and informing to be omitted from one's program.

Agriculture is the basic industry of America, of the world's life. It feeds us and clothes us. There are many industries without which existence might be possible, but let crops fail, let the breeders abandon their labors, and we face starvation. To keep abreast of modern need agriculture has had to maintain a steady improvement in method and product. There exists no greater stimulus to such improvement than that the International affords. It assembles in this favored city the finest specimens of the industry to be found in the world; it brings together the leaders in breeding and crop cultivation from every corner of America; it quickens the spirit of emulation, and spreads the knowledge of achievement.

Each night in the arena of the amphitheater a program is given of extraordinary interest—a program of beauty and

of thrill. Here may be seen the finest horses the country produces, from the little Welsh and Shetland ponies to the splendid Clydesdales and Percherons. Trotters, jumpers, gaited horses and horses in harness, display their points of charm. There are parades of live stock, exhibitions of six-horse teams, polo games and demonstrations of the skill of the shepherd dog in the herding of sheep. This is something better than a circus because with all its entertaining qualities, it has a significance far more important than the stunts under the big top.—THE CHICAGO EVENING POST.

Chicago is fortunate in having the International Live Stock show each year. We can think of no other city which has so vivid a presentation of the chief source of its wealth and greatness. We are at the center of the richest and most productive farm area in the world. Transportation and industry might have made Chicago a large city without the help of agriculture, but it is agriculture which has made Chicago one of the three or four world cities. The world looks to Chicago for bread and meat. The stock show tells why.

Those who have never seen the show may venture to say that it is of no interest to city dwellers. We do not pretend that every apartment renter will find the show fascinating, but we do say that to most men, some women and all normal children it is an unusually vivid experience. The animals on display are as beautiful as any in a sacrificial procession on a Greek frieze. It is well to see them and it is well, also, to see the men who own and care for them, and hear the talk of acres and yields.

At the stockyards this week the roots of our society are on display. Anyone who is indifferent to the roots which nourish him, or ashamed of them, can acquire an education and self-respect by visiting the show. That, we believe, is worth a few hours of anyone's time.—THE CHICAGO TRIBUNE.

## CATTLE DEPARTMENT

Chas. W. Lewis  
Supt.

"Again the International is here and reflects the skill of North American breeders as none other. In most departments the numbers are greater than ever before. The most marked improvement is to be noted in the average quality of the exhibits. The breeding beef cattle classes are all strongly represented. The Shorthorns lead in numbers, and as a whole show a marked improvement over the 1926 show. The aged classes are good and the younger classes are especially strong. Last year the Herefords led

in numbers, but this year they are second. It can be truly said that a higher quality and better balanced show of the whitefaces has never been seen in this or any other land. In no other breed will the competition be keener.

The herds represent the best from all sections of the country. In no other breed will you find a more clearly defined type than in the Herefords. Many highly constructive breeders have almost remade this breed of cattle within the last 30 years. Today they almost represent the acme of perfection in early maturity and general adaptation to feed lot conditions.

The Angus show is of truly international scope, as it includes the best from all parts of this country and Canada. In most respects it is claimed to be about the largest and easily the best quality show the breed has

ever presented."—The Chicago Daily Drovers Journal.

The show of breeding cattle was comparable to that of the fat stock. Classes were large with every important breeding center represented and quality there was in abundance, as befits a show of this calibre, for if the best are not out at Chicago they are not shown anywhere. One cannot do justice to a show of this kind on paper. It must be seen to be appreciated.

Marked uniformity made the Angus exhibit outstanding. Herefords had a large and high class show. Shorthorns had a better show than usual with a real international atmosphere provided by the strong entries that came over from Canada. The Polled Shorthorn breeders made one of the largest shows in the history of the hornless type. Quality, too, there was and the classes made a most favorable impression. The Milking Shorthorn exhibit was a decided improvement over previous shows at Chicago. Arnold Caddy was on from Australia to pass judgment on Red Polls and it would seem that the breeders of this dual purpose breed extended themselves for the occasion, so good was the exhibit.—The Field Illustrated.

Superintendent Lewis stated: "I thought the steer show was much better this year than at former Internationals with fewer tail-enders. The outstanding feature was the wonderful exhibits of our agricultural colleges in the steer classes. Watching Mr. Biggar work on the steers was the very best education that any man could get."

## THE SHORTHORNS

**C. A. Branson**  
Judge

**Harry Hopley**  
Judge

"The International Shorthorn Show this year greatly excelled any other that has been held. There were sufficient numbers to show the tendency of the breed. The cattle came from nearly all sections of the country, showing the widespread influence of Shorthorns. The quality was excellent. The uniformity of type displayed throughout the show indicates understanding and ability upon the part of American and Canadian breeders. At no previous show have we seen as many interested spectators at the ringside.

The two-judge system worked better than usual, because Harry Hopley assumed principal responsibility for the bull classes and C. A. Branson for the female classes. Regarding the groups and championships, equal responsibility was assumed.

In the aged bull class, Thornham Minstrel, a dark red, level, smooth, thick fleshed, deep bodied son of Millhills Comet, exhibited by Duncan Campbell, Moffat, Ontario, took first place. This was his first appearance in a U. S. show,

and he won lots of friends. Will Hartnett, who has led many a winner and several champions through International show rings, was at the halter and brought the bull out in great form. Cloverleaf Farm's Ohio State Fair champion, Cloverleaf Pride 7th, was second. There were just seven shown, but they were good ones.

In the two year old class, there were nine shown. The big level, smooth fleshed Rodney's Diamond took first place, not a popular decision, as he has not the character of some of the other bulls in this class. Collynie King Lancaster, that looked the part of a champion at the recent "Royal" show, was out of form and took second place.

In the senior yearling class, Creekdale Mark, winner of the reserve championship at the Canadian Royal show, shown by F. D. Isler & Sons of Prospect, Ohio, took first place over Maxwalton Referee, the smooth, well balanced bull with which the John R. Thompson herd has won first place at all other shows this year. Creekdale Mark is a bull of considerable scale and bone, is thick and burly and has a head of much strength and masculinity. He wears a rich coat of pleasing roan and his victory calls favorable attention to a firm that is young in the business, but that breeds good cattle.

The junior yearlings were an excellent class, consisting of thirteen very fine specimens. Collynie Field Marshall, by Collynie Clipper Crest, was the winner, and he looked like a winner. It is doubtful if there has been a better son of this great sire. He is wide, deep and thick, has plenty of scale, lots of quality and has as good a head and neck as any bull in America. To top it all off, and give him extra attractiveness, he has a rich, dark roan color that is most pleasing to the eye. In second place was Mathers' grand, young bull, Dreadnaught Salute, that beat the Blackhawk entry at the American Royal under Alfred Ryden's

**LOYAL BROWDALE 1464108**

Grand Champion Shorthorn Bull, 1927. Age, Oct. 7, 1926. Sire,  
Browndale Count 1156438; dam, Augusta Anoka 11th 920705.  
Owned by Edellyn Farms, Wilson, Ill.

judging. These bulls vary a bit in type, but both are splendid specimens. There were thirteen in this strong class.

Edellyn Favorite, big, level and smooth, was placed over the typey good headed, shorter legged Collynie Clipper Seal and was awarded first place in the summer yearling class of eighteen.

Eighteen was also the number of senior calves, and they were lead by the undefeated Loyal Browndale from Edellyn Farms. His type is ideal. He has a strong head and neck, mellow thick flesh, a perfect rump and tail setting, and he has won more honor for his famous sire, Browndale Count, than any other son. Collynie Nonpareil King, by Collynie King Lancaster, in second place, was a worthy runner-up. He is great in type and character, and his rich color lends additional attractiveness.

It was Edellyn Farms day, and when the twenty-two junior calves were sifted, Edellyn Royal Warrant, by Browndale Count, was at the top. A nice roan calf by Dreadnaught Clarion took second for Mathers Brothers.

The senior championship proved easy of attainment for the Duncan Campbell bull, Thornham Minstrel, his true lines, deep body on short legs, his appearance of quality and the style and manner he displayed at the walk giving him immediate preference.

The junior championship was a close contest between the Edellyn entry, Loyal Browndale, and the Blackhawk challenger, Collynie Field Marshall. The ringside opinion was divided. There is a character about the sons of Collynie Clipper Crest that makes them great favorites. This one had thickness and type to spare. The Browndale Count calf came into the ring with the prestige of many victories, and he never looked better than in this show. He was awarded the honor.

In deciding the grand championship, the judges had to decide between a very fine aged bull and an outstanding senior calf. It takes excellence such as rarely occurs for

a calf to win the grand championship in a great show; but such is the heritage of Loyal Browndale. He won the grand championship, and in doing so he established a record that has never been equaled by a calf and, perhaps, not by any bull in American show yard history. He has gone through a long season of shows, meeting the best bulls of the country and of Canada, and he has emerged without defeat. It is a record that doubtless will stand for a long time to come.

The groups of three bulls owned by exhibitor and two bulls, bred and owned by exhibitor, went the same way as far as the three tops were concerned. Edellyn Farms, first; Blackhawk Ranch, second, and Mathers Brothers, third. These farms breed all of their own show cattle and deserve praise for the excellence of their productions.

It was a great bull show, probably the best from the standpoint of uniform high quality of the exhibits that has ever been seen in America. Certainly, there was great merit in the tops and the tail ends of the classes were better than in former years.

The females made a good, strong show, though we are used to good classes of females and hence this department did not show as much improvement over former years as did the bull classes.

Dorothy Anoka again won her class, this being her third International blue ribbon, but she had to bow before the two year old Supreme Rosebud, bred and shown by Frank C. Baker of Missouri, for the championship. Twice Dorothy Anoka had been declared the grand champion of this great Exposition, but the bloom and freshness of the younger animal was the deciding factor between two remarkable females. Mr. Baker had another aspirant for the senior championship in Melbourne Missie 2d, by Ballylin Rodney, winner of the senior yearling class, and Child & Anceny had a great contender in Hercules Lady 2d, a buxom red of good matronly character, that won her class with an

attractive roan calf at foot. Taana Missie in the senior yearling class was a strong second, but the mellowness and smoothness of flesh won the class for Melbourne Missie 2d.

The junior classes of females were strong, and for the most part the tops were cattle that had been shown at the American Royal and were discussed recently in these columns. Degginger won first place in the junior yearling class with Violet Mist 25th, and Sni-A-Bar Farm's white Sni-A-Bar Jealousy was second. Lovely Princess 3d took first place among the summer yearlings. Degginger's Rosewood 10th won the senior calf class, with Baker's Roan Missie 2d second. Winmoor Farms won first in the junior calf class with Winmoor Rosebud 3d, a nice roan by Field Marshall, and Reynolds Wimple's Lady by Scottish Member was second.

The judges considered Lovely Princess 3d and Rosewood 10th for junior championship. The latter is more feminine in character. The former has greater substance and

thicker flesh. To Lovely Princess was awarded the purple. The two year old, Supreme Rosebud, winner of senior championship, was made grand champion.

First place among the graded herds went to Degginger, giving him a clean sweep in this class at all important shows this year. Edellyn Farms took first place in all of the other groups, yearling herd, pair of calves and get of sire. They were also winners of the Duggan trophy for the best pair, male and female, the Casares trophy for the champion bull calf, and the Gold Medal of the Shorthorn Society of Great Britain and Ireland for the best Shorthorn bull.

It might be called an Edellyn International. Never in the history of this show has one herd won such a large percentage of the first and championship prizes and trophies. It was the get of Browndale Count that cleaned the platter. The sales attest the fact that breeders as well as judges appreciate the worth of this blood."—Will Johnson, in the Shorthorn World.

- Won by Edellyn Farms, Wilson, Ill.

**FIRST PRIZE SHORTHORN AGED HERD, 1927**

Owned by J. H. Degginger, Albany, Mo.

## MILKING SHORTHORNS

J. L. Tormey  
Judge

Milking Shorthorns are making great progress at the International and at all other prominent shows. There was at all times during the showing a large attendance of enthusiastic spectators at the side of the arena, where the only real dual purpose cattle were shown and every move of the judge was followed with keen scrutiny. There were no less than seventeen aged cows in the ring and it did not take milking out to make the audience believe that they were milk producers. The big full shapely udders, the feminine character of the cows and the capacity for the propitiable use of feed were proof enough for every cattleman present.

The judging of the cows in milk attracted the most attention. The aged class brought together two cows of exceptional merit in the mind of the judge and in Milking Shorthorn circles—Bonnie Queen of the Hudson & Sons string and Brookside Lettie 3d, one of the best types ever at any show in this country. Bonnie Queen is maternally appearing, has level lines, deep body and a good udder. Brookside Lettie 3d is a cow well known to the judge, and one that has won many grand championships the past few years. She is of somewhat fleshier type, with abundance of "Shorthorn character." The three and four year old class brought out twelve head and a lot of good ones. First and second places in this class went to Hudson & Sons' entries, many of the ringside talent thinking the red and white Lady Bonnie that went to the top of the class entitled to highest honors of the show in the female classes.

Woodward's Bapton May, a beautiful white brimming over with quality and straight in her lines, won her class,

as she has done consistently wherever shown throughout the season. At the Eastern States Exposition she was made grand champion female, her principal contender for this honor there being Brookside Lettie 3d. For senior championship honors a contest developed in the mind of the judge between the cow Bonnie Queen and Woodward's Bapton May, with Lady Bonnie, the leader of the three and four year olds, running strong. In style, quality, trueness of body lines the white heifer showed to best advantage—the cow excelled in depth of body, matronly air of bearing and a larger and better attached udder.

Alasa Musical Cora, a beautiful white heifer straight in her lines and of good quality, was made junior champion.

The bull classes did not equal the standard set by the females, but were headed by good ones. A stronger contest developed for senior championship between the aged bull, Bessboro Musician, and the two year old blue ribbon winner, Bonnie Lad, than in any of the female classes, the purple going, after much deliberation on the judge's part, to the older bull. The younger bull is straighter topped and carries himself well on the walk. He is of a longer type and has an excellent skin. His color is all that could be asked for, and another year of age will improve his depth of body. The older bull has a stronger head and is more massive. His character and masculinity are appealing. He is deeper bodied and looks the part of a real herd header.

Junior champion honors went to Natick Squire, the leader of the yearling class—a bull of much quality and promise, but he was defeated for grand championship by Bessboro Musician.

Group classes brought forth a pleasing array, and as one reporter of the show expressed it: "The value of the group classes in correctly valuing the exhibits in the Milking Shorthorn classes was never more strikingly exhibited than at the 1927 International. Thus at the 1927 Interna-

**BESSBORO MUSICIAN 1277188**

Grand Champion Milking Shorthorn Bull, 1927. Age, May 11, 1923.

Sire, Prince Jeweler 1114098; dam, Musical Orphan 961480.

Owned by Alasa Farms, Inc., Alton, N. Y.

tional the group classes were not merely an opportunity for exhibitors to double their single class winnings, rather they were a rehearing, at which occasional inaccuracies were ironed out."

Hudson & Sons easily captured the blues in the cow groups with their strong show of females. D. Z. Gibson

& Sons of Canada presented a uniformly pleasing group in the aged herd showing and stood at the head with them. Bruington Bros. carried away the blue in the yearling herd class; Webster Knight won first in the pair of calves groups and Alasa Farms were awarded first on their get of sire, the get of the grand champion bull of the show.

- 2nd Bruington Bros., Cameron, Ill.
- 3rd Finlay McMartin & Sons, Claremont, Minn.
- 4th Webster Knight, Providence, R. I.
- 5th R. W. Lamb & Son, Janesville, Wis.

## THE HEREFORDS

**T. G. Paterson**  
Judge

**A. K. Mitchell**  
Judge

The awards were made by T. G. Paterson, Aurora, Ill., and Albert K. Mitchell, Albert, N. M.

When nine herd-headers appeared in the aged bull class, it was early evident that Buck Avalanche, the Saint Amour entry from Pennsylvania, would maintain the same position he held in eight former showings this season. The Saint Amour people are true sportsmen. They fear no foe and evade no issue, always prepared to take the bitter with the sweet and keep coming.

Hillandale's Gambler 8th, purchased at the March Roundup, showing a wonderful improvement since first seen at Aurora in August, is a real quality chap of good Hereford type and smoothly covered that looked well in second place. \* \* \*

The 2 year old bulls had fourteen in line headed by Camden's Belmont Hartland by Hartland Mischief showing at a disadvantage of ten months in age compared with his

strongest competitor here. While not a big one, he is very thick and deep in his best cuts, evenly balanced and looked like a winner. In second place stood Dr. D. D. Van Voorhis' Shady Donald 10th that Donald Van Voorhis has brought on with consummate skill since the opening of the show season, and now swinging his 2,440 pounds with ease. \* \* \*

Lamont's Lomond Lad 119th led a good class of twelve senior yearlings that was more evenly balanced. The winner is in a class by himself as to type, but out for a big bull at maturity. He has scale, quality and abundance of bone, not nearly finished, but fitted and shown to perfection by George Queerie, who knows how. Earlier in the week Murdo Mackenzie gave \$3,000 to own him. If the Royal and International judges need any endorsement on their rating of this bull they have it in this selection made by that master mind who backs his judgment with his money.

For second place, Ken-Caryl's Fowler Domino, with his pleasing countenance and spring of rib, was very fortunate to stand above Hazlett's Hazford Credit by Beauty's Bocaldo that recently was grand champion at Portland. Fowler Domino and Hazford Credit looked like two of a kind from the ringside. With thickness in Hazford Credit's favor the difference in handling qualities may have decided this award, for the hand always reveals much that even an eagle eye cannot discern. \* \* \*

The junior yearling bulls made another evenly-balanced class of 13. Baldwin's Superior 62d by Superior Mischief is a bull of strong character with a strong, level top, good side lines and a good rear end, all carried on ample bone. He was a junior champion at the recent Portland show. Second place was well filled by Marshall's Hartland Mixer that stood first and junior champion at the Royal. He has more quality, is deeper-bodied, and perhaps a trifle thicker,

but there is an openness in his makeup, and he fails to carry the rigid top line of the winner. \* \* \*

Of the thirteen head of summer yearlings shown, Ken-Caryl had first on Paladin Domino, the winner of many junior championships, that came back in great form after his Royal defeat and looked the part he played here. Bright Domino made a close second. He is more rugged in his makeup, with all the Prince Domino characteristics and was the top bull in the Royal sale. He is by old Prince Domino, while Paladin Domino is by Prince Domino 2d. \* \* \*

The senior bull calves were a good lot of thirteen with Ken-Caryl again in the lead with Julian Domino, another son of Prince Domino 2d. This calf has an ideal head, good lines, with quality, substance and bone enough to qualify for a real herd-bull prospect, backed up by the International grand champion cow of 1923 for his dam. For second placee, James Price & Son came in with Bonnie Donald 3d, the Milwaukee junior champion, a sweet, thick-bodied calf that only for a narrowness of head and tailhead might have been first.

The junior bull calves had a great class of twenty-three. With Ken-Caryl's Gleed Domino by Prince Domino 133d in the lead, and Sheridan Domino in third place, there seemed to be no limit to these Prince Dominos, as Gleed Domino represents the third of their great trio of herd sires. Camden's Prince Hartland is well named—a young prince by name and nature that may at any time dethrone the winner here. \* \* \*

Buck Avalanch was an easy winner of the senior championship over Belmont Hartland and Lomond Lad, and walked off with the ninth senior championship as gay and free on his pins as a yearling. The contest for the junior championship was more interesting when Superior 62d, Paladin Domino, Julian Domino and Gleed Domino met,

showing the great strength of the Ken-Caryl exhibit. After due deliberation and close analysis, Baldwin's Superior 62d was declared the superior bull of this ring.

For grand championship, Buck Avalanch and Superior 62d collided, and here the mighty scope of Herefordom was on view when the near Atlantic and Pacific seaboard sent in their champions. However, Buck Avalanch was safe, for silent, patient, efficient Jimmy Watt had wisely husbanded his resources for the final tug of war. Not only did he win that, but also champion Hereford steer, an honor that had never before fallen to any herdsman in the history of the International. The proprietors of the Saint Amour herd, Superintendent Macmillan Hoopes and Manager B. H. Wilson are all to be congratulated on their avalanche of supreme purples on a bull of their own breeding that has been shown for five consecutive seasons. \* \* \*

The class of thirteen aged cows came nearer being a cross-word puzzle to judges and spectators than any class in the show, believing, as I do, that five different judges in five different days in one week might all have placed them differently. Shallenberger's Rowena Repeater, Canary's Miss Repeater and Hazlett's Manoh were all close to 3 years old and no two of them nearly alike; Hillandale's Pansy Incom, just turned 4 years old; and Camden's Lady Woodburn 21st, now turned 6 years old. Lady Woodburn 21st had the distinction of being the oldest Hereford shown. Starting as a senior calf when she stood eighth here at this show, she has been shown every year since, meantime producing three calves, and is still smooth and sweet enough to hold the top. For second, Rowena Repeater was selected. From her hips forward she had the advantage of the ring. While deep in her quarters, there is a visible shortage in length of quarter behind such pleasing spread of rib. \* \* \*

**BUCK AVALANCH 1217449**

Grand Champion Hereford Bull, 1927. Age, Jan. 8, 1923.

Sire, Avalanch 790693; dam, Gaston's Flo 720136.

Owned by The St. Amour Co., Mortonville, Pa.

In the 2 year old class, thirteen again appeared, and the real tussle for supremacy lay between Canary's Belle Dominator that has never missed a blue and annexed several purples this season, and Cook's Zool Panama 14th. The Canary heifer was almost too closely pressed by the Cook heifer that is a trifle smother in places and more feminine and has all the earmarks of coming again. \* \* \*

When on parade, the class of seventeen senior yearling heifers furnished the real thriller of the female exhibit, with at least six real contenders, led off by Ken-Caryl's Sadie Domino that won her way to senior championship at the Royal and looked quite at home here. Lammont's Belle Blanchard and Van Natta-Murdock's well known Becky Avondale, a great pair, tied for second place. Finally the blonde lassie from Colorado found favor with the judges. \* \* \*

The junior yearlings made a fine appearance on the tanbark when twenty-one lined up. The winner here was easily picked in Camden's Laura Hartland that Andy Meikle had fitted to a turn. This smooth, sweet, symmetrical daughter of Hartland Mischief finally found her way to the grand championship honors. Baldwin's Belle Stanway 2d would have made a brilliant leader with Laura absent. \* \* \*

The summer yearling heifers kept up the ruling number of thirteen to a class, and developed another clear leader in Cook's Cuba's Joy 36th. What a joy it would be to own thirty-six just like her! It is doubtful if Mr. Cook has shown a better heifer since the original Joy was grand champion at the Royal in 1913 as a senior calf. Ken-Caryl followed with Eldora Domino. \* \* \*

The senior heifer calves were a strong class of eighteen, Ken-Caryl leading with Cuba Domino that has been a favorite all through and the recipient of several junior championships. Second place was well filled by Marshall's Princess Woodford 16th by Woodford 155th, a real meaty one. \* \* \*

The junior heifer calves, for the sixth and last time, numbered thirteen. Geraldine Domino from Ken-Caryl dominated this ring. Belle Thistleton 2d from Kentucky was sappy enough and sweet enough to hold second place, with Marshall's Lassie Mixer, the Royal winner, in third place in a nice class of future prospects. \* \* \*

For senior champion female, Lady Woodburn 21st, Belle Dominator and Sadie Domino appeared. Lady Woodburn 21st was more in the role of chaperon here than that of a real contender. Sadie Domino was in real bloom, looking fresh and sweet. Belle Dominator had so much thickness, scale and weight for age the judges awarded her the purple, and J. D. Canary was happy. The contest for junior championship brought out an elegant quartet in Laura Hartland, Cuba's Joy 36th, Cuba Domino and Geraldine Domino. However, it was a foregone conclusion that Laura Hartland would win, and she did. For the grand championship she had to defeat Canary's great 2 year old Belle Dominator. Bill Kerr was confident till the judges pointed to Laura Hartland, one of the best yearlings seen in years, and Superintendent J. C. Kinzer was handed the supreme purple for Hartland Farms, owned and operated by Senator J. N. Camden, where Laura Hartland was bred and fed.—John Letham in The American Hereford Journal.

- 5th Ken-Caryl Ranch Co., Littleton, Colo.
- 6th Robt. H. Hazlett, Eldorado, Kan.
- 7th Henry W. Marshall, Lafayette, Ind.
- 8th Thistleton Farms, Frankfort, Ky.
- 9th J. D. Canary, Littleton, Colo.
- 10th Van Natta-Murdock Co., Lafayette, Ind.

## THE ABERDEEN-ANGUS

H. H. Kildee  
Judge

Those who witnessed the 1927 show will agree that it was by far the greatest show of Doddies ever assembled in the International arena, at least in many respects this is true. The numbers may not have been so great as in other years but the general quality more than made up the deficiency. I don't know that there were as many outstanding tops as perhaps other years have developed. One thing sure, however, is the fact that there were no tail enders. The lines were exceptionally uniform from top to bottom. Fewer animals of inferior quality passed in review than at any show during our experience at this ringside. . . . It

has been generally conceded throughout the year that the aged bull class would bring forward the grand champion candidate for there were several bulls out during the season, any one of which would make a creditable champion. For the most part they kept rather to themselves during the show season, preferring as it seemed not to get a rating until in the finals at Chicago. . . . When the ten aged bulls greeted Judge H. H. Kildee of Ames, Iowa, in the ring everyone present came to the realization that we were to enjoy a real cattle show for there was an abundance of quality the length of the line. Judge Kildee was very deliberate and painstaking in his work and yet he worked plenty fast to make the show decidedly interesting and snappy. He walked the cattle freely and handled them carefully, pulled them out in pairs for comparison on many an occasion and used every care not to embarrass the leaders by shifting the cattle around much. He used the walk system to find his tops and seldom did an animal lead up to

have his position changed later. The bulls pulled up to the rail and the judge immediately set to his task in a businesslike manner. He went over them pretty thoroughly where they stood, then ordered a parade. The first to fall out of line was Revolution 7th, round and smooth as an egg, not so deep as Blackcap Bandolier 2d who stood next and who is beginning to show the results of a long hard season of show campaigning. . . . The audience was treated to a grand spectacle in this array of mature herd sires.

The remaining two senior bull classes were filled with bulls far above the average showed at Chicago in their respective classes; within their ranks were a number that will prove formidable candidates for top honors in future Chicago shows. This does not apply to one or two but rather to many in each class.

The four junior bull classes were filled to the brim with good ones. The 1926 summer class was headed by an outstanding youngster that looks dangerous to those who may be seeking the purple during the next few years. If he does not find his way to the top it will be because something out of the ordinary happens. These classes contained bulls that have won highest honors in state and national exhibitions and yet there was an insufficient number of blue ribbons to reach but one in each division. When the individual bull shows had finished the blue ribbons had been pretty well divided. Harrison & Ryan headed the list with two, and Tolan, Woodcote, Ames Plantation and Congdon & Battles each had gained one. Ames Plantation Pal was made junior champion and he also had the honor of contending for the grand championship. In the latter battle he was given the reserve position.

The bull groups were the best that had been seen out this year and they made a black spot in the big arena that attracted widespread attention. . . .

The female show impressed me as being even of better quality than that of the bulls. They carried a better bunch of heads and were, it seems, sweeter fronted. The class as a whole was nicely balanced, too, and the evenness in quality and type caused much favorable comment at the ringside. The classes were well filled and in the lines were a number of outstanding specimens.

It would have done any breeder or prospective breeder worlds of good to sit and watch the fine string of eleven mature cows as they came across the arena to their corner and lined up against the rail for inspection by Judge Kildee. The judge seemed delighted with the excellence displayed and as he went over them carefully where they stood one could see that he was highly pleased with the material the showmen had brought for his inspection. But for the scale there was little difference between the head and the foot of this line. These cows were clean cut individuals with scarcely any faults. They each were graceful in carriage, and each head was a good one. The fronts were beautiful to look at. The shoulders were smooth and well covered, they were good at the heart, straight in top line and every one of them carried the top line almost perfectly as to width. There were no hooks in sight and the rumps were straight and level each with a splendid tail setting, not a single one was rough at the tail, they were deep of body and every one filled down well in the quarters; the bottom lines, too, were straight and even. Had it not been for the style of Black Lass Glencarnock 6th it is just hard to tell which cow would have stood at the head of the list and from the seats it made but little difference to the audience which one of several might win the blue. After going over them carefully and putting them on parade Judge Kildee several times stopped the procession to compare one with the other as they stood. Finally he ordered Black Lass Glencarnock to fall out and serve as a head for the class. It was a bitter scrap between each succeeding pair as to

which was the better and which should fall in line next. When the breeders bring in from far and near eleven head of mature cows of this quality and such approved type we may rest assured that progress is being made in the betterment of the breed in this country. What has been said of this class as to quality and type might well be said of the entire showing and each class separately and without fear of criticism on the part of those who witnessed the show. This aged cow was made senior champion and later reserve grand champion of the show.

As in the summer classes for bulls it fell to the lot of the summer, 1926, junior class to supply the junior champion female. She was found quickly for like in the bull class she was really very outstanding. Glencarnock Jessie 9th, showed by Briarcliff Farms, made a lovely grand champion, too. She is sweet as they make them. All through the classes of bulls and females it was indeed gratifying to observe so many new names appearing among the exhibitors and to know that so many new names were appearing at the top or near the top in most of the classes. This, it seems, indicates a most healthy condition of breeding affairs when the new man and the smaller breeder has within his herd cattle that are able to successfully cope with major establishments. . . .

It is impossible to close without passing some comment on the group display made in the finishing hours of the show. Magnificent, in fact adjectives fail in numbers and expression, to define the beautiful groups as presented by the nation's best breeders and fitters as every man who appears here must be. The aged herds were wonderful to look at. The Get-of-Sire groups have been unexcelled heretofore. In this last class Earl Marshall and Prizemere blood lines held seven out of eight positions. Undoubtedly the general turning to the bull influence in breeding accounts in a marked degree for the uniform excellence displayed in this show. . . .—Aberdeen-Angus Journal.

**REVOLUTION 7th 387969**

Grand Champion Aberdeen-Angus Bull, 1927. Age, May 5, 1924. Sire,  
Blackcap Revolution 287269; dam, Eva of Glencarnock 8th, 379794.  
Owned by Harrison & Ryan, Inc., Harlan, Ia.

- 6th W. E. Scripps, Orion, Mich.
- 7th Woodcote Stock Farm, Ionia, Mich.
- 8th Henry Schmuecker & Sons, Blairstown, Ia.

## THE RED POLLS

**Arnold Caddy  
Judge**

Unusual interest centered on the Red Polled breeding classes due to the fact that Lieutenant Arnold Caddy of Chandpara, Tylden, Victoria, president of the Australian Red Polled Breeders' Association, was present to make the awards. He served as judge at one of the foremost stock shows of New Zealand early in the spring and journeyed to England to attend the Royal and other shows, coming to the United States directly from the British Isles. Thus he brought together at the International the latest live stock information from three widely separated parts of the globe.

The Chicago Daily Drovers Journal carried the following interview with this distinguished breeder: "He could not say too much in praise of the exhibit of Polls, and other breeds also, and voiced generous admiration of the breeders he met while on duty at the exposition. At the same time he dropped some words out of his large experience which he said he hoped would be regarded.

"The quality of the Red Polled show was uncommonly good.' Those were his first and exact words. 'It is up to the best scene at the English Royal. The two-year-old bulls and females were fine indeed. The champion bull—Arp's Leona's True Lad—was almost faultless.'

"The distinguished breeder and critic mentioned the clipped heads. It was new to him. He was told it gave the heads a finish.

"We don't do it,' he said. 'We like the bulls to have good, burly masculine heads, and we like the females with their natural hair.'

"The baby beef steers were a picture, he said. The udder of the senior champion cow—Schickedanz's Vera Charmer—was fine too. Only a few cows were at fault in this part. The heifers gave great promise, he thought.

"I want to warn your breeders, especially the young ones, against appearances of white hairs. They will crop out. I noticed a bull in England which had a tuft of white on his sheath. His calves had spots also, one has a little patch on the forehead. First thing you know if you get any concentration along that line you have a blaze, a white chin or white sox.'

"Color was a topic. He doesn't like the liver red, nor too light. The latter bleaches out in warm, hot climates. He likes a good blood red.

"The get of sire groups impressed him. They gave him a hard job, he said, but were very, very interesting.

"'Breed for milk,' was an injunction. 'Get your milk, get performance, and then you can fix your form as near as it can be done. We must keep up the milk yield if we are to keep the breed in the front.'

"Another suggestion was to use prefixes. He thought it a pity that men did not do it and thus make their stock more generally appreciated and more readily identified."

Six aged bulls answered the call and a leader was found in Teddy's Boy which won the grand championship for Schickedanz at the 1926 International. A ring of three two-year-old bulls proved to contain the senior and grand champion bull of the show in Arp's Leona's True Lad. Six senior yearlings were headed by the Graff Bros. entry Vro, which later was awarded the junior championship. The junior yearling class brought out eight contenders and the blue ribbon was awarded to Milbourne Advancer from the Tracy & Warye herd of Iowa. Ten senior bull calves and five junior bull calves gave Olson

## INTERNATIONAL LIVE STOCK EXPOSITION

of Illinois the chance to win top honors on two sons of Teddy's Lad—National Lad and Sporty Lad.

Six pairs of cows shown in milk, owned by exhibitor, were led by Popular Rebuna and O. K. Rebuna from the Arp herd. The aged cows, numbering fourteen, found a victor in Schickedanz's Vera Charmer. Nine two-year-old heifers brought a new exhibitor into the blue ribbon class when Young of Ohio was given the first berth with Alice. A group of nine senior yearlings developed the junior and grand champion female of the show in Graff Bros.' Venetta. Ten junior yearling heifers and fifteen senior heifer calves were also both headed by entries from the Graff Bros.' herd—Famy and Viola.

Arp captured the blue ribbon for aged herds in a field of seven groups while Graff Bros. took similar honors

among the same number of yearling herds. Eight pairs of calves were finally arranged with Olson's entry at the top. Olson again scored in the ring of fourteen produce of cow entries on the produce of Rural Lady. True Rebuna from the Arp herd had the honor of producing the winning group in get-of-sire contest in a field of eight contestants.

## EXHIBITORS

Adams, Arshall, Clifton, Ill.  
Arp, Adolph P., Eldridge, Ia.  
Graff Bros., Bancroft, Neb.  
Hertz Bros., Convooy, Ohio.  
Haussler, George & Sons, Holbrook, Neb.  
Olson, H. P., Altona, Ill.  
Oklahoma A. & M. College, Stillwater, Okla.  
Schickedanz, Alva T., Chenoa, Ill.  
Stump & Etlzer, Convooy, Ohio.  
Tracy & Warye, Nashua, Iowa.  
Young, Albert D., New Carlisle, Ohio.

- 5th Graff Brothers, Bancroft, Neb.
- 6th Geo. Haussler & Sons, Holbrook, Neb.

## THE GALLOWAYS

Additional prominence was given to the breeding Galloway classes this year because of the fact that Walter Biggar of Scotland, who made the awards in all of the steer classes of the show, also served as judge of the breeding Galloway contests. He has devoted many years to building up one of the best known Galloway herds in Scotland and his seasoned experience with that breed was made available to its supporters in this country through the type of animals he selected for the highest honors.

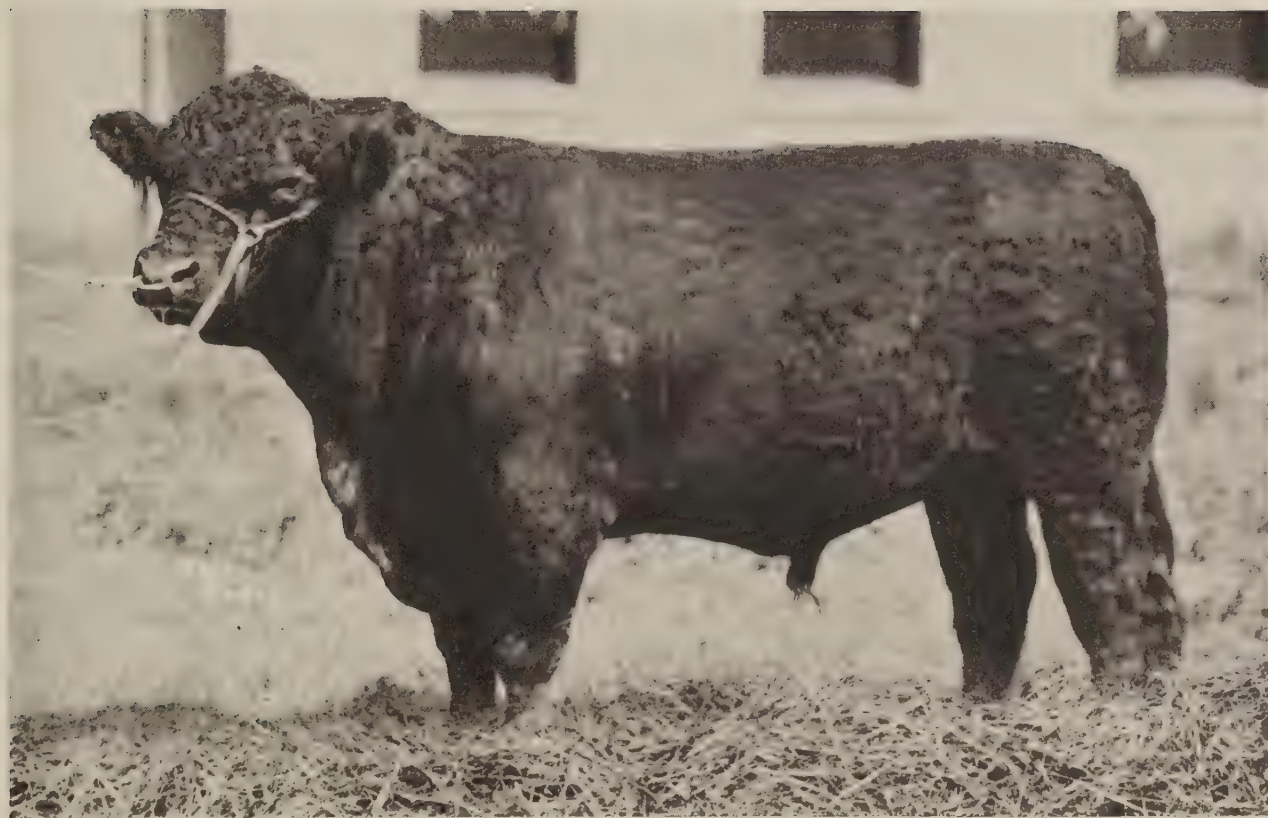

The herds of Mrs. Jas. Frantz & Sons and Frantz Brothers of Mt. Cory, Ohio, made up the show. The latter were awarded the bull grand championship on Plato

L. and the junior bull championship on Standpatter F., while the two herds divided honors in the bull groups.

In the female classes the senior and grand championship went to Frantz Brothers on Marjie and the junior championship to Mrs. Jas. Frantz & Sons on Dainty F. The former captured the aged and yearling herd contests while the latter were awarded the blue ribbon in the pair of calves and get-of-sire classes.

- 1st Mrs. Jas. Frantz & Sons, Mt. Cory, Ohio.  
 2nd Frantz Brothers, Mt. Cory, Ohio.

## THE POLLED SHORTHORNS

F. A. Murray  
Judge

"The 1927 International Polled Shorthorn show passes into history as one of the most successful events ever held in the interests of the hornless type of Shorthorns. The show eclipsed other Internationals in recent years not only in the number of head entered, but in the general quality of exhibits. . . .

That this show marks a step forward in the broadening of the Polled Shorthorn field was quite evident. During the entire week the barns containing these exhibits were well filled with visitors who showed a real interest in the breed, and the writer recalls no show in the past five years

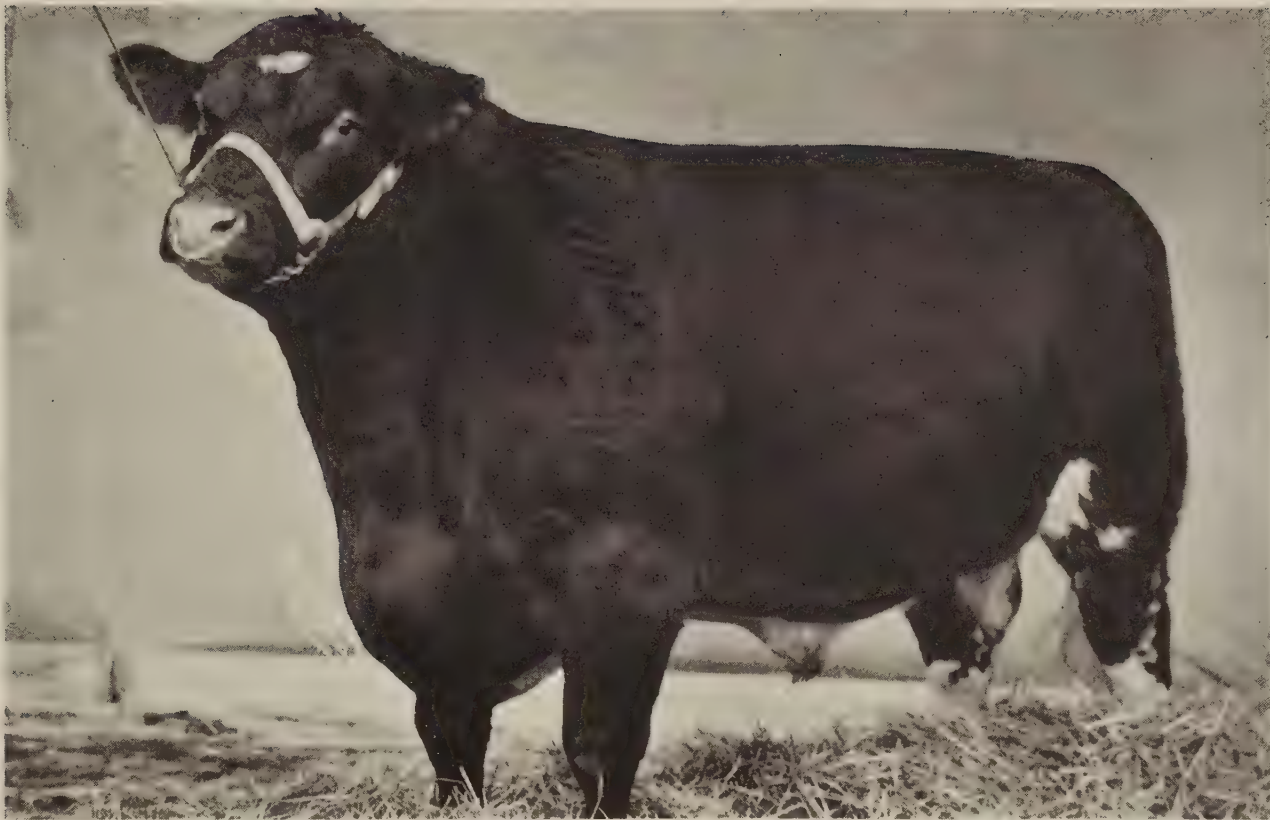

where more sales were made at private treaty. Perhaps the fact that no public auction of Polled Shorthorns was scheduled caused a larger number of private sales, but whatever the cause, the sales were made and the exhibitors were in accord that International week was a profitable week for "The Ultimate Type." Two sales that came to the attention of the writer were of bulls that go to head herds of the horned Shorthorn.

F. A. Murray, Mazon, Illinois, tied the ribbons. There were some sideline critics who did not agree with all of his placings, but was there ever a show where such a situation did not exist? In the two year old bull class, a decision had to be made between two great bulls, the outcome of which could not help but result in this show in a grand championship for the one that conquered. Oakwood Baron, the Teegardin & Sons entry, fresh from grand championship victories at all Eastern Polled Shorthorn shows, as well as the 1927 American Royal, was

pitted against Lord Collynie, Bert Hanson's 1926 International Grand Champion and winner of grand championships at all Northwestern fairs this year. Naturally, there was plenty of sentiment for each bull, but Judge Murray finally pinned the blue ribbon on the red Oakwood Baron, a bull of great depth of body and splendid balance, that later moved on up to the senior and grand championship. It may be said of Lord Collynie that he is one of the greatest bulls the breed has known, few ever equalling him in quality and smoothness of flesh, shortness of leg and character as displayed by a great polled head. He is most certainly a type to be admired. The aged bull class resulted in a victory for Hanson's Royal Marshall, a worthy show bull, whose ability as a sire is plainly evident by a review of the show rings of the past two years, his getting winning first in the get-of-sire class at this great International show. Elm Grove Farm won firsts in the senior yearling and junior yearling bull classes.

The judge found his junior champion in the summer yearling bull class. Rosewood Renown, a dark roan, thick, compact son of Rosewood Masterpiece, shown by John Clamme, won this high honor. In class, he had a strong contender in Glenwood Improver, a red son of the same sire, whose deep, level body and splendid polled head made him very attractive. The junior champion is Mr. Clamme's newly acquired junior herd bull and much may be expected of him. Mardale 4th, the low set flashy roan son of the International Grand Champion Mardale, was the first prize winner in a strong senior calf class. That he has great merit is indicated by his recent winning of junior championship at the American Royal.

A similar battle to that which occurred when the champion bull was selected, took place in the contest for champion female. Teegardin's splendid white Oakwood Welcome, grand champion at the recent American Royal

**OAKWOOD BARON 1340365**

Grand Champion Polled Shorthorn Bull, 1927. Age, Oct. 9, 1924. Sire,  
Royal Count Jr. 1053938; dam, Imperial Butterfly 1048152.  
Owned by C. B. Teegardin & Sons, Duvall, Ohio.

and at all Eastern fairs this year, won the aged cow class quite easily. Hanson's Royal Jennie, last year's International grand champion, was an outstanding winner in the two year old heifer class. Two females of better type or greater quality have not been seen in Polled Shorthorn show rings in many years. Either would make a splendid champion, but the great Royal Jennie, a daughter of Royal Marshall, the first prize aged bull in this same show, won the coveted purple ribbon. Another daughter of Royal Marshall, the dark roan Shadybrook Lady, from the Hanson herd, won the junior championship.

From a study of the exhibits at this show, one cannot help but conclude that there are a great lot of Polled Shorthorn sires doing service in the different herds at this time. Teegardin's show herd of twelve head included eight head sired by Royal Count Jr., and two sired by his International Grand Champion, son of Oakwood Baron.

The Elm Grove show herd was almost entirely made up of sons and daughters of Matchless Stamp and the W. W. Rose & Sons' entries, all bred by themselves, were nearly all by Matchless Marshall. The Hanson herd, mostly by Royal Marshall, distinguished itself by winning first prize in the get-of-sire class. Glenwood Aristocrat sired the long end of the Marvin Ranck & Sons' show herd; nearly all of the McLaughlin cattle were by Royal Choice Sultan, a former International Grand Champion; John Clamme showed a splendid lot of the sons and daughters of Leader's Wanderer and the Dunham show group were nearly all by Orange. Though the great Mardale has passed on, the influence he had in the Hultine herd is demonstrated by the many choice ones in this year's show herd. Polled Shorthorn breeders are showing cattle bred, fed and developed in the herds from which they are exhibited."—Hal Longley in the Shorthorn World.

**CLASS 180****Get of Sire—Four Animals, any age (Both Sexes to be Represented) Owned by Exhibitor**

- 1st Bert Hanson, Mankato, Minn.
- 2nd C. B. Teegardin & Sons, Duvall, Ohio.
- 3rd Elm Grove Farm, Belvidere, Tenn.
- 4th M. J. Ranck & Sons, Roann, Ind.
- 5th J. H. Clamme, Upland, Ind.
- 6th Albert Hultine & Sons, Saronville, Neb.

## FAT CATTLE DEPARTMENT

Walter Biggar  
Judge

From feeder calves and steers to prime rib of beef and sirloin steaks was the story of the beef cattle industry as told by the exhibits at the 1927 International Live Stock Show, held last week. From car lot feeder cattle, through all of the breeding classes and the fat classes to the carcass classes, with the winning carcasses hung in the cooler of the "Meat Shoppe," the exhibit graphically displayed the true place of the live stock industry in twentieth century American agriculture.

According to precedent, the show opened with the steer classes, in which the entries were more numerous than at any time in recent years. The competition was perhaps the strongest that International steer exhibitors, regardless of their breed, have ever had to face. At no time was the class leader immediately apparent after the class had been led out and many a "near champion" was forced to take a red or white ribbon and to go back to the barns without a chance to compete with the blue ribbon winners of other classes for breed, by age, and grand championships.

The steer show was judged by Walter Biggar, Dalbeattie, Scotland. Mr. Biggar has been under fire in the

International fat show ring before, and, as usual, placed them in a manner that was very satisfactory to both winners and losers. A trip through the barns after the steer classes had been placed showed an almost unanimous feeling that Mr. Biggar should be asked to place the steers at the International another year.

His method of passing on the classes inspired confidence in his ability on the part of the exhibitors. No steer went into the ribbon winning group without being thoroughly examined both by eye and by touch. A good supply of mellow, smooth covering was necessary if a steer was to become a winner, and many good type steers failed to get into the winners' row because of a lack of finish. Without neglecting to consider, with due emphasis, the covering over the back and loins, Mr. Biggar also laid a great deal of stress on the amount and quality of covering over the ribs. Packers are finding it almost impossible to supply the demand for prime rib cuts, and perhaps the extreme care that he took in selecting animals well covered over the ribs was merely a reflection of this shortage. \* \* \*

The steer show, exclusive of car lots, consisted of 726 entries in all of the breed and grade and crossbred classes. The grade show consisted of 180 head, Angus 168, Hereford 140, Shorthorn 96, Red Poll 22, Polled Shorthorn 13, and Galloway 10.—The Iowa Homestead.

## THE SHORTHORN STEERS

Shorthorn steers were more numerous than at any previous International and average quality better.

The champion, Choice U. A., headed the junior yearling class in which 21 were shown. He was a superb specimen shown by the University of Alberta and came to Chicago fresh from winning grand championship honors at the Royal Winter Fair at Toronto; and he was a strong contender for similar honors at this show. His dam is a Shorthorn of dual qualities, and produced 10,660 pounds of milk in her first eight months of hard milking.

Summer yearlings, 15 in number, were headed by Challenger's Dale from the University of Nebraska herd, The University of Illinois won the blue in the senior calf class, where 16 were shown, on College Lad, later made reserve champion of the breed.

The University of Alberta rang the bell again in the junior calf class of eight with Prince Clive. In group Iowa State College had the best balanced lot in a field of eight entries and were given the blue over the University of Alberta.

### THE SHORTHORN STEERS

#### CLASS 181

##### Steer, Spayed or Martin Heifer Calved Between Jan. 1, and May 31, 1926

###### Awards

- 1st Choice U. A. =179973= —Age, March 23, 1926; sire, Dale Cornerstone =167669=; dam, U. A. Roan Lady 10th =168574= —University of Alberta, Edmonton, Alberta, Can.
- 2nd New Year's Gift 1477715—Age, Jan. 17, 1926; sire, Bapton Goods 1094978; dam, Village Missie 6th 713701—University of Wisconsin, Madison, Wis.
- 3rd Charlie 1473171—Age, May 7, 1926; sire, Dreadnaught Beau 1093592; dam, Secret Tulip 8th 1332703—F. Rothlisberger & Son, Elgin, Iowa.
- 4th Chief Emblem 1473641—Age, March 2, 1926; sire, Uppermill Emblem 1234611; dam, Red Lady 1142021—Iowa State College, Ames, Iowa.
- 5th Scona Lord =179972= —Age, March 3, 1926; sire, Dale Cornerstone =167669=; dam, U. A. Emma 61st =180572= —University of Alberta, Edmonton, Alberta, Can.
- 6th Fair Crown 1478337—Age, March 8, 1926; sire, Autumn Crown 1276726; dam, Fair Belle 1061379—Iowa State College, Ames, Iowa.
- 7th Lancaster Fortis =182288= —Age, April 18, 1926; sire, Lancaster Pride =115260=; dam, Nightingale =164147= —University of Alberta, Edmonton, Alberta, Can.
- 8th Snow King 1481566—Age, April 4, 1926; sire, Royal Commander 1289999; dam, Roan Lady 1290003—Richard McIntyre, Charleston, Ill.

###### Awards

- 9th Crown's Villager 1408965—Age, Feb. 15, 1926; sire, Royal Crown 1096535; dam, Village Emily 489203—Kansas State Agricultural College, Manhattan, Kan.
- 10th Superb Heather 1421006—Age, Jan. 7, 1926; sire, Divide Superb 1123450; dam, Lady Mina 2d 1124205—Purdue University, West Lafayette, Ind.
- 11th Shorty 1474081—Age, May 25, 1926; sire, Lavender Choice 1366023; dam, Miss McCarthy 4th 1198350—University of Nebraska, Lincoln, Nebr.

#### CLASS 182

##### Steer, Spayed or Martin Heifer, Calved Between June 1, and Sept. 30, 1926

- 1st Challenger's Dale 1426570—Age, Aug. 28, 1926; sire, Royal Dale 793983; dam, Challenger's Queen 837472—University of Nebraska, Lincoln, Nebr.
- 2nd Sni-A-Bar Type 1450894—Age, July 25, 1926; sire, Cumberland Sultan 1049622; dam, Sni-A-Bar Crocus 1178751—Sni-A-Bar Farms, Grain Valley, Mo.
- 3rd Lable Protector—Age, June 7, 1926; sire, Browndale Count 1156438; dam, Roan Lady Anoka 1106602—Edellyn Farms, Wilson, Ill.
- 4th Rosewood Perfection 1469919—Age, Aug. 4, 1926; sire, Roan Argonaut 1219808; dam, Rosewood's Star 1209278—C. H. Prescott & Sons, Tawas City, Mich.
- 5th Crown Heir 6th 1470854—Age, Aug. 23, 1926; sire, Royal Crown 1096535; dam, Lady Mina 1211853—Kansas State Agr. College, Manhattan, Kan.

**CHOICE U. A. =179973=**

Champion Shorthorn Steer, 1927. Age, March 23, 1926.  
Sire, Dale Cornerstone =167669=; dam, U. A. Roan Lady 10th =168574=  
Owned by University of Alberta, Edmonton, Alberta, Can.

**Awards**

- 6th Gainford Mac 1437788—Age, June 4, 1926; sire, Gainford Again 1130580; dam, Roan Gwynne 710746—John K. Morris, Lanark, Ill.
- 7th Keystone—Age, July, 1926; sire, Dale Cornerstone =167669=; dam, Golden Drop 23d =120857= —University of Alberta, Edmonton, Alberta, Can.
- 8th Emblem 1467194—Age, Aug. 20, 1926; sire, Edellyn Count 1203755; dam, Beautility Shalott 1110114—Oklahoma A. & M. College, Stillwater, Okla.
- 9th Pride of Hickman 1474080—Age, July 8, 1926; sire, Anoka Gondolier 1270001; dam, Isabella 677526—University of Nebraska, Lincoln, Nebr.

**CLASS 183****Steer, Spayed or Martin Heifer, Calved Between Oct. 1, and Dec. 31, 1926**

- 1st College Lad 1475018—Age, Nov. 11, 1926; sire, Key Dreadnaught 2d 1093596; dam, Hillcrest Beatrice 2d 990903—University of Illinois, Urbana, Ill.
- 2nd College Daybreak 1473642—Age, Nov. 9, 1926; sire, Daybreak 1311227; dam, Sarcasm 5th 1266849—Iowa State College, Ames, Iowa.
- 3rd Sultan's King 1474607—Age, Oct. 7, 1926; sire, College Sultan 1256092; dam, College Duchess A. 6th 1107845—Michigan State College, East Lansing, Mich.
- 4th College Gauntlet 1473644—Age, Oct. 1, 1926; sire, Daybreak 1311227; dam, Sanquhar Marigold 20th 1241688—Iowa State College, Ames, Iowa.
- 5th California Meteor 2d 1437546—Age, Oct. 19, 1926; sire, Caledonia Omega 1123010; dam, Mayflower Maid 1079979—University of California, Davis, Calif.
- 6th Superb Sandy 1477410—Age, Oct. 8, 1926; sire, Divide Superb 1123450; dam, Lavender's Sempstress 704347—Purdue University, W. Lafayette, Ind.
- 7th Richland Arrow 1469918—Age, Nov. 5, 1926; sire, Golden Arrow 1276349; dam, Richland Kate 3d 1079161—C. H. Prescott & Sons, Tawas City, Mich.
- 8th Jerry 1474172—Age, Oct. 14, 1926; sire, Lavender Beau 1340798; dam, Village Pride 1149230—K. J. Edwards, Franksville, Wis.
- 9th Crown's Heir 7th 1470855—Age, Nov. 24, 1926; sire, Royal Crown 1096535; dam, Augusta 121st 1261544—Kansas State Agr. College, Manhattan, Kansas.
- 10th Michigan's Commander 1474606—Age, Oct. 4, 1926; sire, Perfection Supreme 2d 1242006; dam, Princess Richland 3d 1290209—Michigan State College, East Lansing, Mich.

**CLASS 184****Steer, Spayed or Martin Heifer, Calved Since Jan. 1, 1927****Awards**

- 1st Prince Clive—Age, Jan. 4, 1927; sire, Bridgebank Comrade =171636=; dam, Daisy Prince =181835= —University of Alberta, Edmonton, Alberta, Can.
- 2nd Rosedale Tubby 1483642—Age, Jan. 15, 1927; sire, Dreadnaught Bruce 1274985; dam, Rosedale Marigold 4th 1312353—H. B. Schwaderer, Agosta, O.
- 3rd Cedarwood Art 1473168—Age, Jan. 20, 1927; sire, Village Javelin 3d 1111790; dam, Cedarwood Mabel 1358093—F. Rothlisberger & Son, Elgin, Iowa.
- 4th Winmoor Bobbie 1480180—Age, Jan. 15, 1927; sire, Maxwalton Mikado 1117187; dam, Haylands Bonnie B 3d 1122056—Winmoor Farm, Dundee, Ill.
- 5th Royal Marshall 1473645—Age, Feb. 21, 1927; sire, Marshall Rosewood 1300314; dam, Royal Blossom 497775—Iowa State College, Ames, Iowa.
- 6th Leader's Supreme C 1478674—Age, Jan. 14, 1927; sire, Leader's Wanderer 1193393; dam, Oxford Beauty 2d 652065—Rowland H. Clamme, Upland, Ind.
- 7th Crown Heir 8th 1470856—Age, Feb. 25, 1927; sire, Royal Crown 1096535; dam, Lady Aphrodite 1199458—Kansas State Agr. College, Manhattan, Kan.
- 8th Roselan Lindy 1475496—Age, Jan. 11, 1927; sire, Dreadnaught Trojan 1214710; dam, Maplehurst Lady 1289566—F. E. Shepard & Son, Charlotte, Mich.

**CLASS 185****Champion Steer, Spayed or Martin Heifer**

- Choice U. A. =179973= —Age, March 23, 1926; sire, Dale Cornerstone =167669=; dam, U. A. Roan Lady 10th =168574= —University of Alberta, Edmonton, Alberta, Can.

- 7th F. Rothlisberger & Son, Elgin, Ia.
- 8th Oklahoma A. & M. College, Stillwater, Okla.

## THE HEREFORD STEERS

The Hereford exhibit of 104 purebred steers did credit to the breed. While only one of the supreme finals fell to the lot of the Herefords, the general high quality of the entries left an indelible impression on all who witnessed the placing of this cosmopolitan breed by Walter Biggar, who now enjoys the well earned honor conferred by the International in being the only foreign judge to be recalled the third time to perform such an arduous and delicate task as placing single-handed the honors of this great exhibition. To sum up his two-days' awards in the fewest words: As on both former occasions his work was above reproach and beyond praise, as seen at a long distance from outside the arena.

When 22 junior yearlings were paraded, Mr. Biggar early found his choice in A. B. Cook's Joy's Beau Panama 18th, a massive bullock up to a great weight that left a fine margin for his breeder. Second place was well fitted by Hillandale Farm's Hillandale Lad 58th of the same type, showing, if anything, more refinement, but possibly lacking the thickness of the winner. . . .

The summer yearlings came forward 35 strong. This time South Dakota was heard from, when Jos. J. Rezac & Sons' Repeat Woodford was sent to the top. This pleasing shapely bullock served well to uphold the traditions of two whole families that have much International history. R. P. Lamont's Barney, fitted to a turn, was a very strong contender for second place, while Clifford Johnson's club steer, Corrector, an old competitor of Barney, made a fine trio to lead so strong a ring of meritorious summer yearlings.

Keystone Avalanche, from the Saint Amour Co. herd, that has shown all season and had been winner of many championships, easily found his place in a class of 22. He is evenly covered, low set and moves to perfection. Don Paladin, shown by Purdue University, has a trifle more scale and looks like a good doer, but could not quite overcome the closeknit nugget from Pennsylvania. . . .

Thirteen junior calves were headed by Thistleton Jock from the George Collins farm in Kentucky. This calf has scale and finish, and brings down the scales with a thud that means dollars to the producer at an early age. Model Rupert from Goodenow, Ill., a level-lined, topsey calf, well brought out, made a strong second. . . .

The contest for championship of the breed brought out Cook's Joy's Beau Panama, Rezac's Repeat Woodford, St. Amour Co.'s Keystone Avalanche, and Collins' Thistleton Jock. Judge Biggar, after dispensing with Joy's Panama and Thistleton Jock, settled down to a strict analysis of Repeat Woodford and Keystone Avalanche. Try as Repeat Woodford would, shown by his young feeder, while it was no avalanche by any means, the senior calf so carefully fitted and shown by Jimmy Watt was declared the key-stone of this substantial Hereford arch.

Repeat Woodford repeated by later being made reserve champion yearling of the show, an honor that would delight even a veteran showman. The best evidence of the strength of the champion calf class of the show is seen when so great a calf as Keystone Avalanche was third choice.—The American Hereford Journal.

## INTERNATIONAL LIVE STOCK EXPOSITION

## THE HEREFORD STEERS

## CLASS 187

**Steer, Spayed or Martin Heifer, Calved Between Jan. 1, and May 31, 1926**

## Awards

- 1st Joy's Beau Panama 18th 1440—Age, Jan. 6, 1926; sire, Joy's Panama 1119979; dam, Panama's Joy 2d 801518—A. B. Cook, Townsend, Mont.
- 2nd Hillandale Lad 58th 1475152—Age, Jan. 5, 1926; sire, Hillandale Repeater 1315967; dam, Maple's Lass 137th 817137—Hillandale Farm, Muscatine, Iowa.
- 3rd Rock Creek Chief —63547—Age, May 10, 1926; sire, Rocky Boy —49805; dam, Camilla —45660—University of Alberta, Edmonton, Alberta, Can.
- 4th Bill 1485—Age, Feb. 27, 1926; sire, Lawnbert 8th 1206128; dam, Rose Perfection 4th 1205031—West Virginia University, Morgantown, W. Va.
- 5th Beau Blanchard 14th 1478966—Age, Mar. 20, 1926; sire, Beau Blanchard —1353477—461688; dam, Flora Repeater —1150107—39177—Iowa State College, Ames, Iowa.
- 6th Johnnie Fairfax 1476393—Age, Jan. 4, 1926; sire, Fax Repeater 782362; dam, Alyssum 1122885—University of Wisconsin, Madison, Wis.
- 7th Bonnie's Image 1430—Age, Jan. 5, 1926; sire, Bonnie Jr. 916843; dam, Gratia 12th 505064—Kansas State Agricultural College, Manhattan, Kan.
- 8th Cupon 5th 1469010—Age, Jan. 24, 1926; sire, Bonnie J. Wyoming 1279847; dam, Selection Girl 1279849—The Pennsylvania State College, State College, Pa.
- 9th Shadeland 23d 1472876—Age, Jan. 9, 1926; sire, Paladin Woodford 1092265; dam, Autumm Maid 1303629—Louis Osterhoff, Jr., Lafayette, Ind.
- 10th —Age, May 29, 1926; sire, Don Apollo 395099; dam, Pretty Lady 51st 1257360—Mary F. Bersig, Jacksonville, Ill.

## CLASS 188

**Steer, Spayed or Martin Heifer, Calved Between June 1, and Sept. 30, 1926**

- 1st Repeat Woodford 1546—Age, Sept. 1, 1926; sire, Woodford 153d 1095846; dam, Edna Repeater 858777—Jos. J. Rezac & Sons, Tabor, S. D.
- 2nd Barney—Age, June 18, 1926—R. P. Lamont, Jr., Larkspur, Colo.
- 3rd Corrector—Age, July 8, 1926; sire, Bruce Domino 986659; dam, Ellen 864017—Clifford Johnson, Elkhorn, Iowa.
- 4th Domino Regulator 1539875—Age, June 26, 1926; sire, Don Domino 9th 1301900; dam, Lady Regulator 61st 1236371—Henry W. Marshall, Lafayette, Ind.

## Awards

- 5th Panama Donald U. A. 2d —63542—Age, June 13, 1926; sire, Alberta Panama 3d —45266—; dam, U. A. Belle Donald —43633—University of Alberta, Edmonton, Alberta.
- 6th Muscatine 1637—Age, June 4, 1926; sire, Hillandale Repeater 1315967; dam, Lucy Dare 802921—Hillandale Farm, Muscatine, Iowa.
- 7th Majestic Major 1669—Age, Aug. 18, 1926; sire, Majestic Blanchard 1380025; dam, Princess Fairfax 2d 878063—Purdue University, W. Lafayette, Ind.
- 8th Royal A.—Age, Aug. 18, 1926; sire, Bocaldo 25th 701094; dam, Brae Lassie 3d 1201652—Ralph Helander, Wenona, Ill.
- 9th Aster's Mischief 1523—Age, June 16, 1926; sire, Fairfax Aster 2d 1228255; dam, Rosia Mischief 1094175—University of Nebraska, Lincoln, Neb.
- 10th Hawthorn Donald 1600—Age, June 4, 1926; sire, Donald Fairfax 3d 1193722; dam, Hawthorn Lavina 856982—Michigan State College, East Lansing, Mich.

## CLASS 189

**Steer, Spayed or Martin Heifer, Calved Between Oct. 1, and Dec. 31, 1926**

- 1st Keystone Avalanche—Age, Dec. 2, 1926; sire, Buck Avalanche 2d 1303755; dam, Doe Visage 2d 1199523—The Saint Amour Co., Mortonville, Pa.
- 2nd Don Paladin 1667—Age, Oct. 20, 1926; sire, Majestic Blanchard 1380025; dam, Shadeland Lass 8th 1373314—Purdue University, W. Lafayette, Ind.
- 3rd Hillandale Lad 75th 1566—Age, Nov. 5, 1926; sire, Hillandale Repeater 1315967; dam, Maple's Lass 137th 817137—Hillandale Farm, Muscatine, Ia.
- 4th Hero Panama 1587—Age, Oct. 28, 1926; sire, Panama 49th 640427; dam, Heroine 755729—Jos. J. Rezac & Sons, Tabor, S. D.
- 5th College Pirate 1664—Age, Sept. 23, 1926; sire, Maple's Lad 170th 1092648; dam, Ethelmae 939380—University of Wisconsin, Madison, Wis.
- 6th Baronet —63544—Age, Oct. 8, 1926; sire, Alberta Panama 3d —45266—; dam, Belle Donald 265th —35450—University of Alberta, Edmonton, Alberta.
- 7th Fancy Lad—Age, Oct. 30, 1926; sire, Beau Blanchard 155th 1202407; dam, Belle Woodford 125th 1095839—H. A. Baldwin, Pleasanton, Calif.
- 8th Rupert's Choice—Age, Dec. 5, 1926; sire, Prince Rupert 121st 1094803; dam, Mary Blanchard 912570—H. J. Fluck, Goodenow, Ill.
- 9th Spirit of the Lee's 1680—Age, Oct. 7, 1926; sire, Lord Lee Jr. 648917; dam, Helen Lee 863309—Hanson Brothers, Williamsburg, Ia.
- 10th Model Rupert 1643—Age, Dec. 8, 1926; sire, Brae Repeater 986783; dam, Martha L. Perfect 1081384—Oklahoma A. & M. College, Stillwater, Okla.

 10th Kansas State Agricultural College, Manhattan, Kan.

## THE ABERDEEN-ANGUS STEERS

The pure bred Aberdeen-Angus bullocks in the single classes made what we thought to be the best showing the breed has ever made at the International, that is there were a greater number of tops in the lines. In fact many a state fair champion was lost in the shuffle. Judge Biggar did a splendid piece of work in designating where the ribbons should go. He walked them and he handled them all over carefully. Where the animals approached each other in quality he pulled them out of the line in pairs and made careful comparison one with the other.

The senior class was well filled with outstanding specimens. It had been our pleasure to see the four calves offered from Iowa State College many times. We know that they were very high quality, well finished and fitted, and that Herdsman George Edwards was presenting them in good form for we had visited them only a few days before they left for the International show. We rather expected College Earl to stand at the head of his class, although it was a tossup between him and his stable mate, College Special, so there is no doubt in our mind that Gay Boy from Penn State must have been a real calf or he should not have been placed between the two. . . .

In the summer class that followed, Iowa State scored again, this time with Mah-Jongg 2d who has looked like a winner all summer. He is a very fine calf, evenly covered with a deep covering of meat, nicely lined, good top, and two good steer ends. The University of Illinois supplied his runner-up in the good calf Old King Cole, and he proved a real contender. . . .

Twenty-two in the October to December 31 class were headed by Jack Horner, another son of Deverly, and offered by the University of Illinois, a youngster that just filled the eye completely. He carried a nice level top, plenty of width and depth of body, was nicely covered and bloomy as could be. Fresh as a morning rose. He was made champion Aberdeen-Angus and later reserve to the grand

champion cross bred. The judge said he lacked a bit in filling low in the quarters. By the same token he might well have been made reserve in the pure bred class, which would have changed things materially in the finals too. Purdue placed second with a youngster that carried a dangerous look as he approached the top line. . . . This was one of the greatest strings of calves ever led into the International arena.

Iowa state had been counting pretty strongly on capturing the junior class, too, for they had a pair of very promising youngsters in Black Model and College Prince that looked like they might stand together in almost any company. Whistling Pete from Xenia whistled right by and landed at the top with the other pair next. This Pete calf is a comer. Young Tim Pierce placed his good calf fourth in this string of fourteen calves. . . .

There were eleven groups of three out and Iowa, Illinois, Pennsylvania and Kansas state institutions copped off the first four groups. . . . The evenness, smoothness and general attractiveness of these groups caused much conversation about the ringside and in the seats.—The Aberdeen-Angus Journal.

### CLASS 193

#### Steer, Spayed or Martin Heifer, Calved Between Jan.

#### Awards 1, and May 31, 1926

- 1st College Earl—Age, Feb. 12, 1926; sire, Gay Baronet 333878; dam, Black Mary Inez 2d 220059—Iowa State College, Ames, Iowa.
- 2nd Gay Boy 2588—Age, Jan. 5, 1926; sire, Parlee 320291; dam, State's Gay Bird 4th 295570—Pennsylvania State College, State College, Pa.
- 3rd College Special—Age, Jan. 9, 1926; sire, Gay Baronet 333878; dam, Ames Blackbird 3d 313863—Iowa State College, Ames, Iowa.
- 4th Berdell—Age, Feb. 27, 1926; sire, Belvoir 365512; dam, Helen 2d of Lone Dell 395895—Iowa State College, Ames, Iowa.
- 5th Evans of Sunbeam—Age, May 11, 1926; sire, Edell 365947—S. C. Fullerton, Miami, Okla.
- 6th Evictor Type—Age, March 16, 1926; sire, Evictor 3d 338447; dam, Blackcap Girl N. 396836—Wendell Nordstrom, Aurelia, Iowa.
- 7th Antler C. B. 10th—Age, Feb. 24, 1926; sire, Queenmere 22d 360113; dam, Entelope E. 212883—Iowa State College, Ames, Iowa.

**JACK HORNER**

Champion Aberdeen-Angus Steer, 1927. Age, Nov. 1, 1926.  
Sire, Deverly 282052; dam, Enchanteffie 321996.  
Owned by University of Illinois, Urbana, Ill.

## Awards

8th Black Cap Lad 2592—Age, Feb. 3, 1926; sire, Excelsior Marshall 367546; dam, Black Cap Lassie J 4th 377507—Elliott Brown, Rose Hill, Ia.

**CLASS 194****Steer, Spayed or Martin Heifer, Calved Between June 1, and Sept. 30, 1926**

- 1st Mah-Jongg 2d—Age, June 25, 1926; sire, Belvoir 365512; dam, Pride 3d of Lone Dell 395894—Iowa State College, Ames, Iowa.
- 2nd Old King Cole—Age, June 19, 1926; sire, Deverly 282052; dam, Entha 357598—University of Illinois, Urbana, Ill.
- 3rd Dutchman 3d 2690—Age, July 12, 1926; sire, Parlee 320291; dam, State's Gay Bird A. 295567—Pennsylvania State College, State College, Pa.
- 4th Idlewyld Alberta —39681—Age, Aug. 25, 1926; sire, Pantheon of Larkin Farm —10594—; dam, Wistful of Idlewyld —36566—University of Alberta, Edmonton, Alberta, Can.
- 5th Jack Sprat—Age, July 23, 1926; sire, Deverly 282052; dam, Enchantessie 386929—University of Illinois, Urbana, Ill.
- 6th Briarcliff Glen—Age, June 13, 1926; sire, Glencarnock Revolt 404518; dam, Esmeraldo of Glencarnock 2d 404537—Briarcliff Farms, Inc., Pine Plains, N. Y.
- 7th ———— Age, Sept. 25, 1926; sire, Black Eldor 356584; dam, Blackbird McG. 368544—Lucille Gring, Dallas Center, Iowa.
- 8th Paddy—Age, June 27, 1926; sire, Elberon 2d 340178; dam, Brookside Blackbird 17th 144166—Iowa State College, Ames, Iowa.
- 9th Edwin R.—Age, June 13, 1926; sire, Blackcap Prince C. 372266; dam, Pretty 2d of Swaylands 324060—William R. Wilson, Muncie, Ind.
- 10th Blockie 2634—Age, Aug. 5, 1926; sire, Excelsior Marshall 367546; dam, Erica Mahasha 259698—Elliott Brown, Rose Hill, Iowa.

**CLASS 195****Steer, Spayed or Martin Heifer, Calved Between Oct. 1, and Dec. 31, 1926**

- 1st Jack Horner—Age, Nov. 1, 1926; sire, Deverly 282052; dam, Enchantessie 321996—University of Illinois, Urbana, Ill.

- 1st Iowa State College, Ames, Ia.
- 2nd University of Illinois, Urbana, Ill.
- 3rd Pennsylvania State College, State College, Pa.
- 4th Kansas State Agric. College, Manhattan, Kan.
- 5th Briarcliff Farms, Inc., Pine Plains, N. Y.
- 6th Congdon & Battles, Yakima Wash.
- 7th Purdue University, W. Lafayette, Ind.

## THE RED POLLED STEERS

Breeders from four states and the Oklahoma A. & M. College made the show of Red Polled steers. Olson headed the oldest class with Wno Tedd, sired by Teddy's Lad, which produced several of his winners in the breeding classes later in the week. Five steers answered the call for the class calved between June 1st and September 30th, 1926, and Lad 42d from the Arp herd was given first honor and

later went on to the championship of his breed. The following class of seven found Haussler & Sons in the lead with Upland Inez 8th. The sole college entry, Chief from Oklahoma, headed the youngest class of four and was given the reserve championship. Four groups were led out and the blue ribbon handed to Arp after Judge Biggar had made his decision.

### THE RED POLLED STEERS

#### CLASS 199

##### Steer, Spayed or Martin Heifer, Calved Between Jan 1 and May 31, 1926

###### Awards

- 1st Wno Tedd 49675—Age, March 4, 1926; sire, Teddy's Lad 44372; dam, Upsilon 66768—H. P. Olson, Altona, Ill.
- 2nd Popular Lad 49048—Age, Feb. 16, 1926; sire, True Luna Lad 45494; dam, Popular Rebuna 63029—Adolph P. Arp, Eldridge, Iowa.
- 3rd Sid 50400—Age, May 13, 1926—Graff Bros., Bancroft, Neb.
- 4th Ideal Lad 50223—Age, March 12, 1926; sire, Ideal Advancer 42136, dam, Red Bird 61329—Geo. Haussler & Sons, Holbrook, Neb.
- 5th Jumbo—Age, May 1, 1926; sire, Buster Charmer 41292; dam, Countess 2d 62033—Stump & Etzler, Convoy, Ohio.

Leona's True Value 47424; dam, Princess Diana Lassie 42d 54575.  
Owned by Adolph P. Arp, Eldridge, Iowa.

## THE GALLOWAY STEERS

Three universities and an Ohio breeding establishment made up the show of Galloway steers. Walter Biggar, himself a breeder of Galloways in Scotland, selected the Kansas State Agricultural College's entry Hi Le for championship honors and gave the reserve championship to King David from the University of Nebraska feed lots. Hi Le weighed 935 pounds when sold on the closing day of the show and was next to the lightest champion of the Exposition. This was the second year in succession that the

Manhattan institution was awarded the royal purple in the Galloway steer division. The third prize winner in the class which produced the champion, the University of Nebraska's Wullie, was entered in the carcass contest and took second prize in his class, competing with all breeds, grades and crosses. He dressed out 63.2 per cent and the carcass sold for 30 cents per pound.

In the group of three steers contest the University of Nebraska stood first, with the Frantz Bros. trio in second position.

### THE GALLOWAY STEERS

#### CLASS 205

**Steer, Spayed or Martin Heifer, Calved Between Jan. 1 and May 31, 1926**

Aristocrat 47073; dam, Standpat's Semiramis 49021.  
Owned by Kansas State Agricultural College, Manhattan, Kans.

## THE POLLED SHORTHORN STEERS

Polled Shorthorn steers presented a more formidable appearance than usual. This was the first year a regular complete classification was offered and exhibitors responded with a stronger show. The quality of the tops was good but better fitting of some would have improved the average quality of the exhibits.

In all eleven head were shown. This number is hardly a fair measure of the important position occupied by the breed in American livestock husbandry and Polled Short-

horn fanciers could well afford to bring out larger numbers of well fitted steers.

The champion, John A. Logan, was bred, fitted and exhibited by Jacob E. Myers, Culver, Indiana, an 82 year old Civil War veteran who served under General Logan.

Perhaps no one exhibit attracted more attention than this steer when led into the ring by his owner in army uniform.

Kelly & Son, Marshall, Michigan, showed the first prize group, with Elm Grove Farm, Belvidere, Tenn., second.

- 1st L. C. Kelly & Son, Marshall, Mich.
- 2nd Elm Grove Farm, Belvidere, Tenn.

## THE GRADES AND CROSS BREDS

The quality of the grade and cross bred steer classes is indicated by the fact that this division produced the grand champion bullock of the entire show. A total of ninety contestants were led out for the approval of Judge Biggar and some of the closest decisions had to be made before the championship was decided.

In the oldest class thirty-two contenders were lined up in the tanbark arena. Iowa State College started its long chain of winnings which was destined to continue throughout the week by annexing the blue ribbon on its grade Angus Spike. This animal was to be heard from later as he was awarded the yearling championship of the show over all breeds, grades and crosses in the final rounds. Four out of the five prizes awarded went to agricultural colleges.

Twenty-seven bullocks answered the call for the second class and the banner of Canada went to the front when the judge ordered the clerk to give first place to the University of Alberta's grade Shorthorn Admiral. Next stood a grade Angus fed by Celesta K. Schmuecker of Iowa which on the previous Saturday had ranked twelfth in the Junior Feeding Contest class. Third went to a college steer and fourth and fifth to the offerings of breeders.

The following class brought out a ring of nineteen which proved to contain the grand champion bullock of the show in the cross-bred Shorthorn Aberdeen-Angus, California Stamp, about which more will be written in the championship sections. As in the previous class the remaining ribbons were divided, three to breeders and one to a college.

The youngest class was composed of twelve calves. Iowa State College again took the lead with Fada, a grade Angus, followed by the entries of breeders in second and fourth positions and twin calves from the Kansas State Agricultural College in third and fifth.

In the run-off for the championship the cross bred from California received the favor of the judge with the Iowa State College's Spike in the reserve berth. All four contenders for this honor were the products of college feed lots.

Eight groups of three bullocks each composed the final class, the Ames college, with two first prize winners in its group, taking first position. The University of California with only three bullocks in the entire show was unable to compete in this class. The remaining awards went to a Virginia breeder and two colleges.

## EXHIBITORS

Anderson, Virgil, Oneida, Ill.  
 Arp, Adolph P., Eldridge, Ia.  
 Barr, David Froman, Kearney, Mo.  
 Beebe, Joseph, Claytonville, Ill.  
 Bierer, Irvin G., Front Royal, Va.

## GRADES AND CROSS-BRED STEERS

## CLASS 217

**Steer, Spayed or Martin Heifer, Calved Between Jan. 1 and May 31, 1926.**

## Awards

- 1st Spike—Age, Feb. 6, 1926; sire, Lassiter 320678—Iowa State College, Ames, Ia.
- 2nd Pat—Age, Feb. 4, 1926; sire, Rupert's Model 11th 907653—Oklahoma A. & M. College, Stillwater, Okla.
- 3rd Dale's Master 5th—Age, Jan. 3, 1926; sire, Gwendoline Dale 1020346; dam, Eusta Lady P. 353799—Kansas State Agr. College, Manhattan, Kans.
- 4th Crown Prince—Age, Jan. 10, 1926; sire, Eventually 387366—Rosengift Stock Farm, Kelley, Iowa.
- 5th ————Age, April 26, 1926; sire, Hazford Bocaldo 36th 1175401; dam, Eusta Blackbird Lady 353801—Kansas State Agr. College, Manhattan, Kans.

## CLASS 218

**Steer, Spayed or Martin Heifer, Calved Between June 1, and September 30, 1926.**

- 1st Admiral—Age, July 20, 1926; sire, Dale Cornerstone —167669—University of Alberta, Edmonton, Alberta, Can.
- 2nd Bandolier's Marvel Again—Age, June 13, 1926; sire, Blackcap Bandolier 2d 363329—Celesta K. Schmucker, Blairstown, Ia.
- 3rd Sparkie—Age, Sept. 1, 1926; sire, Quaker Ben 368865—Iowa State College, Ames, Ia.
- 4th Black Intruder—Age, July 25, 1926; sire, Eldorado 2d 366073—A. L. Lynch & Son, Waverly, Ia.
- 5th Mac—Age, June 18, 1926; sire, Anxiety Pete 736373—Irwin G. Bierer, Front Royal, Va.

## CLASS 219

**Steer, Spayed or Martin Heifer, Calved Between Oct. 1 and Dec. 31, 1926.**

## Awards

- 1st California Stamp—Age, Oct. 2, 1926; sire, Marvel's King 1174387; dam, California Lilac 289547—University of California, Davis, Calif.
- 2nd Andy—Age, Oct. 5, 1926; sire, Anxiety Pete 736373—Irwin G. Bierer, Front Royal, Va.
- 3rd College Baronet—Age, Oct. 14, 1926; sire, Gay Baronet 333878—Iowa State College, Ames, Ia.
- 4th Follow Me—Age, Dec. 4, 1926; sire, Prince Rupert 121st 1094803—H. J. Fluck, Goodenow, Ill.
- 5th Sni-A-Bar Model—Age, Oct. 5, 1926; sire, Argonaut's Master 978230—Sni-A-Bar Farms, Grain Valley, Mo.

## CLASS 220

**Steer, Spayed or Martin Heifer, Calved Since Jan. 1, 1927**

- 1st Fada—Age, Jan. 4, 1927; sire, Lassiter 320678—Iowa State College, Ames, Ia.
- 2nd Buck Kingstone—Age, Jan. 18, 1927; sire, Donald Princeps 894859—Robert Fluck, Grant Park, Ill.
- 3rd Crowns Model 1st (Twin)—Age, Feb. 10, 1927; sire, Royal Crown 1096535; dam, Black Gem Lass 267897—Kansas State Agr. College, Manhattan, Kans.
- 4th Sir Herbert—Age, March 10, 1927; sire, Cumberland Sultan 1049622—Sni-A-Bar Farms, Grain Valley, Mo.
- 5th Crowns Model (Twin)—Age, Feb. 10, 1927; sire, Royal Crown 1096535; dam, Black Gem Lass 267897—Kansas State Agr. College, Manhattan, Kans.

**CLASS 221****Awards Champion Steer, Spayed or Martin Heifer**

California Stamp—Age, Oct. 2, 1926; sire, Marvel's King 1174387; dam, California Lilac 289547—University of California, Davis, Calif.

Res. Spike—Age, Feb. 6, 1926; sire, Lassiter 320678—Iowa State College, Ames, Ia

**CLASS 222****Group Three Steers or Heifers from Above Classes**

1st Iowa State College, Ames, Ia.

2nd Irwin G. Bierer, Front Royal, Va.

3rd Oklahoma A. & M. College, Stillwater, Okla.

4th Kansas State Agricultural College, Manhattan, Kans.

**ANY BREED, PURE BRED, GRADE OR CROSS****CLASS 223**

**Three Steers, Spayed or Martin Heifers, Calved Since Jan. 1, 1926, Get of One Sire—Open to Pure-Breds, Grades and Crosses (To Be Shown Subject to Conditions Governing Breed Steer Classes)**

1st Iowa State College, Ames, Ia.

2nd University of Illinois, Urbana, Ill.

3rd University of Alberta, Edmonton, Alta., Can.

**AMERICAN SHORTHORN ASSOCIATION GRADE AND CROSS-BRED SPECIALS**

(Animals competing must have sire recorded in American Shorthorn Herd Book.)

**CLASS 217**

**Steer, Spayed or Martin Heifer, Calved Between Jan. 1 and May 31, 1926.**

1st Dale's Master 5th—Age, Jan. 3, 1926; sire, Gwendoline Dale 1020346; dam, Eusta Lady P. 353799—Kansas State Agr. College, Manhattan, Kans.

2nd Marshall—Age, May 14, 1926; sire, Crown Victor 2d 1276728; dam, Lily—Mrs. Pauline Kuhrt, Edson, Kan.

3rd Tony—Age, Jan. 15, 1926; sire, Snowdale 4th 1095404—John Black, Aledo, Ill.

4th Sni-A-Bar Marengo—Age, May 15, 1926; sire, Maxwalton Mariner 1113592—Sni-A-Bar Farms, Grain Valley, Mo.

**CLASS 218**

**Steer, Spayed or Martin Heifer, Calved Between June 1 and Sept. 30, 1926.**

1st Admiral—Age, July 20, 1926; sire, Dale Cornerstone =167669—University of Alberta, Edmonton, Alberta, Can.

2nd Red Lustre—Age, July 20, 1926; sire, Maxwalton Mack 1159674—Gotfredson Farms, Ypsilanti, Mich.

3rd Sni-A-Bar Meteor—Age, Sept. 1, 1926; sire, Cumberland Sultan 1049622—Sni-A-Bar Farms, Grain Valley, Mo.

**CLASS 219**

**Steer, Spayed or Martin Heifer, Calved Between Oct. 1 and Dec. 31, 1926.**

Awards 1st California Stamp—Age, Oct. 2, 1926; sire, Marvel's King 1174387; dam, California Lilac 289547—University of California, Davis, Calif.

2nd Sni-A-Bar Model—Age, Oct. 5, 1926; sire, Argonaut's Master 978230—Sni-A-Bar Farms, Grain Valley, Mo.

3rd Reddy—Age, Oct. 25, 1926; sire, Royal Clay Woodard 1263096; dam, Rose Wood Peri 1192431—Lawrence Wood, Rives Junction, Mich.

**CLASS 220**

**Steer, Spayed or Martin Heifer, Calved Since Jan. 1, 1927**

1st Crowns Model 1st (Twin)—Age, Feb. 10, 1927; sire, Royal Crown 1096535; dam, Black Gem Lass 267897—Kansas State Agr. College, Manhattan, Kans.

2nd Sir Herbert—Age, March 10, 1927; sire, Cumberland Sultan 1049622—Sni-A-Bar Farms, Grain Valley, Mo.

3rd Crowns Model (Twin)—Age, Feb. 10, 1927; sire, Royal Crown 1096535; dam, Black Gem Lass 267897—Kansas State Agr. College, Manhattan, Kans.

**CLASS 221**

**Champion Steer, Spayed or Martin Heifer**

California Stamp—Age, Oct. 2, 1926; sire, Marvel's King 1174387; dam, California Lilac 289547—University of California, Davis, Calif.

**CLASS 222**

**Group Three Steers or Heifers from Above Classes**

1st Sni-A-Bar Farms, Grain Valley, Mo.

**AMERICAN HEREFORD ASSOCIATION GRADE AND CROSS-BRED SPECIALS**

**CLASS 217**

**Steer, Spayed or Martin Heifer, Calved Between Jan. 1 and May 31, 1926.**

1st Spike—Age, Feb. 6, 1926; sire, Lassiter 320678—Iowa State College, Ames, Ia.

2nd Pat—Age, Feb. 4, 1926; sire, Rupert's Model 11th 907653—Oklahoma A. & M. College, Stillwater, Okla.

3rd Dale's Master 5th—Age, Jan. 3, 1926; sire, Gwendoline Dale 1020346; dam, Eusta Lady P. 353799—Kansas State Agr. College, Manhattan, Kan.

4th Crown Prince—Age, Jan. 10, 1926; sire, Eventually 387366—Rosen-gift Stock Farm, Kelley, Ia.

5th ————Age, April 26, 1926; sire, Hazford Bocaldo 36th 1175401; dam, Eusta Blackbird Lady 353801—Kansas State Agr. College, Manhattan, Kan.

**CLASS 218****Steer, Spayed or Martin Heifer, Calved Between June 1****Awards and Sept. 30, 1926.**

- 1st Mac—Age, June 18, 1926; sire, Anxiety Pete 736373—Irwin G. Bierer, Front Royal, Va.  
 2nd Early Dawn—Age, June 5, 1926; sire, General Lee 1142007; dam, Bell—Emma Louisa Minear, Parnell, Iowa.  
 3rd Felix—Age, June 18, 1926—Wayne Greathouse, Hindsboro, Ill.  
 4th Colorado Laddie—Age, June 30, 1926—Villard Martin, Perrysville, Ind.  
 5th Buster—Orville Sommer, Pekin, Ill.

**CLASS 219****Steer, Spayed or Martin Heifer, Calved Between Oct. 1 and Dec. 31, 1926.**

- 1st Andy—Age, Oct. 5, 1926; sire, Anxiety Pete 736373—Irwin G. Bierer, Front Royal, Va.  
 2nd Follow Me—Age, Dec. 4, 1926; sire, Prince Rupert 121st 1094803—H. J. Fluck, Goodenow, Ill.  
 3rd ————Age, Oct. 10, 1926; sire, Masterpiece 1093624—G. Ray Connolly, Nevada, Ia.

**CLASS 220****Steer, Spayed or Martin Heifer, Calved Since Jan. 1, 1927**

- 1st Buck Kingstone—Age, Jan. 18, 1927; sire, Donald Princeps 894859—Robert Fluck, Grant Park, Ill.  
 2nd Bonny Rupert—Age, Jan. 10, 1927; sire, Prince Rupert 121st 1094803—H. J. Fluck, Goodenow, Ill.  
 3rd Nath—Age, March 19, 1927; sire, Prince Rupert 118th 983395—Luce & Moxley, Shelbyville, Ky.  
 4th Blanchard Yet—Age, Jan. 5, 1927; sire, Tina Blanchard 1382891—J. P. Wallace, Goodenow, Ill.  
 5th Blanchard's Lad—Age, Jan. 5, 1927; sire, Scott Blanchard 2d 1094909—A. L. Lynch & Son, Waverly, Ia.

**CLASS 221****Champion Steer, Spayed or Martin Heifer**

- Andy—Age, Oct. 5, 1926; sire, Anxiety Pete 736373—Irwin G. Bierer, Front Royal, Va.

**CLASS 222****Group of Three Steers or Heifers from Above Classes**

- 1st Irwin G. Bierer, Front Royal, Va.  
 2nd H. J. Fluck, Goodenow, Ill.  
 3rd Robert Fluck, Grant Park, Ill.

**AMERICAN ABERDEEN-ANGUS GRADE AND CROSS-BRED SPECIALS**

(Animals competing must have sire recorded in American Aberdeen-Angus Herd Book, or in the Canadian Aberdeen-Angus Herd Book, and premiums will be paid according to Aberdeen-Angus rating.)

**CLASS 217****Steer, Spayed or Martin Heifer, Calved Between Jan. 1****Awards and May 31, 1926.**

- 1st Spike—Age, Feb. 6, 1926; sire, Lassiter 320678—Iowa State College, Ames, Ia.

 Res. Spike—Age, Feb. 6, 1926; sire, Lassiter 320678—Iowa State College, Ames, Ia.

**CLASS 222****Group of Three Steers or Heifers from Above Classes**

- 1st Iowa State College, Ames, Ia.  
 2nd Celesta K. Schmuecker, Blairstown, Ia.

## GRAND CHAMPIONS

This was another baby beef year in the single steer show. Three of the four breed champions, the grand champion and the reserve grand champion were calves. All of the individual winners clear down the line were of the most highly approved modern day type. In the championship by ages the competition was unusually keen, and the animals of the very same pattern regardless of the breed. The yearling championship fight brought out nine very good steers, representing the blue ribbon winners of the nine yearling classes, or a total of over 400 head of yearling steers shown.

Judge Biggar gave them a careful examination, moved them around the ring a few times and then narrowed his attention to four clinking good steers.

They were the Alberta (Canada) college Shorthorn breed champion here, which was also the grand champion at the Canadian Royal show at Toronto last week, the Rezac & Son Hereford summer yearling, champion at many state fairs this year, and the Iowa college junior grade Angus yearling and the summer Angus yearling also from the Iowa college.

In the final rating the Iowa college grade Angus yearling, Spike, was declared champion yearling and the Rezac Hereford, Repeat Woodford, the reserve. These are two wonderful steers. The Angus steer was very wide, deep, low set and exceptionally well covered with good flesh. The Hereford steer, while very good, had not as much flesh, or the fullness of quarters seen in the Angus.

The calf championship competition was the most hotly disputed. It was generally predicted by the wise ones, and later proved to be true, that out of this marvelous bunch of eight calves, out of over 200 head shown, would come both the grand champion and reserve grand champion steer of the show.

What a bunch of baby beeves they were. There were at least four calves in this class which were champion material.

The fight soon narrowed down to the California college cross bred Shorthorn-Angus steer, California Stamp, the grade and cross bred champion a little over 13 months old and weighing 1055 pounds, and the Illinois University purebred Angus calf, Jack Horner, a little over 12 months old and weighing 975 pounds. Both were marvelous calves.

Now the battle is on full tilt for the calf championship. The crowd is eager, intense. Will it be the Angus or a Shorthorn-Angus cross? Judge Biggar was very calm and looked each steer over very carefully. He handled them quickly, delicately from nose to rump, he walked them a bit and he looked and handled them a bit more and the crowd was getting nervous. Biggar, for the first time, appeared to be a bit puzzled. That he liked both steers was very evident. The crowd was divided, too.

The Angus calf, while some 80 pounds lighter than the cross bred, was almost a model beast. It was wide, deep, level on top, smooth at the tail head, well covered with good, firm flesh. He had style, too. He lacked a little in the lower thighs, could have been a little bit better filled behind the forelegs and better covered on front of shoulder blades.

The Shorthorn-Angus cross bred calf, red in color and polled, had worlds of style on parade. He was as proud as a peacock.

He had wonderful lines, good width and depth of body. He had wonderful depth and smoothness of flesh on all parts of the body. His thighs were good, his shoulders smooth, his back level and strong.

What a steer he was. A trifle more filling from hips to tail head, a little lighter brisket and perhaps a trifle more firmness of flesh and he would be the acme of perfection.

The judge stood in a serious study and finally sent the Shorthorn-Angus cross bred to grand championship hon-

#### CALIFORNIA STAMP

Grand Champion Steer, 1927. Age, Oct. 2, 1926. Sire,  
Marvel's King 1174387; dam, California Lilac 289547.  
Owned by University of California, Davis, Calif.  
(Held by Alex. McDonald, Herdsman)

ors and his close rival, the Angus, into the reserve championship position. The crowd broke into cheers, the photographers did their act and it was over. No such close decision was ever better received by the ringside.

Judge Biggar said to me for the Drovers Journal:

"Both steers are exceptional animals, by far the best of their age I have ever seen. Either one would make a highly acceptable grand champion in any show.

"It was the closest decision I have ever been called upon to make. I wanted and tried to be fair. It was so close that it was just almost the toss of the hand as to which steer would win. The red calf was a little better than the black in scale, fullness of lower hind quarters, smoothness and covering of shoulder blade and behind the shoulders. And perhaps a little more deeply covered with flesh. He was somewhat inferior to the black calf in filling and levelness from hips to tail head, lightness of brisket and firmness of flesh.

"This is the greatest show of fat steers I have ever seen in any country. All the major breeds and grades and crosses are exceptionally good, much better than either time I was here before.

"The average quality of the class was much better clear down the line. I was wonderfully impressed with the large numbers, uniformity and superior quality of the Angus and Hereford classes. In no other show will such numbers and quality be seen."

The grand champion steer, California Stamp, a crossbred Shorthorn-Angus bred and shown by the University of California, Davis, Cal., was a little over 13 months old and weighed 1055 pounds. He made the third grand champion steer to be bred and shown by the California university, all of which were crossbred animals.

One previous grand champion and two reserve grand champions from the same college were out of the same line of ancestors.

His development was simple. He suckled his mother for some five months and then was put on a good nurse cow, which is still in use. At first he ran with his mother and the other herd cows on alfalfa pasture.

At the age of 3 months he commenced eating a grain ration composed of two parts rolled oats, two parts rolled barley and one part wheat bran. When in the barn, which was most of the time after the first five months, he was fed either on cured alfalfa hay or freshly cut green alfalfa. At all times he was given all of the above mentioned grain mixture that he would eat up clean.

About August first, in addition to his hay and grain ration, he was fed about 10 pounds per day of carrots and beets to keep him fresh and sappy. He was fed hay morning and night and grain three times per day. At all times he had the run of a small lot at night for exercise to keep him fresh on his legs, firm in flesh and keen of appetite.

During the last month he was forced to walk a full mile each day. Too much credit for the development of this wonderful calf cannot be given to the college herdsman, Alex McDonald, of Scottish birth, who now holds the distinction of having fed and shown three grand champions and two reserve grand champion steers at this great show in the last 12 years.—The Chicago Daily Drovers Journal.

The contest between groups of three bullocks sired by the same bull, pure breeds, grades and crosses competing together, brought out eight entries. Iowa State College took first, the University of Illinois second, and the University of Alberta third.

#### CHAMPIONS BY AGES CLASS 224

##### Champion Steer or Heifer, 1 Year and Under 2

Spike—Age, Feb. 6, 1926; sire, Lassiter 320678—Iowa State College, Ames, Ia.

Res. Repeat Woodford 1546—Age, Sept. 1, 1926; sire, Woodford 153d 1095846; dam, Edna Repeater 858777—Jos. J. Rezac & Sons, Tabor, S. D.

**CLASS 225****Champion Steer or Heifer, Under 1 Year**

California Stamp—Age, Oct. 2, 1926; sire, Marvel's King 1174387; dam, California Lilac 289547—University of California, Davis, Calif.

Res. Jack Horner—Age, Nov. 1, 1926; sire, Deverly 282052; dam, Enchantefie 321996—University of Illinois, Urbana, Ill.

**GRAND CHAMPION****CLASS 226****Grand Champion Steer or Heifer of the Show**

## THE SLAUGHTER CONTEST—STEERS ON FOOT

By M. D. HELSER, Superintendent

John Gosling  
Judge

Once more "Uncle John" Gosling, Kansas City, Mo., arose to the occasion at the International and did admirable work in selecting the carcass winners while the hide was still on. Uncle John was 83 years old Dec. 8 and has attended fifty Fat Stock Shows at Chicago, so he was especially anxious to celebrate his semi-centennial at the show. He had a difficult task to select the five prize winners in each class because the entries this year were especially uniform in finish and quality.

Thirty-two bullocks were shown in the junior yearling class and 14 in the summer yearlings. The entries were well finished and uniform in condition, form and quality; only a few plain ones. According to Uncle John they were the best lot of cattle ever brought before him in the carcass contest. This is the second year that the carcass cattle have been divided into junior yearlings, those calved between Jan. 1 and May 31, 1926, and the summer yearlings calved between June 1 and Sept. 30, 1926.

In the junior yearling class, Antler, an Aberdeen-Angus, fed and exhibited by Iowa State College, was placed first. He carried plenty of finish and had "a wealth of inner muscle." While this bullock carried lots of finish, he was mellow and not over-ripe. He was neat in the brisket and uniformly covered with fat. Henry of Sunbeam, another Aberdeen-Angus steer shown by S. C. Fullerton, Miami, Okla., was placed second. This bullock was not so evenly covered and did not carry the finish found in the Iowa entry. Briarcliff Favorite, an Aberdeen-Angus exhibited by Briarcliff Farms, Pine Plains, N. Y., was placed third. He

carried enough finish, but his hide did not "come away" just right; it was a bit stiff. The fourth prize steer was La Fayette, a grade Angus, shown by Keith Collins, Liscomb, Ia. His lines were not so good and he was not so evenly covered as Uncle John expects in the prize winners, but he did have lots of quality. Quarter Back of Hall Orchards, an Aberdeen-Angus exhibited by Hall Orchards, Belding, Mich., was placed fifth because he did not carry the finish and quality for a top carcass.

The summer yearling class of 14 was headed by College Quality Marshall, an Aberdeen-Angus fed and exhibited by the Michigan Agricultural College. He was low-set and blocky, with a mellow, even covering of fat, a good handler with lots of quality and finish. The second-prize winner was Briarcliff Deacon from Briarcliff Farms. This steer was about equal in quality but did not show the uniform, even covering found in the first prize entry. Donnie Fashion, a grade Angus shown by Harold Hassler, Manning, Ia., was placed third over Bertram's Choice, an Aberdeen-Angus shown by West Virginia University, because of his superior conformation and quality. Paddy, an Aberdeen-Angus shown by Iowa State College, was fifth in this class. The entire group of summer yearlings was exceptionally uniform and Uncle John thought there were quite a few more that were deserving of prizes.

The on-foot championship was won by Antler C. B. 10th on account of his excellent finish and handling qualities. He was a typical block of beef. The reserve championship went to College Quality Marshall, thick and evenly covered.

### CLASS 228

Steer, Spayed or Martin Heifer, Calved Between Jan. 1 and May 31, 1926, Entered in Carcass Contest.

1st Antler C. B. 10th—Age, Feb. 24, 1926; sire, Queenmere 22d 360113; dam, Antelope E 212833—Iowa State College, Ames, Iowa.

## THE CATTLE CARCASS TEST

By M. D. HELSER, Superintendent

M. D. Helsel  
Supt.

The cattle and sheep carcasses were dressed by Swift & Co. and judged in their wholesale market. The prize-winning carcasses were placed in the Meat Shoppe on Thursday morning. There was more interest than usual this year; everyone seems to be more interested in quality meats and they really want to find out what constitutes good meat.

In the junior yearling class, Huerta of Hall Orchards was the outstanding bullock. He was smooth, well finished and showed exceptional quality. His blocky form and short neck, with a light brisket and kidney, made him almost an ideal carcass in every way.

The eye of beef was especially well marbled and the color was beautiful. Men around the beef departments of the various packing houses said that this was one of the best all-around carcasses that they had ever seen. Fat enough for Christmas beef and yet not wasty. Briarcliff Favorite was second on the hooks; his grain was just a trifle coarse, but otherwise the carcass was hard to fault. Third prize went to Earl Esco of Woodcote, shown by Woodcote Stock Farms, Ionia, Mich., on a carcass with lots of quality but lacking some in finish. He also lacked development over the rib and loin. Henry of Sunbeam was placed fourth and over La Fayette because he showed a trifle more finish and was more evenly covered. He also showed a little larger eye of beef.

In the summer yearlings Bertram's Choice was placed first and over Wullie, a Galloway shown by the University

of Nebraska, on account of his development over the round and loin. The rib was also fuller, showing a larger eye. The Nebraska entry showed exceptional quality, but lacked the conformation and finish found in the West Virginia entry. Sni-A-Bar Toff, a grade Shorthorn exhibited by Sni-A-Bar Farms, Grain Valley, Mo., was a close third. This carcass was not quite so smooth as the Nebraska entry; it showed as much finish, but not the quality. Donnie Fashion was placed fourth over College Quality Marshall on his superior quality and development over the high-priced cuts. They were about equal in finish and color of lean and fat.

The champion carcass was won by Huerta of Hall Orchards. "That is the best carcass that I have ever seen any place," said John T. Russell, who made the awards. Mr. Russell had the right side of every carcass ribbed down and thirteen carcasses cut into the wholesale cuts before he finally selected the ten prize-winners. The reserve championship went to Bertram's Choice.

At the auction Friday morning in the Meat Shoppe the champion steer carcass was bought by Pollack Bros. for 45 cents per pound and the reserve champion carcass for 33 cents per pound.

### CARCASS CLASSES

#### CLASS 231

Carcass of Steer, Spayed or Martin Heifer, Calved Between Jan. 1 and May 31, 1926.

#### Awards

- 1st Huerta of Hall Orchards—Age, Feb. 12, 1926; sire, Quenthian of French Proad 378674; dam, Princess of Hall Orchards 359813—Hall Orchards, Inc., Belding, Mich.

**I. F. Brown**  
Judge

There were 79 loads of yearlings and 33 loads of two-year-olds in the contest against 77 and 24 loads, respectively, at the previous show. A high fat cattle market furnished incentive to fit bullocks for the contest, which introduced practically all of the regulars and a coterie of new aspirants.

As usual the black square was conspicuous, Aberdeen-Angus outnumbering Herefords and Shorthorns combined by eight loads. In 79 loads of yearlings, there were 46 loads of blacks, 20 of whitefaces and 13 of Shorthorns. Herefords led in the two-year-old class with 17 loads. There were 14 loads of Angus and two of Shorthorns. One of

the notable features was the smoothness of the two-year-old Hereford exhibit. . . .

I. F. Brown and Walter Hesselbacher of Chicago made awards in yearling and two-year-olds respectively. In the two-year-old Aberdeen-Angus class E. P. Hall took first and John Hubly second. Hall is an artist in fitting two-year-old steers and was at his best this year. . . . This Angus class of two-year-olds was undoubtedly the best ever shown at Chicago.

There were 17 loads of Hereford two-year-olds, Foster Eros., the veteran Earlham, Ia., feeders, taking first prize. . . . Absence of lumps and patches was conspicuous. Below the awards there were several loads of finished cattle and some that had no place in a show yard.

Two loads of Shorthorn two-year-olds were top market cattle. Brown Hitt of Grove Park Farms, New Berlin, Ill., won first with a load of steers picked up on the Kansas City market, obviously not a sphere for securing prize-

winning material, and yet they possessed quality. Hitt, as usual, did a good job in the feed lot. . . . Forty-six loads of Aberdeen-Angus gave the judge a strenuous task in the yearling class, which developed Hall's grand champion load. With his usual formidable string of cattle he also secured third and seventh places. . . . A better class of Angus yearlings from top to bottom never scored before a judge in this arena. Outside the prize money there were several loads good enough to suggest hairline finishes.

In the yearling Hereford class Henry Hortenstine, Gays, Ill., a regular market topper, produced a load of Herefords

bred by Crews of Texas that went to the front. Twenty were shown, Hortenstine taking first and fourth. Dan Casement, Manhattan, Kans., another veteran showman, was second with a load of superb Matador cattle that could have been placed first without warranting criticism. . . . This class of whiteface yearlings demonstrated results of the constructive breeding campaign to develop Herefords of the killer type.

Twelve loads of Shorthorn yearlings were shown. Here again Hortenstine furnished a sensation with a drove of superb bullocks bred by Joe Winkler, Castle Rock, Colo., which were second prize calves at the last Denver show. It demonstrated that the Shorthorn has a legitimate place in what is popularly known as "the range," a term applicable in the strict sense to a vanished condition, as western cattle are now grown under favorable physical conditions within the security of fenced pastures. Hortenstine secured first. . . . Hall won both the yearling

**W. Hesselbacher**  
Judge

and two-year-old age championships and the grand championship trophy with yearlings.

The crowd on the overhead board walk was the largest in half a decade, indicating renewed interest in the outdoor feature of the International. This interest was undoubtedly stimulated by a high-flying fat cattle market. The Shorthorn exhibit was the best in many years, disclosing several outstanding loads, but the breed would not suffer by further effort on the part of breeders who have from the inception of the contest failed to sense its importance from a promotion standpoint. Both Angus and Herefords never appeared to better advantage both from a quality and condition standpoint.—The New Breeder's Gazette.

Perhaps a few remarks as to how the champion load was fed will be of interest to readers. Mr. Hall, as everyone knows, buys the best calves each year that he can find. This is the background for his success. Next, he is a scientific feeder and looks well after the diet of his steers. His close application to administration of feed places him in position to change the ration as he deems best from time to time. These particular calves were started last fall on shelled corn, oats, alfalfa hay and oil meal. They were getting about a pound of oil meal a day when they were turned out to pasture the middle of

last December. Mr. Hall maintains a set of luxuriant pastures on pleasingly rolling land and keeps his cattle in the open the year round, for he feels that they do much better when grown and prepared to battle with the elements on their own account. About August 1st they were taken up and placed in a dry lot where plenty of shade abounds.

At this time they were placed in the barn for a short time in order to gentle them and for the improvement of their coats, in other words, to soften the coats. Some six weeks later they were sorted and the original selection reduced to about half its number. These twenty-three head then served as the group from which the grand champion load was to be selected.

The finishing feeds were shelled corn and clover hay, with two pounds of linseed oil meal, one pound of cotton seed meal, two pounds of Champion Mo-Las-Cotn meal and three pounds of ground barley per head per day. In addition a constant supply of Moorman's cattle mineral was before them.

Mr. Hall is a truly Doddie fan, for he maintains a herd of breeding cattle as well from which he selects as many steers as possible and then goes out and buys the rest.—The Aberdeen-Angus Journal.

 Grand Champion Carload of 15 Head Grain-Fed Steers or Heifers (of Show) if Aberdeen-Angus

E. P. Hall, Mechanicsburg, Ill.

#### SWENSON SPECIALS

Swenson Bros., Stamford, Tex., duplicated all prizes won by "S. M. S." cattle in the regular classes.

## FEEDER CATTLE

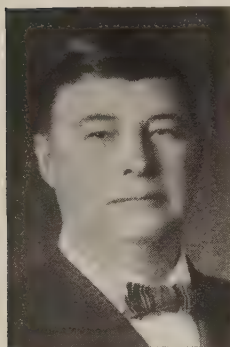

As usual, the stock cattle show was small but meritorious. A. M. Mitchell, Hecla, S. D., won grand championship on a load of Angus calves that were typical of the breed. Mitchell is a consistent showman who during the history of this contest has been absent but one year, 1926. He has demonstrated that in the scheme of western cattle production the Aberdeen-Angus have a legitimate place. In the western section, J. E. Cecil, Sheffield, Ill., showed the only load, Herefords. In the calf class Mitchell was first with Angus; John Hubly, Mason City, Ill., took second and fourth prizes with Angus; Stanley R. Pierce, Creston, Ill., secured

In the eastern section, John Hubly was the only exhibitor, showing Angus calves grown on his Illinois farm. . . . Awards were made by Harry Schirding, Petersburg, Illinois.

Mitchell's grand champion load of calves realized \$15 per cwt. in the sale. It went to Fred Herr, Mendota, Ill. Twelve carloads of steer calves sold at a range of \$11.25 to \$15 per cwt.; two carloads of heifer calves at \$10 to \$11.25 and one carload of steer yearlings at \$12. The average price of the 12 loads of steer calves were \$12.69 per cwt.—The New Breeder's Gazette.

**AUCTION SALE CARLOTS OF CATTLE**

The International Grand Champion steer, California Stamp, exhibited by the University of California, and led into the auction ring by Herdsman Alex McDonald, sold at \$2.35 a pound. He weighed 1,070 and dressed out 67.4%.

The Grand Champion carload of the show, Angus yearlings, exhibited by E. P. Hall, brought \$45.50 a cwt. The load averaged 1,068.

The cattle in the carlot show are meeting with a good demand, railroads and hotels being large buyers. Col. P. M. Gross of Kansas City is doing the selling. Of the first 30 loads through the ring only five sold under \$20.00 and none under \$19.00.

The 2-year-old steers brought \$19.00 to \$25.50, the latter for the Hubly twos that went to the New York Central

**CLASS 248**

1st R. T. Glassco, (County Agent), Janesville, Wis.

railroad. Hall's champion twos went to the Palmer House, Chicago, at \$25.00.

Yearlings ranged from \$19.25 to \$25.00, exclusive of the champion load. The Hubly Angus yearlings, second in their class, brought \$25.00, going to the Pennsylvania railroad.

Railroads in the market for cattle included the two named, and in addition the Burlington, the Illinois Central, Fred Harvey System for the Santa Fe, and the B. & O. Of the first 30 loads sold an even dozen went to the roads named. Most of this demand was for yearlings, the New York Central alone seeming to prefer the heavier cattle.

A good crowd thronged the ring when the Grand Champion steer was led in. Cattlemen almost without exception said he was the best steer they had ever seen, and that is

GENERAL VIEW AT AUCTION SALE OF CARLOT CATTLE

what the judge of the steer show, Walter Biggar, said when he was introduced from the block.

The bidding started at 50 cents, jumped to \$1.00, and then to \$1.25, where it hung fire for a long time. Finally the ice was broken, and the bidding moved slowly, mostly a nickel at a time, to \$2.35, where the steer was knocked down to the bid of Fred S. Wolffs of the New York City Packing and Provision Company, Chicago. Mr. Wolffs has been an active bidder in the auctions of the past two years, setting the champion steer carcass record at \$7.00 a pound two years ago.

E. P. Hall's Grand Champion Angus yearling load started at 25 cents and moved quickly to 41 cents on a bid by Tom Cross, where it stopped, and looked as though it might not start again. Finally Eli Pfaelzer came back in and took the champions for \$45.50, for McCann & Co., of Pittsburgh.

Mr. Pfaelzer was an active bidder for this same company two years ago, and helped to establish the record prices of that year. The McCann people have a large provision business and extensive retail markets. . . .

Railroads came to the front again in the sales of carloads of fat show beeves and were an important factor in rolling up the splendid average of \$20.70 per hundredweight on the 112 show loads sold.

Besides the nine leading railroads, all of which purchased loads at good prices, and hotels, provision companies with the leading packers created a demand which made a peppy auction from start to finish.

Included among the hotels was the Palmer House of Chicago. Swift and Armour, however, were the largest buyers, with the Pennsylvania System and New York Central the next largest, respectively.

The 60 loads of Angus offered sold at an average of \$21.27, the highest, followed by the Shorthorns, which made \$20.09 on 14 loads, and the Herefords, with 38 loads averaging \$20.03.—The Chicago Daily Drovers Journal.

Col. P. M. Gross in opening the auction paid the following tribute to Mr. Leavitt:

### Tribute to the Late Wellington Leavitt

"There is a man missing from our sale today who has passed to the Great Beyond and who is missed as much as any other man could possibly be who has ever been associated with our Great International Show. A man who was everybody's friend.

"I cannot recall the time that I ever made an appeal to him to give me another bid for any feeder, or boy, or girl, when I felt it was deserving, that he did not respond. Something that can be said of but few men.

"He is not only missed by me and the feeders who have cattle in this sale, but is missed by his competitors.

"I think it would only be a fitting tribute to a man like our beloved Billy Leavitt, who spent years with Swift & Co. as their head buyer in the cattle end of the industry, that I at this time ask everyone present to remove their hats and bow their heads for five seconds in respect to his memory."

Aberdeen-Angus Yearlings. Owned by E. P. Hall, Mechanicsburg, Ill.

## SHEEP DEPARTMENT

D. M. Stack  
Supt.

In the opinion of many old exhibitors and breeders, the present sheep show was the best all-around and balanced competition that has ever been staged at Chicago. Not only were the numbers far in excess of last year's totals, but there was a higher general standard of quality with fewer wagging tail ends. An unusual amount of interest was manifested at all times in the judging at the sheep barn. It would seem that sheep are coming more and more to be valued as a meat animal in the United States. If

the people of the large cities could be educated to a liking of mutton and lamb, there would be unlimited possibilities in sheep husbandry in this country. There is plenty of evidence that the sheep is coming into its own. This fact alone has meant a great stimulus to breeders of sheep, who every year are improving their mutton and lamb qualities. The over-fat, flabby, coarse-fleshed and heavy weights are almost a thing of the past. The neat, symmetrical, blocky, fine fleshed animal of small size is taking its place. Breeders and feeders are realizing, too, that there is a greater return in the small animal which fattens quickly and early.

In all classes it appeared that there was a greater degree of uniformity than in previous years. \* \* \*

All the important wool and mutton breeds were brought forward, though the Shropshires, Hampshires, Southdowns and Rambouillets formed the strongest classes. As was demonstrated the Southdown has, as yet, no very serious competitor in the matter of fat lamb production. The Shropshires are running them a good second and even outdoing them in some parts of the country. In the west, the Hampshire is fast gaining ground for crossing on to the western ewe out of Rambouillet breeding with Cotswold. Though no competition is provided for it, the Corriedale is attracting greater attention, especially in the west and Ohio, where some 50 head were recently imported from New Zealand. They have gained favorable attention. Two exhibits at the International from the ranches of King Bros., Wyoming, and The Corriedale Sheep Co., of California, attracted much notice on account of their size and dense wool covering.

Notable judges had been retained. They had many tough propositions brought before them, but they decided them with the utmost of good faith and judgment.—The Iowa Homestead.

The efficient management of this department was largely due to the continued experienced supervision of Superintendent D. M. Stack, who was again ably assisted by Professor A. K. Mackey, College Station, Texas.

## THE SHROPSHIRE

J. G. Hanmer  
Judge

The Shropshire show was one of the best seen at the International in years. The sheep were uniformly good and were well-fitted. Judge J. G. Hanmer, Ames, Ia., worked carefully and accurately and did a good job. The five aged rams were topped by a massive ram of good type shown by Jess C. Andrew. This ram was champion at the Ohio and Indiana State fairs. Greatwood Farms won second place on the ram which was champion at the Eastern States Exposition. Third went to Chase Bros. on a thick ram with plenty of type.

In the yearling class of 14 Greatwood swept the first three places with imported Buttar rams of wonderful type and fleshing. An excellent lamb class of 15 was topped by another Greatwood entry. He was an American-bred lamb with a good fleece and plenty of fleshing. A good Scripps lamb stood second, closely followed by Belvoir, Gurney and McKerrow. Because of their uniformity the Greatwood pen defeated the good lambs shown by the University of Minnesota. The championship was awarded to the yearling, with the aged ram as reserve.

The yearling ewe class of 21 was headed by a beautiful half dozen. The winning Andrew ewe was wonderfully thick and deep, with wool all over. She was first at Ohio and champion at Indiana. The Belvoir ewe in second place was almost ideal in type. In third place stood a beauti-

fully-fronted McKerrow ewe, closely followed by an Illinois ewe that was very smooth and evenly turned. The thirty ewe lambs made a beautiful class. An Andrew lamb won first, with Greatwood second and the Penn State College third. The undefeated pen of ewe lambs, shown by Greatwood, again won first honors. These lambs and the ram lambs were all sired by the same ram, a Buttar ram. Iroquois won second and the University of Minnesota third. Because of her superior development the yearling was awarded the championship with the lamb as reserve. The Greatwood champion ram headed the first prize flock. Andrew stood second and McKerrow third. Three beautiful yearling ewes from the McKerrow flock headed that class. The shepherd's prize was won by Joe Mumford and second was awarded to Tom Bradburne.—The American Sheep Breeder & Wool Grower.

"It has been my privilege to observe with interest the exhibit of Shropshires at the International for twenty-seven years and on several occasions to act in the capacity of judge," stated Mr. Hanmer, "and I cannot comment too highly on the quality of the Shropshires competing for the laurels this year and my regret has been that the number of premiums and ribbons have not been sufficient to do honor to the exhibitors who placed excellent individuals in the show yard from many states, Great Britain and Canada. I would mention particularly the yearling ewe and ewe lamb classes. The latter class certainly was phenomenal, the equal of which has not been before a judge at this show in twenty-seven years. In conclusion I might say that in number and quality the Shropshire show has not been excelled at any previous International."

**SHEPHERDS' PRIZES**

A friend of the "International" who wishes to reward superior skill, fine judgment and faithful devotion to duty on the part of the shepherds in preparing exhibits, offers two prizes, one of \$35 and another of \$15 to the shepherds fitting and exhibiting, respectively, the best and second best flocks of three American bred Shropshires, any age, shown in the recognized Shropshire classes. General conditions and shearing alone to count in the awarding of these prizes.

1st	Joe Mumford (Iroquois), Cooperstown, N. Y.
2nd	Tom Bradburne (Andrew), West Point, Ind.

**CHAMPION SHROPSHIRE EWE, 1927, 641380**  
Owned by Jess C. Andrew, West Point, Ind.

## THE HAMPSHIRE

**E. F. Rinehart**  
Judge

The official awards in the Hampshire sheep breeding classes were made by E. F. Rinehart of Boise, Idaho, who commented as follows on the entries brought before him:

"All sections of the country were represented with the best flocks, winners in their respective regions. Ring-side sentiment was that there have never been as many good Hampshires meeting in competition at one time. Only at the National Ram Sale do as many good rams get together and the rings of sheep competing at one time would have commanded top prices at auction. The show was of such quality that it took an outstanding indi-

vidual to get into the money. It may be that better individuals have been produced than headed the classes to the third and fourth places but if so they have been kept in obscurity. In most classes those placed in the awards would have been worthy of being grand champions in the state fairs of the different districts.

"In the aged ram class the Straloch farm entry defeated the Hamilton ram on account of scale and thickness. Competition for first place among the twelve yearling rams narrowed to entries from Thousand Springs Farm and the Mount Haggin flock. The former winning on massiveness,

thickness and scale though the latter had better style. Nineteen ram lambs made one of the strongest classes of the show. It was headed by a Thousand Springs Farm lamb that in uniformity of conformation, evenness of body, balance and type makes him one of the best lambs of the year. However, he was closely crowded for first honors by a Mount Haggin entry, while all of the lambs which placed were worthy of heading the best American flocks. More good individuals appeared in this ring and to win it took a lamb of such type and quality as to place him at the head of all the rams at the show, winning the championship over the older contenders.

"The ewe classes were large and the quality good. The yearling ewe class of eighteen was headed by a well balanced ewe with scale, evenness of covering and of the type put up in the ram contests. Twenty-two ewe lambs made a class which in numbers, quality and close competition was a repetition of the ram classes. The top lamb was found in a Mount Haggin entry and the winning of this class required so outstanding an individual that it afterwards went on to the breed championship.

"The outstanding characteristic of the Hampshire show was the large numbers of uniform type appearing. The encouraging feature of the show was that most of the animals in the ring were of the types that have proven most useful in developing the mutton lamb on the range, a place that the Hampshire has won throughout the West."

**THOUSAND SPRINGS CUP**

Mrs. Minnie W. Miller, Thousand Springs Farm, Wendell, Idaho, offered a cup for the best pen of five ram lambs, to be bred and grown by exhibitor. Cup must be won three times or twice in succession.

Won in 1923 by A. R. Hamilton.  
Won in 1924 by Thousand Springs Farm.  
Won in 1925 by A. R. Hamilton.  
Won in 1926 by Straloch Farm.

**SHEPHERDS' PRIZES**

Offered by American Hampshire Sheep Association for three best-fitted and trimmed ewe lambs or three best-fitted and trimmed ram lambs, shown at 1927 International. Sheep shown to be bred and owned by the contesting shepherd or his employer. Only one shepherd from any one farm or flock to compete for these prizes. 1st, gold medal; 2nd, silver medal; 3rd, bronze medal.

1st Thomas Drummond (Mt. Haggin), Anaconda, Mont.  
2nd Jess Loder (Thousand Springs), Wendell, Idaho.  
3rd Thomas McKenzie (Straloch), Davis, Calif.

## THE OXFORDS

**Duncan Johnson**  
Judge

The show of breeding Oxfords furnished real competition and the type was all that could be desired according to Duncan Johnson of Appin, Ontario, Canada, who made the official awards.

Iowa State College had the champion ram in the leader of the aged class of four entries while George McKerrow & Sons Co. took the reserve championship on their winner in the yearling class of eight. Fourteen ram lambs were headed by a Canadian contender from the flock of R. Russell Fleming of Ontario, which later, with two pen mates, stood first in the group contest for ram lambs.

Allendale Farm of Illinois came to the front in a field of fourteen yearling ewes and carried off the blue ribbon. Fleming came back in the large ewe lamb class of twenty with an outstanding individual which defeated the Illinois contender for the championship. This flock duplicated its winning in the three ram lamb class by carrying off first in the ewe lamb group contest and climaxed its efforts by capturing the premier flock honor.

## THE LINCOLNS

Wade Toole  
Judge

According to Professor Wade Toole of the Ontario Agricultural College, who again served as judge of the Lincoln breeding classes, the show brought out some excellent individuals, the champion ram was outstanding and keen competition was furnished in the yearling ewe and ewe lamb contests.

A trio of aged rams were headed by an entry from the H. T. Crandell flock of Cass City, Michigan, which later was awarded the breed championship. H. M. Lee, Highgate, Ontario, Canada, captured first place in a ring of four yearling rams and again among five ram lamb entries, receiving the reserve championship on his lamb.

In the ewe contests Lee had the champion in the leader among eight yearlings while Crandell took the reserve championship on the winner in a field of eight lambs. Lee was awarded premier honors in all of the group classes with Crandell as runner-up in each case.

## THE COTSWOLDS

**M. H. Thornton**  
Judge

According to Judge Monte H. Thornton of East Lansing, Michigan, the show of Cotswold sheep this year was the best since the 1919 International, possibly not in numbers but far better in individuals in all of the classes.

A ring of seven aged rams produced the champion of the breed in a member of the E. B. Moore flock of Sheridan, Indiana. The reserve championship went to the winner among the seven yearlings, an entry exhibited by Chas. J. Shore of Glanworth, Ontario, Canada. The Canadian flock also captured the purple ribbon in a class of eleven ram lambs and the premier honor among four groups of ram lambs.

Twelve yearling ewes and fifteen ewe lambs were headed by Shore entries, the championship going to the yearling. The Canadian sheep also stood first in the contests between four groups of ewe lambs and five flocks from Ontario, Michigan, Indiana and Oregon.

## THE SOUTHDOWNS

**C. G. Potts**  
Judge

After Judge C. G. Potts of the U. S. Department of Agriculture, Washington, D. C., had tied the final ribbon he summarized the show as follows: "This year's Southdown exhibit was one of the best in the past ten years. The ewe classes were especially strong. The class of ewe lambs was the best I have ever seen in the ring at the International. The stock was uniformly well fitted and shown and I think the breeders are to be congratulated on the showing which they have made."

Ohio State University drew first blood in a field of five aged rams. Seven yearlings produced the champion of the breed in an imported ram shown

by Robert McEwen & Sons, of Ontario, which was out-

standing and had little trouble in successfully meeting all competition. The McEwen flock again scored in the ram lamb class of twelve with an animal of their own breeding which later became the reserve champion. With this individual as a nucleus the Ontario entry captured the blue ribbon in the ram lamb group contest.

John D. Larkin, Inc., of Buffalo, N. Y., brought out a sweet, breedy ewe carrying considerable flesh which topped the ring of eleven yearlings and could not be denied championship honors. A large class of twenty-one ewe lambs presented a strong show with first honors going to an entry from Mountain Farm of Bradstreet, Mass., which was given the reserve championship.

The McEwen flock came back for another victory in the ewe lamb group contest but was forced to give way to Mountain Farm when the flock class was called and the Southdown Sheep Society of England Cup awarded amid the enthusiastic applause of the spectators.

Awards	51274	—John D. Larkin, Inc., Buffalo, N. Y.
Reserve	53928	—Mountain Farm, Bradstreet, Mass.

### CLASS 60 Three Ewe Lambs

1st		—Robt. McEwen & Sons, London, Ont.
2nd	53940-53945-53924	—Mountain Farm, Bradstreet, Mass.
3rd		—University of Minnesota, St. Paul, Minn.
4th		—John D. Larkin, Inc., Buffalo, N. Y.
5th	54574-54581-54583	—University of Illinois, Urbana, Ill.

### CLASS 61

Flock, to Consist of 1 Ram Any Age, 2 Yearling Ewes and 2 Ewe Lambs

1st	—Mountain Farm, Bradstreet, Mass.
2nd	—Robt. McEwen & Sons, London, Ont.
3rd	—John D. Larkin, Inc., Buffalo, N. Y.
4th	—University of Illinois, Urbana, Ill.

### SOUTHDOWN SHEEP SOCIETY OF ENGLAND SPECIAL

In order to further the interests of the breed in the United States the Southdown Sheep Society of England offers a Silver Challenge Cup, value 25 guineas, for the best flock (one ram, two shearling ewes and two ewe lambs) of pure-bred Southdown sheep exhibited at the International, belonging to a member of the American Southdown Breeders' Association. Cup to become the property of exhibitor winning it three times in succession, or five times at intervals. This Society will also give a silver medal to the winner each year.

Won in 1923 by John D. Larkin.  
 Won in 1924 by Robt. McEwen.  
 Won in 1925 by John D. Larkin.  
 Won in 1926 by Robt. McEwen.  
 Won in 1927 by Mountain Farm.

## THE CHEVIOTS

W. W. Wilson  
Judge

Judge W. W. Wilson of Muncie, Indiana, tied the ribbons in the Cheviot breeding classes. He remarked: "While the show was light it was a very good exhibit. The champion ram was a very fine yearling and the champion ewe was also a yearling of very good type."

The University of Kentucky with only a single entry headed the yearling ram class and captured the championship of the breed. Keith B. Clark, Clark's Hill, Indiana, took all the other prizes and was given the ewe championship on his yearling over his lamb.

 Owned by Keith B. Clark, Clark's Hill, Ind.

## THE DORSETS

Arthur Danks  
Judge

Judge Arthur Danks, Allamuchy, N. J., who again awarded the ribbons in these classes, stated: "The Dorset show was very uniform, the tops being of unusual quality, particularly in the lamb classes. The champion ewe was one of the best types of the breed I have ever had the pleasure of handling."

The New Breeder's Gazette reports: "Fillmore Farms, Bennington, Vt., lost only one first in the Dorset show. Chase Bros., Willow Lake, S. D., were their strongest competitor, winning the yearling ewe class and champion ewe. She was an excellent type, smooth and breezy. The undefeated Chase ram in the aged class took second in this show; while he was large and smooth, yet the Fillmore aged ram felt better under the judge's hand. The Fillmore aged ram was champion. The show was up to standard in numbers and there were less tail-ends than during some years past."

## THE LEICESTERS

**John Wright  
Judge**

Judge John Wright of Chesley, Ontario, Canada, made the awards in a light but very good quality show of breeding Leicesters. Humphrey Snell of Ontario captured all of the first prizes and championships with H. T. Crandell of Michigan as runner-up. Both the ram and ewe royal purples were awarded to the yearling entries and the reserves to the lambs. The champion ram stood second in his class at the 1926 International.

**THE CORRIEDALES**

The Corriedale show was contributed from the flocks of King Bros. Co., Laramie, Wyo., and the Corriedale Sheep Co., of Davis, Calif. According to C. G. Potts of the U. S. Department of Agriculture, Washington, D. C., who officially awarded first honors to the Wyoming exhibit, the display was composed of the best individuals ever seen at Chicago. He prophesied that this breed is destined to be one of the more popular in the country in the near future.

**Best General Exhibit of Corriedale Sheep****Awards**

- 1st King Brothers Company, Laramie, Wyo.  
 2nd Corriedale Sheep Company, Davis, Calif.

**TYPE OF CORRIEDALE RAM**

## THE RAMBOUILLETS

**John E. Webb**  
Judge

"According to Judge John E. Webb of Indianapolis, Ind., the Rambouillet show was very good. The ringside comment was that it was the best show seen at the International in years. Eleven excellent aged rams made up the first class. They were all in good show condition. The winning ram shown by King Brothers had a fleece of wonderful character that was uniform throughout. This ram was champion at the Royal and has never been defeated. The Madsen ram in second place was champion in Utah and in Portland. The third prize Bullard ram won first at the International as a lamb and stood second as

a yearling. Arn showed an excellent sheep in fourth place. All of these sheep were excellent examples of the work of the master breeder. Sixteen yearlings made up a good class. The Madsen ram in first place was a large thick ram of good character. Purdue University won second and the University of Illinois third on grandsons of Satan. The Arn ram in fourth place was first at Ohio and at the Royal and second at the Indiana State Fair. A good lamb shown by the University of Illinois topped a large class of 22. Bullard won second on a lamb with lots of type. Because of his wonderful scale, development, type and fleece, the King aged ram defeated the Madsen yearling

and Illinois lamb for the championship. Madsen's uniform pen of ram lambs defeated the Illinois pen for first place. The Bullard pen ranked third.

A large class of 19 yearling ewes was headed by a thick, smooth ewe shown by Purdue University. Following closely was a good ewe shown by the University of Illinois. The ewe lamb class of 25 varied considerably in type. Some were quite smooth while others showed many wrinkles. The King lamb which won first was the smallest lamb in the class. She was a May lamb and had a real fleece. The Ellis lamb in second place was larger with not quite so good a fleece. The uniform pen shown by King Brothers won first with Madsen second and the Oklahoma College third. The yearling ewe won the championship. The King flock headed by the champion ram won first over the Purdue flock which included the champion ewe."—The American Sheep Breeder and Wool Grower.

## THE FAT SHEEP DIVISION

In keeping with International traditions, much interest was manifested in the show of fat wethers, in which the lambs vastly outnumbered the yearlings. Over 250 animals were brought into the ring, the Southdowns leading with 70 head and then followed by the Hampshires and Shropshires with about 40 each.

Many of the wethers were overfitted and in such cases were not placed high in the scale of awards. The judges were on the lookout for hard, smoothly finished specimens with good symmetry and conformation.

The grand champion wether of the International went to the North Dakota Agricultural College with a 150-pound lamb which was perhaps a little too large for a choice quality lamb. The lamb was fitted by the college shepherd, C. W. Morrow, first on sweet clover and broom grass pasture and later on oats, bran and linseed oil meal. Alfalfa

hay for roughage was the only other food it received.

The reserve grand champion went to the Iowa State College with a fine blocky, neat and attractive Southdown yearling fed by G. Uhl, the college flock master. During the summer he went on rape and grass with a little oats and barley sown as a mixture. The grain ration after the hot weather consisted of corn, oats, barley, bran and linseed oil meal.

The Iowa State College was the outstanding exhibitor of the fat show ring. Again the college has demonstrated its superior animal husbandry in preparing stock for the show ring. Many old exhibitors at the show missed the personality of Frank Kleinheinz, veteran shepherd from Wisconsin. We are indeed sorry to learn that he has been afflicted with a serious illness which prevented his attendance at Chicago this year.—The Iowa Homestead.

## THE SHROPSHIRE

In this breed, Judge E. L. Shaw, of Ashley, Ohio, uncovered a wether which later in the day was to be crowned as grand champion wether of the show. This was the wether lamb, bred and exhibited by the North Dakota Agricultural College. He headed a large class of 21 lambs because of his superior finish. In second and third place stood two good lambs from the West Virginia University. This was the first year for West Virginia to show at the International, and the second for North Dakota. The 15 yearlings were headed by an excellent wether shown by Jess Andrew. He was thick and meaty and a good killer, and the lamb had some difficulty in defeating him for the championship. Belvoir Stock Farms won second, with Iowa placing third and fourth. The uniform pen from North Dakota won first over the West Virginia entry, with a good pen from Kansas standing third.—The American Sheep Breeder and Wool Grower.

## THE HAMPSHIRE

"The yearling class of fifteen Hampshire wethers was strong with well finished sheep of the breed type," stated Judge E. F. Rinehart of Boise, Idaho. "The first prize yearling from the University of Kentucky was well and uniformly covered and went to the top on this point. The second prize yearling was typy but lacked the mellowness of the leader.

"Twenty lambs furnished strong competition. An entry of the Straloch Farm went to the top on type with a University of California lamb in second place and a close contender for first honors. A lamb from Thousand Springs Farm was the best handling and evenly covered individual in the lot but was placed third because of lack in width, a point in which the Straloch lamb excelled.

"The University of Kentucky won the pen contest in a field of six groups with a trio of typy lambs. The championship brought out two strong wethers. The yearling was evenly covered but lacked the stretch and uniformity of width shown by the Straloch lamb which consequently was awarded the purple ribbon and the yearling made reserve champion."

## THE OXFORDS

The fat Oxfords were judged by Duncan Johnson of Appin, Ontario, Canada, who stated:

"The Oxford wethers made a real good show. The yearlings were the best I have ever seen at the International not only for fleshing but the breed type standard was all that could be desired. The first prize lamb was a wonderfully thick individual but the yearling outclassed him on type and was a little better fleshed over the shoulder."

Four yearlings answered the call and eighteen lambs. Six pens found a leader in a uniform group from the Chase Brothers flock of Willow Lake, South Dakota. In the final round the yearling from Iowa State College was awarded the championship over Chase Brothers' lamb.

## THE COTSWOLDS

Oregon, Kansas, Michigan and Ontario flocks contributed the fat Cotswold show. Chas. J. Shore of Glanworth, Ontario, made a clean sweep of the blue and purple ribbons, winning the championship on his yearling contender. Five yearlings, six lambs and two pens answered the call.

In the words of Monte H. Thornton, East Lansing, Michigan, who tied the ribbons, "The Cotswold wethers were not as numerous as have been shown in the past but they were up to the standard of former years and the champion was an outstanding sheep."

## THE CHEVIOTS

"Judge W. W. Wilson, Muncie, Ind., was confronted with a good show of Cheviot wethers. The University of Kentucky won all firsts and champions on wethers bred and exhibited by the University. The winning yearling was second last year as a lamb. The winning lamb defeated the yearling for the championship. The mother of this lamb is a twin sister to the champion wether last year. He was the best Cheviot lamb ever shown at the International. Keith Clark showed an excellent yearling in second place. In the lamb class another Kentucky lamb stood second, with a thick lamb shown by Helms Bros. in third place. The Kentucky pen of lambs had little trouble in defeating the other two entries."—The American Sheep Breeder & Wool Grower.

Judge Wilson commented as follows on the show: "The yearling wethers were a very good class. The top two wethers were very evenly matched, the first prize winner being of a very fine type and plenty forward while the second prize animal was not quite forward enough. The lambs were also excellent. An outstanding lamb both in breed type and condition was easily the champion of the show."

## THE DORSETS

According to the judge, Arthur Danks of Allamuchy, N. J., the Dorset wether classes were very good, the first prize yearling that became champion being one of the best specimens of the breed he ever handled.

Six yearlings lined up in the ring and were headed by a Vermont entry which was destined later to win the royal purple of his breed. Kansas State Agricultural College headed a class of ten lambs and was awarded the reserve championship. The six pens found a leader in an entry from Fillmore Farms while the Kansas College's group headed by its first prize lamb stood in second position.

## THE LEICESTERS

The fat Leicesters were judged by John Wright of Chesley, Ont., Canada, and representatives of flocks in Ontario, Michigan and Kansas were led before him for official rating. Humphrey Snell of Clinton, Ontario, who can always be counted upon to help make a representative show of this breed at the International, was successful in winning all of the firsts and championships. He was awarded the royal purple on his yearling which was the reserve champion at the 1926 International as a lamb. Judge Wright stated that he found the classes were real good.

## THE SOUTHDOWNS

Judge E. L. Shaw, of Ashley, Ohio, prepared the following statement for this review:

"The Southdown wether classes brought out some excellent sheep. The class of twenty-eight yearlings was one of the best ever shown at the International. The yearling exhibited by the Iowa State College was a real model and had no difficulty in going to the top. A wether owned by the University of Illinois was a very close second but not as good a balanced sheep as the winner. The third prize wether from the Iowa State College flock matched up nicely in that position. The first six or eight wethers looked good in the final line up but down the line a little more fitting would have made some more good sheep.

"The lamb class brought out a line up of thirty-seven lambs. There was more of a variation in this class than last year. The California lamb that headed the class had a beautiful top and handled good. The second prize lamb shown by Helms Bros. was a little smoother than the winner but not quite so firm in flesh. A number of extra good lambs stood down the line and a little more flesh would have changed the final line up. The yearling was better fleshed in all parts than the lamb and was made champion."

Five pens were headed by a trio from the University of California.

Owned by Iowa State College, Ames, Iowa.

## THE RAMBOUILLETS

"The Rambouillet wether show was the best ever seen at the International," stated Judge E. L. Shaw of Ashley, Ohio. "Iowa State College topped the yearling class of ten with an outstanding sheep which handled much like the medium wools. The second and third prize sheep were well fleshed but were not as smooth and evenly fleshed as the top animal. The University of Illinois first prize lamb in a field of thirteen entries handled much like the winning yearling. Purdue University stood second, third and fifth with their very good lambs, which were especially well fleshed. Purdue won the pen of lambs contest against California and Wisconsin. The yearling won the championship for Iowa State College. He was the outstanding wether of the breed."

The New Breeder's Gazette reports these classes as follows: "The most outstanding Rambouillet wether ever seen at the International was the champion from Iowa State College. He was bred by Texas College and exhibited by them at the International last year as a lamb. The top lamb from the University of Illinois was a good kind and nicely fitted. The entire Rambouillet exhibit from the University of Illinois was a distinct credit to their feeder and fitter, W. J. Hampton. The Purdue University lambs that stood two, three and five in class won the pen. They were large and fat."

Owned by Iowa State College, Ames, Iowa.

## THE GRADES AND CROSSBREDS

**E. L. Shaw**  
Judge

"The Grades and Crossbreds in the medium wools made an excellent showing," stated Judge E. L. Shaw of Ash-ley, Ohio. "The yearling class of twelve entries was headed by a well finished sheep from the Pennsylvania State College. This yearling was later made champion over the first prize lamb. Iowa state College landed entries in the second and third positions which lined up nicely with the winning yearling.

"Thirty-three lambs were headed by an especially attractive entry from the University of Kentucky. A little more fitting would have made this lamb a very strong contender. The

University of California's second prize lamb handled nicely while Chase Brothers had two very good lambs in third and fourth. Iowa State College won the yearling pen contest with a well matched trio and the University of Kentucky headed the lamb pen class with three well fleshed entries."

The champion yearling from Penn-sylvania was a grade Southdown and the reserve champion lamb from Ken-tucky was sired by a Southdown ram and out of a grade Hampshire ewe. The winning pen of Iowa yearlings were grade Shropshires while the first prize Kentucky lambs were a pen of grade Southdowns.

The long wool types of Grades and Crossbred sheep were judged again by Professor H. L. Garrigus of the Con-necticut Agricultural College who com-mented as follows on the classes: "A very creditable show was forward. They were the most even in quality in years, the lambs especially showing a better average condition. The championship went to a real good yearling."

Seven long wool yearlings were brought before the judge and the entry of Humphrey Snell of Ontario placed in the lead. H. M. Lee, also of Ontario, headed the ring of nine lambs, and captured both of the pen premier honors.

## THE GRAND CHAMPION

"It was about three-thirty when all breeds had been judged and Professor Mackey cleared the ring for the premier event of the day. Eight wethers, champions in their respective classes, elected to try for this honor. These were the Pennsylvania yearling grade, the Kentucky Cheviot lamb, the Straloch Hampshire lamb, the North Dakota Shropshire lamb, the Iowa yearling Southdown, the Fillmore yearling Dorset, the Iowa yearling Oxford, and the Iowa yearling Rambouillet. Judges Shaw and Garrigus handled carefully all of the wethers, held a consultation, and then selected the Shropshire lamb for the grand champion wether. Their decision met with approval that was universal. The Southdown was made reserve grand champion, but the Cheviot and the Hampshire had many strong backers.

"The grand champion wether was fitted by Chas. Morrow, shepherd at the North Dakota Agricultural College, under the direction of Prof. D. J. Griswold. These two men are to be congratulated for the wonderful success which they made. The lamb was sired by a University of Illinois ram, a prize-winner at the International. The lamb was dropped in March. He was weaned in July and was kept on sweet clover and brome grass pasture until the first of September. He was treated for stomach worms and feeding commenced about September 1. The grain ration consisted of oats, bran, barley, linseed meal, and a little corn. Alfalfa hay was fed, but at no time were any roots given. When he was shown the lamb weighed 140 pounds."—The American Sheep Breeder and Wool Grower.

The judges commented on the contest as follows: "The champion of all the breeds and of the Grades and Cross-breeds when lined up made a beautiful showing. After a careful examination the Shropshire lamb was given the grand championship. This lamb was a beautiful type, attractive conformation and especially well fleshed. The reserve grand championship went to the purebred Southdown

shown by Iowa State College. This was a beautiful wether, well fitted and a close second to the Shropshire lamb. The breed champions were all excellent wethers and a credit to their breeds."

**DRESSED CARCASSES OF SHEEP**

(Any Breed, Grade or Cross)

By M. D. HELSER, Superintendent

**Robert Lorimer**  
Judge

"None of these carcasses are too wasteful and all are pretty well finished," said Robert Lorimer of Evanston, Ill., who did a painstaking job of making the sheep carcass awards. They were very close—20 lambs and 20 yearling wethers. It was necessary to divide about ten carcasses into wholesale cuts in each class before Mr. Lorimer could make his final decision on the five prize-winners in each class.

In the yearling class Pennsylvania State College won first on a Southdown of correct conformation with a large, beautiful eye and especially well developed over the leg and loin. A grade Southdown shown by Robt. McEwen & Sons was placed second because it was just a little soft and did not show the quality or conformation found in the Pennsylvania entry. Iowa State College won third on a well-finished Hampshire. The eye was good

but the kidney was a trifle heavy. Connecticut Agricultural College won fourth over the University of Illinois on a Southdown of splendid mutton type; the Southdown from Illinois was just a trifle overdone.

In the lamb class the University of Wisconsin won first, second and fourth on three beautiful grade Southdown carcasses. The first-prize lamb was especially well balanced, with a beautiful eye and heavy hindquarters and well developed over the shoulders. "The second prize winner was the best-finished lamb for its weight I ever saw," said Mr. Lorimer. The carcass only weighed 29 pounds. It was not far enough along for the first prize. Third prize went to Helm Bros. on another beautifully fitted Southdown. A well shaped Southdown shown by Michigan State College was placed fifth.

The first prize lamb was made champion carcass and the first prize yearling reserve champion. The sheep carcasses were dressed and exhibited by Swift & Co.

The champion lamb carcass was purchased by John Clay & Co. at \$3 per pound. The reserve champion was sold to Pollack Bros. at 33 cents per pound.

## CARLOADS OF FAT SHEEP

**J. M. Horan**  
Judge

For the fifth time in six years Robert McEwen & Sons, London, Ontario, have been awarded the grand champion carload of lambs at the International. They faced the stiffest competition in the carload lots ever seen at this show when they downed 25 other carloads of sheep and lambs for the grand prize. Judge Joseph M. Horan of Chicago, labored hard and with painstaking care spent all of Monday afternoon making the awards in the various classes.

There were eight cars of lambs shown in the native classes, which was topped by the McEwen load. This gave them their first leg on the grand championship.

The McEwen lambs were purebred Southdowns and they were fed and fitted in the true Canadian fashion. Oats, field peas and linseed oil cake made up the concentrated ration. After the lambs were moved to the barn a bit of bran was added. Early in the season they grazed on red clover and alsike pasture; later the succulent feed was turnips, and for dry roughage alfalfa hay.

In the class of grade lambs from range ewes seven loads were shown and the Purdue Experiment Station, Lafayette, Ind., topped the class with a load of lambs fed a ration developed by them during past 18 years of lamb feeding. They were western lambs bred by the Swan Land & Cattle Co., Chugwater, Wyo., and received by the Purdue Experiment Station the latter part of August. During the very hot month of August the lambs grazed on soy beans and early in October went on a ration of shelled corn 4 parts, cottonseed

meal 1 part, corn silage and clover hay. On this ration these lambs made a gain of 24 pounds in 48 days. The average daily feed per lamb was concentrates 1.56 lbs., corn silage .66 lb., and clover hay 1.2 lbs. It took 305 lbs. of corn and cottonseed meal, 129 lbs. of corn silage and 234 lbs. of clover hay to make 100 lbs. of gain.

The fed western lamb class was won by W. C. Wilson Co., Burlington, Wis., with the Purdue Experiment Station second. Other outstanding loads of lambs were exhibited by C. J. Brodie, Stouffville, Ont.; W. G. Miles, Evansville, Wis., and Chase Bros., Willow Lake, S. D."—The Chicago Daily Drovers Journal.

## SALES OF CARLOTS OF SHEEP

The sale of carlot sheep and lambs embraced a total of 26 carloads. Eight loads of native lambs sold from \$14.50 to \$37.50 per cwt., the top figure being paid by Armour & Company for the grand champion carload, Southdowns, fed and exhibited by McEwen & Sons, London, Ontario. They averaged 85 pounds.

The lambs this year averaged \$18.40, against \$20.87 a

year ago when the grand championship lambs sold at \$68 per cwt., record price. The record average is \$22.60, established in 1919. Seven loads of grade lambs from range ewes averaged \$15.35. Five loads of western range lambs averaged \$14.30.—Live Stock Markets.

The entire twenty-six loads in the sale averaged 94 pounds and brought \$16.35 per cwt.

**CHAMPION CARLOAD OF SHEEP, 1927**

Owned by Robt. McEwen & Sons, London, Ont.

## SWINE DEPARTMENT

**J. M. Handley**  
Supt.

In spite of the lagging hog market this department of the Exposition enjoyed one of the most popular years in its history. This became apparent weeks before the show when the entries were received in such numbers that it was necessary to hastily provide additional pen room to accommodate the large increase in exhibits. All during the week the swine ring was the center of attraction for a large

gathering of visitors. The show merited all of the attention it received and Dean C. F. Curtiss of Iowa State College, Director in charge and Doctor J. M. Handley, Chicago, Superintendent, were congratulated upon the success of their efforts. While the breeding classes, as in the past, were moderate in size, they contained some of the leading winners of the year. Several breeders made their initial bow in the International judging ring, indicating that they realized the unusual opportunity for receiving favorable publicity through exhibiting at this show.

## THE BERKSHIRES

**E. J. Barker**  
Judge

The Berkshire show, especially the breeding class show, was one of the finest that has been brought out of high class animals for several years. There were many comments from the Berkshire breeders at the ringside and also from breeders of other breeds in regard to the improvement the Berkshires have made in their shows.

The premiums did not all go to one herd as they have many times but each of the different herds had some outstanding animals and won its share of the awards. The grand champion boar prize was won by Klondike Farm, Elkin, North Carolina, on a junior yearling boar, Upstart. Sycamore Farms won grand champion sow. The junior champion boar

and the junior champion sow were won by E. B. Moore, F. E. Kite & Sons, St. Paris, Ohio, won several first prizes, as follows: first senior yearling boar, first senior sow pig and many other prizes.

The judging was done in a very satisfactory manner, as usual, by E. J. Barker, Thorntown, Indiana, who has judged both the barrow and breeding classes at the International for several years.—The Berkshire Journal.

## THE POLAND CHINAS

**W. C. Anderson**  
Judge

The outstanding attraction of the Poland China show was the big three year old boar exhibited by Harris Brothers, Bussey, Iowa. This boar was smooth and sound, stood on good legs, with a strong back and deep body, was in just ordinary flesh and after being off feed for several days officially weighed 1145 pounds on the International scales. Size and quality were the outstanding characteristics of this good boar—the largest boar of any breed exhibited. He was made senior and grand champion by Judge W. C. Anderson of West Liberty, Iowa.

C. L. Hurless, Coleta, Illinois, exhibited fourteen head from his show herd that had won honors at many state fairs. Lucky Lindy was first in the class of junior boar pigs and was made junior champion boar of the breed.

Another attraction was the big smooth sows shown by G. L. Burgess, Bement, Illinois. One of these was senior champion of the breed. Mr. Burgess has established a

reputation at the Yards for producing the type of hog that appeals to the packers. The champion Poland China carload at the 1922 International was exhibited by Mr. Burgess.

One of the progressive young men in the Poland China ranks is James K. Hackett, general manager of Prize Acre Farm, Norwalk, Ohio. Mr. Hackett furnished competition in all classes, winning his share of ribbons, and was awarded junior and grand champion sow on his very typey senior sow pig.

## THE DUROC-JERSEYS

W. J. Fitts  
Judge

While the barrow show at Chicago is usually the big event, the breeding classes were well filled by three strong, well filled Duroc herds. In other words, the show was not large in numbers, but strong individuals headed the different classes.

McKee Bros. of Creston, Ia., had a full herd at the show, winning both grand championships as well as every first with the exception of three in the open classes. Both Joe Brown of Union City, Indiana, and the Muths of Aurora, Illinois, had full herds of strong entries and there was a real fight in every class.

Golden Gleam, McKee's junior yearling and champion of the show, was first prize pig, junior champion and reserve grand champion of this same show last year and by coming back and winning champion of the same show, made quite a record. He is a splendid junior, weighing close to nine hundred pounds, well balanced, with exceptional style. Their fall gilt, Great Col.'s Queen, placed first in the senior sow pig class and was

good enough to win junior and grand champion over older sows. She is outstanding.

Both Brown and Muth had exceptionally strong entries in the sow classes and made a good account of themselves. All three of these herds had been on the tan bark for a number of weeks, but showed in splendid condition considering the long season they had been shown.

Dr. W. J. Fitts of Gallatin, Tenn., one of the leading Duroc judges of the country, tied the ribbons to the entire accord of both exhibitors and ringside.—The Duroc Sentinel.

## THE CHESTER WHITES

Arthur Tomson  
Judge

The breeding classes brought out some of the best known prize winners of the state fairs. . . Great Colonel, a March pig was made grand champion by Judge Tomson, Wabash, Indiana. He was an extra good big-type pig with good length, big bone, curved back and a son of Colonel Again and Valley Monster. After the show the pig was purchased by Purdue University, Lafayette, Indiana. The reserve grand champion boar was Commander, the junior yearling owned and shown by Hickman & Son. Here was one of the outstanding prize winners of the eastern state fairs during the recent show season. He is a son of Comrade, the

grand champion boar of the National Swine Show this year.

The grand champion sow was Silver Belle, Stuart's aged sow that was undefeated at all the big shows this year wherever shown. Lady Monster, a daughter of Valley Monster, was reserve grand champion sow shown by Stuart. Glenny & Glenny had first prize junior sow pig on which they also won junior champion sow prize. Morehead had first prize aged boar and North Dakota Agricultural College first prize senior sow pig. Stuart had first prize aged herd and Morehead first prize aged herd bred by exhibitor.

### CLASS 67 Aged Boar

Awards  
1st 236389—Ray E. Morehead, Maquoketa, Ia.  
2nd —Albert H. Stuart, Newhall, Ia.  
3rd 253703—I. T. Hickman & Son, Marion, Ohio.

### CLASS 68

#### Senior Yearling Boar

1st 263465—I. T. Hickman & Son, Marion, Ohio.

## THE CHESTER WHITES

Glenny & Glenny had first prize young herd and also first prize young herd bred by exhibitor.

The International is better known for its great barrow show but each year there are some good breeding animals on exhibition. This time there were several good boars and good sows in the different rings, although the number of animals shown was not large.—The Chester White Journal.

**THE HAMPSHIRE**

The show of breeding Hampshires this year represented a decided improvement over 1926, both in the number of entries and in their general quality. . . .

It is to the interest of the breed that a lot more of the breeders get to shouldering their share of the responsibility. There were plenty of outstanding individuals this year, Hampshires which had been winning high places at the bigger state fairs and national shows had a better general average of quality than for some time.

The grand champion boar and grand champion sow awards both went to entries from the Oren herd. The grand champion boar, Royal Pat, from the aged class, is an animal of splendid type and individuality and with another year's growth should even show to better advantage next year. He is one of the best living representatives of the Cozy Lookout breeding that has given such wide advertising to some of the Ohio herds. The grand champion sow, B. B.'s Miss Equal Chance, was a prominent winner at all of the fairs where she was exhibited this fall, a senior yearling sow of excellent type and with a world of promise.

Junior championship among the sows went to Ann Look-out, a junior sow pig shown by Bert Turner and just a cracking good, breedy appearing young prospect she was. Turner Brothers showed the junior champion boar, Keystone Competitor, a well grown, sound and typy junior boar pig.—The American Herdsman.

T. A. Flenner of Ashmore, Illinois, made the official decisions in these classes.

## THE TAMWORTHS

**I. M. Reed**  
Judge

The official awards were distributed by Col. I. M. Reed, well known Tamworth breeder and auctioneer of Oska-loosa, Iowa, who commented as follows on the classes he judged: "The Tamworth show in general was the best from the standpoint of numbers shown and the quality of the animals that I have ever been privileged to witness, especially the junior animals. The Tamworths went over the top with more animals shown in the breeding classes than any other breed at the International. Taking the show of Tamworths as a whole, it was perhaps the most successful effort ever put forth by the breeders."

Smithson & Sutherlin Bros., Russellville, Ind., captured

the boar grand championship on their junior yearling, while the sow royal purple went to Guy W. Baker, Shelbyville, Ill., on a junior yearling entry. Baker won the reserve honor on his junior boar pig and A. E. Augustine, Rose Hill, Iowa, was awarded the similar sow title on his senior pig. The boar classes brought out thirty-eight contestants, while fifty-two animals took part in the sow classes.

## THE YORKSHIRES

**A. L. Anderson**  
 Judge

Arthur L. Anderson of Ames, Iowa, served as the official judge of the breeding Yorkshire classes in which breeders of the United States and Canada locked horns with the agricultural colleges. It was one of the best shows of the breed ever staged at Chicago and the competition was keen.

Cudahy Brothers Co. of Wisconsin captured all of the blue ribbons except one in the boar classes and was awarded the championships. Ohio State University with a single entry headed the junior yearling sow contest with an outstanding individual which later became the breed grand champion. J. E. Brethour & Nephews of Ontario, Can-

ada, drew the reserve grand championship on their senior yearling sow.

Cudahy Brothers came back strong in the group classes and carried off all of the first prizes except in the get of boar contest which was awarded to B. R. Jackson of Ohio.

In the words of Judge Anderson, "It was the strongest show of Yorkshire breeding hogs that I have seen at the International, and all classes were well filled with high class, good typed individuals."

## THE SPOTTED POLAND CHINAS

W. W. Smith  
Judge

"The show of Spotted Poland China breeding hogs was fairly strong," stated Professor W. W. Smith of Purdue University, who again served as judge of the spotted breed. "It was more uniform and averaged higher in type and quality than any previous exhibit of this breed at the International. The champion boar and the champion sow were both extra good specimens of their breed."

I. C. Lister of Pulaski, Iowa, was awarded both grand championships, the boar purple on his senior yearling and the sow title on a senior pig. James

H. Williams of Bryant, Indiana, was the runner-up in the boar classes with his junior pig, while R. G. Long of Findlay, Ohio, captured the reserve grand championship with his aged sow entry. The Lister herd carried off all of the blue ribbons in the group contests except in the produce of sow class, which went to the Williams contenders.

**THE NEWS BOY 118029**

Grand Champion Spotted Poland China Boar, 1927.  
 Owned by I. C. Lister, Pulaski, Iowa.

## FAT SWINE DIVISION

The feature of the barrow show was the winning of the grand championship by an Iowa breeder in the hottest kind of competition against the best that the colleges could bring forward. The removal of the weight limit met with a hearty response from those who advocated the showing of heavier barrows and resulted in what many authorities stated was the strongest display ever staged at Chicago.

In the words of Wallaces' Farmer: "The fat swine show was a dandy, both from point of entrants and quality of hogs shown. There was an increase in entries in all breeds, with the exception of the Berkshires, with a considerable

addition in numbers of Tamworths. The keenest competition was among the barrows of the Chester White and Poland China hogs, while the Durocs had a show of their own that brought out quality. \* \* \* All the champion barrows and reserve champions came from the heavy weight ranks of barrows. \* \* \* The barrow show exceeded expectations of the management, and so many hogs were on hand that accommodations were at a premium. If the show grows another year like it has in the past, additional quarters will have to be provided."

### THE BERKSHIRES

The winners in the Berkshire classes were officially designated again by E. J. Barker, of Thorntown, Indiana, who made the following comment on the barrow contests: "The show of Berkshire barrows at the 1927 International Live Stock Show was not quite so large as in 1926, but the quality was equal to any previous year of my judging at this great show, which is 10 years. The champion barrow, a medium weight shown by Iowa State College, was the equal in quality and finish of any barrow I have ever handled. The champion pen shown by Pennsylvania State College was in the light weight class, but more uniformity and finish were never shown by anyone. The reserve champion barrow was a heavy weight shown by Kansas State College and was the champion of the breed at the American Royal."

- Twenty light barrows greeted the judge, fourteen medium weights and seven heavy weights. In the pen contests

seven light weights, four mediums and two heavy groups competed. There were five entries in the get of sire class.

According to the Berkshire Journal: "The Berkshire barrow classes made a very nice show where several of the colleges had real barrows, which made strong competition. \* \* \* The barrows this year were more even and they certainly made a pretty sight when driven in the ring."

## THE POLAND CHINAS

One of the best Poland China barrow shows ever seen at the International Live Stock Exposition was judged by W. C. Anderson, West Liberty, Iowa. In the three individual classes 52 animals were shown, and seldom, if ever, has there been as much uniformity of type as these rings presented. Extreme types were few and far between. Finish characterized the exhibit throughout.

The removal of the maximum weight on the heavy barrows gave the Poland Chinas the first opportunity they have had in many years to show how many pounds of prime pork can be built upon four legs in a given length of time, and the class of 18 barrows weighing 350 pounds and up, and averaging around 500 pounds, has seldom been equalled in any show.

As usual, the show was made by the agricultural colleges, the Wisconsin, Minnesota and Iowa institutions leading. The Wisconsin college had some outstanding barrows, typey animals superbly fitted, and took first on the light and medium weights. They lacked suitable mates for these to enable them to score high in the groups. It is worthy of mention that both of the Wisconsin first prize barrows were pig-club pigs purchased from club members. . . .

Prof. E. F. Ferrin of the University of Minnesota, was in charge of a fine pen of heavy barrows, five of which were sired by The Bayonet and one by The Demo by The Index. This group won first on pen and furnished the runner-up for first-prize heavy barrow and champion barrow of the breed. It was in the selection of the first-prize heavy barrow that Mr. Anderson found his hardest task. It was evident from the out-set that the top barrow of the show would be found in this class. The choice for first place soon narrowed down to Iowa and Minnesota. Both entries had strong boosters at the ringside. The Iowa barrow was deeper, thicker, weightier, but carried a rough coat of hair that militated against his appearance. The Minnesota barrow was a model of smoothness and quality, admirably fitted and carried an excellent coat. The greater depth of the Iowa barrow was perhaps the point that finally gave him the blue ribbon, and later the championship. He was handled by H. M. Meneough, Grimes, Ia. This barrow was bred by Tom Berry, Belton, Mo., and was sired by a son of Liberator. He was later made reserve grand champion of the entire barrow show by W. H. Tomhave of Chicago, who selected the inter-breed champions.—The Poland China Journal.

## THE DUROC-JERSEYS

The Duroc barrow show, while not as strong as our breeders and colleges have shown, was better than for the last two years, and we believe the winning of a grand champion of the show by a breeder will stimulate Duroc breeders to take a greater interest in the coming shows. The elimination of the top limit in weight, which allowed the showmen to completely finish the fall barrows, was a great change for the better, as none had to be held back to keep within the top weight, and in these so-called "heavy weights" the visitors were able to find matured animals well finished. Many of these heavy weights were awarded the top prizes on account of the extra good finish they showed, and the International has made a stride forward in this change. Henry Matern, who judged the Duroc barrows a number of years, was back again this year and his placings were consistent and carefully done, and as always gave good satisfaction to the exhibitors.

The Duroc barrow show needs more attention from our breeders and breed associations, and concerted action should be taken to bring it back to the standard set some years back. While the colleges have always made the larger portion of entries in this department and probably always will, breeders should be interested from the standpoint of good business and bring up the best barrows they can produce. Well finished samples of your animals will always find admirers in this great show.—Robt. J. Evans in The Duroc Sentinel.

## THE CHESTER WHITES

There were over 200 Chester White barrows on exhibition, which was more than any other one breed. Additional cash prizes added to the regular prizes of the show by the Chester White Swine Record Association are given full credit for this condition. . . . Splendid college exhibits from California to Pennsylvania competed with highly finished herds of well known breeders from Iowa to Ohio. Competition was extremely keen in every class and Arthur Tomson, Wabash, Indiana, judge, had a difficult task to determine proper placings. He did a first class job of it as is evidenced by the fact that his award of champion barrow was later in the day made grand champion over all other champions of the various breeds by W. H. Tomhave, Chicago, judge, who tied the high honors of the day. It was also Judge Tomson's choice for champion pen of Chester White barrows which Judge Tomhave selected as the grand champion pen over all the champion pens of the vari-

ous breeds. . . . It has been said that breeders have no chance with the colleges to win a grand champion barrow prize, but this statement has now been upset as Albert H. Stuart, Newhall, Iowa, a well known breeder and exhibitor, captured this high honor in what was probably the strongest show of barrows in history. . . . Iowa State College won first in the light weight class, 200-250 lbs., on a very neat barrow of medium type and splendid finish. Purdue University had second prize and Chas. Richert, third prize. Here was a splendid class of 38 entries in the ring, all good, and thus the reader can well understand how all the eight prize winners were very good and not much difference in them.

Stuart had first prize barrow in the medium weight class 250-350 lbs., in a ring of 23 barrows showing. Hickman & Son had second prize and Vizedom third prize.

In the heavyweight class, 350 lbs. and over, where 37 barrows were in the ring, Stuart won first and Ohio second and third. . . This was a large class of large, smooth barrows and probably never before in the history of this great barrow show were there ever so many good barrows in one ring. However, the Stuart barrow was a popular first prize winner and was later made champion barrow by Judge Tomson and then later came back into the ring with

all the champions of the other breeds and was made grand champion barrow by Judge Tomhave.

The shows of pens were equally as good consisting of practically the same barrows and competition was very keen. The first prize pen of the heavyweight class shown by the University of Minnesota was made champion pen and also grand champion pen over all breeds.—The Chester White Journal.

**THE HAMPSHIRE**

The individual and pen barrow show clearly evidenced a greater interest in this part of the showing, both from an increase in number shown and in the quality of the exhibits. These classes are pretty much an agricultural college affair with a breeder slipping in occasionally to top off a class. We are strong for these college exhibits, more than glad they are on hand with their good entries but, nevertheless, there should be more breeders in there making the competition a little rougher and more interesting for them. . . .

Oklahoma A. & M. College's champion Hampshire barrow came from the heavyweight class where he had won over seventeen entries. He was remarkably fitted carrying a broader back and lacking some of the scale shown by most of the other entries. The champion pen from Iowa State College were likewise heavyweights but, in contrast to the champion barrow selection, they were more on the higher, stretchier breeder's type. They were not extremely fat—in fact had they carried more finish they would no doubt have furnished greater competition in the individual class.

It would seem that there is a distinct tendency among the agricultural colleges to select a type more closely consistent with the show ring type of breeding stock, higher, longer and not so fat.—The American Herdsman.

Robert B. Ellis of Chicago made the official awards. Twenty-two lightweight barrows answered the call, while there were eleven mediumweights and seventeen heavyweights lined up before the judge. The pen classes brought out eight light contenders, four medium and seven heavyweights, while six groups competed in the get of sire contest.

Owned by Oklahoma A. &amp; M. College, Stillwater, Okla.

## THE TAMWORTHS

"The barrow classes were all that could be expected considering the fact that the classification was confined to the lightweights. The grand champion barrow was one carrying an unlimited amount of quality and reflects credit upon the breed." This was the comment made by Judge I. M. Reed of Oskaloosa, Iowa, after he had officially rated the entries.

Iowa State College headed the lightest class of fourteen barrows and the corresponding class of five pens. The heavier classes of twelve barrows and three pens were won by the entries from Michigan State College which later captured the championships. Turner Bros. of DeWitt, Iowa, stood first in the get of sire contest between seven groups, in the produce of sow contest in a field of six and the ten barrow class of two entries.

**THE YORKSHIRES**

An unusually good show of Yorkshire barrows was presented to Arthur L. Anderson of Ames, Iowa, for official adjudication. Colleges and breeders from five states and Canada brought out contestants.

The lighter barrows numbered thirteen and the heavier class seventeen. In the pen contests five entries answered the call for the light group and six for the other. The University of Minnesota made a clean sweep of all first prizes and championships. Ohio State University offered the strongest competition in the single and pen classes and J. E. Brethour & Nephews of Ontario were the runners-up in the larger group contests. The winners in the heavier classes were awarded the championships both for single barrows and pens.

Judge Anderson stated: "The Yorkshire barrow show brought out a very uniform lot of nicely finished pigs. It was a show of high merit."

**THE SPOTTED POLAND CHINAS**

Professor W. W. Smith of Purdue University, who again designated where the honors should fall in the Spotted Poland China barrow show, commented as follows on the rings which he placed:

"It was probably the best show of Spotted barrows ever assembled. As usual a majority of the barrows was brought by the colleges although the first prize lightweight barrow was a very smooth well finished pig shown by I. C. Lister of Pulaski, Iowa. The first prize mediumweight barrow, shown by the Oklahoma A. & M. College, and the first prize heavy-weight, exhibited by the Iowa State College, were the two outstanding barrows. Better barrows of this breed have never been shown and each had admirers for the championship. The Oklahoma entry had been awarded the grand

championship at the American Royal two weeks previously. The Iowa heavyweight barrow was made champion over the mediumweight because in the opinion of the judge he was a better prospect for the grand championship of the show owing to his broader back and loin, thicker hams and better condition. The mediumweight pig, however, was a very smooth compact barrow with a lot of quality."

There were eleven light barrows in the ring, seven mediumweights and nine heavyweights. The pen show was composed of three entries in the light, two in the medium and three in the heavy sections. Iowa State College was awarded the pen grand championship on its winning mediumweights.

CHAMPION SPOTTED POLAND CHINA BARROW, 1927  
 Owned by Iowa State College, Ames, Iowa.

## GRAND CHAMPIONS

W. H. Tomhave  
Judge

At the greatest barrow show in the world, a pure-bred Chester White barrow was grand champion over all breeds and another provided the champion dressed carcass in competition with all breeds. Chester Whites made a "scoop" of the highest honors in the individual and pen classes. . . They also won grand champion pen of barrows over all breeds. . . .

The grand champion barrow was farrowed Sept. 20, 1926, fitted and shown by Albert H. Stuart, Newhall, Iowa. He weighed 550 pounds when shown and in very mellow and smooth condition. He is a so-called big-type animal, being sired by Iowa Monster and out of Modern Girl 1st, both champion show animals and bred by J. W. Kempe, Hinton, Iowa. When sold at auction at the close of the show, this barrow brought 61 cents per pound, a record price. Hotel Sherman, Chicago, was the purchaser.

The grand champion pen of barrows was fitted and shown by the University of Minnesota. They had won first prize in the heavyweight class and then were made champion pen of the breed by Judge Tomson and then grand champion pen over all breeds by Judge Tomhave. These barrows had good length, strong backs, deep bodies, big bone, good feet and were so-called big-type animals with very good quality. They were bred by H. A. Derenthal, Wykoff, Minnesota, and represent the best bloodlines of his herd.—The Chester White Journal.

## DRESSED CARCASSES OF HOGS

By M. D. HELSER, Superintendent

Hugo F. Arnold  
Judge

The hog classes this year were much larger than ever before. There were 179 carcasses shown, seven of which weighed over 400 pounds, 39 weighed between 300 and 400, 44 between 200 and 300, and 66 between 100 and 200 pounds, while 23 head were shown for Wiltshire sides. The carcasses were carrying a little more finish this year.

In the 100 and under 200 pound class first and third prize carcasses were won by I. T. Hickman and Son on Chester White barrows. The second prize was also a Chester White shown by A. J. Vizedom. This first-prize carcass was later made champion because of its conformation, color and firmness.

In the 200 and under 300 pound class Kansas College won first and third on two Poland-Chinas. Ohio State won second on a Chester White.

In the class 300 and under 400 pounds Michigan College won first on a Berkshire that showed an especially

well-developed ham and loin. Second and third went to Iowa State College and the University of Minnesota on a Chester White and a Poland-China.

In the heavyweight class I. T. Hickman & Son won first on a Chester White. This was placed over a Duroc-Jersey shown by Ohio State University because it showed a higher proportion of lean to fat and the fat was intermixed through the lean a little more than in the Ohio entry. The ham was also a little fuller. Kansas College won third on a well-developed Poland China.

In the class for Wiltshire sides the Yorkshires won everything. Ohio State was first and Michigan College second and third. The first-prize carcass showed a little more quality and a brighter color. The development of fat over the fat back was also a little more uniform in depth. The hogs were dressed and exhibited by Armour & Co. Hugo F. Arnold made the awards. The carcasses were so uniform that it was necessary to cut 35 into the wholesale cuts before the 15 prize-winners could be selected.

The champion hog carcass was purchased by the New City Packing Co. at 30 cents per pound, and the reserve champion also at 14 cents per pound.

## CARLOADS OF HOGS

Robt. Ellis  
Judge

With sixteen loads of hogs to select from, Judge R. B. Ellis of Chicago found plenty of quality in the offering. In the lightest class a pen of Berkshires fed by J. H. Nickel of Arenzville, Ill., breeder of the 1924 grand championship carload of swine, was given the preference over an entry of Duroc-Jerseys from the feed lots of another Illinois veteran exhibitor.

The class for loads weighing between 200 and 250 pounds proved to be the most popular, with eight entries, two each of the Chester-White, Poland China and Duroc-Jersey breeds and one load each of Hampshires and Yorkshires. The latter load was shown by an Ontario breeder who for many years has been an exhibitor in the individual swine classes of the Exposition. The load of Poland Chinas entered by Ernest Hartje of Adeline, Ill., was awarded the blue ribbon, with Indiana Durocs and Iowa Hampshires in the next two positions.

Three carloads of Hampshires and one of Duroc-Jerseys made up the show in the 250 to 300 pound class. They found a leader in the belted load exhibited by J. M. Ballard of Marion, Ind., which later was made the champion carload of the show. The entry of Indiana reds stood second and Iowa Hampshires finished the class.

The heavy weights brought out a load of Hampshires from the University of Notre Dame, which headed its class and came very close to duplicating last year's feat of winning the grand championship. A car of Illinois Duroc-Jerseys took second in this class.

The Indiana Farmer's Guide commented as follows: "For the ninth time in ten years, Hampshire hogs won the carlot swine championship, when J. M. Ballard, of Marion, Indiana, was awarded the purple rosette on his load of 52 head, averaging 297 pounds in weight. This is the third time that Mr. Ballard has won the carlot championship. He was closely pressed by a carload of Hampshires shown by Brother Leo, of Notre Dame University, who won the championship last year.

Mr. Ballard selected his winning load from some 400 head which he had on feed on his farms in Grant county this year. For 60 days previous to the show, the winning hogs received corn and tankage as their only feeds. They were grown out, previous to the last 60 days, on corn, tankage, middlings, oats and a mineral mixture, and for part of the time they grazed on alfalfa pasture."

Hampshires—J. M. Ballard, Marion, Ind.

**CHAMPION CARLOAD OF SWINE, 1927**

Owned by J. M. Ballard, Marion, Ind.

## SALES OF CARLOADS OF FAT HOGS

"Sixteen loads of show hogs from the car lot exhibit, one load more than in 1926, went through the auction ring yesterday afternoon at an average price of \$11.28, the lowest since 1923, but relatively the highest in years, comparing with the present price level of the open market. The average stands \$2.78 above the general average on the open market yesterday, against a spread of \$1.37 between the show average and 'market' average a year ago. Prices in 1925 averaged \$12.33, in 1924 \$11.42, and in 1923 \$9.07.

"The grand champions, owned by J. M. Ballard, Marion, Ind., went to Swift & Co. at \$12.50, C. Southwick bidding them in at this figure. Two other loads reached \$12.00, with only three dropping below \$11.00. Prices ranged from \$10.00 to \$12.50, against \$12.25@14.50 in 1926, the grand champions a year ago being highest since 1920 at \$14.50.

"Hampshires, numbering five loads, including the champions, ranged from \$11.00 to \$12.50, averaging \$11.75. Duroc-Jersey hogs numbered five loads at an average of \$10.85,

ranging from \$10.50 to \$11.25. Two loads of Chester Whites sold at \$11.00 and \$11.25, with two loads of Poland Chinas at \$10.00 and \$11.50. The load of Yorkshire hogs from Toronto, Canada, fed by J. E. Brethour, brought \$12.00 from Swift. A load of Berkshires, averaging 211 lbs., first prize winners in their class, were bid in at \$11.75 by E. Cole for Hetzel & Son.

"Swift representatives were the liveliest bidders, taking eight loads at an average of \$11.41, within a range of \$10.50 @12.50, including four prize winners besides the grand champions. Armour took five loads, averaging \$10.90, within a range of \$10.00@11.75. J. M. Waters bid in the first prize winners in class No. 266, which were exhibited by Notre Dame university. They averaged 335 lbs. and were the strongest competitors for the grand champion prize. R. Ellis, buyer for Wilson, took one load at \$11.00, second prize winners in class 264. They averaged 243 lbs."—The Chicago Daily Drovers Journal.

### GRAND CHAMPION CARLOADS HOGS

Year	Owner	Breed	Average weight	Price, per cwt.			
1900	No grand championship awarded				1911	G. P. Arnston, Spring Grove, Minn.	Poland Chinas 263 6.50

## DRAFT HORSE DEPARTMENT

By **ELLIS McFARLAND, Supt.**

**Ellis McFarland**  
Supt.

Sales totaling \$40,950 tell the story of a record year in the draft horse department of the 1927 International. The exhibit was said to be one of the largest ever assembled in Chicago, and it included many animals of remarkable quality.

Buyers were plentiful, and they came from Canada and South America as well as from widely separated parts of the United States. Sales began early in the week, and there were too few of the top horses to supply a firm and increasing demand for them. Cash prices ranged from \$450 to \$1,200 for mares and from \$1,500 to \$2,400 for stallions. Such a revival in draft horse sales was believed to indicate a good future for the business.

Entries for nearly all breeds showed an increase over last year. A gain of approximately 60 per cent made the Percheron show unusually large and strong with seven states and Canada represented in the exhibitor's list. Many comparatively new breeders showed ribbon winners and

seven colleges furnished strong competition in almost every class.

Creditable representatives of the Belgian breed battled for honors in the well-filled classes, entries coming from eight states and Canada.

The Clydesdale show was the best in years. Three provinces of Canada and five states were well represented. The champions and many of the winners were Canadian horses.

Three exhibitors entered Suffolk horses, Samuel Insull's Hawthorn Farm losing but one blue ribbon.

In the Shire classes five breeders showed the 28 horses competing.

The most marked improvement in market conditions since the war is responsible for a renewed interest in the draft horse business. Information obtained at the International Live Stock Exposition enabled many breeders to select the best of new seed stock. Comments and actions of the judges indicate that they consider the powerful and rugged draft horse the type which is most suited to present day needs and which colleges and farmer breeders alike have wisely bred, developed, and made available.

## THE CLYDESDALES

H. H. Kildee  
Judge

Clydesdale exhibitors put up the best show seen here in recent years. Five states and three provinces were well represented. Western Canada exhibits, fresh from the Canadian Royal, greatly strengthened the show. In his placings Prof. H. H. Kildee of the Iowa State College emphasized more ruggedness of bone and general draftiness than has been the custom in years past.

Several of the most noted aged horses in North America lined up in a class of eight. It was impressive. The judge found it difficult to decide between the imported stallion, Arnprior Emigrant, owned by the Reston

Clydesdale Syndicate of Manitoba, and Greenmeadow Footstep, stud sire at the University of Saskatchewan, for first place. The Manitoba entry won the week before at the Canadian Royal and finally a little more general draftiness got him up to top here. He was also reserve senior champion.

From the three-year-olds was picked the grand champion, imported Sansovina, sired by the noted Signet and owned by John Sinclair, Congress, Saskatchewan. He is a big bay horse with more stretch and middle than some others. His large, shapely feet, long pasterns, hard clean joints and splendid action, made him a good champion. F. L. Anderson & Sons, Ross, Iowa, were a close second with Cedric's Footprint.

The two-year-olds were not particularly strong and were headed by His Majesty, shown by Indian Head Experimental Farm of Saskatchewan.

The yearling class was a revelation. The real tussle soon narrowed down to Bengairn, bred and shown by A. M. Montgomery, Hartland, Wisconsin, Hayfield Maxwell shown by Hayfield Farm, Wilkes-Barre, Pennsylvania, and Brownly Footprint, bred and shown by Otha Wyrick, Kempton, Indiana. With slightly more breed character, deeper middle and more foot, Bengairn by the famous Benefactor, stayed at the top and was finally declared junior champion. The Hayfield colt made an acceptable second over Wyrick's grand champion at the Indiana State Fair this year.

Five stud foals made a very creditable showing, the top being Hayfield Sir John from Hayfield Farm.

The aged mare class was the high spot in the show. It sprang a real surprise. For the first place ringside sentiment favored any one of four—imported Lady Price from the Indian Head Experiment Farm, Wyrick's Ashvale Baroness, Anderson's Cedric Baroness, or Rosalind from the University of Saskatchewan. Lady Price was senior and reserve grand champion here last year but was out of the money at the Canadian Royal this year. Rosalind, though showing her age, is a real brood mare pattern. She has won the Cawdor Cup; grand champion honors at the International Live Stock Exposition on a former occasion, and was senior and reserve grand champion at this year's Canadian Royal. Cedric's Baroness was grand champion at the Iowa State Fair this year and Ashvale Baroness was winner of a strong aged class at Indiana. Lady Price looked best to the judge. Her brood mare character, size, quality, underpinning and action made her a good choice for first in her class, senior and grand champion. Cedric's Baroness was a close second, also winning reserve senior and reserve grand champion honors. Ashvale Baroness was placed fifth while Rosalind was out of the money.

**SANSOVINA (21153) [24729]**

Grand Champion Clydesdale Stallion, 1927. Age, May 25, 1924.

Sire, Signet [1634] (16816); dam, Chrissie Footprint (47590).

Owned by John Sinclair, Congress, Sask., Can.

Among eight good three-year-olds the rugged Dyrick Queen owned by T. D. Richardson, Ogema, Saskatchewan, won over the two typey mares, Bonnie Bell and Bonnie Betty, owned by Saskatchewan University. Bonnie Bell was junior and grand champion here last year.

The two-year-olds were hardly as strong as usual. The class was topped by the well-developed Craigie Emigrant, shown by Stewart Bros., Griswold, Manitoba. The University of Wisconsin placed second on Badger Lily, a filly with lots of quality.

The yearlings made a smashing showing. From this class the judge picked the junior champion mare in Doune

Lodge Princess, shown by Doune Lodge Stock Farm, Arcola, Saskatchewan. This filly though thin and growthy, is not so large as some, but is very typey, full of quality and with faultless underpinning. She was grand champion at the Canadian Royal this year. Eva Footstep was second for the University of Saskatchewan.

The well-grown, drafty foal, Hayfield Lady Bertha from Hayfield Farm, headed the line-up of eleven filly foals and was later made reserve junior champion. Soderberg's Reliance Bonnie Lass was a close second.

The group classes were large and, as usual, competition keen.

### EXHIBITORS

Anderson, F. L. & Sons, Ross, Ia.  
Arnold, Alex., Minto, Manitoba, Can.  
Binnie, David, Rosser, Manitoba, Can.

Wyrick, Otta, Kempton, Ind.

### THE CLYDESDALES

#### CLASS 1

##### Stallion, 4 Years Old and Over

##### Awards

- 1st Arnprior Emigrant [23730]—Age, May 2, 1921; sire, Apukwa [13437], dam, Milball Melody [45023]—Reston Clydesdale Syndicate, Reston, Manitoba, Can.
- 2nd Greenmeadow Footstep [23834] 22258—Age, Feb. 2, 1923; sire, Kinleith Footprint [23423] 20807; dam, Langwater Jessica [49435] 20291—University of Saskatchewan, Saskatoon, Sask., Can.
- 3rd Greenmeadow Reliance 21715—Age, May 23, 1920; sire, Kenleith Footprint 20807 [23423]; dam, Fairholme Ruth 19880—A. G. Soderberg, Osco, Ill.
- 4th Hayfield Predominant 22523—Age, March 26, 1923; sire, Langwater Fashion 21286; dam, Bonnie Jean 21225—Hayfield Farms, Wilkes-Barre, Pa.
- 5th Mahomet's Fashion [23521]—Age, May 1, 1920; sire, Brookside Mahomet [17261]; dam, Lady Fashion [36069]—Matthew S. Longmuir, Grainland, Sask., Can.

#### CLASS 2

##### Stallion, 3 and Under 4 Years

##### Awards

- 1st Sansovina (21153) [24729]—Age, May 25, 1924; sire, Signet [1634] (16S16); dam, Chrissie Footprint (47590)—John Sinclair, Congress, Sask., Can.
- 2nd Cedric's Footprint 22788—Age, May 14, 1924; sire, Fairholme Footprint 17584; dam, Cedric's Baroness 20649—F. L. Anderson & Sons, Ross, Iowa.
- 3rd Jonnie Walker (21285) [25089]—Age, May 23, 1924; sire, George Craig (20358); dam, Balcastle Rosie (56294)—Alex. Tosh, Piche, Sask., Can.
- 4th Hayfield Valentine 22683—Age, Feb. 14, 1924; sire, Langwater Fashion 21286; dam, Hillside Heatherbloom 20515—Hayfield Farm, Wilkes-Barre, Pa.
- 5th Baron Adam 22762—Age, May 19, 1924; sire, Green Meadow Reliance 21715; dam, Bonnie Lass 21815—A. G. Soderberg, Osco, Ill.

**CLASS 3****Stallion 2 and Under 3****Awards**

- 1st His Majesty [24616]—Age, May 15, 1925; sire, Dunure Norman [22775] (18709); dam, Doune Lodge Moss Rose [36142]—Experimental Farm, Indian Head, Sask., Can.
- 2nd Hayfield Baron 22982—Age, April 2, 1925; sire, Langwater Fashion 21286; dam, Hillside Heather Bell 17581—Hayfield Farm, Wilkes-Barre, Pa.
- 3rd Osco Reliance 23076—Age, May 21, 1925; sire, Green Meadow Reliance 21715; dam, Hope's Princess 21219—A. G. Soderberg, Osco, Ill.
- 4th Quarter Master 23074—Age, April 24, 1925; sire, Green Meadow Reliance 21715; dam, Shamrock's Queen 19936—A. G. Soderberg, Osco, Ill.

**CLASS 4****Stallion, 1 and Under 2 Years**

- 1st Bengairn 23154—Age, May 24, 1926; sire, Benefactor (20867); dam, Beryl 22969 (55746)—A. M. Montgomery, Hartland, Wis.
- 2nd Hayfield Maxwell 23181—Age, Jan. 28, 1926; sire, Baron Blair 22633 (20244); dam, White Heather 21224—Hayfield Farm, Wilkes-Barre, Pa.
- 3rd Brown Footprint 23158—Age, May 8, 1926; sire, Langwater Footprint 21999; dam, Fordie Fortune 22261—Otha Wyrick, Kempton, Ind.
- 4th Scottie Arnprior Emigrant [25341]—Age, 1926; sire, Arnprior Emigrant [23730]; dam, Myrtle Queen [51664]—J. D. Reid, Reston, Manitoba, Can.
- 5th Browndale [24999]—Age, April 26, 1926; sire, Dunure Norman [22775] (18709); dam, Indian Head Jean [49392]—Experimental Farm, Indian Head, Sask., Can.

**CLASS 5****Stallion Foals, Bred in America**

- 1st Hayfield Sir John 23290—Age, March 16, 1927; sire, Baron Blair 22633 (20244); dam, Hayfield Ailine 22250—Hayfield Farm, Wilkes-Barre, Pa.
- 2nd Lindbergh 23280—Age, June 7, 1927; sire, Green Meadow Reliance 21715; dam, Lovely Lass 17654—A. G. Soderberg, Osco, Ill.
- 3rd Montrave Fashion—Sire, Mahomet's Fashion [23521]; dam, Lady Montrave [42866]—Matthew S. Longmuir, Grainland, Sask., Can.
- 4th Footlight [25347]—Age, April, 1927; sire, Green Meadow Footstep [23834] 22258; dam, Eva Footprint [49434]—University of Saskatchewan, Saskatoon, Sask., Can.
- 5th Muscician—Age, May 23, 1927; sire, Dunure Norman [22775]; dam, Lovely Lassie [17122]—Experimental Farm, Indian Head, Sask., Can.

**CLASS 6****Mare, 4 Years and Over****Awards**

- 1st Lady Price [51343]—Age, May 20, 1923; sire, Dunure Norman [22775]; dam, Jess of Abernethy [35844]—Experimental Farm, Indian Head, Sask., Can.
- 2nd Cedric's Baroness 20649—Age, May 26, 1917; sire, Prince Cedric 16656; dam, Baroness Alexander 16785—F. L. Anderson & Sons, Ross, Iowa.
- 3rd Cedric's May 22602—Age, May 1, 1923; sire, Kincaig 15355; dam, Cedric's Baroness 20649—F. L. Anderson & Sons, Ross, Iowa.
- 4th Deanston Choice [45655]—Age, May 28, 1923; sire, Doune Lodge Revelanta [13154]; dam, Doune Lodge Surrydale [30899]—David Binnie, Rosser, Manitoba, Can.
- 5th Ashvale Baroness 21478—Age, May 2, 1919; sire, Warren's Favourite 17071; dam, Lady Ashvale 16147 (19285)—Otha Wyrick, Kempton, Ind.
- 6th Rosalind [49432]—Age, April, 1913; sire, Dunure Footprint [15203]; dam, Rose of Allendale [29990]—University of Saskatchewan, Saskatoon, Sask., Can.

**CLASS 7****Mare, 3 and Under 4 Years**

- 1st Dyrock Queen [51243]—Age, April 25, 1924; sire, Dyrock [22776] (18726); dam, Miss Buchlyvie [42878]—T. D. Richardson, Oge-ma, Sask., Can.
- 2nd Bonnie Betty [51346]—Age, June, 1924; sire, Bonnie Fyvie [22782]; dam, Eva Footprint [49434]—University of Saskatchewan, Saskatoon, Sask., Can.
- 3rd Janette 23167—Age, July 11, 1924; sire, Green Meadow Reliance 21715; dam, Mary Jane 22015—A. G. Soderberg, Osco, Ill.
- 4th Bonnie Bell [51345]—Age, July, 1924; sire, Bonnie Fyvie [22782]; dam, Greenmeadow Muriel [49436]—University of Saskatchewan, Saskatoon, Sask., Can.
- 5th Daisy Royal 22787—Age, May 28, 1924; sire, Royal Knot 18126; dam, Dorothy's Jean 21698—F. L. Anderson & Sons, Ross, Iowa.

**CLASS 8****Mare, 2 and Under 3 Years**

- 1st Craigie Emigrant [52361]—Age, May 17, 1925; sire, Arnprior Emigrant [23730]; dam, Jean [54731]—Stewart Brothers, Griswold, Manitoba, Can.
- 2nd Badger Lily 22938—Age, April 7, 1925; sire, Langwater Muirton 21940; dam, Briar Lassie 21591—University of Wisconsin, Madison, Wis.
- 3rd Mont Airy May [51960]—Age, May 11, 1925; sire, Everest Headlight [14559] (17570); dam, Kate Mitchell [42746]—John Martin, Grand Coulee, Sask., Can.
- 4th Indian Head Norina [51774]—Age, May 14, 1925; sire, Dunure Norman [22775]; dam, Indian Head Jean [49392]—Experimental Farm, Indian Head, Sask., Can.
- 5th Nellie Footprint 22935—Age, July 23, 1925; sire, Langwater Footprint 21999; dam, Goldie Fortune 22240—Otha Wyrick, Kempton, Ind.

**CLASS 9****Mare, 1 and Under 2 Years****Awards**

- 1st Doune Lodge Princess—Age, 1926; sire, Doune Lodge Sensation [23256]; dam, Countess of Moray [26788] (38789)—Doune Lodge Stock Farm, Arcola, Sask., Can.
- 2nd Eva Footstep [52559]—Age, April, 1926; sire, Greenmeadow Footstep [23834]; dam, Eva Footprint [49434]—University of Saskatchewan, Saskatoon, Sask., Can.
- 3rd Badger Lottie 23152—Age, June 17, 1926; sire, Langwater Muirton 21940; dam, Lady Wayne 21151—University of Wisconsin, Madison, Wis.
- 4th Hayfield Madam 23176—Age, Feb. 25, 1926; sire, Langwater Fashion 21286; dam, Hayfield Bonnie Fyvie 20521—Hayfield Farm, Wilkes-Barre, Pa.
- 5th Katie Footprint 23156—Age, April 10, 1926; sire, Langwater Footprint 21999; dam, Betty Fortune 22264—Otha Wyrick, Kempton, Ind.

**CLASS 10****Filly Foals, Bred in America**

- 1st Hayfield Lady Bertha 23287—Age, Feb. 27, 1927; sire, Langwater Fashion 21286; dam, Lady Dufferine 20519—Hayfield Farm, Wilkes-Barre, Pa.
- 2nd Reliance Bonnie Lass 23283—Age, June 2, 1927; sire, Green Meadow Reliance 21715; dam, Bonnie Lass 21815—A. G. Soderberg, Osco, Ill.
- 3rd Hayfield Priscilla 23289—Age, Jan. 9, 1927; sire, Baron Blair 22633 (20244); dam, White Heather 21224—Hayfield Farm, Wilkes-Barre, Pa.
- 4th Green Meadow Pines 23279—Age, May 23, 1927; sire, Green Meadow Reliance 21715; dam, Pride of the Pines 22310—A. G. Soderberg, Osco, Ill.
- 5th Footprint's Lassie 23273—Age, May 7, 1927; sire, Cedric's Footprint 22788; dam, Kincaig's Dolly 22601—F. L. Anderson & Sons, Ross, Iowa.

**CLASS 11****Stallion and 3 Mares.**

- 1st Green Meadow Footstep 22258 [23834], Bonnie Betty [51346], Bonnie Bell [51345], and Eva Footstep [52559]—University of Saskatchewan, Saskatoon, Sask., Can.
- 2nd Cedric's Footprint 22788, Cedric's Baroness 20649, Cedric's May 22602 and Daisy Royal 22787—F. L. Anderson & Sons, Ross, Iowa.
- 3rd Green Meadow Reliance 21715, Janette 23167, Betty Jane 22954 and Hayfield Queen 23122—A. G. Soderberg, Osco, Ill.
- 4th Hayfield Sir John 23290, Hayfield Lady Bertha 23287, Hayfield Priscilla 23289 and Hayfield Madam 23176—Hayfield Farm, Wilkes-Barre, Pa.

**CLASS 12****Three, Get of One Sire, Bred in America****Awards**

- 1st Lady Price [51343], Indian Head Norina [51774] and His Eminence [24426]; get of Dunure Norman [22775]—Experimental Farm, Indian Head, Sask., Can.
- 2nd Bonnie Betty [51346] Bonnie Bell [51345], and Bonnie Bess [51437]; get of Bonnie Fyvie [22782]—University of Saskatchewan, Saskatoon, Sask., Can.
- 3rd Hayfield Maxwell 23181, Hayfield Sir John 23290 and Hayfield Priscilla 23289; get of Baron Blair 22633 (20244)—Hayfield Farm, Wilkes-Barre, Pa.
- 4th Hayfield Valentine 22683, Hayfield Lady Bertha 23287, and Hayfield Madam 23176; get of Langwater Fashion 21286—Hayfield Farm, Wilkes-Barre, Pa.

**CLASS 13****Two, Produce of One Dam, Bred in America**

- 1st Cedric's Footprint 22788 and Cedric's May 22602; produce of Cedric's Baroness 20649—F. L. Anderson & Sons, Ross, Iowa.
- 2nd Bonnie Betty [51346] and Eva Footstep [52559]; produce of Eva Footprint [49434]—University of Saskatchewan, Saskatoon, Sask., Can.
- 3rd Hayfield Priscilla 23289 and Hayfield Maxwell 23181; produce of White Heather 21224—Hayfield Farm, Wilkes-Barre, Pa.
- 4th Indian Head Norina [51774] and Browndale [24999]; produce of Indian Head Jean [49392]—Experimental Farm, Indian Head, Sask., Can.

**CLASS 14****Senior Champion Stallion**

- Sansovina (21153) [24729]—Age, May 25, 1924; sire, Signet [1634] (16816); dam, Chrissie Footprint (47590)—John Sinclair, Congress, Sask., Can.

**CLASS 14A****Reserve Senior Champion Stallion**

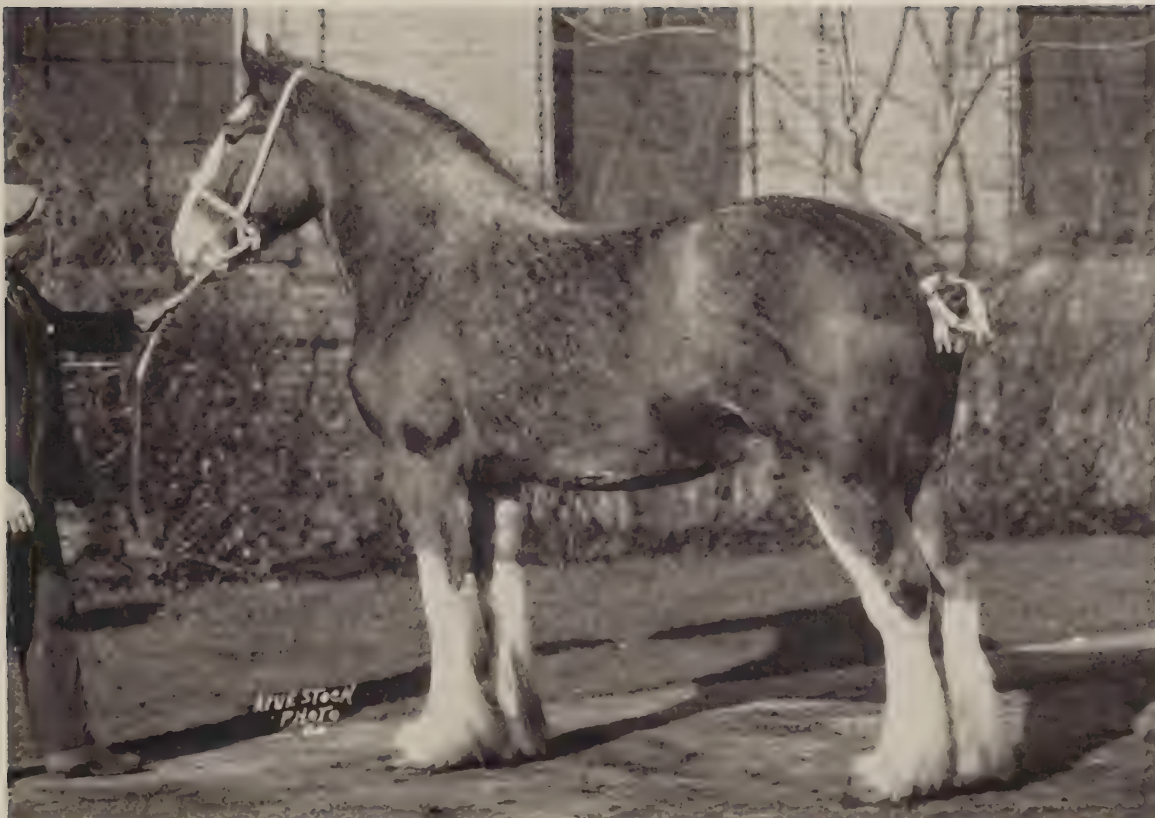

- Arnprior Emigrant [23730]—Age, May 2, 1921; sire, Apukwa [13437]; dam, Milhall Melody [45023]—Reston Clydesdale Syndicate, Reston, Manitoba, Can.

**CLASS 15****Junior Champion Stallion, Under 3 Years**

- Bengairn 23154—Age, May 24, 1926; sire, Benefactor (20867); dam, Beryl 22969 (55746)—A. M. Montgomery, Hartland, Wis.

Sansovina (21153) [24729]—John Sinclair, Congress, Sask., Can.

**Grand Champion Mare**

Lady Price [51343]—Experimental Farm, Indian Head, Sask., Can.

## THE PERCHERONS

C. W. McCampbell

R. B. Cooley

R. M. Hamer

### JUDGING COMMITTEE

Twenty-eight exhibitors from seven states increased the number of Percheron horses shown a third and maintained breed excellence. In every way, it was the finest Percheron exhibit in years.

Don Degas, a son of Jehovah and grandson of Carnot, repeated his performance of 1926 in defeating all competitors for the position of grand champion stallion. Don Degas brought honor to his owner, George A. Dix, Delaware, Ohio, last year by being the first stallion to win this championship while he was still owned by his breeder. Now he has added to an unusual record. The stallion weighs 2,250 pounds and is a drafty, hard-legged, good moving, dark gray, three-year-old.

Hesitation Again, owned by Glenn Sonner, Delaware, Ohio, emerged as the winner in the stallion futurity di-

vision, the strongest of all the stallion classes, and went on to the junior and reserve grand championship of the show.

Grand championship mare honors went to Margot, shown by Femco Farms, Breckenridge, Minn. She is a large and drafty mare with splendid underpinning and can move well. As in former years the mare classes were stronger than the stallion classes. Patricia by Carvictor was the creditable winner of reserve senior and reserve grand champion ranking for Ralph W. Humes, Delaware, Ohio.

A pair of Percheron geldings owned by B. H. Moore, Rouleau, Sask., Canada, was the first prize team in the non-professional draft gelding class. Mr. Moore also won this honor last year with another team of Percherons.

The committee judging Percherons consisted of the following men: Dr. C. W. McCampbell, Manhattan, Kans.; Prof. R. B. Cooley, Lafayette, Ind., and R. M. Hamer, Boyce, Va. The rugged-boned, drafty type of Percheron, showing a reasonable degree of quality throughout, was favored by the judges.

During the week of the International 19 of the fine Percherons on exhibit were sold for \$20,650, indicating confidence in the future.

The reserve grand champion, Patricia, and the third prize two-year-old filly, Daisy Hill Beauty, were sold to the Departamento de Agricultura, Bogota, Colombia, South America, by their owner, Mr. Humes. This is the first shipment of Percherons from the United States to South America. Other horses sold went to Canada, California, Pennsylvania, Wisconsin, Indiana, Iowa, and Ohio.

## EXHIBITORS

Augstin Bros., Carlock, Ill.  
 Boyden, William H., Milford, Ill.  
 Brown, R. M., Dauphin, Manitoba, Can.  
 Cabill Bros., Monticello, Ill.  
 Dix, G. A., Delaware, Ohio.

**CLASS 42****Champion American Bred Mare**

- Margot 135248—Age, April 30, 1916; sire, Superior 40605; dam, Annetta 69520—F. E. Murphy, Breckenridge, Minn.

**CLASS 43****Senior Champion Stallion**

- Don Degas 186172—Age, June 6, 1924; sire, Jehovah (85489) 79330; dam, Flowers 162955—G. A. Dix, Delaware, Ohio.

**CLASS 43A****Reserve Senior Champion Stallion**

- Bronze (161889) 193034—Age, March 13, 1923; sire, Ouistreham (120076); dam, Sequelle (137057)—J. O. Singmaster & Son, Keota, Iowa.

**CLASS 44****Junior Champion Stallion****Awards**

- Hesitation Again 191134—Age, April 6, 1926; sire, Hesitation 162152; dam, Jean 175031—Glenn S. Sonner, Delaware, Ohio.

**CLASS 44A****Reserve Junior Champion Stallion**

- Sir Laet 190277—Age, Feb. 5, 1926; sire, Laet 133886; dam, Rozelle 123963—Woodside Farms, W. H. Butler, owner, Columbus, Ohio.

**CLASS 45****Senior Champion Mare**

- Margot 135248—Age, April 30, 1916; sire, Superior 40605; dam, Annetta 69520—F. E. Murphy, Breckenridge, Minn.

**CLASS 45A****Reserve Senior Champion Mare**

- Patricia 186472—Age, March 17, 1924; sire, Carvictor 136718; dam, Daisy 48732—Ralph W. Humes, Delaware, Ohio.

**CLASS 46****Junior Champion Mare**

- Maple Grove Lagaceo 190299—Age, March 20, 1925; sire, Lagos (102389) 99093; dam, Mirobolante (106822) 99047—J. O. Singmaster & Son, Keota, Iowa.

**CLASS 46A****Reserve Junior Champion Mare**

- Colene 191001—Age, April 8, 1926; sire, Treviso 144394; dam, Coreen 117580—Michigan State College, East Lansing, Mich.

**CLASS 47****Champion Stallion**

- Don Degas 186172—Age, June 6, 1924; sire, Jehovah (85489) 79330; dam, Flowers 162955—G. A. Dix, Delaware, Ohio.

**CLASS 47A****Reserve Champion Stallion**

- Hesitation Again 191134—Age, April 6, 1926; sire, Hesitation 162152; dam, Jean 175031—Glenn S. Sonner, Delaware, Ohio.

**CLASS 48****Champion Mare**

- Margot 135248—Age, April 30, 1916; sire, Superior 40605; dam, Annetta 69520—F. E. Murphy, Breckenridge, Minn.

**CLASS 48A****Reserve Champion Mare**

- Patricia 186472—Age, March 17, 1924; sire, Carvictor 136718; dam, Daisy 48732—Ralph W. Humes, Delaware, Ohio.

## THE SHIRES

**Chas. Burgess**  
Judge

**J. G. Hanmer**  
Judge

Entries from the stables of Trumans' Pioneer Stud Farm, Bushnell, Ill.; F. A. Huddlestun, Webster City, Ia.; Henry W. Matern, Lostant, Ill., and A. L. Basore, Norwalk, O., made up the Shire classes at the 1927 International. The show was lighter than a year ago, but the classes furnished competition that brought forward satisfactory champions. Chas. Burgess, Wenona, Ill., and J. G. Hanmer, Ames, Ia., judged.

Trumans bagged the biggest prizes in the stallion show. Their chestnut stallion, Bushnell Bohemian, with a rather enviable show career up to date, repeated past successes when he headed his class and breezed right through the show to senior and grand champion laurels. This stallion was bred by a tenant farmer near Bushnell, Ill. He is 4 years old, a chestnut in color, a happy combination of size, quality and action. His under-pinning is a study in correctness. He was champion as a two and 3-year-old at the

International. He has championships to his credit at Kankakee, Ill., Springfield, Ill., Des Moines, Ia., Kansas City and Chicago.

His stablemate, Laddie 2d, after a real tilt with Matern's Revelation, topped the two-year-old class, and was junior and reserve grand champion. The black colt of Henry Matern's was more rugged in muscle and bone, also had more step at the trot. But the type and quality of the Truman entry kept him at the top and from that point of vantage, he went on to reserve grand champion honors. This colt was champion at Springfield in 1926 as a yearling. He was also junior and reserve grand champion at the 1926 International. Frank Huddlestun's first prize 3-year-old Edgewood Style was made reserve senior champion stallion. Henry Matern's drafter stallion foal Ho Bo was made reserve junior champion. Trumans, in addition to their championships, had the best five stallions. A Huddlestun group was second.

In the mare championships Henry Matern rang the gong with his first prize yearling filly Model Girl. She won the yearling class easily. When she met Edgewood Shirly, the first prize two-year-old filly, for the junior championship, the judges went into a 30-minute deadlock, which was finally broken when Dick Hamer was called in. After a short inspection of each mare, also a turn at the walk and trot, he pointed to the Matern yearling and the junior championship was decided. In the grand championship show, Edgewood Surprise, Mr. Huddlestun's senior champion mare, was lame. Model Girl, the Matern entry, was made grand champion, and Edgewood Shirly, the first prize two-year-old, was made reserve grand champion. Model Fashion, the first prize filly foal, a full sister to Model Girl, the grand champion mare, was one of the most attractive things in the

whole mare show. In the group, the Matern entries were supreme. Get-of-sire, produce-of-dam, stallion-and-3-mares all went to this Shire nursery at Lostant, Ill.

Trumans showed the best five stallions and Frank Huddlestun the second best.—The New Breeder's Gazette.

### EXHIBITORS

Easore, A. K., Norwalk, Ohio.  
Huddlestun, F. A., Webster City, Iowa.  
Matern, Henry W., Lostant, Ill.  
Soderberg, A. G., Osco, Ill.  
Trumans' Pioneer Stud Farm, Bushnell, Ill.

### THE SHIRES

#### CLASS 49

##### Stallion, 4 Years and Over

#### Awards

- 1st Bushnell Bohemian 19963—Age, May 26, 1923; sire, Norbury Bohemian (33420) 19011; dam, Bryan's Beauty II. 18138—Trumans' Pioneer Stud Farm, Bushnell, Ill.
- 2nd Boro Flag 19740—Age, 1922; sire, Severn Flag 12749 (28763); dam, Boro Lady 19110—F. A. Huddlestun, Webster City, Iowa.
- 3rd Edgewood Hengist 19168—Age, 1920; sire, Severn Flag 12749 (28763); dam, Fay Queen 17463—F. A. Huddlestun, Webster City, Iowa.
- 4th Tatton Herald II. 19600—Age, April 28, 1922; sire, Tatton Eldorado 13424; dam, Moulton Charity 13471—A. G. Soderberg, Osco, Ill.

#### CLASS 50

##### Stallion, 3 Years and Under 4

- 1st Edgewood Style 20015—Age, 1924; sire, Severn Flag 12749 (28763); dam, Bell Fashion 18538—F. A. Huddlestun, Webster City, Iowa.

### JUDGING COMMITTEE

Belgian horse breeders staged a very successful show at the International this year. . . . Breeders from Iowa, Minnesota, Illinois, Indiana, Ohio, Pennsylvania, Michigan and Canada made up the exhibit.

The show opened with a class of six aged stallions, the blue in this group going to Marcus, the aged stallion shown by C. E. Jones, Livermore, Iowa. This stallion was a class winner at the American Royal two weeks previous and was back in the ring at the International in equally good form and flash. One of the closest classes of the show, and the class that produced the reserve grand champion stallion, was the four-year-old stallion group with five entries. The blue was placed on Lordeau 2d, shown by Chas. A. Wentz & Sons, Kirby, Ohio. Second in the class went to Trumans' Pioneer Stud Farm, Bushnell, Ill., on Hillcrest D'Or, with third going to Vidas d'Ergot, another one of

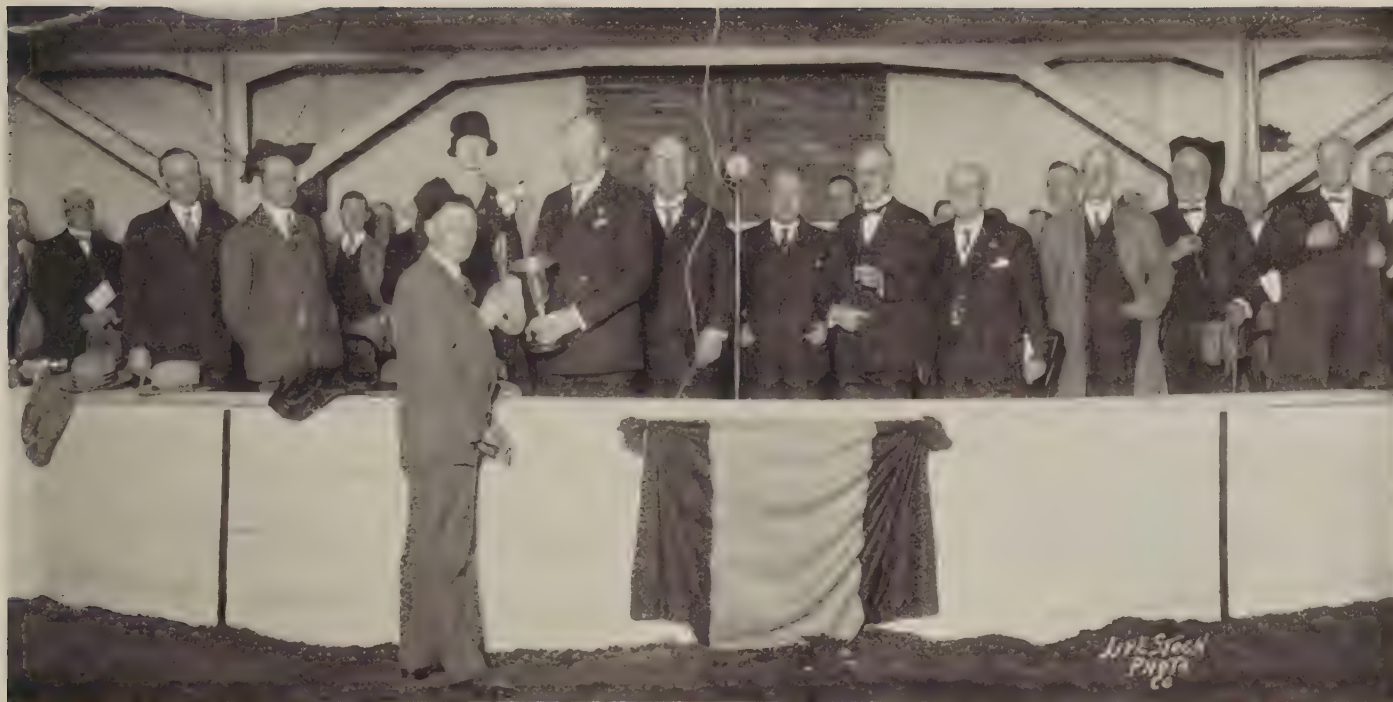

the first prize winners at the American Royal, shown by Jones. The three-year-old class produced the senior and grand champion of the show in Waynedale King, shown by Evert King, Chicago, Ill. This stallion was junior and grand champion last year and had started the 1927 season with a grand championship at the Iowa State Fair before winning his second International grand championship.

The junior stallion championship was awarded to Michigan State College, East Lansing, Mich., on Preston Wolf, with another college horse, Farceur Superior, shown by Iowa State College, Ames, Iowa, winning reserve junior championship after taking first in the two-year old class.

Mare classes presented as many perplexing problems as the stallion classes. An International grand champion of two previous shows—1923 and 1924—headed the aged mare class. Pervenche, shown by the Michigan State Agricultural College, was a rather popular winner of the blue in this class and was later made reserve senior and reserve grand champion mare. Pervenche is sired by Rubis, the stallion that also sired the first prize four-year-old mare, Manitta de Rubis. This mare was later made senior and grand champion.

Another daughter of Rubis, Syncopation, shown by the Owosso Sugar Co., Alicia, Mich., won the yearling class and was then made junior champion. Second prize in the yearling class was awarded to Wentz & Sons on Woodrow Wilson's Sunbeam. This filly was later made reserve junior champion.

The King Albert cup, awarded to the best stallion or mare in the show, to be awarded to an animal that has not won a similar honor previously, was awarded to Lordeau 2d, the reserve champion stallion. Waynedale King, the grand champion, had won a similar award last year at

**PRINCE ALBERT DE LIGNE, BELGIAN AMBASSADOR,  
PRESENTING "KING ALBERT TROPHY" TO CHARLES WENTZ**

Front Row, Left to Right: Fred B. Holbert, O. T. Henkle, Princess De Ligne,  
Prince Albert De Ligne, John Clay, B. H. Heide, Dr. Cyrille Vermeren,  
J. D. Conner, C. F. Curtiss, David Fyffe and W. O. Thompson.

In foreground, Charles A. Wentz.

the International and was hence ineligible under the rules. The same ruling prevented the reserve grand champion mare from winning the trophy, because of her winnings in 1923 and 1924 and the grand champion mare was ineligible because she had been declared the best Belgian in the show at the Michigan State Fair this fall.—The Wisconsin Farmer.

The presentation of the King Albert cup was made in the arena on Thursday afternoon upon the completion of the judging. With impressive ceremonies the Belgian ambassador to the United States, Prince Albert Edward Eugene Lamoral de Ligne, surrounded by a distinguished

group of visitors and officials, presented the cup to Charles A. Wentz in the name of the Societe Royale la Cheval de Trait Belge of Brussels, while the band played the Belgian national anthem. The Prince was the guest of honor at a banquet given that evening by the Belgian Horse Association, which was attended by a large and enthusiastic assemblage of friends of this breed.

The following gentlemen composed the Judging Committee in the Belgian division: Prof. D. J. Kays, Columbus, Ohio; Prof. A. B. Caine, Ames, Iowa; and Mr. J. S. Montgomery, St. Paul, Minn.

- 2nd Ruby 10040—Age, 1922; sire, Frank Eolser 6750; dam, Faro Nell 6559—Chas. A. Wentz & Sons, Kirby, Ohio.
- 3rd Buelah 9271—Age, July 5, 1921; sire, Ergot 7611; dam, Pola 3349—C. E. Jones, Livermore, Iowa.
- 4th Calista 8059—Age, May 16, 1919; sire, Sans Peur de Hamal 3446; dam, Mimosa 3679—Owosso Sugar Co., Prairie Farm, Alicia, Mich.
- 5th Queen Farceur 8841—Age, April 9, 1920; sire, Farceur 7332; dam, Belle 4770—Woodlawn Manor Farm, Fleetville, Pa.

**CLASS 76****Mare, 4 Years and Under 5**

- 1st Lady Louise 11082—Age, July 18, 1923; sire, Alfred 6818; dam, Zala Louise 6035—Chas. A. Wentz & Sons, Kirby, Ohio.
- 2nd Albine Farceur 10544—Age, June 8, 1923; sire, Garibaldi 11415; dam, Cannette 6550—Owosso Sugar Co. Prairie Farm, Alicia, Mich.
- 3rd Lady Blanche 3304—Age, March 10, 1923; sire, Master 2052; dam, Florine 2063—Andrew Nolan, Rouleau, Sask., Can.

**CLASS 77****Mare, 3 Years and Under 4**

- 1st Manitta de Rubis 10750—Age, May 27, 1924; sire, Rubis 8004; dam, Manitta 7029—Michigan State College, East Lansing, Mich.
- 2nd Naomi de Rubis 10749—Age, April 23, 1924; sire, Rubis 8004; dam, Lady Loone 8270—Michigan State College, East Lansing, Mich.
- 3rd Flower de Bogaerden 11073—Age, May 27, 1924; sire, Piston de Bogaerden 7374 (67984); dam, Hammer's Minota 5068—North Dakota Agr. College, State College Station, Fargo, N. D.
- 4th Successor Finette 11084—Age, May 11, 1924; sire, Farceur's Successor 13016; dam, Nora 2905—C. E. Jones, Livermore, Iowa.
- 5th Bess 11147—Age, March 27, 1924; sire, Barnum de Beersel 5983; dam, Bessie 4023—F. B. Hitchcock, Lacon, Ill.
- 6th Badger Belle 10814—Age, May 15, 1924; sire, Farceur's Pal 11321; dam, Springdale Katherine 8897—University of Wisconsin, Madison, Wis.

**MANITTA de RUBIS 10750**

Grand Champion Belgian Mare, 1927. Age, May 27, 1924.  
Sire, Rubis 8004; dam, Manitta 7029. Owned by  
Michigan State College, East Lansing, Mich.

**CLASS 78****Mare, 2 Years and Under 3****Awards**

- 1st Belle Phoenix 11290—Age, May 3, 1925; sire, Range Line Phoenix 12808; dam, Belle 7527—Michigan State College, East Lansing, Mich.
- 2nd Lady Supreme 11569—Age, 1925; sire, Supreme 12513; dam, Medella 4834—Chas. A. Wentz & Sons, Kirby, Ohio.
- 3rd Lina d'Ergot 11699—Age, July 28, 1925; sire, Ergot 7611; dam, Plain View Lady 3440—C. E. Jones, Livermore, Iowa.
- 4th Margaret of Hillside 11632—Age, April 14, 1925; sire, Orange 13450; dam, Holberta Evelyn 8576—F. B. Hitchcock, Lacon, Ill.
- 5th Mary Jane de Noz. 3525—Age, 1925; sire, Cesar de Noz. —639—; dam, Izeta —1263—4329—R. J. Ferguson, Drinkwater, Sask., Can.
- 6th Pleasant View La Fleur 11925—Age, May 23, 1925; sire, La Fleur 13452; dam, Black Beauty 9756—J. C. Shearer, Tampico, Ill.

**CLASS 79****Mare, 1 Year and Under 2**

- 1st Syncopation 12213—Age, April 21, 1926; sire, Rubis 8004; dam, Qunea 4887—Owosso Sugar Co., Prairie Farm, Alicia, Mich.
- 2nd Woodwrow Wilson's Sunbeam 11713—Age, March 27, 1926; sire, Woodrow Wilson 11141; dam, Betty 7455—Chas. A. Wentz & Sons, Kirby, Ohio.
- 3rd Farceur's Fuchsia 12178—Age, March 18, 1926; sire, Farceur's King 12477; dam, Blossom de Bogaerden 10480—North Dakota Agr. College, Fargo, N. D.
- 4th Marmotte 12212—Age, April 21, 1926; sire, Louvain 12100; dam, Madam Paryck 5900—Owosso Sugar Co., Prairie Farm, Alicia, Mich.
- 5th St. Paul Quinette 11802—Age, April 29, 1926; sire, Farceur Jr. 11642; dam, Quinette de Flashwood 10059—University of Minnesota, St. Paul, Minn.
- 6th Livenche 11847—Age, April 13, 1926; sire, Range Line Phoenix 12808; dam, Pervenche 9030—Michigan State College, East Lansing, Mich.
- 7th Lady Wellington—Age, May 23, 1926; sire, Wellington 3694; dam, Lady Farceur 3243—J. J. Magowan, Mossbank, Sask., Can.
- 8th Doris B. 11951—Age, March 7, 1926—M. A. McMahon, Jerseyville, Ill.
- 9th Leonie d'Ergot 11784—Age, July 14, 1926; sire, Ergot 7611; dam, Marie d'Ergot 11193—C. E. Jones, Livermore, Iowa.
- 10th Miss La Fleur—Age, June 25, 1926; sire, La Fleur 13452; dam, Babe 10317—J. C. Shearer, Tampico, Ill.

**CLASS 80****Filly Foals**

- 1st Ravenche 12218—Age, April 17, 1927; sire, Range Line Phoenix 12808; dam, Pervenche 9030—Michigan State College, East Lansing, Mich.
- 2nd Mina de Maeter—Age, April 16, 1927; sire, Louis de Maeter 13014; dam, Mina de Petit 3680—Owosso Sugar Co., Prairie Farm, Alicia, Mich.

**Awards**

- 3rd Madeliene de Rubis—Age, Feb. 17, 1927; sire, Rubis 8004; dam, Lisse de Bievene 5913—Owosso Sugar Co., Prairie Farm, Alicia, Mich.
- 4th Rose Marie 12203—Age, March 31, 1927; sire, St. Paul Masterpiece 13969; dam, Quinette de Flashwood 10059—University of Minnesota, St. Paul, Minn.

**CLASS 81****Stallion and 3 Mares, Any Age**

- 1st Michigan State College, East Lansing, Mich.
- 2nd Chas. A. Wentz & Sons, Kirby, Ohio.
- 3rd C. E. Jones, Livermore, Iowa.
- 4th Owosso Sugar Co., Prairie Farm, Alicia, Mich.

**CLASS 82****Three Mares, Property of One Exhibitor**

- 1st Michigan State College, East Lansing, Mich.
- 2nd Chas. A. Wentz & Sons, Kirby, Ohio.
- 3rd Owosso Sugar Co., Prairie Farm, Alicia, Mich.

**CLASS 83****Three Animals, Get of One Sire**

- 1st Michigan State College, East Lansing, Mich.
- 2nd C. E. Jones, Livermore, Iowa.
- 3rd Owosso Sugar Co., Prairie Farm, Alicia, Mich.
- 4th Owosso Sugar Co., Prairie Farm, Alicia, Mich.

**CLASS 84****Two Animals, Produce of One Dam, American Bred**

- 1st Owosso Sugar Co., Prairie Farm, Alicia, Mich.
- 2nd C. E. Jones, Livermore, Iowa.
- 3rd Michigan State College, East Lansing, Mich.
- 4th C. E. Jones, Livermore, Iowa.

**CLASS 85****Five Stallions, Any Age, Property of One Exhibitor**

- 1st C. E. Jones, Livermore, Iowa.
- 2nd Trumans' Pioneer Stud Farm, Bushnell, Ill.

**CLASS 86****Senior Champion Stallion, 3 Years Old and Over**

- Waynedale King 13709—Age, May 15, 1924; sire, Quimperlette Farceur 12926; dam, Antoinette 3627—Evert King, Chicago, Ill.
- Res. Lordeau 2d 13481—Age, ———, 1923; sire, Lordeau 8670; dam, Minnie 8054—Chas. A. Wentz & Sons, Kirby, Ohio.

**CLASS 87****Junior Champion Stallion, Under 3 Years**

- Preston Wolfe 14607—Age, May 9, 1926; sire, Walther 8489; dam, Elsie Houston 8756—Michigan State College, E. Lansing, Mich.
- Res. Farceur Superior 14595—Age, June 11, 1925; sire, Farceur's Successor 13016; dam, Marthe de Hulste (98631) 3836—Iowa State College, Ames, Iowa.

**CLASS 88****Grand Champion Stallion****Awards**

- Waynedale King 13709—Age, May 15, 1924; sire, Quimperlette's Farceur 12926; dam, Antoinette 3627—Evert King, Chicago, Ill.  
 Res. Lordeau 2d 13481—Age, —, 1923; sire, Lordeau 8670; dam, Minnie 8054—Chas. A. Wentz & Sons, Kirby, Ohio.

**CLASS 89****Senior Champion Mare, 3 Years or Over**

- Manitta de Rubis 10750—Age, May 27, 1924; sire, Rubis 8004; dam, Manitta 7029—Michigan State College, East Lansing, Mich.  
 Res. Pervenche 9030—Age, April 11, 1921; sire, Rubis 8004; dam, Junia 4887—Michigan State College, East Lansing, Mich.

**CLASS 90****Junior Champion Mare, Under 3 Years**

- Syncopation 12213—Age, April 21, 1926; sire, Rubis 8004; dam, Qunea 4887—Owosso Sugar Co., Prairie Farm, Alicia, Mich.  
 Res. Woodrow Wilson's Sunbeam 11713—Age, March 27, 1926; sire, Woodrow Wilson 11141; dam, Betty 7455—Chas. A. Wentz & Sons, Kirby, Ohio.

**CLASS 91****Grand Champion Mare**

- Manitta de Rubis 10750—Age, May 27, 1924; sire, Rubis 8004; dam, Manitta 7029—Michigan State College, East Lansing, Mich.  
 Res. Pervenche 9030—Age, April 11, 1921; sire, Rubis 8004; dam, Junia 4887—Michigan State College, East Lansing, Mich.

**FUTURITY CLASSES****American Bred Yearling Stallions**

- 1st Preston Wolfe 14607—Age, May 9, 1926; sire, Walther 8489; dam, Elsie Houston 8756—Michigan State College, E. Lansing, Mich.  
 2nd Marlow 15009—Age, May 5, 1926; sire, Marvel 13910; dam, Blavette 2d 7750—Iowa State College, Ames, Iowa.  
 3rd Gaston d'Ergot 14698—Age, May 17, 1926; sire, Ergot 7611; dam, Laura 6105—C. E. Jones, Livermore, Iowa.  
 4th General Garnett 14803—Age, March 27, 1926—M. A. McMahon Jerseyville, Ill.  
 5th Brin d'Or 15081—Age, April 8, 1926; sire, Rubis 8004; dam, Moutonne de Hemel 3682—Owosso Sugar Co., Prairie Farm, Alicia, Mich.  
 6th Minos de Bogaerden 15058—Age, May 15, 1926; sire, Minos 6730 (72606); dam, Rose de Bogaerden 10481—North Dakota Agr. College, Fargo, N. D.  
 7th Prince Remi 14971—Age, May 12, 1926; sire, Jupiter Remi 4504; dam, Lady Florin 9198—Trumans' Pioneer Stud Farm, Bushnell, Ill.

**Awards**

- 8th Jupiter de Ruyen 14932—Age, March 27, 1926; sire, Farceur's King 12477; dam, Jupiter's Venice 6421—University of Minnesota, St. Paul, Minn.  
 9th Lion du Fosteau 15083—Age, July 1, 1926; sire, Junior de Flandre 12854; dam, Catherine 10264—J. N. Clark, Sheldon, Ill.  
 10th Don d'Ergot 15090—Age, July 17, 1926; sire, Ergot 7611; dam, Plainview Lady 3440—C. E. Jones, Livermore, Iowa.

**American Bred Yearling Mares**

- 1st Syncopation 12213—Age, April 21, 1926; sire, Rubis 8004; dam, Qunea 4887—Owosso Sugar Co., Prairie Farm, Alicia, Mich.  
 2nd Woodrow Wilson's Sunbeam 11713—Age, March 27, 1926; sire, Woodrow Wilson 11141; dam, Betty 7455—Chas. A. Wentz & Sons, Kirby, Ohio.  
 3rd Farceur's Fuchsia 12178—Age, March 18, 1926; sire, Farceur's King 12477; dam, Blossom de Bogaerden 10480—North Dakota Agr. College, Fargo, N. D.

 10th Miss LaFleur—Age, June 25, 1926; sire, LaFleur 13452; dam, Black Babe 10317—J. C. Shearer, Tampico, Ill.

**KING ALBERT CUP**

The Societe Royale le Cheval de Trait Belge of Brussels, Belgium, offered a silver trophy to be awarded at the 1927 International Live Stock Exposition. This trophy is known as the "King Albert Cup" by special permission of His Royal Highness, King Albert of Belgium.

The conditions governing this award are as follows: "To the best Belgian stallion or mare of the Show, registered in the American Stud-Book, or in the Belgian Stud-Book. Any animal which has won a cup offered by the said Societe is automatically debarred from competing again for another cup."

Awarded to Lordeau 2d 13481, owned by Chas. A. Wentz & Sons, Kirby, Ohio.

("Waynedale King," grand champion stallion, won a similar cup at the 1926 Exposition and therefore was not eligible.)

## THE SUFFOLKS

Alex. Galbraith  
Judge

Alex. Galbraith of Edmonton, Alta., Canada, again made the official awards in the Suffolk horse classes. A newcomer this year was Alexander Maclaren of Buckingham, Quebec, whose entries came from Canada to challenge those from the well-known Hawthorn Farm owned by Samuel Insull near Chicago.

Both championships went to the Hawthorn Farm stud. A son of Ashmoor Romeo, two-year-old Hawthorn Wisdom, was awarded the stallion championship and Hawthorn Sea Breeze was again made champion mare for the third year in succession. She also was sired by Ashmoor Romeo,

who has produced many of the winners for Hawthorn Farm at previous Internationals and himself was champion of the 1917, 1919, 1921 and 1922 shows.

The stallion and three mares contest went to Hawthorn Wisdom, Hawthorn Sea Breeze, Hawthorn Henham Hope and Hawthorn Mona Vanna, while the progeny of Ashmoor Romeo won the get of sire class for Hawthorn Farm.

### EXHIBITORS

Hawthorn Farm, Hawthorn Farm, Ill.  
Maclaren, Alexander, Buckingham, Que., Can.

### CLASS 94

#### Stallion, 2 Years and Under 3

##### Awards

- 1st Hawthorn Wisdom 1491—Age, May 16, 1925; sire, Ashmoor Romeo 607; dam, Hawthorn Fragrance 1087—Hawthorn Farm, Hawthorn Farm, Ill.

##### Awards

- 1st Hawthorn Sea Breeze 1379—Age, June 11, 1922; sire, Ashmoor Romeo 607; dam, Framlingham Gala 992—Hawthorn Farm, Hawthorn Farm, Ill.  
2nd Sudbourne Gem (10872) [294]—Age, March 30, 1920; sire, Sudbourne Beau Brocade (4235); dam, Diamond (9611)—Alexander Maclaren, Buckingham, Que., Can.  
3rd Hawthorn Henham Hope 1454—Age, May 30, 1923; sire, Ashmoor Romeo 607; dam, Bowdsey Hebe 650—Hawthorn Farm, Hawthorn Farm, Ill.

### CLASS 97

#### Mare, 4 Years or Over

### CLASS 98

#### Mare, 3 Years and Under 4

- 1st Hawthorn Mona Vanna 1462—Age, Feb. 27, 1924; sire, Framlingham Bellboy 1360; dam, Hawthorn Girl 1231—Hawthorn Farm, Hawthorn Farm, Ill.  
2nd Hawthorn Barbara Jean 1455—Age, April 15, 1924; sire, Framlingham Bellboy 1360; dam, Hawthorn Illa 1233—Hawthorn Farm, Hawthorn Farm, Ill.  
3rd Martley Queen of Diamonds (12999) [290]—Age, March 1, 1924; sire, Morston Cider Cup (4520); dam, Sudbourne Gem (10872) [294]—Alexander Maclaren, Buckingham, Que., Can.

### CLASS 99

#### Mare, 2 Years and Under 3

- 1st Hawthorn Satin 1488—Age, June 8, 1925; sire, Framlingham Bellboy 1360; dam, Hawthorn Encore 1242—Hawthorn Farm, Hawthorn Farm, Ill.  
2nd Hawthorn Peggy Wood 1495—Age, May 11, 1925; sire, Ashmoor Romeo 607; dam, Rendlesham Mistress 763—Hawthorn Farm, Hawthorn Farm, Ill.

### CLASS 100

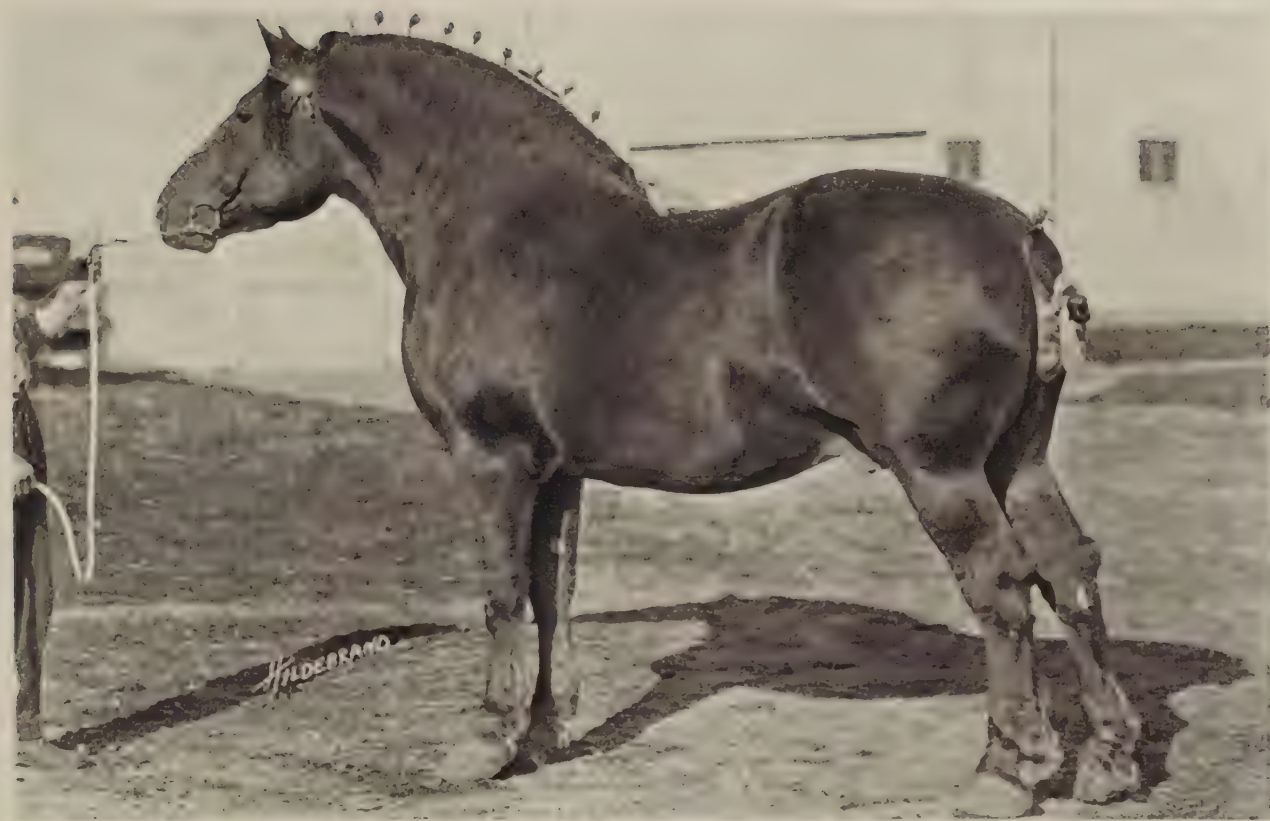

#### Mare, Yearling Filly

- 1st Hawthorn Carol 1522—Age, June 7, 1926; sire, Ashmoor Romeo 607; dam, Finally 770—Hawthorn Farm, Hawthorn Farm, Ill.  
2nd Hawthorn Jewel 1521—Age, May 11, 1926; sire, Morston Beau Brummel 1457; dam, Hawthorn Silver 935—Hawthorn Farm, Hawthorn Farm, Ill.

### CLASS 101

#### Mare, Filly Foal

- 1st Neralcorn Countess [295]—Age, Jan. 27, 1927; sire, Bodkin (4689); dam, Morston Countess 2d (12609) [288]—Alexander Maclaren, Buckingham, Que., Can.

**TYPE OF SUFFOLK STALLION**

("Ashmoor Romeo"—many times champion at the "International")

**CLASS 102****Stallion and 3 Mares, Any Age****Awards**

Hawthorn Wisdom, Hawthorn Sea Breeze, Hawthorn Henham Hope and Hawthorn Mona Vanna—Hawthorn Farm, Hawthorn Farm, Ill.

**CLASS 104****Three, the Get of One Sire**

1st Hawthorn Farm, Hawthorn Farm, Lake County, Ill.  
2nd Hawthorn Farm, Hawthorn Farm, Lake County, Ill.

**CLASS 105****Champion Stallion****Awards**

Hawthorn Wisdom 1491—Age, May 16, 1925; sire, Ashmoor Romeo 607; dam, Hawthorn Fragrance 1087—Hawthorn Farm, Hawthorn Farm, Ill.

**CLASS 106****Champion Mare**

Hawthorn Sea Breeze 1379—Age, June 11, 1922; sire, Ashmoor Romeo 607; dam, Framlingham Gala 992—Hawthorn Farm, Hawthorn Farm, Ill.  
Res. Hawthorn Carol 1522—Age, June 7, 1926; sire, Ashmoor Romeo 607; dam, Finally 770—Hawthorn Farm, Hawthorn Farm, Ill.

**GELDINGS AND GRADE MARES**

Numerically the gelding show was about the same as in former years, but there were more good horses. More than a dozen exhibitors came from widely scattered areas. Manitoba and Saskatchewan exhibits, direct from the Canadian Royal, brought several imported aged Clydesdales that were nearer model draft conformation than are commonly found nowadays. The show proved a school of instruction for young men who desire to learn about type that means profit in commercial draft horses. They were judged by Prof. H. H. Kildee and R. M. Hamer.

The aged geldings in the halter brought out the six-year-old imported grade Clydesdale Alladin, exhibited by Patrick Shea of Winnipeg. This is one of the best-balanced draft geldings seen here in a long time. His quality, style and action made him a splendid grand champion. Mack, an Illinois-bred horse, showing less middle but excellent action, and grand champion at Iowa State Fair last year, was second and reserve champion for Union Stock Yard & Transit Co., and their Victor, somewhat smaller than those above him, but built right, was third. The three-year-olds showed outcome, but hardly material enough to figure in the championships. The class was won on Willie owned by the Arctic Ice & Coal Co. of Saskatchewan. Tom, a Hayfield Farm entry showing a lot of outcome, won from King,

shown by John Ross, Holland, Man., in the two-year-old group.

The two, four and six-horse hitches were the sensation of the night horse show. The Canadian exhibits at the halter usually draw the lion's share, but in harness the visitors seldom measured up to the linesmanship of Frank Housley, representing Wilson & Company, and Billy Wales, driving for the Union Stock Yard. In heavy pairs—over 3,000 pounds—Patrick Shea's Unity and Aladdin, well-mated and so drafty, won over McDonald and McFarlane, the more flashy pair shown by Wilson.

In a closely contested fight between teams weighing 3,400 to 3,800 pounds, Wallace and Bruce nosed out ahead for Wilson with the Union Stock Yard a close second on Victor and Sandy.

The tandem hitch was fought out between Scotty and Victor, owned by the Union Stock Yard, and Bachelor and Colonel, owned by Wilson. The Stock Yard won by a close margin. The four-horse team competition was more sensational. The more showy, better-mannered Wilson & Co. entry took the blue ribbon over the Union Stock Yard.

Every night the crowds were thrilled at the marvelous exhibition of four six-horse-teams owned by the Union Stock Yard & Transit Co., Wilson & Co., Patrick Shea and

Swift & Co. All were Clydesdales except those of Swift, which were Percherons. On Saturday night when this class was judged, Thos. Lytle, Roland, Man., competed in place of Swift & Co. Housley and Wales were both driving true to form, the former winning the event with the snappier-going, better-mannered six.

In the non-professional teams the farmer-breeders have a better opportunity to compete. Entries this year for teams weighing over 3,200 pounds were few. B. H. Moore,

Rouleau, Sask., won the class on a real drafty pair of well-mated Percherons. Second and third went to Lytle on well-driven but less drafty pairs than the winners. Lytle was the entry in four-horse teams.

In the wagon horse class, sponsored by Harry McNair, Edellyn Farm, Wilson, Ill., was first on Edellyn's Pride. Omar was second for the Borgen Dairy Company. The entry was the typier wagon horse with more style.—The New Breeder's Gazette.

Groom of Suffolk Stable Winning Highest Score.....	Harry P. Perkins, Hawthorn Farm, Lake County, Ill.

## THE EVENING HORSE SHOW

Capacity c r o w d s enthusiastically greeted each event in what proved to be one of the best horse show programs ever offered at the International. Exhibitors who brought their finest horses to Chicago from widely separated parts of the continent felt well repaid by the appreciative applause their entries received at each performance from the thousands of Exposition visitors. The interest of the audience never lagged as the driving, riding and jumping events, delightfully interspersed with a variety of parades, sheep dog exhibitions, six-horse-team maneuvers and polo games, kept the tan bark arena filled with colorful action.

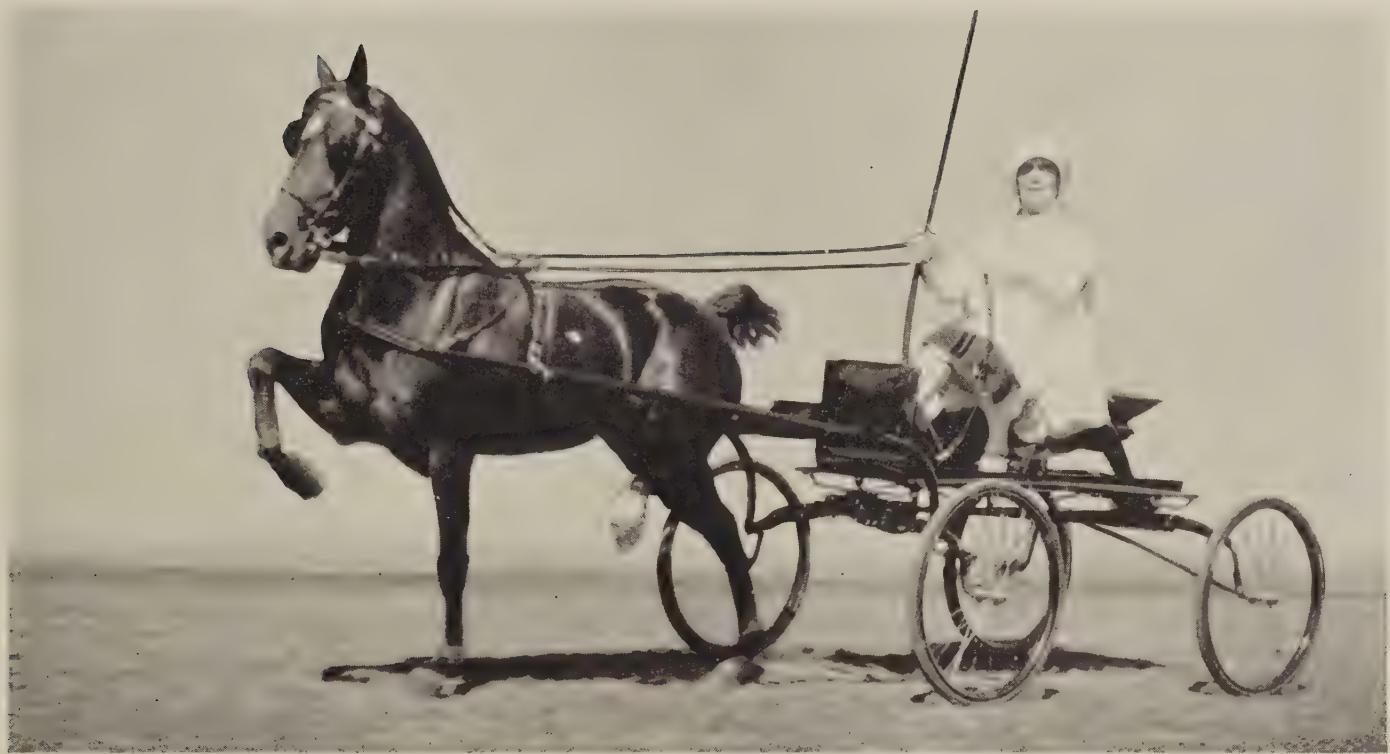

Starting the first Saturday night with the ceremony of the presentation of colors by the Stock Yards Post of the American Legion, the Evening Horse Show continued to grow in interest until the climax was reached on the closing night a week later when final championships were decided. As has been the custom the last few years, Monday night witnessed an inspiring parade in arena of 1,200 members of the National Boys' and Girls' Club Congress.

Competition was unusually keen in the large saddle classes, with both three-gaited and five-gaited horses of the highest order competing in the various contests. The

harness classes were better filled than at former shows and the awards well distributed. Some of the finest ponies in the country delighted the ring side in their struggle for the favor of the judges. The hunter and jumper classes brought out the largest rings of the show and produced some wonderfully clean performances. The presence of many new exhibitors was noteworthy.

Ribbons were tied in the harness and breeding horse classes by Mr. R. Lawrence Smith, New York City, and Mr. Harry McNair, Chicago; in the pony harness and breeding classes by Mr. Thomas W. Clark, Edgemont, Pa.; in the saddle, fine harness and roadster classes by Mr. Claude Pemberton, Elizabethtown, Ky., Mr. A. S. Thompson, Paducah, Ky., and Mr. McNair; and in the hunter and jumper classes by Mr. John T. Pirie of Lake Forest, Ill. The draft horses were officially rated by Professor H. H. Kildee, Ames, Iowa, and Mr. R. M. Hamer, Boyce, Va., with the assistance of Mr. Smith on the six-horse-teams. Mr. Robert A. Fairbairn of Westfield, N. J., served as the associate judge.

The brilliant evening entertainments in the arena, which constitute one of the greatest attractions of the Exposition, have been developed to their present high state of perfection through the untiring efforts of Chairman O. T. Henkle and Secretary W. J. O'Connor of the Horse Show Committee who constantly seek improvements over each preceding year's successful program.

**FASCINATION—OWNED AND DRIVEN BY MRS. LOULA LONG COMBS**  
Winner of Champion Pony Stake

**"OPENING NIGHT" CLASSES****CLASS 1**

**Stallion, Mare or Gelding, 14 hands 2 inches or over.**

Ladies' qualified or green hunters; up to carrying 165 pounds, to hounds. To be shown over a 4-foot brush; a 4-foot fence and a 4-foot post and rail. Twice around. Conformation to count 50 per cent; performance 50 per cent. Ladies to ride.

- 1st Thamesford—Pabst Farms, Oconomowoc, Wis.
- 2nd Golden Sunset—Sunset Farm, Palatine, Ill.
- 3rd Captain Kidd—Harry Gorham, Morris, Ill.
- 4th Gaelic—Philip D. Burke, Chicago, Ill.

**THAMESFORD**

Winner of Lady's Hunter Class, 1927. Owned by  
Pabst Farms, Oconomowoc, Wis.

**CLASS 46**

Hunters, to be ridden by amateurs. To be shown over 4-foot brush, 4-foot fence, 4-foot picket fence, and a 4-foot post and rail. Twice around. Performance to count 75 per cent; conformation 25 per cent.

**Awards**

- 1st June Night—Geo. A. Strom, Wheaton, Ill.
- 2nd Star—Pabst Farms, Oconomowoc, Wis.
- 3rd Sheba—Pabst Farms, Oconomowoc, Wis.
- 4th Rocket—Thompson Ross, Winnetka, Ill.

**CLASS 47**

Jumping. Over 8 jumps 4 feet 6 inches high, as follows: 4-foot 6-inch brush; 4-foot 6-inch fence; 4-foot 6-inch picket fence, and 4-foot 6-inch post and rail. Twice around. Performance only to count. Horses must be ridden in hunt livery or officer's uniform.

- 1st Nancy—Pabst Farms, Oconomowoc, Wis.
- 2nd June Night—Geo. A. Strom, Wheaton, Ill.
- 3rd Thamesford—Pabst Farms, Oconomowoc, Wis.
- 4th General—Pabst Farms, Oconomowoc, Wis.

**CLASS 48**

Pen jump. Contestants will be required to ride over board fence 4 feet high into a pen 24 feet square; straight through, jump out; return over same jump; turn and jump over side; ride up to post and rail, throw off top rail, turn and jump the remaining rails.

- 1st June Night—George A. Strom, Wheaton, Ill.
- 2nd Rollo Reed—Oakwoods Farm, Hartland, Wis.
- 3rd Rocket—Thompson Ross, Winnetka, Ill.
- 4th Golden Sunset—Sunset Farm, Palatine, Ill.

**CLASS 49**

Triple Bar Jump. The first bar 2 feet 6 inches; second bar, 3 feet; third bar 4 feet. The distance between the first and third bar is approximately six feet. Four jumps. Performance only to count.

- 1st Reveille—O. W. Lehmann, Lake Villa, Ill.
- 2nd Lord Byng—Sunset Farm, Palatine, Ill.
- 3rd Sure Fire—O. W. Lehmann, Lake Villa, Ill.
- 4th Over the Top—Mrs. Bert H. Laudermilk, Chicago, Ill.

**SUREFIRE**

Winner of Champion Hunter Stake, 1927. Owned by O. W. Lehmann, Lake Villa, Ill.

**CLASS 50**

**"Touch and Out." For jumpers. To take eight jumps 4 feet high. Touch and out.**

**Awards**

- 1st Sure Fire—O. W. Lehmann, Lake Villa, Ill.
- 2nd Minstrel—Oakwoods Farm, Hartland, Wis.
- 3rd Gaelic—Philip D. Burke, Chicago, Ill.
- 4th Reveille—O. W. Lehmann, Lake Villa, Ill.

**\$1,000.00 CHAMPION HUNTER STAKES**

**HUNTERS—Open to all hunters, to be shown twice around the course, the jumps to consist of a 4-foot brush, a 4-foot gate, and two 4-foot 3-inch posts and rails. Performance to count 50 per cent; conformation and quality 30 per cent; manners and style of jumping 20 per cent.**

- 1st Sure Fire—O. W. Lehmann, Lake Villa, Ill.
- 2nd Thamesford—Pabst Farms, Oconomowoc, Wis.
- 3rd Reveille—O. W. Lehmann, Lake Villa, Ill.
- 4th June Night—George A. Strom, Wheaton, Ill.
- 5th Sheba—Pabst Farms, Oconomowoc, Wis.
- 6th Lord Byng—Sunset Farm, Palatine, Ill.
- 7th Golden Sunset—Sunset Farm, Palatine, Ill.
- 8th Bless Her Heart—Oakwoods Farm, Hartland, Wis.

**FRENCH HIGH COMMISSION CHALLENGE CUP****CLASS 52**

The French High Commission offers a cup for the best Saddle Horse, hunter type, 4 to 8 years old, shown over four jumps four and one-half feet high, as follows: Brush, fence, and two posts and rails. Once around. Style and performance to count 60 per cent; conformation 40 per cent.

This cup must be won three times by the same exhibitor before becoming his permanent property. This cup is to remain in the possession of the Saddle and Sirlain Club and be exhibited in its rooms until finally won.

- Won in 1918 by Woodin Farms' "The Master."
- Won in 1919 by Woodin Farms' "The Master."
- Won in 1920 by Benj. Leslie Behr's "Tremont."
- Won in 1921 by Mr. J. Lemon's "Bon Ton."
- Won in 1922 by Mr. John McE. Bowman's "Danzant."
- Won in 1923 by Mr. Benj. Leslie Behr's "Banter."
- Won in 1924 by Mr. O. W. Lehmann's "Surefire."
- Won in 1925 by Mrs. F. J. Navin's "Ruane."
- Won in 1926 by Mr. O. W. Lehmann's "Reveille."
- Won in 1927 by Mr. O. W. Lehmann's "Reveille."

**HACKNEYS AND HACKNEY PONIES****CLASSES 78 AND 81**

**Champion Hackney Mare, 4 years or over, 14 hands 2 inches or over, shown to halter.**

**Awards**

- 1st Killearn Magic—Killearn Farm, Millbrook, N. Y.
- 2nd Montpelier Corinne—O. W. Lehmann, Lake Villa, Ill.
- 3rd Princess Mary—O. W. Lehmann, Lake Villa, Ill.

**CLASS 84**

**Hackney Pony Mare, 4 years or over, under 14 hands 2 inches, shown to halter.**

- 1st Mitzi—George A. Strom, Wheaton, Ill.

**Awards**

- 2nd Carnation—Loula Long Combs, Lee's Summit, Mo.
- 3rd Trillo's Night Light's Daughter—Broad View Farm, Inc., La Porte, Ind.

**CLASS 87**

**Champion Hackney Pony Mare, under 14 hands 2 inches, shown to halter.**

- 1st Mitzi—George A. Strom, Wheaton, Ill.
- 2nd Carnation—Loula Long Combs, Lee's Summit, Mo.

## PONIES OTHER THAN SHETLAND

### CLASS 53

**Pony, not exceeding 12 hands 2 inches, in harness**

Awards

- 1st Fascination—Loula Long Combs, Lee's Summit, Mo.
- 2nd Fashion—Loula Long Combs, Lee's Summit, Mo.
- 3rd Model—Earl M. Dixon, New Boston, Ill.
- 4th Tit Bit—Bridgford Brothers, Joy, Ill.

### CLASS 54

**Pony, over 12 hands 2 inches and not exceeding 13 hands 2 inches, in harness.**

- 1st Carnation—Loula Long Combs, Lee's Summit, Mo.
- 2nd High Explosion—George A. Strom, Wheaton, Ill.
- 3rd Trillo's Night Light's Daughter—Broad View Farm, Inc., La Porte, Ind.
- 4th Fire Lass—John R. Thompson, Chicago, Ill.

### CLASS 55

**Pony, over 13 hands 2 inches and under 14 hands 2 inches, in harness.**

- 1st Mitzi—George A. Strom, Wheaton, Ill.
- 2nd Tissington Teaser—Hugh B. Wick, Cleveland, Ohio.
- 3rd Little Rowdy—Bridgford Brothers, Joy, Ill.
- 4th Trillo's Son of Fire—Broad View Farm, Inc., La Porte, Ind.

### CLASS 56

**Pair of Ponies, not exceeding 12 hands 3 inches, in harness**

- 1st Fascination and Fashion—Loula Long Combs, Lee's Summit, Mo.
- 2nd High Explosion and Habrough Charm—George A. Strom, Wheaton, Ill.
- 3rd Model and Marvel—Earl M. Dixon, New Boston, Ill.
- 4th Gossip and Scandal—William E. Dee, Chicago, Ill.

### CLASS 57

**Pair of Ponies, over 12 hands 3 inches and under 14 hands 2 inches, in harness.**

- 1st Braishfield Lois and Fire Lass—John R. Thompson, Chicago, Ill.
- 2nd Cassilis Confidence and Mitzi—George A. Strom, Wheaton, Ill.
- 3rd Tissington Teaser and Tissington Coaxer—Hugh B. Wick, Cleveland, Ohio.
- 4th Little Rowdy and Collegian—Bridgford Brothers, Joy, Ill.

### CLASS 58

**Tandem, not exceeding 12 hands 3 inches**

- 1st Fascination and Fashion—Loula Long Combs, Lee's Summit, Mo.
- 2nd High Explosion and Habrough Charm—George A. Strom, Wheaton, Ill.
- 3rd Tit Bit and Galleywood—Bridgford Brothers, Joy, Ill.
- 4th Model and Marvel—Earl M. Dixon, New Boston, Ill.

### CLASS 59

**Tandem, over 12 hands 3 inches and under 14 hands 2 inches.**

Awards

- 1st Tissington Teaser and Tissington Coaxer—Hugh B. Wick, Cleveland, Ohio.
- 2nd Cassilis Confidence and Mitzi—George A. Strom, Wheaton, Ill.
- 3rd Little Rowdy and Collegian—Bridgford Brothers, Joy, Ill.
- 4th Bouncing Bantam and Skirbeck Firelight—William E. Dee, Chicago, Ill.

### CLASS 60

**Three Ponies, other than Shetland, under 14 hands 2 inches, owned by same exhibitor. Shown as a pair and a single.**

- 1st Loula Long Combs, Lee's Summit, Mo.
- 2nd George A. Strom, Wheaton, Ill.
- 3rd Hugh B. Wick, Cleveland, Ohio.
- 4th Bridgford Brothers, Joy, Ill.

### CLASS 61

**Pony, not exceeding 12 hands 3 inches, under saddle**

- 1st Irene Castle—Hugh B. Wick, Cleveland, Ohio.
- 2nd White Rock—William E. Dee, Chicago, Ill.
- 3rd Royal Maid—Geo. A. Heyl & Son, Washington, Ill.

### CLASS 62

**Pony, over 12 hands 3 inches and under 14 hands 2 inches, under saddle.**

- 1st Jack O' Diamonds—Broad View Farm, Inc., La Porte, Ind.
- 2nd Student Prince—William E. Dee, Chicago, Ill.
- 3rd Beedlumbo—Walter P. Saunders, La Grange, Ill.

## \$500.00 CHAMPION PONY STAKE

### CLASS 63

**Pony, other than Shetland, under 14 hands 2 inches.**

**To be shown to appropriate vehicle.**

- 1st Fascination—Loula Long Combs, Lee's Summit, Mo.
- 2nd Braishfield Lois—John R. Thompson, Chicago, Ill.
- 3rd High Explosion—George A. Strom, Wheaton, Ill.
- 4th Mitzi—George A. Strom, Wheaton, Ill.
- 5th Tissington Teaser—Hugh B. Wick, Cleveland, Ohio.
- 6th Little Rowdy—Bridgford Brothers, Joy, Ill.
- 7th Fire Lass—John R. Thompson, Chicago, Ill.

**BRAISHFIELD LOIS—MRS. JOHN R. THOMPSON DRIVING**  
Winner in the Pony Classes

## SHETLAND PONIES

### CLASS 64

#### Shetland Pony, in harness

##### Awards

- 1st Locust Flame—Bridgford Brothers, Joy, Ill.
- 2nd Black Patton—Gorham & Simpson, Morris, Ill.
- 3rd King Larigo II—Geo. A. Heyl & Son, Washington, Ill.
- 4th L. V. Maid—Geo. A. Heyl & Son, Washington, Ill.

### CLASS 65

#### Pair Shetland Ponies, in harness

- 1st Black Patton and Karess—Gorham & Simpson, Morris, Ill.
- 2nd King Larigo II and L. V. Maid—Geo. A. Heyl & Son, Washington, Ill.
- 3rd Jolly Laddie and Jolly Tommie—William E. Dee, Chicago, Ill.

### CLASS 66

#### Shetland Pony Tandem

- 1st Black Patton and Karess—Gorham & Simpson, Morris, Ill.

##### Awards

- 2nd King Larigo II and L. V. Maid—Geo. A. Heyl & Son, Washington, Ill.
- 3rd Sadie Mac and Romping Jolly—West Baden Springs Hotel, West Baden, Ind.
- 4th Jolly Laddie and Jolly Tommie—William E. Dee, Chicago, Ill.

### CLASS 68

#### Champion Shetland Stallion, shown to halter

- 1st Black Patton—Gorham & Simpson, Morris, Ill.
- 2nd King Larigo II—Geo. A. Heyl & Son, Washington, Ill.

### CLASS 69

#### Champion Shetland Mare, shown to halter

- 1st L. V. Maid—Geo. A. Heyl & Son, Washington, Ill.
- 2nd Lady Beautiful—West Baden Springs Hotel, West Baden, Ind.

## WELSH PONIES

### CLASS 70

#### Welsh Pony, in harness

##### Awards

- 1st Model—Earl M. Dixon, New Boston, Ill.
- 2nd Gossip—William E. Dee, Chicago, Ill.
- 3rd Royal Maid—Geo. A. Heyl & Son, Washington, Ill.
- 4th Vanity—Luke O'Toole, Chicago, Ill.

### CLASS 71

#### Pair of Welsh Ponies, in harness

- 1st Model and Marvel—Earl M. Dixon, New Boston, Ill.
- 2nd Gossip and Scandal—William E. Dee, Chicago, Ill.
- 3rd King Cole II and Gwindy Prophet—Geo. A. Heyl & Son, Washington, Ill.
- 4th Baby Lou and Delightful—D. G. Welty, Nevada, Iowa.

### CLASS 72

#### Welsh Pony Tandem

- 1st Gossip and Scandal—William E. Dee, Chicago, Ill.
- 2nd Model and Marvel—Earl M. Dixon, New Boston, Ill.
- 3rd King Cole II and Gwindy Prophet—Geo. A. Heyl & Son, Washington, Ill.
- 4th Baby Lou and Delightful—D. G. Welty, Nevada, Iowa.

### CLASS 73

#### Welsh Pony, under saddle

##### Awards

- 1st Miss Muffett—George A. Strom, Wheaton, Ill.
- 2nd Jack O' Diamonds—Broad View Farm, Inc., La Porte, Ind.
- 3rd Royal Maid—Geo. A. Heyl & Son, Washington, Ill.
- 4th White Rock—William E. Dee, Chicago, Ill.

### CLASS 74

#### Champion Welsh Stallion, shown to Halter

- 1st Model—Earl M. Dixon, New Boston, Ill.
- 2nd King Cole II—George A. Heyl & Son, Washington, Ill.

### CLASS 75

#### Champion Welsh Mare, shown to halter

- 1st Baby Lou—D. G. Welty, Nevada, Iowa.
- 2nd Gossip—William E. Dee, Chicago, Ill.

### STALL DECORATIONS

Best decorated stalls. Decorations, neatness of stalls and surroundings, dress and manner of attendants will be considered.

- 1st Mrs. A. C. Thompson, Chicago, Ill.
- 2nd Herbert M. Woolf, Kansas City, Mo.
- 3rd Emil Denmark, Chicago, Ill.

## THE MEAT SHOPPE

### (Quality in Meats Exhibit)

By R. C. POLLOCK, Superintendent

The "Quality in Meats" Exhibit, now an established feature of the International Live Stock Exposition, drew exceptionally wide attention at the recent show, due largely to interesting and instructive new material which was introduced into it. It appeared to be the consensus of opinion of livestock men and consumers alike that this was the best exhibit from every angle yet prepared.

As in the past, the meat show was presented under the auspices of the National Live Stock and Meat Board and co-operating with the Board were the Exposition management, the United States Department of Agriculture,

state agricultural experiment stations, and the Institute of American Meat Packers. Two additional organizations—the National Wool Growers Association and the Better Beef Association—also played a prominent part this year.

The National Wool Growers assisted with one of the striking new features of the exhibit. In a handsome cooler at one end of the room was assembled a display of lamb carcasses and cuts which was both decorative and instructive. A row of very desirable carcasses served as a background for an array of lamb cuts featuring the forequarter in particular. Such cuts as the crown roast, mock duck, rolled shoulder and rolled breast offered a very attractive display. The mock ducks were arranged in the center of the cooler on a mirror to represent a pond and the other cuts placed around this. The crowd which was present al-

most constantly in front of the exhibit was evidence that the effort in preparing it was well worth while.

Another new departure was the display of United States government graded and stamped beef arranged by the Better Beef Association. This occupied a portion of one of the large cold storage rooms the first half of the week when exhibits by the experiment stations were on view. The graded beef exhibit included six sides of beef showing in each case the wholesale cuts derived therefrom. There were light and heavy carcasses of prime, choice, and good steers and each was marked with the ribbon stamp—"U. S. Prime Steer," "U. S. Choice Steer," or "U. S. Good Steer." The widespread interest aroused in the grading and stamping service which was inaugurated last May at ten large points of slaughter made this display most timely.

Still other new features were offered such as an array of pork shoulder cuts and ready-to-serve meats, arranged in a refrigerated display case at the opposite end of the room from the lamb display.

A new mechanical device showing the busy city with its many types of workers stressed the need of meat in the diet of all.

The displays by the United States Department of Agriculture and the experiment stations presented the results of experimental projects conducted at Iowa, Mississippi, Missouri, Nebraska, North Dakota, Ohio and the Coastal Plains experiment station at McNeill, Miss. This material was replaced Thursday morning by the prize winning carcasses of the carcass contest and these were sold at public auction on Friday morning.

A new meat recipe book, "101 Meat Recipes Olde and New," published by the National Live Stock and Meat

R. C. Pollock  
Supt.

Board, served as a very attractive and useful souvenir of the meat exhibit. Several thousand copies of this book were given out to visitors during the week.

The detail of the United States Department of Agriculture and the experiment station displays of the "Quality in Meats" Exhibit are given below.

#### Iowa Agricultural Experiment Station

The question as to the relative merits of purebred and crossbred pigs for commercial pork production is of long standing. It is of real interest to all persons connected in any way with the hog business. Strong claims have

LESSONS IN BREEDING AND FEEDING EXEMPLIFIED IN PORK AND LAMB CARCASSES DISPLAYED IN "QUALITY IN MEATS" EXHIBIT

been made on both sides but it is clear that there has been a lack of experimental evidence on the question.

The Iowa station undertook study of the question in its various phases and has completed two years' work. Purebred Poland China sows have been bred to both a purebred Poland China boar and a purebred Duroc-Jersey boar, or "double-mated", to produce both purebred and

crossbred pigs in the same litter. Comparisons of the purebred and crossbred pigs so produced have been made, including birth weights, rapidity of gains, feed requirements per unit of gain, and so forth. In this feature of the exhibit were shown half carcasses and cuts from two hogs produced in this experiment. One of these hogs was a purebred Poland China and the other a crossbred Duroc Jersey-

PRIZE-WINNING PORK CARCASSES

Poland China, both from the same litter and fed and handled under identical conditions. The two hogs shown were strictly representative of the lots from which they were taken and comparison of the carcasses and cuts was of particular interest.

**United States Department of Agriculture**

The degree of firmness found among properly chilled

hog carcasses varies considerably. In many cases the lack of firmness is sufficient to result in a grading of medium soft, soft or even oily being applied to the carcass. Such pork is commonly known as "soft-pork" and it is regarded as inferior commercially to pork from hard or medium hard carcasses. Ordinarily hogs yielding "soft-pork" bring less money on the market and difficulties are encountered in sending their products along the channels of trade.

DISPLAY OF LAMB CARCASSES IN "QUALITY IN MEATS" EXHIBIT

In this feature of the exhibit were shown half carcasses and products of hard, soft, and oily hogs. Feed was responsible for the differences in firmness and the respective rations were as follows:

Corn, tankage and minerals.

Corn (3 parts), soybeans (1 part), and minerals.

Peanuts, tankage and minerals.

**Nebraska Agricultural Experiment Station,  
Institute of American Meat Packers, Co-operating**

There is a rather general demand in the United States for the leaner kind of meat. Fat, often referred to as "finish" or "covering" by live stock and meat men, is regarded by many as largely waste and as quite undesirable. It is not generally known that fat or "finish" is an essential com-

**GOVERNMENT GRADED AND STAMPED BEEF**

A New Feature in "Quality in Meats" Exhibit

ponent of the better grades of meat. The fattening of a beef animal is a matter of much importance to the producer, packer, dealer and consumer. Half carcasses and cuts of several heifers were shown to illustrate the changes which occur as the fattening or finishing progresses.

**Missouri Agricultural Experiment Station,  
Institute of American Meat Packers, Co-operating**

Sex in cattle as related to quality in the carcass is a very important question. On the market, heifers ordinarily sell at lower prices than steers. Is this price discrimination justified and, if so, what are the differences which exist in the quality of the carcasses and meats of the two classes of cattle? For comparison a half carcass and cuts of a steer and a half carcass and cuts of a heifer were shown. It was interesting to look for visual differences in the meat.

**Coastal Plain Experiment Station, McNeill, Mississippi  
Mississippi Agricultural Experiment Station,  
United States Department of Agriculture, Co-operating**

Other things being equal, market lambs of improved breeding yield meat of higher quality than scrub lambs of inferior breeding.

The carcasses and cuts shown in this part of the exhibit were from lambs produced in the Coastal Plain Region of Southern Mississippi. Scrub lambs of the unimproved Piney Woods type yielded the more inferior carcasses and cuts which were shown while the better carcasses and cuts were from lambs of improved breeding, resulting from the second-generation use of purebred Southdown rams on a ewe foundation of the native Piney Woods type.

**Ohio Agricultural Experiment Station**

Sheep parasites, under some conditions, are responsible for the difference between profit and heavy loss.

Lambs raised on an infested pasture, but fed grain and treated regularly for internal parasites produced choice carcasses while similar lambs raised on this same pasture without grain and without treatment produced cull carcasses.

In this part of the exhibit were shown carcasses and cuts from lambs that were used in this experiment. All lambs had access to infested pastures along with infested ewes from July 21 to November 17, 1927. The lambs receiving grain and treatment gained .246 pound a lamb per day and at the end of the trial averaged 85.3 pounds, while the lambs having no grain and no treatment lost .039 pound a lamb per day and averaged only 56.5 pounds at the close of the trial.

The lambs fed grain were allowed all they would consume of a mixture of 4 parts corn, 2 parts oats, and 1 part linseed oil cake by weight. The medicinal treatment used was a 1.5 per cent solution of copper sulphate. The dose given per lamb was: July 22, 40 c.c.; August 19, 45 c.c.; September 16, 47 c.c.; October 14, 50 c.c.; and November 11, 52 c.c. Lambs fed and treated remained in normal health while one-third of the lambs not receiving grain nor treated died from infestation during the experiment.

**North Dakota Agricultural Experiment Station**

Type in hogs is a problem which has received considerable attention in the United States in recent years. Work has been done not only to modify type within the various breeds to produce a hog better fulfilling modern requirements in general, but also to study the adaptability of certain breeds and types to special purposes. In this feature of the exhibit are shown hog carcasses of different types illustrating results of study along this latter line.

**United States Department of Agriculture,  
Institute of American Meat Packers, Co-operating**

Type in animals bears an important relation to quality in the carcasses and meats yielded by the animals. This applies to all three of our more common meat animals

—cattle, hogs and sheep. This feature deals with a difference in type found in cattle—good beef type versus inferior beef type, as commonly regarded today. A half carcass and cuts illustrating each of these two types were shown in the exhibit.

**A CONTRAST OF TYPES AND OF CARCASSES OF HOGS ON DIFFERENT FEEDS  
SHOWN IN PORK DISPLAY IN "QUALITY IN MEATS" EXHIBIT**

## THE INTERCOLLEGIATE MEAT JUDGING CONTEST

By R. C. POLLOCK, Superintendent

The Intercollegiate Meat Judging Contest conducted at the 1927 International Live Stock Exposition demonstrated quite conclusively that the unusual interest displayed by colleges and universities when the contest was inaugurated a year ago was by no means momentary, for the response of institutions to the second contest was even more enthusiastic than to the first. Ten institutions were represented in the first contest and twelve took part in the second. This increase shows perhaps better than any other fact that the schools are seriously concerned and are anxious to take advantage of the instruction in meat which the contest affords.

The universities and colleges which sent teams for competition were Iowa State College, South Dakota State College, Kansas State Agricultural College, University of Missouri, Oklahoma A. & M. College, University of Illinois, Pennsylvania State College, University of Wyoming, University of Nebraska, West Virginia University, University of Wisconsin, and North Dakota Agricultural College.

Co-eds made their appearance in the contest for the first time. The rules and regulations specify that a team may be composed of either men or women, or both, but in the first contest it so happened that the personnel in every case was made up entirely of men. This year the Wyoming team had one young lady as a member and the Nebraska team consisted entirely of girls.

Iowa State College, with a score of 2397 out of a possible 2700, was winner of the contest. South Dakota, which finished in second place, was only eight points behind the leader, and the teams following were separated by very small margins in each case. This close grouping was an indication of the ability displayed by the contestants. The figures tell another story of significance in that they reflect

a general improvement in meat education as taught in animal husbandry classes.

The Iowa team was composed of the following men:

Glen Briggs, of Lamoni, a Junior.

Howard Mathews, of Danville, a Senior.

Fred Willrett, of Malta, Ill., a Senior.

Don W. Johnson, of Perry, a Senior, Alternate.

Prof. M. D. Helser, Coach.

The honor of high individual scorer went to V. E. McAdams, a Kansas man. In spite of his excellent showing, Kansas placed third as a team. As in the instance of the teams, the ten high men of the contest were exceptionally close in their scoring. Only 35 points separated first and tenth places.

Judging included beef, pork, and lamb, and in addition to the ranking of teams in the contest as a whole, honorable mention was given the ten high teams in each of the three meats. South Dakota finished first in beef, Kansas in pork, and Iowa in lamb.

The best individual scores in each of these meats was made by V. E. McAdams of Kansas, in beef; M. F. Rush-ton of Missouri, in pork; and H. O. Watson and John Myers of Wyoming tied in lamb.

The National Live Stock and Meat Board trophy went into the possession of Iowa for the ensuing year. This trophy, being perpetual in nature, is at stake each year. To keep it permanently a team must win it three times.

Iowa also won the Pullman scholarship of \$250.00, which came into existence last year with the contest. Winning of the scholarship does not mean necessarily that any member of the team will profit personally. The scholarship is awarded by a group of trustees selected by the Interna-

tional Live Stock Exposition to a student at the winning institution who is deemed worthy of this recognition. Like the National Live Stock and Meat Board trophy, the scholarship is of a perpetual nature. The student receiving it must pay it back in due time so that it can be loaned to another student in the same institution.

Other awards such as ribbons were presented in recognition of individual honors in the different departments of the contest.

The judging committee consisted of John T. Russell of Chicago, past president of the National Association of Retail Meat Dealers; A. T. Edinger of Chicago, National

PARTICIPANTS IN 1927 INTERCOLLEGIATE MEATS JUDGING CONTEST

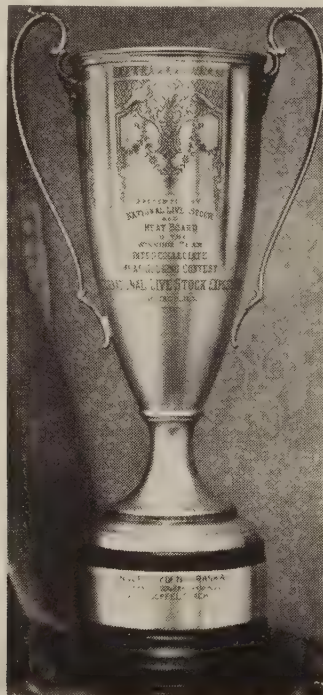

## INTERNATIONAL LIVE STOCK EXPOSITION

Live Stock and Meat Board, Department of Better Beef Association; K. F. Warner of Washington, D. C., United States Department of Agriculture; and John A. Kotal of Chicago, executive secretary of the National Association of Retail Meat Dealers. Dr. C. Robert Moulton of the Institute of American Meat Packers served as assistant super-

intendent. Valuable assistance was also rendered by A. T. Semple, Bureau of Animal Industry, and L. B. Burke, Bureau of Agricultural Economics, United States Department of Agriculture, and Kenneth Clark, University of Maryland.

As in the first contest, the meat to be judged was divided into nine classes, and each class contained four exhibits. There were two classes of beef carcasses, two classes of wholesale beef cuts; one class of pork carcasses, two classes of wholesale pork cuts, and two classes of lamb carcasses.

The contest was held in the Wilson & Company Wholesale Market and the meat to be judged was arranged in the cooler in such a manner as to expedite the judging as much as possible. The contestants were allowed time to inspect each class and make notes, after which they were given time to write their placings and reasons.

**NATIONAL LIVE STOCK AND MEAT BOARD TROPHY**  
Won by Iowa Team

## COLLEGE AND EXPERIMENT STATION SECTION

### DEMONSTRATION IN MUTTON IMPROVEMENT

Each year since 1917 President A. G. Leonard of the Union Stock Yard and Transit Company of Chicago has offered a series of prizes for the best demonstrations in mutton improvement breeding work exhibited at the International Live Stock Exposition by agricultural colleges. The contest is designed both to induce the agricultural colleges to make instruction in sheep husbandry more conspicuous in their work and also to give visitors to the International a practical demonstration of the possibilities of building up a valuable farm flock from ordinary grade ewes, which are clearly lacking in mutton form, by crossing them with registered rams of the mutton breeds.

Although the veteran Professor Frank Kleinheinz of the University of Wisconsin was prevented by illness from attending this year's International still his department was represented by its usual exhibit in the Mutton Improvement Demonstration. This educational display was based on

work carried on at the University Farm for a number of years to demonstrate the possibilities of establishing good mutton flocks by the use of western ewes mated with purebred Shropshire or Southdown rams. The Wisconsin exhibit this year as in the past proved of interest to a great many visitors especially those starting in the production of sheep for mutton purposes.

Four lots of lambs were shown, all of which were out of common grade western ewes, selected from consignments of range sheep offered on the corn belt markets at reasonable prices. Two of these lots showed what could be accomplished by the use of purebred Shropshire rams mated with western range ewes and the other two lots demonstrated the same results from the use of purebred Southdown rams. The exhibit was arranged to bring out the breeding, method of feeding and the live weight at a given age.

#### CLASS 1 Three Wether Lambs

Awards

1st University of Wisconsin, Madison, Wis.

#### CLASS 2 Three Ewe Lambs

1st University of Wisconsin, Madison, Wis.

#### CLASS 3 Best Lamb

1st University of Wisconsin, Madison, Wis.

#### CLASS 4 Three Yearling Ewes

Awards

1st University of Wisconsin, Madison, Wis.

#### CLASS 5

Three Lambs (ewe or wether) from the yearling ewes bred according to the requirements for the ewe lambs eligible for 1926 International or from ewes of the same breeding.

1st University of Wisconsin, Madison, Wis.

## JOHN CLAY & COMPANY SPECIALS

The offering by John Clay & Company of \$1,000 in prizes to the agricultural colleges on their International Live Stock Exposition exhibits of fat cattle, hogs and sheep drew out one of the very best collections of stock which ever competed for this distinctive and important feature of the show. Competition was open to all breeds of pure-breds and to grades and crosses as well.

California Stamp, a cross-bred steer, fed, bred and exhibited by the University of California, was adjudged champion of Clay Specials and later was awarded the purple rosette in the open class, emblematic of grand championship honors.

### CATTLE DIVISION

(Open to all purebreds, grades and crosses)

#### CLASS 1

**Steer, Spayed or Martin Heifer, Calved Between Jan. 1 and May 31, 1926**

##### Awards

- 1st Spike—Age, Feb. 6, 1926; sire, Lassiter 320678—Iowa State College, Ames, Iowa.
- 2nd Choice U. A. =179973= —Age, March 23, 1926; sire, Dale Cornerstone =167669=; dam, U. A. Roan Lady 10th =168574= —University of Alberta, Edmonton, Alberta, Can.
- 3rd College Earl—Age, Feb. 12, 1926; sire, Gay Baronet 333878; dam, Black Mary Inez 2d 220059—Iowa State College, Ames, Iowa.
- 4th Gay Boy 2588—Age, Jan. 5, 1926; sire, Parlee 320291; dam, State's Gay Bird 4th 295570—Pennsylvania State College, State College, Pa.

#### CLASS 2

**Steer, Spayed or Martin Heifer, Calved Between June 1 and Sept. 30, 1926**

- 1st Mah-Jongg 2d—Age, June 25, 1926; sire, Belvoir 365512; dam, Pride 3d of Lone Dell 395894—Iowa State College, Ames, Iowa.

Purdue took down first honors in the individual barrow class with a Chester White while North Dakota came into prominence by winning in the wether class with a Shropshire lamb.

Iowa repeated in the Best General Exhibit, making the fifth successive time premier honors in that class went to the Hawkeyes. Illinois bid fair to replace Pennsylvania for second honors in the Best General Exhibit, a position held by Pennsylvania for three years, but failure of Illinois to exhibit in the best Five Head of Barrows Class automatically eliminated that college from sharing in general exhibit awards.

The awards follow:

##### Awards

- 2nd Old King Cole—Age, June 19, 1926; sire, Deverly 282052; dam, Enthra 357598—University of Illinois, Urbana, Ill.
- 3rd Aster's Mischief 1523—Age, June 16, 1926; sire, Fairfax Aster 2d 1228255; dam, Rosia Mischief 1094175—University of Nebraska, Lincoln, Neb.
- 4th Admiral—Age, July 20, 1926; sire, Dale Cornerstone =167669= —University of Alberta, Edmonton, Alta.

#### CLASS 3

**Steer, Spayed or Martin Heifer, Calved Between Oct. 1 and Dec. 31, 1926**

- 1st California Stamp—Age, Oct. 2, 1926; sire, Marvel's King 1174387; dam, California Lilac 289547—University of California, Davis, Calif.
- 2nd Jack Horner—Age, Nov. 1, 1926; sire, Deverly 282052; dam, Enchantelle 321996—University of Illinois, Urbana, Ill.
- 3rd Don Paladin 1667—Age, Oct. 20, 1926; sire, Majestic Blanchard 1380025; dam, Shadeland Lass 8th 1373314—Purdue University, W. Lafayette, Ind.
- 4th Iremere Lad 3d—Age, Nov. 10, 1926; sire, Iremere 6th 353799; dam, Eristo Lady P. 353799—Kansas State Agricultural College, Manhattan, Kan.

## INTERNATIONAL LIVE STOCK EXPOSITION

**CLASS 4****Steer, Spayed or Martin Heifer, Calved Since Jan. 1, 1927****Awards**

- 1st Cornhusker Domino 1607—Age, Jan. 2, 1927; sire, Prince Domino 132d 1211646; dam, Fairholm Lady 12th 987629—University of Nebraska, Lincoln, Nebr.  
 2nd Fada—Age, Jan. 4, 1927; sire, Lassiter 320678—Iowa State College, Ames, Iowa.  
 3rd Black Model—Age, Feb. 10, 1927; sire, Harvest Model 387320; dam, Black Mary Inez 2d 220059—Iowa State College, Ames, Iowa.  
 4th Rival—Age, Jan. 8, 1927; sire, Blackbirdman of Rosemere 333877; dam, Pride Sunbeam 2d 388130—Oklahoma A. & M. College, Stillwater, Okla.

**CLASS 5****Champion Steer, Spayed or Martin Heifer**

- California Stamp—Age, Oct. 2, 1926; sire, Marvel's King 1174387; dam, California Lilac 289547—University of California, Davis, Calif.

**CLASS 6****Best Five Head of Steers, Spayed or Martin Heifers Exhibited in Above Classes**

- 1st Iowa State College, Ames, Ia.  
 2nd University of Illinois, Urbana, Ill.  
 3rd Pennsylvania State College, State College, Pa.  
 4th Kansas State Agric. College, Manhattan, Kans.  
 5th University of Alberta, Edmonton, Alberta, Can.  
 6th Purdue University, W. Lafayette, Ind.

**SHEEP DIVISION****(Open to all purebreds, grades and crosses)****CLASS 1****Wether, Over 12 Months and Under 24**

- 1st Iowa State College, Ames, Ia.  
 2nd University of Illinois, Urbana, Ill.  
 3rd Pennsylvania State College, State College, Pa.

**CLASS 2****Wether Lamb, Under 12 Months****Awards**

- 1st North Dakota Agric. College, Fargo, N. D.  
 2nd University of California, Davis, Calif.  
 3rd University of Kentucky, Lexington, Ky.

**CLASS 3****Champion Wether**

- North Dakota Agric. College, Fargo, N. D.  
 Res. Iowa State College, Ames, Ia.

**CLASS 4****Best Five Head of Wethers, Under 18 Months**

- 1st Iowa State College, Ames, Ia.  
 2nd University of Illinois, Urbana, Ill.  
 3rd University of Kentucky, Lexington, Ky.  
 4th University of California, Davis, Calif.  
 5th Purdue University, W. Lafayette, Ind.  
 6th Pennsylvania State College, State College, Pa.  
 7th University of Wisconsin, Madison, Wis.  
 8th Kansas State Agric. College, Manhattan, Kans.

**SWINE DIVISION****(Open to all purebreds)****CLASS 1****Barrow, Under 250 lbs.**

- 1st Purdue University, W. Lafayette, Ind.  
 2nd Iowa State College, Ames, Ia.  
 3rd University of Minnesota, St. Paul, Minn.

**CLASS 2****Best Five Head of Barrows, Over 250 lbs.**

- 1st University of Minnesota, St. Paul, Minn.  
 2nd Iowa State College, Ames, Ia.  
 3rd Pennsylvania State College, State College, Pa.  
 4th University of California, Davis, Calif.  
 5th Purdue University, W. Lafayette, Ind.  
 6th Oklahoma A. & M. College, Stillwater, Okla.

**BEST GENERAL EXHIBIT****Best General Exhibit, 5 Cattle, 5 Sheep and 5 Swine Entered Under Above Classification**

- 1st Iowa State College, Ames, Ia.  
 2nd Pennsylvania State College, State College, Pa.

## THE COLLEGIATE LIVE STOCK JUDGING CONTEST

J. H. Shepperd  
Supt.

Twenty-one teams including one from Canada took part in the 1927 Collegiate Live Stock Judging Contest. Connecticut was represented this year for the first time.

By winning the contest, Iowa State College joined the group of schools which have twice held the handsome trophy offered by the Union Stock Yard and Transit Company of Chicago and which need only one more victory to gain permanent possession. Texas A. & M. College, Purdue University, the University of Nebraska,

Oklahoma A. & M. College and Iowa State College have now each had the honor of winning this trophy twice since it was put into competition in 1913. Ontario Agricultural College, Ohio State University and Kansas State Agricultural College have each held it one year.

The victorious Iowa team was composed of five senior students who had all been raised on farms in that state. Two of the members had previously been in club work and it is noteworthy that one out of every three students in the entire contest had received training in club projects previous to attending college.

Theodore Besh of Waterloo made the highest individual score of any contestant this year with a ranking

of 924 points out of a possible 1,000. He was also high man in the Dairy Cattle Judging Contest at the 1927 National Dairy Show and stood second in a similar contest held a short time before that at the Waterloo Dairy Congress. In addition to his judging work Besh is a member of the Intercollegiate Debating Team of his college.

Clarence Turner of Ames tied for third highest individual score with a total of 915 points and ranked first in judging sheep. He had the experience of practical live stock work in the operation of his own farm and in fitting and showing sheep at several state fairs. He was the winner in the 1925 Saddle and Sirloin Club Essay Contest.

Wm. Darbyshire of Washington, Iowa, tied for first in judging horses and ranked tenth individually in the entire contest with a score of 906. His training included two years in baby beef club work and experience in judging as a member of his county club team at the Iowa State Fair.

Clarence H. Thompson of Hampton was also a former club member, having been a member of the junior judging team which represented Iowa at the 1923 International in the non-collegiate live stock judging contest. The same year he was a member of the junior dairy judging team that placed second at the Waterloo Dairy Congress. He was high man in the dairy judging contest at

Waterloo in 1927 and third ranking individual at the National Dairy Show judging contest a few weeks later. In addition to his judging work he is a member of the Iowa State College varsity track and cross country teams.

Wayne Lacock of Ames was raised on a farm at Mt. Vernon, Iowa. He has been an all around good student in his college work and is a member of Alpha Zeta honorary agricultural fraternity. He is much interested in athletics.

Professor P. S. Shearer of the Animal Husbandry department coached the winning team. While a student at the Iowa State College he was a member of its judging team which competed at the 1910 International. Since graduating he has coached nine teams which have represented Ames at the International and on two occasions his squads have been victorious in the contest.

Iowa State College has the distinction of being the only school which has been represented by a team in every one of the twenty-six judging contests which have been held at the International. The Ames institution has stood first on ten different occasions and four other years has ranked second. Several trophies permanently won in the early history of the contest now adorn the college buildings.

The efficient and successful conduct of the contest was once more due to the efforts of Professor J. H. Shepperd of the North Dakota Agricultural College and his staff of experienced assistants. The standards developed by Professor Shepperd during the many years he has served as superintendent of this contest are considered as models which are constantly being copied by the management of more and more judging contests the country over.

**THE UNION STOCK YARD AND TRANSIT CO. TROPHY**

This organization awards a beautiful bronze trophy to the college team making the highest score in judging all classes of live stock. This trophy must be won three times to become the permanent property of an institution. The institution having the winning team is given possession of the trophy for one year. The present trophy was put up beginning with the 1913 contest and is still passing from college to college, having been won by no less than eight institutions during the fourteen years, as follows:

1913 A. & M. College of Texas	1921 Ohio State University.
1914 No contest.	1922 Iowa State College.
1915 No contest.	1923 Kansas State Agric. College
1916 Purdue University.	1924 University of Nebraska
1917 University of Nebraska.	1925 Oklahoma A. & M. College
1918 Ontario Agricultural College	1926 Oklahoma A. & M. College.
1919 A. & M. College of Texas.	1927 Iowa State College.
1920 Purdue University.	

**PERCHERON SOCIETY OF AMERICA TROPHY**

The Percheron Society of America awards a handsome silver trophy to the team taking highest rank in judging Percherons. Said trophy will become the permanent property of an institution only after it has been won three times. Following are the institutions that have won this trophy:

1920 Texas A. & M. College.	1924 Iowa State College.
1921 Ohio State University.	1925 Oklahoma A. & M. College.
1922 North Dakota Agric. College	1926 Oklahoma A. & M. College.
1923 University of Missouri.	1927 University of Illinois.

**NATIONAL BLOCK AND BRIDLE CLUB SPECIALS**

This national honorary students' organization, in order to instill more interest in the contest, offered the following special prizes:

To team making highest rank in the judging of all classes, Silver Trophy.

Won by Iowa State College, Ames, Ia.

To five ranking high men, judging all classes, Gold Medals:

—25

In 1905—Jos. A. Main, Ohio, 1st horses.

—C. F. Coverdale, Iowa, 1st on other stock.

This summary shows a well distributed list of "high man" winners following the first four contests.

It will surprise most people to learn that the 19 years in which comparable data is available that the high man has been from the winning team eleven and from a lower team eight years.

\*The first figure is rank on all classes of stock. Second figure is rank on horse judging. Third figure is rank of cattle, sheep and horse judging.

Total teams, 326; total college men, 1,630. The Spoor Trophy won by Iowa, 1903.

## THE PULLMAN COMPANY SCHOLARSHIPS

The Pullman Company for the fourth consecutive year again offered \$5,000 to be divided into 20 equal scholarships of \$250 each and awarded to the various agricultural colleges in proportion to the winnings of their teams and live stock in the contests of the International Live Stock Exposition.

This year these scholarships were won by 13 colleges, located from California to North Carolina, including two Canadian institutions. The remarkable winnings of the Iowa State College in the live stock classes and the victories of its teams in the live stock and meat judging contests entitled it to six of the scholarships, but, since the rules limited the number that could be allotted to any one school to 25 per cent of the total the Ames college received the limit of five scholarships. Ohio State University was granted three scholarships in recognition of its team ranking first in judging both cattle and sheep and because of its showing in the live stock contests. The winnings of the animals from the Michigan State College earned for that school two of the Pullman scholarships. Students from the Texas A. & M. College ranked first in judging hogs, the Ontario Agricultural College boys stood at the top in judging horses and the North Carolina Agricultural College team captured the crops judging contest, and these three colleges were each awarded one scholarship. The University of Illinois, the University of Minnesota, the University of Wisconsin, the University of California, the University of Alberta, Purdue University and the Kansas State Agricultural College each was allotted a scholarship on the winnings of their live stock entries.

The basis for awarding the scholarships is as follows:

1. To the college whose team does the most efficient work in the Collegiate Live Stock Judging Contest, on

horses, cattle, sheep, hogs, all classes of live stock; and grains and meats, one scholarship each.

2. The remaining thirteen scholarships were distributed on the basis of cash prizes won by the colleges in the open classes for International Exposition money only; the money of the Exposition that is won on the grain and forage exhibit not to be counted in this item.

3. The number of scholarships that can be allotted to any one school is restricted to twenty-five per cent (25%) of the whole.

4. These twenty scholarships of \$250.00 each must, in accordance with the Pullman Company's wishes, be awarded to twenty deserving students who would otherwise not be able to secure a scientific training in agriculture or animal husbandry; and this money must not, under any conditions, be divided among a greater number.

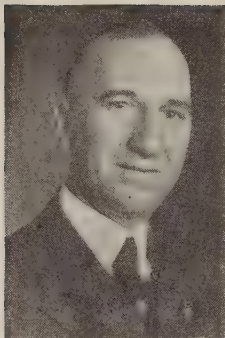

5. Students favored with the Pullman scholarships are to be paid this money in quarterly installments.

### Administration

This fund is to be administered by trustees chosen by the directors of the International Live Stock Exposition, who will disburse the funds in line with the above rules.

The trustees shall receive from the students accepting the funds a promise to repay the money (if possible) obtained through this Foundation. The money thus refunded is then to be credited to the college originally winning the scholarship and to be made again available. By this means a permanent revolving fund, known as the PULLMAN COMPANY FUND, is to be created to aid deserving students who would not otherwise be able to secure a scientific training in agriculture.

## NON-COLLEGIATE LIVE STOCK JUDGING CONTEST

**M. G. Thornburg**  
Supt.

The champion junior live stock judging teams of twenty states staged one of the best contests ever held at the International on Friday, Nov. 25th, as a curtain raiser to the Exposition. Seventeen of these teams represented 4-H Clubs and three were from vocational high schools. For the first time during the nine years this contest has been conducted it was won by a state twice. This was also the first contest in which the two highest ranking individuals came from the same team. Illinois, Iowa, Michigan and Indiana continued their record of having sent a team to everyone of the nine contests.

The winning team from Oklahoma represented the Woodland 4-H Club of Fairfax. Its victory at the final contest of the year in Chicago was a fitting climax to an undefeated string of nine judging contests, a record never equaled before. The team went through its strenuous campaign without the benefit of an alternate to rely upon. Its schedule carried it on the most extended judging trip outside of the state ever made by an Oklahoma junior team. The business men of Fairfax financed the trip to Chicago.

The Oklahoma team entered its first competition in a county contest at Pawhuska in November, 1926, and stood first. The following February it represented its county in the state 4-H contest at the Fat Stock Show in Oklahoma City, ranking fifth. Early in the summer it took part at the inter-scholastic meet at the Oklahoma A. & M. College and was awarded sixth prize. The team again ranked first at the Northeastern district judging school in mid-summer and followed this up with another victory in September at the

county fair in Pawhuska. At the Oklahoma City state fair in October the team once more ranked first, this time in a field of sixteen teams. The next day at the Tulsa state fair the Fairfax boys again stood at the top in a contest between twenty county champion teams. Two weeks later at the Oklahoma state fair in Muskogee the team added another victory to its string and a fortnight after that continued its winning streak in an inter-state contest at the Texas state fair between the champion teams of Texas, Louisiana and Oklahoma. Early in November the team won the judging contest at the Kansas National Stock Show

**WINNING NON-COLLEGIATE LIVE STOCK JUDGING TEAM, 1927—OKLAHOMA**

Left to right: J. B. Taylor (Coach); William Chiles, Loyce Kennedy, Richard Chiles and Paul G. Adams, (Live Stock Specialist),

in Wichita in a field of thirty Kansas teams. The following week at the Kansas City American Royal the boys were again victorious in the 4-H Club contest against nine other state champion teams. Their victory at the International in a contest between twenty state champion teams gave them the undisputed championship of the entire country.

Richard Chiles of the Oklahoma team made the highest individual score in the Chicago contest. He is eighteen years of age, and has been enrolled in club work for two years. Like the other two members of the team he was born and raised on the farm and is now a junior in the Woodland High School. His victory at Chicago was the fifth time he had been high man in a judging contest. He ranked second at both Wichita and Kansas City just previous to competing at the International. The Chicago Association of Commerce awarded him a \$500 scholarship

which he intends to use in taking an agricultural course at the Oklahoma A. & M. College.

Loyce Kennedy, another member of the Oklahoma team, stood second individually in the contest and will use the \$300 scholarship offered by the Chicago Association of Commerce for second place to attend the Oklahoma A. & M. College. He is eighteen years of age, has been in club work four years and during the last two years has been the leader of his local 4-H Club. In the Tulsa and Pawhuska contests he was the high man and he ranked second at Dallas.

The third member of the Oklahoma team was William Chiles, a brother of Richard. He is seventeen years of age and has been in club work two years. At the Oklahoma City and Dallas contests he was high man and has stood close to the top in all of the other contests. At Chi-

GROUP OF NON-COLLEGIATE LIVE STOCK JUDGING CONTESTANTS

cago he tied for first in judging sheep and ranked second in judging beef cattle.

The Oklahoma team was coached by J. B. Taylor, assistant county agent of Osage County, who has recently been made county agent of Rogers County. He is a graduate of the Oklahoma A. & M. College and represented that institution as a student in the collegiate live stock judging contest at the International. Last year he coached a junior judging team from Osage County which stood first in the 4-H Club contests at the Oklahoma State Fair, Kansas National and American Royal shows.

The third highest individual was Dan Shutter of Decatur, Illinois, who intends to use the \$200 scholarship awarded him by the Chicago Association of Commerce to attend the University of Illinois. He is seventeen years of age, a senior in the Decatur high school and has been enrolled in club work for three years. He exhibited an Angus calf in the junior feeding contest at the 1925 International and won sixth prize. In the state judging contest in the spring of 1927 he ranked second in individual score and thus helped his team win the state championship and the right to represent Illinois in the International contest. Like the other high scoring individuals at Chicago, he was born and raised on the farm.

The contest was again conducted as it has been since its inception under the efficient direction of M. G. Thornburg, Iowa Secretary of Agriculture, and his assistant, Carl N. Kennedy. Its outstanding success was made possible by the excellent co-operation of the coaches of the various teams and the live stock authorities who consented to serve as judges. It is noteworthy that students who took part in these contests in the past are now very successfully representing colleges in the collegiate live stock judging contest which is conducted on the following day.

# JUNIOR ACTIVITIES

By G. L. NOBLE, Superintendent

G. L. Noble  
Supt. National  
Boys' and Girls'  
Club Congress

There are organized throughout the Union more than fifty thousand 4-H Clubs, with a membership of six hundred thousand alert, ambitious, rural boys and girls. In the far Western states on plateau and in valley, and even near the very shores caressed by the majestic Pacific, are they found busily carrying out their allotted tasks from day to day—delving into new and unexplored territory insofar as their experience with growing things

is concerned. In the South, awakening to the possibilities of its various new crops and products, below the levees of the Father of Waters; on the North Atlantic seaboard, and throughout the great Midwest (perhaps the greatest single agricultural “kingdom” in the world), the members of the 4-H Clubs are practicing and following daily the very best methods known to present day science in the field of agriculture and home

Paul C. Taff  
Superintendent  
of  
Exhibits

KANSAS DELEGATION, IN CHARGE OF M. H. COE, STATE CLUB LEADER

economics. They are delving into the realms of mystery. They are discovering the joy of social contact; of community enterprise; of civic progress; and of the unlimited possibilities available to them in their own localities and communities.

So, throughout the year, they work, they play, they commune, they contest, and at the end of the year, when the local, county, and state tryouts are over, they bring their best to the National Boys' and Girls' 4-H Club Congress at Chicago, to show the world the ultimate the outstanding rural youth of the nation can produce in the way of products, in judgment, in co-operation, and in enthusiasm. Perhaps that is why the National 4-H Club Congress held annually in connection with the International Live Stock Exposition at Chicago, is of such significance. It is the show window of the nation's agricultural life. At

one and the same time, it discloses what a mighty factor in the nation's welfare is the youth of the rural districts.

Four-H Club work has come to mean more than the making of a good dress—more than the growing of a prize baby beef. It is a movement that acts like a catalyst, as it were, making it possible for the boys and girls who subject themselves to its influence, quickly to convert their energy and personalities into qualities of success and leadership. So, the National Club Congress brings together this outstanding group with their products—the best in the land, and with their loyalty to club, home, community and country. It makes possible the comparison of achievement and it sets new standards of attainment.

Of course, one of the principal purposes of the National Club Congress is to make it possible for additional thousands of farm boys and girls to have the opportunities

NEVELS PEARSON, ASST. STATE CLUB LEADER, AND MICHIGAN DELEGATION

which the present membership of approximately six hundred thousand are now enjoying. Authorities in every walk of life, including the President of the United States, largely as a result of the National Club Congress, have declared 4-H Club work to be of inestimable value to the boys and girls and to the national progress. The director of extension at every agricultural college in the Union has indicated that this movement should be expanded, perhaps until every rural youth in the nation, of club age, may take advantage of its privileges.

Eleven hundred and forty boys, girls, and leaders from forty-two states and the province of Ontario, Canada, attended the Sixth National 4-H Boys' and Girls' Club Congress. The products produced in nine different projects were exhibited by these young leaders of the future, in-

cluding baby beeves, swine, sheep, corn, potatoes, cotton, clothing, canned goods, and home furnishings. The number of home economics exhibits was considerably increased due to new classes in the home improvement and the canned goods section. One of the best quality potato shows in the United States was a part of the Club Congress. The style show for the girls continued to be an excellent object lesson, by showing that rural girls may dress just as becomingly as anyone and that the apparel be made by the girls themselves.

The only national competitive judging contest in home economics was inaugurated and is held annually at the National 4-H Club Congress.

In the health contest the scoring of some thirty or more state champions has resulted in an awakening on

NEBRASKA DELEGATION IN CHARGE OF L. I. FRISBIE, STATE LEADER

the part of thousands of boys and girls to the importance and value of health, and how to play the health game in order to attain the highest physical and mental development.

The contest in rural community leadership continues to play an important part of the Congress by centering the attention of the nation and of thousands of boys and girls on the possibilities of contributing to the community welfare by passing on to others the facts discovered through the 4-H Clubs. Every leadership contestant has shown that there are opportunities for unlimited advancement and achievement in every community even though the general outlook for agricultural progress may on the surface seem discouraging. These young leaders have literally changed entire communities and counties. Not only

has the type of agriculture been changed, but the spirit and resourcefulness of the people have been brought into play, with the result that the community has gone forward and has achieved prosperity and a spirit of good will.

The National Club Congress is the result of the wholehearted co-operation of the agricultural colleges, the United States Department of Agriculture, the International Live Stock Exposition, the farm and business organizations which provide educational trips and prize money, and the National Committee on Boys' and Girls' Club Work. Credit is due to all of the state and national club leaders and others who have given their time in assisting the Congress and who have made it possible to carry through the details of this national event in such effective fashion.

B. A. PRATT, STATE CLUB AGENT, AND OKLAHOMA DELEGATION

## INTERNATIONAL LIVE STOCK EXPOSITION

## COTTON EXHIBIT

This, the second year in which cotton club exhibits were made, brought some excellent entries from the cotton growing states. Each state exhibit contained no less than 10 nor more than 15 individual club member exhibits. Texas won first place, and Georgia won second.

## POTATO EXHIBIT

Some of the best potatoes grown during the year in the United States featured the state potato club exhibits. Each state entering submitted five exhibits of 32 potatoes each—the products of not more than five individual club boys.

Entries were scored on the basis of the market value of the potatoes. Among 15 entries Wisconsin won first; Michigan second; Montana third; Nebraska fourth; and Idaho fifth.

## Individual Exhibits

Six varieties of potatoes were shown in exhibits by individual club members. Winners were as follows:

### Awards

**White Rural**  
1st Julia Antonissen, Wisconsin.  
2nd Theodore Antonissen, Wisconsin.  
3rd Clark Judy, Wisconsin.  
4th Merle Hadley, Michigan.  
5th William Reese, Minnesota.

### Green Mountain

One entry—Placed third.  
Russell Brown, Wisconsin.

### EARLY VARIETIES Early Ohio

One entry—Placed fifth.  
William Ost, Minnesota.

### Awards

**Bliss Triumph**  
1st Walter Bolander, Wisconsin.  
2nd Bernhard Hendrickson, Montana.  
3rd Alvin Mason, Wisconsin.  
4th Dorothy Thompson, Montana.  
5th John DeWitt, Montana.

### Any Other Variety

1st Iler Mortensen, Arizona.

### Sweepstakes

Late varieties—Julia Antonissen, Wisconsin—White Rurals.  
Early varieties—Walter Bolander, Wisconsin—Bliss Triumphs.

FIRE PREVENTION EXHIBIT IN JUNIOR DEPARTMENT, BEARING SLOGAN,  
"HAVE BOYS AND TREES GROW UP TOGETHER"

### HOME IMPROVEMENT EXHIBIT

The improvement made throughout the year in homes and rooms of the 4-H club members in the home improvement projects was evidenced by the exhibits in this class which formed one of the most interesting features of the exposition. The entries, home rooms practically transplanted to the exhibit section, showed actual cases of improvement made in furnishing. Judges scored on the basis of general appearance, suitability and workmanship of articles displayed, improvement accomplished, general plan of improvement, color scheme, and cost.

Awards for the club girl's room were made as follows:

1st Iowa—Esther Everetts.	3rd Oklahoma—Edythe Goodman.
2nd South Carolina—Lillie May Fowler.	4th Minnesota—Mary Perkins.

A special prize—a color print of a masterpiece beautifully framed, also went to the first two winners—Esther Everetts and Lillie May Fowler.

### Window Treatment for a Club Girl's Room

The window treatment exhibit showing the actual window treatment of a club girl's room, was a new feature this year which proved interesting. Window drapes designed to fit the style and color of the room for which they were made, were displayed on wall space in the exhibit section. Prizes were awarded as follows:

1st Iowa—Nadine Newell.	6th Mississippi—Evie Powell.
2nd Nebraska—Fairy Wooters.	7th Louisiana—Doris Eckles.
3rd Minnesota—Olive Smith.	8th Kansas—Maxine Harding.
4th Oklahoma—Nellie Ryan.	
5th South Carolina—Mary Lou Broadway.	

### CANNED GOODS EXHIBIT

One of the most popular exhibits this year was that of canned goods—meats, vegetables, and fruits—which brought entries from many states. Each state was allowed but one entry in each class. The canning project has become so popular and has grown so widespread that three

additional classes were added to the exhibits this year. These included classes II, III and IV below.

### CLASS I

Entries in Class I consisted of jars of canned foods, including meats, necessary to make a properly balanced diet, of canned foods for a farm family of five for one week. Awards were made as follows:

1st Indiana.	5th Nebraska.
2nd Michigan.	6th Wisconsin.
3rd Oklahoma.	7th New Mexico.
4th Minnesota.	8th Kentucky.

BOYS' AND GIRLS' CLUB

**CLASS II**

Awards in Class II, which consisted of four jars of meats, all of different varieties, were won as follows:

1st	Oregon.	4th	Nebraska.
2nd	Indiana.	5th	Missouri.
3rd	Iowa.	6th	Oklahoma and Minnesota.

**CLASS III**

Five jars of five varieties of vegetables rich in vitamins formed Class III. Prizes were awarded as follows:

1st	Iowa.	4th	Missouri.
2nd	Indiana.	5th	Nebraska.
3rd	Wisconsin.	6th	Virginia, Oklahoma, Minnesota.

A CORNER IN BOYS' AND GIRLS' CLUB BUILDING

**CLASS IV**

Prizes in Class IV—Five jars of five varieties of fruits, went to:

1st Indiana.	5th Missouri.
2nd Iowa.	6th Virginia.
3rd Nebraska.	7th Minnesota.
4th Wisconsin.	8th Michigan.

**CLOTHING EXHIBIT**

An exhibit arousing interest among 16 states, all of which submitted entries, was the clothing exhibit, where competition was keen both among states as well as among individuals.

**Class I.—Complete Outfit for 4-H Club Girls**

Class I provided for a complete outfit of not more than four garments for a 4-H club girl. Awards were made as follows on the basis of appropriateness, design, and workmanship:

1st Iowa—Gladys Cone.	3rd Oklahoma—Nessie Robbinette.
2nd Kentucky—Madeline Farley.	4th Montana—Adelaide Demers.
	5th Wisconsin—Margaret Johnson.

**Class II—Children's Garments**

Seven entrants competed in this class, each entrant exhibiting one boy's suit and one girl's dress and bloomers, suitable for children between the ages of two and six years. Comfort, suitability of material, attractiveness, simplicity, and ease of construction and upkeep occupied the attention of the judges who made the awards as follows:

1st Maryland—Jane Wyne.	5th Nebraska—Dorothy Papez
2nd Oklahoma—Virgie Wright.	and Caroline Papez.
3rd Iowa—Sac County Farm	6th Mississippi—Lucille Bailey.
Bureau.	7th Minnesota—Lottie Knudson.
4th Indiana—Frances Reed.	

**Class III—Cotton School Dress**

A brand new feature in the clothing exhibit this year was the cotton school dress, emphasizing good color combinations for the exhibitor. Awards went to:

1st Indiana—Lucile Daily.	7th Ohio—Gertrude Whitacre.
2nd Maryland—Elinor Greer.	8th Illinois—Ruth Jones.
3rd Oklahoma—Emma Mann.	9th Mississippi—Martha Louise
4th Iowa—Lucille Miller.	Brown.
5th Minnesota—Florence Henning.	10th Nebraska—Birdie Erskine.
6th Vermont—Gertrude Bingham.	

**4-H CLUB GIRLS' STYLE SHOW**

As usual, the style show aroused widespread interest and enthusiasm. Clothing club girls from 14 states modeled, each in one type of dress—such as school, house, or street costume—which she herself had made. Placings were made on the basis of general appearance, suitability of costume to individual, suitability to purpose, economic factors, ethics. The states ranked as follows:

1st Wisconsin—Olive Van Vuren.	6th Oklahoma—Naomi Mercer.
2nd Kansas—Thelma Moreland.	7th Kentucky—Ruth Howard.
3rd Missouri—Mildred Cortelyou.	8th Ohio—Hazel Schleppi.
4th Illinois—Louise Anderson.	9th Oregon—Lois Bailey.
5th Iowa—Elsie Schulz.	10th Mississippi—Kathleen Barlow.

**OLIVE VAN VUREN, Wisconsin**  
Style Show Winner

## HOME ECONOMICS JUDGING CONTEST

Home economics products at the International Live Stock Exposition passed under the critical eyes of well-trained home economic girls who judged products in three divisions—baking, food preservation, and clothing. The girls were scored on their judging ability as follows:

### JUDGING BAKING

Of the 15 states represented by teams in this division, the following states scored:

Rank	Team	Score
1st	Louise Steele, Margaret Rawlinson—Virginia.....	1741
2nd	Doris Eckles, Mary Tom Montgomery—Louisiana.....	1731
3rd	Marjorie Raye, Lola Adams—Kansas.....	1720
4th	Ella Kooda, Carol Hemingson—Minnesota.....	1709
5th	Esther Edmondson, Frances Fredericks—Indiana.....	1689
6th	Hazel Craigmyle, Ethel Richardson—Kentucky.....	1658
7th	Ida May Cagle, Lela Wittmeyer—Oklahoma.....	1616
8th	Clara Swanson, Rachel Overing—Nebraska.....	1606
9th	Sabel Bowen, Agnes Quick—South Carolina.....	1582

Individual winners ranked as follows:

Rank	Team	Score
1st	Louise Steele, Virginia.....	876
2nd	Dora McGregor, Idaho.....	868
	Lola Adams, Kansas.....	868
	Mary Montgomery, Louisiana.....	868
5th	Margaret Rawlinson, Virginia.....	865
6th	Doris Eckles, Louisiana.....	863
7th	Marjorie Raye, Kansas.....	862
8th	Ella Kooda, Minnesota.....	855
	Frances Frederick, Indiana.....	855
10th	Cora Hemingson, Minnesota.....	854

### JUDGING FOOD PRESERVATION

Fourteen states entered this contest, the winners scoring as follows:

Rank	Team	Score
1st	Altha Ziebel, Georgia Rose—Minnesota.....	1690
2nd	Hazel Craigmyle, Ethel Richardson—Kentucky.....	1698

3rd	Louise Kuehne, Elizabeth Hauser—Oklahoma.....	1676
4th	Wanda Welzien, Bessie Reichle—Michigan.....	1666
5th	Lila Lee Lewis, Magdalene Stoner—Indiana.....	1586
6th	Louise Steele, Margaret Rawlinson—Virginia.....	1578

Individual winners were:

Rank	Team	Score
1st	Hazel Craigmyle, Kentucky.....	869
2nd	Altha Ziebel, Minnesota.....	861
3rd	Pauline Jefferies, Massachusetts.....	850
4th	Wilhelmina Howell, Mississippi.....	848
5th	Lois Bailey, Oregon.....	847
6th	Elizabeth Hauser, Oklahoma.....	846
7th	Rachel Overing, Nebraska.....	839
8th	Wanda Welzien, Michigan.....	838
9th	Georgia Rose, Minnesota.....	837
10th	Louise Kuehne, Oklahoma.....	830

### JUDGING CLOTHING

Eight of the 16 states entering clothing judging teams in this contest ranked as follows:

Rank	Team	Score
1st	Eleanor Dixon, Rosie Vavricka—Nebraska.....	1602
2nd	Nami Mercer, Katherine Mitchell—Oklahoma.....	1569
3rd	Ruth Booker, Della Brown—Illinois.....	1433
4th	Bessie Wheelock, Fern Pemberton—Iowa.....	1432
5th	Gladys Harvey, Isabelle Bowen—South Carolina.....	1408
6th	Thelma Moreland, Katherine Samuel—Kansas.....	1380
7th	Verna Norbery, Mabel Klingaman—Michigan.....	1358
8th	Illena Bess Clarke, Helen Hoggatt—Indiana.....	1303

Individual winners in the clothing judging contest were:

Rank	Team	Score
1st	Rosie Vavricka, Nebraska.....	807
2nd	Eleanor Dixon, Nebraska.....	795
3rd	Nami Mercer, Oklahoma.....	790
4th	Katherine Mitchell, Oklahoma.....	779
5th	Kathleen Barlow, Mississippi.....	772
6th	Bessie Wheelock, Iowa.....	766
7th	Ada Todnem, Minnesota.....	755
8th	Ruth Booker, Illinois.....	741
9th	Gladys Harvey, South Carolina.....	722
10th	Ernestine Visny, Connecticut.....	720

## LEADERSHIP CONTEST

The Moses trophy leadership contest, sponsored by H. A. Moses, who each year, through the International 4-H Training School, offers a silver trophy for the outstanding 4-H Club local leader in the United States, created more interest than usual this year.

For the first time two cups were offered—one for the outstanding girl leader and one for the outstanding boy. Since the beginning of this contest, four years ago, only one cup has been offered each year for outstanding rural leadership, and this was competed for both by girls and boys.

The winners of the 1927 contest were Caroline Eyring of Pima, Arizona, and Alex Cruickshank of McMinnville, Oregon. Gathering about her the girls and boys of the community who needed help, Caroline proved her leadership ability by efficiently teaching the art of making buttonholes, patches, and dresses, and of growing chickens, of refurbishing and redecorating rooms and homes.

In her quiet way she revolutionized the spirit of the community, where 4-H Club work had died because of contention among residents. Gradually 4-H membership increased from 9 to 235 members in four years. Members are enthusiastic. Bitterest enemies of the work are now its most ardent supporters. And neighboring communities, conscious that 4-H Clubs are valuable assets, beg Caroline for help in starting clubs in their midst.

For seven years Alex Cruickshank carried on his club projects alone—with no local leader to help, no club members to spur him on, and with only one opportunity for exhibiting at local fairs. Doggedly he persevered, however. Results of his first exhibiting were discouraging, but he resolved to "finish what he had started and to make the best better." The next year he won some of the most coveted prizes at the fairs.

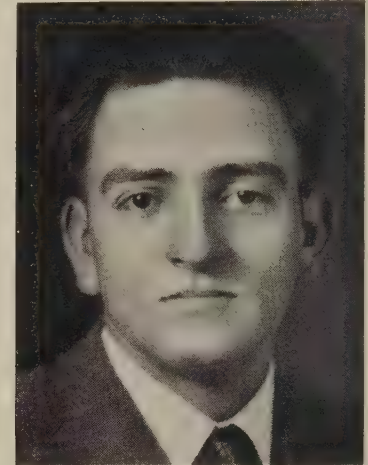

Then as a local leader he started clubs for boys liv-

ing near him. The result has been that no less than 12 clubs have been led to 100 per cent completion under his guidance. And now, after 11 years of club work, even though he is in college putting himself through on money earned entirely through his 4-H Club projects, he spends his vacations and week-ends in starting new clubs and in developing old ones.

He, too, has established the "we" spirit in the community. He has shown girls and boys how to work in partnership with their parents and with other community residents. And the secret of success he attributes to his motto, "Finish what you start, and make the best better."

Girl and Boy Leadership Champions, 1927

## THE NATIONAL HEALTH CONTEST

The 4-H Clubs are doing excellent work in developing the health of rural girls and boys throughout the United States. This, the fourth year in which the national health contest was conducted among the 600,000 club members of the United States, proved to be the most widespread and most interesting of all preceding contests. State winners competing in the national contest at the time of the International Live Stock Exposition were champions who had been chosen in elimination contests in their home states, counties and districts.

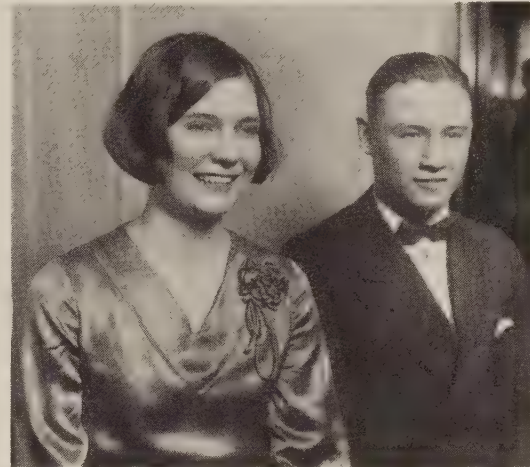

In Chicago, where the state winners gathered, the race was close. Health scores were carefully checked and rechecked by examining physicians of the Elizabeth McCormick Memorial Fund before Marie Antrim of Kansas and Fred Christensen of Iowa were declared national health champions.

Marie, 16 years old, and fifth in a family of seven children, has been determinedly working for three years to gain this national honor, in which her score was 99.15 points. She is 65.25 inches tall and weighs 125.75 pounds. Fred, 18 years old, who seems to be just naturally healthy, is the elder of a family of two children. His health score was 99 points. He is 69.7 inches tall and weighs 152.2 pounds.

Marie, a sophomore in high school, is a well rounded, ideal country girl. She won the health championship by paying special attention to diet, eating all kinds of vegetables and fruits, and taking regular exercises for improving her standing and walking posture. She gets eight or nine hours' sleep every night, and she does not balk at hard work and chores on the farm.

Fred is graduated from high school, where he was especially interested in athletics and was one of the basketball stars. He has been quite successful in carrying on pig and baby beef projects in 4-H Club work. He intends to stay on the farm.

Health is becoming one of the popular projects in 4-H Club work and is commanding more attention each year from 4-H leaders. The fourth H in the 4-H clover stands for Health and it must not be neglected.

MARIE ANTRIM (Kansas) and FRED CHRISTENSEN  
(Iowa)

Champions in Health Contest

## JUNIOR FEEDING CONTESTS

By W. H. SMITH, Supt.

W. H. Smith  
Supt.

The Junior Feeding Contest has gradually grown to a point where it can be truthfully termed a "show of its own." The high class display of the different entries and the interest manifested by the junior exhibitors in the preparation and exhibiting of their various classes, which they themselves have produced, makes this one of the outstanding features of the live stock show.

Beginning a few years ago with a small entry of calves, this department has increased in size and popularity as the 4-H Club work has grown in the various states. The baby beeves provide the chief interest and furnish the largest number of entries. This year the display of calves set new standards in the number of animals exhibited and also in the uniformity, quality and finish of the individuals.

The quality of the exhibit showed that a careful selection of calves had been made at the beginning of the feeding period and the finished condition indicated that the juniors are rapidly becoming as proficient in producing prime beef as the experienced feeders. Old time exhibitors could scarcely have improved upon the skill displayed by the juniors in preparing their animals for the show ring. They had their calves clean and the hair properly dressed and showed unusual skill in showing them to the best advantage before the large crowd of interested spectators.

Out of the 178 head entered, 169 were led into the ring. Most of these had been previously shown at some state or

district fair and wore ribbons. Without exception the classes were larger than last year.

A strong class of thirty senior Shorthorns confronted Judge Blizzard. These were topped by the stylish, smooth and thick-meated, white 1,225-pound purebred steer, fed

CLIFFORD JOHNSON AND "CORRECTOR"  
Champion in Junior Feeding Contest

oy Richard McIntyre of Charleston, Illinois. This calf was third in class at the Illinois State Fair.

Following came the Hereford display of 48 head, which brought out the grand champion of the show, which was shown by Clifford Johnson, of Elkhorn, Iowa. This calf was a purebred which he secured from his father's herd. He had previously won his class at the Iowa State Fair and reserve championship honors. He was perfect in type and finish, and with a thickness of covering which gave him the advantage over the entries of each of the other breeds.

As in previous years, the senior Angus class was the largest in the show, with 51 entries. Competition for the blue was very keen, but was finally won by William Wilson of Muncie, Indiana, on his purebred entry.

In the junior classes the number of entries were twelve, seven and twenty-one for Shorthorns, Herefords, and Angus, respectively. Vincent Gruss of Greenfield, Iowa, won first in Shorthorns. His calf had previously been made champion Shorthorn at the Iowa State Fair. Clifford Johnson came back in the junior Hereford class and duplicated his winning in the senior class on a purebred calf. In the Angus class competition was again very close for the top placings. Tim Pierce of Creston, Illinois, succeeded in capturing the blue with a deep, blocky, very trim calf. It is of more than passing interest to note that Tim is the son of S. R. Pierce, who showed the International Grand Champion steer, Advance, in 1900. His calf was somewhat lacking in covering to win the grand championship over the Hereford, but captured the reserve honors.

In the state group contest Iowa placed first with a herd of 10 Angus, Illinois stood in second place with a mixed group of Angus, Herefords and Shorthorns, and Indiana, with a mixed group, was third.

A new feature in the contest this year was the show of county groups by states. In this show Iowa, Illinois and Indiana had entries. To show, the county was required

to exhibit three calves. Jackson County, Indiana; Morgan County, Illinois, and Marshall County, Iowa, won first places in the county show.

Col. Carey M. Jones auctioned the calves off in the sale ring on Friday afternoon. The sale was broadcast by radio. One hundred and eighty-five head with a total weight of 192,160 pounds, or an average of 1,039 pounds, were sold. They represented a total money value of

**TIM PIERCE AND "BLACK BUN"**  
Reserve Champion in Junior Feeding Contest

\$35,624.52, or an average price of \$18.54 per hundredweight. The top in the sale was the Grand Champion calf of Clifford Johnson's, which was purchased by the Stock Yard Inn at 50 cents a pound. Many railroads, hotels and restaurants were among the purchasers of the best finished calves.

**DIVISION "A":** Steer, Spayed or Martin Heifer (pure-bred, grade or crossbred. Purebred sire or predominance of breed type and character to classify in case of grades and crosses) dropped between Jan. 1 and Aug. 31, 1926:

## Awards

**CLASS A-1—Shorthorns**

- 1st Richard McIntyre, Charleston, Ill.
- 2nd John K. Morris, Lanark, Ill.
- 3rd John Black, Aledo, Ill.
- 4th James G. Pierce, Columbus Junction, Ia.

FIRST PRIZE STATE GROUP OF TEN CALVES—IOWA

**CLASS B-6—Aberdeen-Angus****Awards**

- 1st Tim Pierce, Creston, Ill.
- 2nd Keith Collins, Liscomb, Ia.
- 3rd William R. Wilson, Muncie, Ind.
- 4th Leroy B. Nash, Tipton, Ind.
- 5th Raus Brown, Aledo, Ill.
- 6th Ervin J. Schmuecker, Blainstown, Ia.

**CLASS 7****Champion in Above Classes**

- Clifford Johnson, Elkhorn, Ia.
- Res. Tim Pierce, Creston, Ill.

**CLASS 8****County Group of Three Animals**

(Separate Class for Each State)

**Indiana:**

- 1st Jackson County.
- 2nd Vermillion County.
- 3rd Tippecanoe County.

**Illinois:**

- 1st Morgan County.
- 2nd Mercer County.
- 3rd Bureau County.

**Iowa:**

- 1st Marshall County.
- 2nd Benton County.

**CLASS 9****State Group of Ten Animals**

- 1st Iowa.
- 2nd Illinois.
- 3rd Indiana.

**AMERICAN SHORTHORN ASSOCIATION SPECIALS**

The American Shorthorn Association offered the following prizes on pure-breds or calves showing predominance of Shorthorn blood:

- Sec. "A".....30 prizes of \$5 each, from one to thirty, inclusive.
- Sec. "B".....10 prizes of \$5 each, from one to ten, inclusive.
- Grand Champion if Shorthorn (all breeds competing).....\$50

**AMERICAN HEREFORD ASSOCIATION SPECIALS**

The American Hereford Association added 50 per cent to any premium won by animal showing predominance of Hereford blood.

**AMERICAN ABERDEEN-ANGUS SPECIALS**

The American Aberdeen-Angus Association offered the following prizes on pure-bred, grade or cross-bred Aberdeen-Angus calves:

Sec. "A" .....	\$10	\$10	\$10	\$5	\$5	\$5	\$5	\$5	\$5
Sec. "B" .....					\$5	\$5	\$5	\$5	

The above Association also offered a gold watch for the Grand Champion Aberdeen-Angus animal of the contest, provided it was a pure-bred Aberdeen-Angus or a grade or cross-bred sired by an Aberdeen-Angus bull.

(The winners of the above Association specials are the same as the International awards in the respective classes.)

Three pens of lambs were brought out before Judge H. L. Garrigus, Storrs, Connecticut. While the number of entries were small, the quality and finish compared very

**CHAS. L. BROWN (Right) AND HIS CHAMPION LAMBS**

favorably with that of previous years. Charles L. Brown placed first with a pen of two grade and one purebred ewe lambs. His flock was well finished and showed careful preparations had been made for the show ring. He was selected as the best shepherd at the Indiana State Fair Club contest. Charles Perkinson, Buckley, Illinois, was second with a pen of Southdowns, and Clyde Lyon, Milford, third with a Southdown entry.

Eight barrows were placed by Professor W. W. Smith, Lafayette, Indiana. Boodie Waggoner of DeWitt, Iowa, succeeded in carrying away the blue on a Hampshire, with Jennie Turner of DeWitt a close second. Charles L. Brown of Battle Ground, Ind., was again listed in the winners by taking third place.

#### CLASS 10

##### Pen of 3 Lambs of any of the Mutton Breeds

###### Awards

- 1st Charles L. Brown, Battle Ground, Ind.
- 2nd Charles Peckinson, Buckley, Ill.
- 3rd Clyde Lyon, Milford, Ill.

#### CLASS 11

##### Barrow, Farrowed After March 1, 1927

- 1st Boodie Waggoner, DeWitt, Ia.
- 2nd Jennie E. Turner, DeWitt, Ia.
- 3rd Charles L. Brown, Battle Ground, Ind.
- 4th Howard Hiett, West Point, Ind.
- 5th Edwin Brown, Aledo, Ill.

#### CLASS 12

##### Best Records

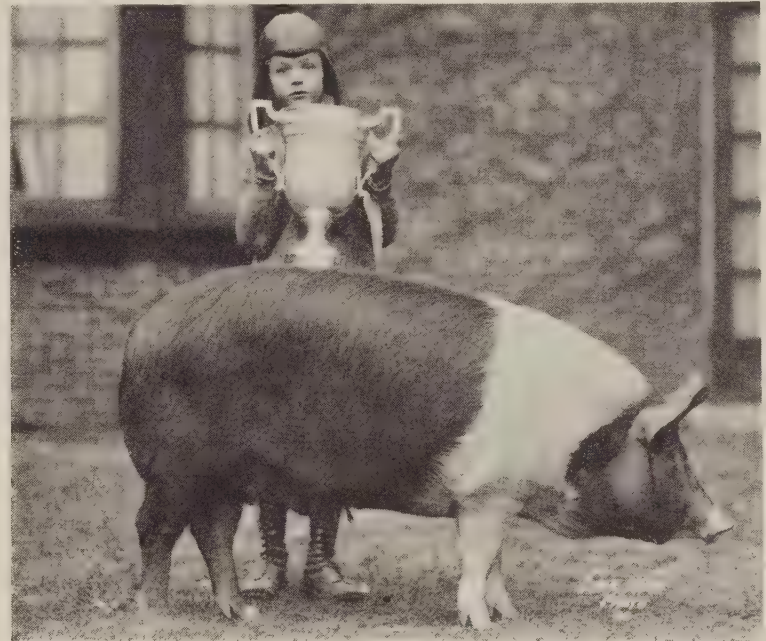

- 1st Donald Siemers, Peru, Ill.
- 2nd Clifford Wertsch, Delavan, Ill.
- 3rd Bryce Green, Hutsonville, Ill.
- 4th Elliott Brown, Rose Hill, Ia.
- 5th Richard McIntyre, Charleston, Ill.

###### Awards

- 6th William Baldwin, Jr., Delavan, Ill.
- 7th Edwin C. Rhoda, Chenoa, Ill.
- 8th John K. Morris, Lanark, Ill.
- 9th Edwin H. Matzen, Mason City, Ia.
- 10th Lucile Gring, Dallas Center, Ia.

#### CHICAGO LIVESTOCK EXCHANGE TROPHIES

Champion Calf—Clifford Johnson, Elkhorn, Ia.  
Best Pen of Lambs—Charles L. Brown, Battle Ground, Ind.  
Best Pig—Boodie Waggoner, DeWitt, Ia.

BOODIE WAGGONER AND HIS WINNING BARROW

# INTERNATIONAL GRAIN AND HAY SHOW

By W. F. GRAHAM

G. I. Christie  
Supt.

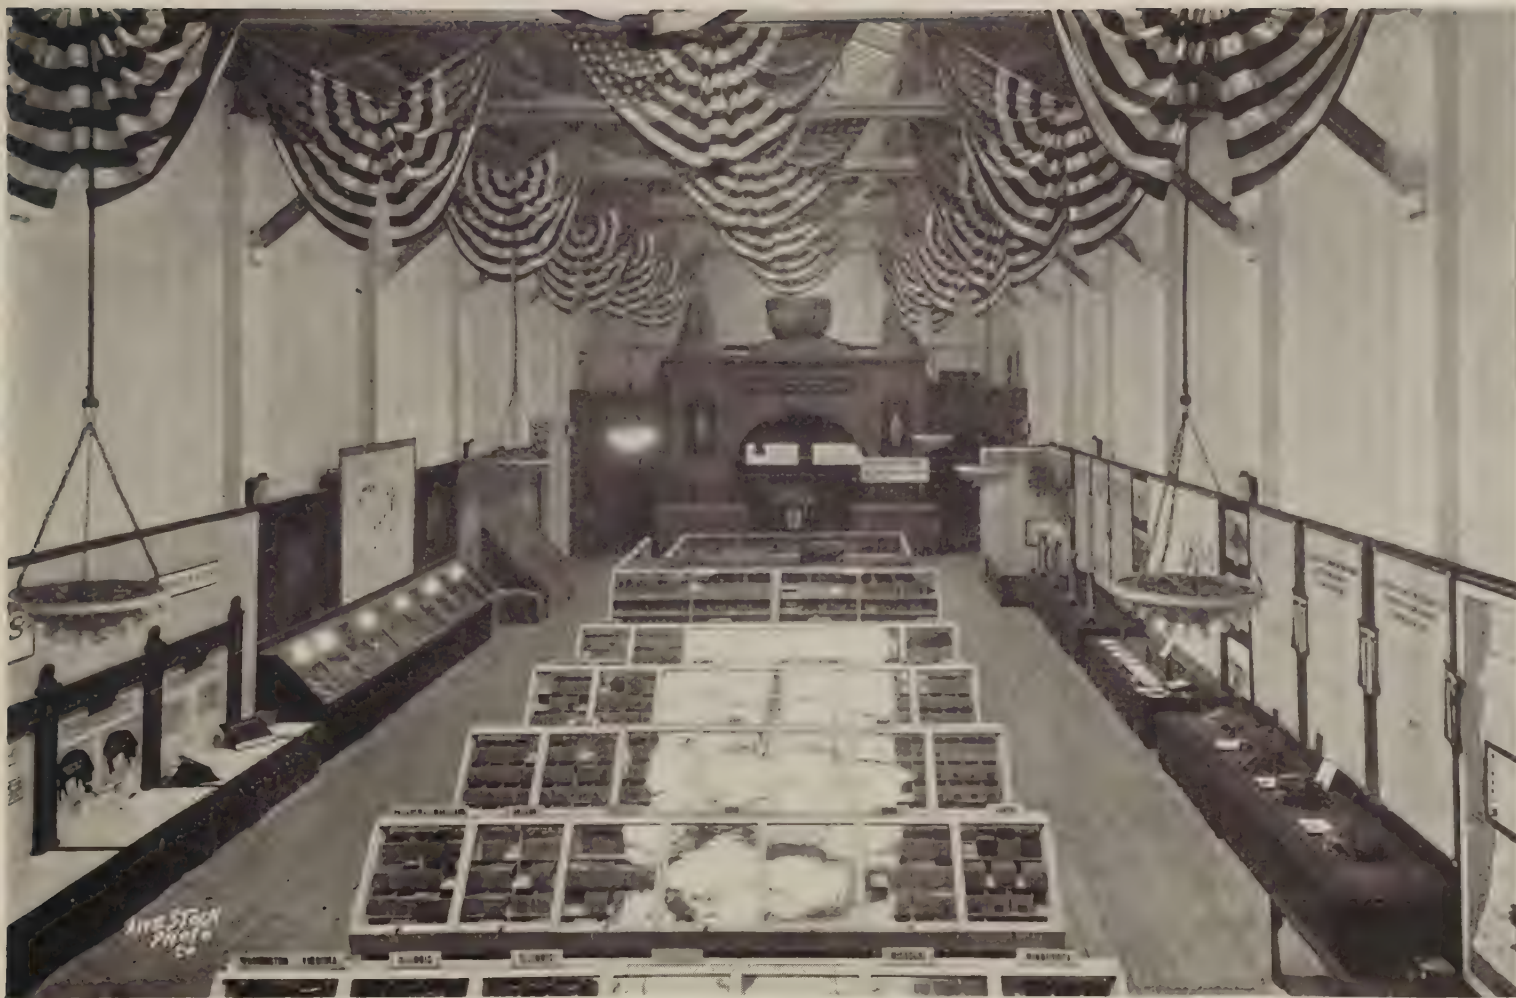

The Ninth International Grain and Hay Show opened its doors with an exhibit of the choicest samples of small seeds, grain, and hay produced throughout the whole North American continent in 1927. The large display of exhibits of the highest quality, the instructive and attractive educational exhibits from the leading universities, the huge throngs of interested visitors, the splendid co-operation of the assisting agencies, the judges, and the instructors were all evidences of the outstanding success of the 1927 Grain and Hay Show. The superior quality of small seeds, grain, and hay exhibited, showing that worth while strides are being made in plant breeding and crop improvement, may be considered as a definite result of the established policy of the Grain and Hay Show management to develop quality as well as number of exhibits.

The successful development of the 1927 Grain and Hay Show may be largely attributed to the splendid way in which the various agricultural colleges, crop improvement associations, federal and state departments of agriculture, and other helpful agencies co-operated. The united, careful, painstaking efforts of the representatives

of these agencies were very helpful and necessary in preparing for the large, well developed, and balanced Grain and Hay Show of 1927.

Thirteen instructive and attractive educational exhibits were prepared and set up by nine universities assisted by and in co-operation with the United States Department of Agriculture and various state and provincial departments of agriculture, attracted much attention and favorable comment. Each of the exhibits presented in a clear, forceful manner some very helpful information on agricultural problems of today. An instructor was present at each of the exhibits to explain it to visitors and to answer the many questions which the exhibit brought forth. Very few visitors at the Grain and Hay Show failed to get some helpful, timely information from the educational exhibits.

Great numbers of visitors were attracted to the mammoth European Corn Borer exhibit which was provided by the United States Department of Agriculture. This exhibit occupied the entire east wall and some 600 square feet of floor space in the main hall where small grains were displayed. One section of this very interesting exhibit showed by means of a large map the annual spread of the corn borer in the past several years. This map also indicated the general direction in which the pest is spreading. Another section presented samples of damaged

A PORTION OF DOWN-STAIRS EXHIBIT HALL

corn that had been practically ruined by the European corn borer. Charts explained the need of carefully observing the quarantine lines to help in controlling the spread of the pest. Large glass cylinders containing preserved specimens of corn stalks in which could be seen the borers as they appear when at work attracted the attention of many. Preserved specimens of the corn borer in the various stages of its development were also shown. Enlarged pictures of corn borer control work helped to make clear many control measures now being used to check the progress of the pest.

A very realistic reproduction of a corn field that had been badly infested and almost destroyed by the borer created a great deal of interest. Corn stalks that had been properly treated to destroy all living borers in them were set in rows in a plot of soil some 30 by 20 feet in size. This was placed in a prominent place where everyone entering the building could see just how a badly infested corn field really looks. There were many favorable comments on this exhibit. The display was in charge of Mr. P. A. Howell, of the United States Department of Agriculture.

The barberry exhibit was made very attractive as well as instructive by the use of flashing colored lights and immense enlarged colored pictures showing various methods of controlling the common barberry. This shrub, often used as an ornamental shrub in landscaping, has been found to serve as a host plant for one stage of the development of black stem rust in wheat and other grains. This rust causes an annual loss of approximately fifty million bushels of grain. It may be eradicated readily by killing all common barberry bushes with salt or kerosene. The exhibit also showed how the common barberry may be distinguished from the harmless Japanese variety, which does not harbor the rust. Samples of damaged grain were displayed on a table. The exhibit was prepared by the Bureau

of Plant Industry of the United States Department of Agriculture.

The new crops exhibit was another very attractive feature of the Grain and Hay Show. It was planned and assembled by Professor M. O. Pence of Purdue University and it consisted of 163 samples of new varieties of various kinds of field crops developed by agricultural experiment stations of 26 states and provinces of the United States and Canada. These samples were attractively arranged in glass-covered boxes with a card giving a brief description of each. The "new crops" were all developed by the various experiment stations to meet the particular needs of the state or province in which they were produced. They represented the work of large numbers of scientists who are breeding and testing out crop introductions which are intended to give increased yields, provide better quality and to better meet the needs of peculiar soil or climatic conditions of a particular state.

This exhibit served to show very effectively some of the practical work that is being done by the agricultural experiment stations of the United States and Canada.

The exhibit of the International Experiment Farm was a concrete demonstration of the fact that individual farmers have an opportunity to improve their farm incomes without depending entirely on a hoped-for increase in the price of farm products. The exhibit showed in detail the methods of farming followed on an 80 acre farm in Southern Indiana before the Union Stock Yard and Transit Company of Chicago secured the farm in 1921 and turned it over to Purdue University to operate and the improved practices, with their results, followed since then. The farm has just passed through its most successful year since it was taken over as an experiment in farm organization. People who have visited the Grain and Hay Show for several years recognize this exhibit as an interesting feature of the show, and are always anxious to view the 14-foot miniature to

### THE EUROPEAN CORN BORER EXHIBIT

This mammoth exhibit, occupying the entire east wall of the down-stairs hall, was viewed and studied by thousands of interested visitors. It gave in an interesting manner the essential features of the fight to control the European corn borer in America. Large maps, samples of damaged corn, mounts showing the borer in all of its life stages and a realistic reproduction of a badly infested corn field made this a fascinating exhibit.

The exhibit was prepared by the U. S. Department of Agriculture

see what developments have taken place during the year. The completeness with which the details were shown, including field layout, hills and valleys, growing crops, trees, buildings, shrubbery, live stock and even the water running in the ditches and the automobiles traveling past the farmstead made the exhibit an attraction to all classes of people.

A very practical exhibit on the control of the Canadian thistle was provided by the Illinois State Department of Agriculture. The use of field seeds that are free from the seed of this pest was strongly urged as a method of eradicating it. All Canadian thistles should be destroyed before they form seed, and thus prevent their spread.

The Georgia State College of Agriculture presented in a very unique and attractive exhibit some of the many valuable and practical ways in which cotton seed by-products may be used. Samples of the various by-products were shown and practical ways of using them explained. Large piles of cottonseed and cottonseed meal were shown on a table on which were also two large revolving illuminated pyramids showing colored pictures of Georgia farm scenes and rations containing cottonseed meal. Three immense artificial cotton bolls attracted the admiring glances of many to the exhibit.

Crop improvement through plant disease control, was advocated by the Wisconsin exhibit. Corn diseases may be controlled by selecting disease resistant strains of corn. This was shown by living corn plants in pots, some of which were non-resistant to disease and were already showing effects of corn root rot. The exhibit also explained the "Tuber Indexing" method of controlling potato mosaic. Potted growing potato plants were shown to illustrate this.

The North Dakota exhibit advised the use of registered certified seed potatoes in order to produce disease free high quality potatoes. The exhibit showed the results obtained from common and diseased seed in comparison with that produced from healthy certified seed.

The Michigan exhibit showed that certain strains of alfalfa seed are better adapted to some sections of the country than are others. Michigan has developed a strain known as the Hardigan variety that is proving a very valuable strain for Michigan soil and climatic conditions. It is producing better seed and more forage than any other variety in Michigan. Other varieties were recommended for other sections of the country.

Diversified farming in South Dakota has helped farming conditions a great deal in recent years. The state now produces corn, potatoes and other farm crops as well as live stock. This exhibit showed a number of high class samples of various farm crops now being produced in South Dakota. A comparison of field crops in 1910 with those of today was graphically shown by glass columns filled to various heights with field grains.

The Purdue Experiment Station exhibit was composed of two sections dealing with experimental work that has been accomplished at the Indiana station.

One section of the exhibit explained the advantages and disadvantages of the short and long routes in feeding spring pigs for market. It was shown that pigs fed full feed from the beginning were ready for the early fall market and received the higher prices while the pigs fed limited feed took thirty-seven days longer to get ready for the market and then brought much lower prices.

The other section of the Indiana exhibit presented some of the interesting and valuable work in breeding adapted strains of corn that is being carried on at the Purdue Station. Hybrid strains of corn illustrating the breeding work were attractively displayed on revolving tables. Various chemical tests that indicate whether or not a corn plant is receiving all the plant food that is necessary for its development were also shown. This part of the exhibit was of special interest to all corn growers.

### INTERNATIONAL EXPERIMENTAL FARM

This exhibit, showing miniature reproductions of the International Experiment Farm located near Salem, Indiana, is always a place of interest at the Grain and Hay Show. The year 1927 was the most successful for the 80 acre farm since its operation was started in 1921 as an experiment in building up and operating a run-down farm

## INTERNATIONAL LIVE STOCK EXPOSITION

Hog sanitation was the subject of the Illinois exhibit. It explained that hogs raised under sanitary conditions will produce more pork from less feed than when raised in insanitary conditions. Sanitary conditions in the hog lot also enables the hog to gain more rapidly and to be ready for market earlier than under insanitary conditions. Many other advantages of good sanitation in the hog lot were given. This exhibit was attractively prepared in the University colors.

Idaho presented a very attractive display of high quality potatoes, apples and other farm produce that had been carefully graded as to sizes and quality. Grading of produce insures the customer getting known quality and also makes the product more saleable for the producer. Attractive wall charts explained the official grades for farm produce that have been established by the state of Idaho.

In order to adequately show the grand champion winners and their trophies in all the classes, a special case was prepared on the west side of the downstairs hall in which to place them. This case was draped with royal purple, all wooden parts gilded, large glass doors provided, and the whole electrically lighted, making a very rich setting for the grand champions and their trophies in each class. Above the case a large United States map was placed, showing the place at which each of the grand champion samples had been produced. This feature attracted a great deal of attention and many people saw the winning samples who would not ordinarily have taken the time to look for them.

In practically all classes the quality of exhibits was appreciably higher than in past years. This added much to the attractiveness of the show.

The highly prized and much coveted title of "Corn King" was won by Mr. C. E. Troyer of Lafontaine, Indiana. This is the second time that Mr. Troyer has won the grand championship in the corn classes, he having produced the

best corn in America in 1920. The sample that won this high honor for Mr. Troyer was a ten ear sample of Reid's Yellow Dent which he picked from a 70 acre tract that yielded an average of 90 bushels per acre. It was grown on river bottom land which had alfalfa and sweet clover on it the year before. The soil was broken early and the corn planted before the extremely wet weather set in during May, which made so many farmers late in getting their corn planted. This early planting was a decided advantage in producing the champion corn.

The reserve champion honor was awarded to an Illinois grower, Mr. W. G. Butler, of Auburn, on his ten ear sample of Reid's Yellow Dent. The championship honor in the single ear class was won by Mr. E. W. Pike, of Gower, Missouri, while Mr. Earl M. Foster of Sharpsville, Indiana, was awarded reserve championship on his single ear.

Virgil Joyce, 16 year old son of Chester Joyce, an Indiana corn producer, was proclaimed ruler of the junior corn realm, when his ten ear sample of Reid's Yellow Dent was awarded the championship in the junior classes. Chester's corn yielded 76 bushels per acre. He used no fertilizer but his corn followed a good stand of clover.

Another Indiana boy, Floyd Epperson, 17 years of age, of Hope, won reserve junior championship with his 10 ear sample of Johnson County White corn.

John Henderson, Cokato, Minnesota, was the winner of the championship in Region I, on ten ears of white corn; A. G. Vincent, Letcher, South Dakota, ten ears yellow, in Region II; Glenn Smiley, Milford, Illinois, ten ears yellow, in Region III; and W. G. Butler, Auburn, Illinois, ten ears yellow, in Region IV. In the southern and western regions the regional championships were won by J. F. Cress, Salisbury, North Carolina, ten ears Prolific, Region V; and Roy Bechtold, Horton, Kansas, with ten ears yellow corn in Region VI.

### THE "NEW CROPS" EXHIBIT

This interesting feature exhibit was made possible through the co-operation of various state and provincial experiment stations throughout the United States and Canada.

It was composed of 163 samples of new crops from 25 experimental stations, where they had been developed to meet peculiar soil and climatic conditions of particular sections of the country

The exhibit was assembled under the direction of Prof. M. O. Pence, of Purdue University

C. E. Troyer, Lafontaine, Indiana, won in Region VII with his ten ears of yellow that later was given the grand championship of the show.

The new "Wheat King" of America is Mr. C. Edson Smith, of Corvallis, Montana. Mr. Smith won this high honor with his splendid sample of Montana 36 (Hard red winter) wheat, a variety developed by the state experiment station at Bozeman. The winning of the wheat championship comes to Mr. Smith as the culmination of many years of persistent effort on his part to win the first place. For the past three years his wheat sample has won reserve championship, but not until this year has he been able to win the grand championship. Mr. Smith also was awarded the championship in Durum wheat for the third time and gains permanent possession of the National Macaroni Manufacturing Association trophy. Mr. Smith and his son own 700 acres of fertile Montana farm land.

Reserve championship in wheat was won by Herman Trelle, of Wembley, Peace River Valley, Alberta, Canada, with a fine sample of Marquis wheat.

E. H. Jewett, Mason, Michigan, won first premium in Soft Red winter wheat; C. G. Rich, Dean, Montana, White Spring wheat; and F. L. Houghton, Alto, Michigan, on White Winter wheat.

Herman Trelle, Wembley, Peace River Valley, Alberta, Canada, again won the grand championship in the oats classes. His sample of Victory White oats, weighing 49.6 pounds per bushel (six tenths of a pound heavier than his last year's champion oats) won over the excellent sample of early oats exhibited by L. E. Peterson, of Victor, Montana, who was awarded reserve grand championship.

Other first premium winners in the oats classes were: Joseph Meyers, Freeport, Illinois, Regions III and VII; V. E. Davis, Regions IV and VIII; Lee Cole, Shawnee, Oklahoma, Region V; Arthur Speiser, Hooper, Colorado, Region VI;

and L. E. Peterson, Victor, Montana (Early Oats), Regions I, II, III and VII.

For the fourth consecutive year the first premium in rye was won by Geo. C. and L. G. Hutzler, brothers living on South Manitou Island, Michigan. The winning sample was Rosen rye, which is the only variety grown on the island and hence is kept absolutely true to variety.

In the flax classes L. E. Peterson, of Victor, Montana, was awarded the championship, while Sebens Brothers, Milnor, North Dakota, won the reserve championship.

All the first premiums in the barley classes except in class for Regions II, III, IV, V, VII and VIII were won by exhibitors from Montana. The champion barley was exhibited by C. Edson Smith of Corvallis, Montana, and the reserve champion sample was shown by L. E. Peterson, of Victor, Montana. First premium winners in barley were C. Edson Smith, Corvallis, Montana, who won in six-rowed barley, Regions I and VI, tre-bi barley and any other variety classes; A. W. Jewett, Jr., Mason, Michigan, in six-rowed barley, Regions II, III, IV, V, VII and VIII; and L. E. Peterson, Victor, Montana, in the two-row barley class.

The hay exhibit was of excellent quality and attractively exhibited. This year the championship was won by a Kansas exhibitor, Mr. Lathrop W. Fielding, of Manhattan. Mr. Fielding won this honor with his bale of alfalfa hay, which was of unquestionably superior quality.

First premium in Kafir was taken by E. B. Coffman, Manhattan, Kansas, while J. D. Hughes, Haskell, Texas, took first place in the Milo class.

In the alfalfa classes the championship was awarded to Earl Stroschein, of Sterling, Idaho, his splendid sample winning over all others, largely because of its plumpness and good coloring. L. E. Peterson, of Victor, Montana, won second premium in alfalfa west and the reserve championship of the alfalfa show. Lisle E. Berry, of Conway, Michigan, took first place in alfalfa, east.

#### GEORGIA STATE COLLEGE EXHIBIT

Large artificial cotton bolls attracted the attention of all visitors to this unique and attractive exhibit. Revolving pyramids, showing colored pictures and explaining the many ways in which cotton seed by-products may be used, very helpfully presented the story of the exhibit.

In the small seed classes other first premium winners were: John V. Flitsch, Potosi, Wisconsin, first in red clover seed; Dellingham and Welsch, Buhl, Idaho, first in Alsike clover seed; Ole Eggen, Absarokee, Montana, first in timothy seed; and Sebens Bros., Milnor, North Dakota, first in sweet clover seed. All small seed class entries were of exceptionally fine quality and appearance.

Soybean entries were all of fine quality and color. John C. Wilk, St. Louis, Michigan, won the championship of the soybean classes with an excellent sample of yellow or greenish yellow soybeans from Regions I and II. Edmond Stafford, Attica, Indiana, was given the reserve championship. Other first prize winners were Paul Folk, Bonduel, Wisconsin, winner in any other varieties, Regions I and II; C. E. Barnet, Princess Anne, Maryland, winner in any other varieties, Regions III, IV, VII and VIII, and S. C. Looney, Winchester, Tennessee, any other varieties in Regions V and VI and also in yellow or greenish yellow in Regions V and VI.

The mottled sample of cow peas exhibited by W. S. and Hill Ray, Sparta, Tennessee, won the championship in cow peas.

Ronald L. Myers, St. Louis, Michigan, won first prize in the field beans class.

Dr. G. I. Christie of Purdue again had charge of this department for the Board of Directors of the Exposition, assisted by W. F. Graham of Purdue and Thomas Condon of the International staff.

Even greater care in the handling and arrangement of exhibitors was taken than ever before. Special new racks for all small grain exhibits, with glass doors and locks, were provided. Only official state representatives were allowed to open these locks and examine the exhibits at any time. This prevented any tampering with or mixing of samples. Watchmen were kept on duty at all times, both

day and night. The corn exhibits were kept under lock at all times and no one was allowed to handle them except the state representative, unless accompanied by an official of the show. Every possible care was exercised to protect the exhibits.

### CORN TYPES COMMITTEE

The corn types committee for 1927 was composed of the following men of which Dr. W. L. Burleson of Illinois was chairman.

#### Regions I and II

Prof. A. L. Stone, Wisconsin.  
 Prof. A. C. Arny, Minnesota.  
 Prof. J. F. Cox, Michigan.  
 Mr. L. H. Newman, Canada.

#### Regions III and IV

Prof. Joe L. Robinson, Iowa.  
 Prof. C. A. Helm, Missouri.  
 Prof. J. C. Hackleman, Illinois.

#### Regions V and VI

Prof. C. A. Helm, Missouri.  
 Prof. L. E. Call, Kansas.  
 Prof. T. A. Kiesselbach, Nebraska.  
 Prof. O. W. Dynes, Tennessee.

#### Regions VII and VIII

Prof. A. T. Wiancko, Indiana.  
 Prof. Wallace E. Hanger, Ohio.

### UNIVERSITY OF ILLINOIS EXHIBIT

This exhibit presented in an attractive manner some of the advantages of hog sanitation. Pigs raised in sanitary quarters, it has been determined by experiments, use their feed more economically and are ready for market many days in advance of pigs raised in unsanitary conditions. The exhibit was made very attractive with flashing lights and the university colors for decorations

### MICHIGAN STATE COLLEGE EXHIBIT

This exhibit recommended the use of varieties of alfalfa seed that are adapted to certain sections of the country. The Hardigan variety has been developed in Michigan and found to grow better under conditions found there than other varieties. For other sections of the country other varieties were recommended. The exhibit was nicely decorated with bright green bunches of cured alfalfa

### PURDUE UNIVERSITY EXHIBIT

This section of the Indiana exhibit demonstrated the value and wisdom of feeding spring pigs by the "full feed" method in order that they may be ready for the early fall market when prices are at the top. Moving belts showing graphically the difference in the "short route" and "long route" in feeding spring pigs. Prof. J. W. Schwab was in charge of this section of the exhibit.

**YELLOW DENT—Region 4****Awards**

## CANADIAN SPECIALS

**Government of Alberta:** (a) \$150.00 for each grand championship won by an exhibitor of the Province of Alberta; (b) \$100.00 for each first prize won by an exhibitor of the Province of Alberta.

(a) Won by Herman Trelle, Wembley, Peace River Country, Alberta. (Oats.)

(b) Won by Herman Trelle, Wembley, Peace River Country, Alberta. (Peas.)

Won by Herman Trelle, Wembley, Peace River Country, Alberta. (Wheat.)

**Government of Saskatchewan:** (a) \$150.00 to the Saskatchewan exhibitor winning the wheat championship; (b) \$50.00 to each Saskatchewan exhibitor winning a first prize.

(a) Not won.

(b) Not awarded.

**Government of British Columbia:** \$150.00 to be divided among the prize winners of the Province of British Columbia. Not more than \$50.00 to be awarded for each prize won; the exact amount to be allotted in accordance with the number and standing of awards received.

Won by Mrs. A. V. Fisher, Telkwa, British Columbia.

**Government of Quebec:** \$150.00 to be divided among the prize winners of the Province of Quebec. Not more than \$50.00 to be awarded for each prize won; the exact amount to be allotted in accordance with the number and standing of awards received.

Not won.

**Government of Ontario:** (a) \$50.00 to each Ontario exhibitor winning a first prize; (b) \$25.00 to each Ontario exhibitor winning highest awards on alfalfa seed, alsike seed and six-rowed barley, providing these did not win a first prize.

(a) Not won.

(b) Won by Lansdell Bros., Brampton (Peel), Ontario. (Alsike.)

**Royal Crown Soaps, Limited:** A silver trophy or its value in cash to the Albertan standing highest among Alberta exhibitors in the class for hard red spring wheat.

Won by Herman Trelle, Wembley, Peace River Country, Alberta.

**Calgary Board of Trade:** To the Albertan winning grand championship in wheat or oats—return railway ticket and sleeping car fare to the next International Grain and Hay Show.

Won by Herman Trelle, Wembley, Peace River Country, Alberta. (Oats.)

**Canadian Co-operative Wheat Producers, Limited:** \$100.00 to the Wheat Pool member from Canada winning the highest award in hard red spring wheat.

Won by Herman Trelle, Wembley, Peace River Country, Alberta.

**Canada Malting Company, Limited:** \$100.00 to be divided evenly between the two Canadian exhibitors winning the highest awards in (a) two-rowed and (b) six-rowed barley of varieties suitable for malting.

(a) Won by J. W. McGhie, Marquis, Saskatchewan.

(b) Won by S. Larcombe, Birtle, Manitoba.

**Canadian National Railway Company:** \$100.00 to be divided evenly between the two exhibitors from Manitoba, Saskatchewan, Alberta or British Columbia winning the highest awards in (a) alfalfa and (b) timothy seed.

(a) Won by J. T. Royer, Gem, Alberta.

(b) Won by Robert Cochrane, Grand Prairie, Alberta.

**Canadian Pacific Railway Company:** \$100.00 to the Canadian scoring the highest award in hard wheat.

Won by Herman Trelle, Wembley, Peace River Country, Alberta.

**Canadian Shredded Wheat Co., Ltd.:** \$25.00 to the Ontario exhibitor winning highest award on white winter wheat.

Not won.

## INTERCOLLEGIATE CROPS JUDGING CONTEST

A. C. Arny  
Supt.

Teams from Idaho, Illinois and Texas entered the contest for the first time this year. This brought the total number of competing teams up to eleven, an increase of 37 per cent, even though Indiana and Ohio were unable to enter this year. Fourteen states have sent teams to the contest during the five years it has been conducted and five out of the fourteen have competed every year.

North Carolina came back this year to win first place with the highest team score yet achieved, 4,323.7 out of a possible 5,000. North Carolina has been represented at each of the five contests held and won premier honors

the first year and each alternate year since.

The winning team this year was made up of three seniors in the North Carolina State College, native sons of that state with exceptionally broad training and experience.

M. O. Pleasants, with a score of 1,480.5 points out of a possible 1,666.7, was second high man in the contest. He is a member of Alpha Zeta and Lambda Gamma Delta fraternities. His home is on a farm at Louisburg.

J. C. Tomlinson was fourth high man in the contest with a score of 1,425.3. His home is on a farm at Battle Creek. He is a member of Alpha Zeta fraternity.

C. W. Jackson of Middleburg was sixth high man with a score of 1,417.9. He is also a member of Alpha Zeta fraternity.

The winning team was coached by W. H. Darst, Professor of Farm Crops and Chairman of the Agronomy Group at North Carolina State College. Farm-reared, he was graduated from Ohio State University in 1910 and was

Assistant Professor of Agronomy at Pennsylvania State College prior to the election to his present position.

High individual in all classes this year was H. E. Meyers of Kansas with a score of 1,481.9 points out of a possible 1,666.7, or 88.9% perfect. With the score of 1,480.5 made by M. O. Pleasants, which figures 88.8%, these are the highest individual records for the contests held to date. L. E. Melia of the Kansas team was third high individual with a score of 1,426.9 points, which approaches very closely to the high marks of the preceding four contests. Mr. Meyers is a senior student majoring in agronomy and a member of Alpha Zeta and Phi Kappa Phi fraternities. He was reared on a farm at Bancroft, Kansas.

The coaches of the eleven competing teams were: Idaho, Prof. H. W. Hulbert; Illinois, Prof. J. W. Pieper; Iowa, Prof. C. S. Dorchester; Kansas, Prof. J. W. Zahnley; Michigan, Prof. C. E. Cormany; Nebraska, Prof. T. H. Goodding; North Carolina, Prof. W. H. Darst; Oklahoma, Prof. K. H. Klages; Pennsylvania, Prof. C. O. Cromer; Texas, Prof. Ralph T. Stewart; West Virginia, Prof. T. E. Odland.

The committee of judges in 1927 was as follows:

### Commercial Grading of Grain

H. B. English, Federal Grain Supervision, Chicago  
C. J. Willard, Ohio State University, Columbus  
F. E. Robbins, Purdue University, Lafayette.  
H. K. Wilson, University of Minnesota, St. Paul

### Commercial Grading of Hay

E. O. Pollock, U. S. Dept. of Agriculture, Kansas City  
H. H. Whiteside, U. S. Dept. of Agriculture, Chicago

### Commercial Grading of Cotton

E. G. Parker, Bureau of Agricultural Economics, Washington  
O. W. Dynes, University of Tennessee, Knoxville

### Comparative Placing

A. L. Stone, University of Wisconsin, Madison  
K. G. Harman, University of Missouri, Columbia

### Identification

R. S. Dunham, Northwest School of Agriculture, Crookston, Minn.  
E. D. Holden, University of Wisconsin, Madison  
F. W. Oldenburg, University of Maryland, Baltimore  
S. M. Raleigh, University of Minnesota, St. Paul

THE UNION STOCK YARDS AND TRANSIT  
CO. OF CHICAGO TROPHY

A silver cup was provided by this organization for the first time in 1926 with the understanding that it shall become the permanent property of the team winning it three times. The Kansas team won this trophy in 1926 and the North Carolina team this year.

## THE PULLMAN COMPANY SCHOLARSHIP

One scholarship of \$250 has been awarded each year to the institution from which the winning team comes. This fund is made available to a student in that school who would not otherwise be able to secure a scientific training in agriculture. In 1924 and 1926 this scholarship was won by Kansas and in 1925 and 1927 by North Carolina.

PARTICIPANTS IN INTERCOLLEGIATE CROPS JUDGING CONTEST, 1927

## THE UNITED STATES DEPARTMENT OF AGRICULTURE

Continuing its established custom, the United States Department of Agriculture for the seventh consecutive year accepted the annual invitation of the management of the International Live Stock Exposition to send an educational exhibit to this premier live stock show. Although the department possesses, at its various experiment farms, some of the best bred live stock in the country, it never competes with breeders in the show ring, but limits its participation in the International and other great stock shows to the presentation of exhibits depicting improved farming methods.

The exhibit this year occupied its usual quarters adjoining the judging arena, where it has been studied by tens of thousands of visitors daily in past years.

### Mankind's Dependence on Farm Animals Featured

As if to give official recognition to man's tremendous dependence upon the horse, the steer, the pig and the sheep, one feature of this year's exhibit emphasized the service rendered to mankind by domestic animals. A large share of the food man eats, the exhibit points out, is of animal origin. The suit of clothes he wears was grown upon a sheep's back. His belt, shoes, razor strop, even his tooth brush, were produced in the first instance in barnlot or pasture. When man plays—whether football, baseball, basketball or soccer—the eyes of the assembled thousands are focused upon a small object fashioned from a hide which once covered the carcass of horse or cow. When his fancy turns to music, the delicate tones of his instruments are produced, in many cases, by the subtle friction of one animal product against another. When his health fails, many of the reliable preparations and accessories of modern medicine and surgery trace their origin to some precious substance found only in the bodies of our faithful animals. And, finally, the continuing productive-

ness of our far-flung fields and pastures depends in great measure upon the fertility which our live stock bestow upon the soil.

Although the major portion of the exhibit dealt with live stock practices under conditions similar to those found in the Corn Belt, whence most of the Exposition's visitors come, an effort was made to cover as many phases of the live stock industry as possible.

### Fifty Million Pigs Immune to Cholera

An immense hour glass in another exhibit, with images of dead hogs substituted for grains of sand, illustrated vividly the fact that 400 hogs die from hog cholera in the United States each hour of the year. Although no cure has ever been found for this destructive swine disease, the exhibit pointed out that it is preventable and that immunization and sanitary measures will control losses. Farmers have already profited by this knowledge and 50 million pigs now enjoy this protection.

A farmer may breed excellent live stock and feed them in the proper manner to produce rapid and economical gains, but his final profit is contingent upon a favorable market that will pay him for his outlay and his pains. An exhibit emphasizing this phase of the stockman's business enumerated some of the factors which affect the hog and beef cattle markets. The modern stockman can obtain by radio, telegraph, telephone, or in his daily mail, reports of various kinds that will assist him in forming his own conclusions as to the most likely time for him to place his product on the market. This exhibit attempted to acquaint him with the general effect, either in increasing prices or depressing the market, of such conditions as unusually large numbers of cattle or hogs going into the feed lot, an unprecedented slaughter of any one class of animals as shown by Government records, a record corn

crop or unfavorable pasture and crop conditions, changing consumer demand, and so on.

A total of 55 radio stations in the United States broadcast live stock, meats and wool reports to a potential audience of a million and a quarter farmers. These reports are gathered daily by trained men and broadcast to farmers within the hour. As an example of the value of daily observance of current market trends, the exhibit recorded the case of a Minnesota farmer who made two

dollars more per head from his cattle through information he received in the market news service.

#### Comparisons of Grazing Methods

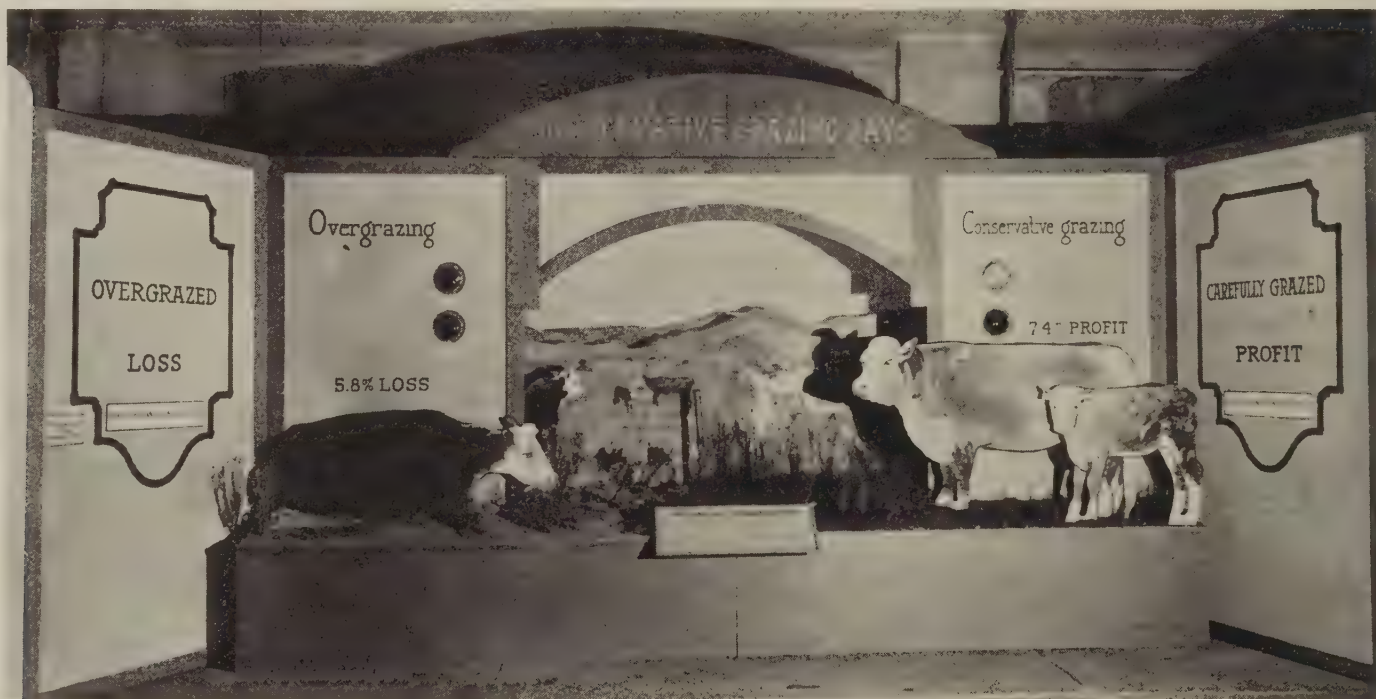

Sufficient proof to convince the most skeptical rancher was contained in a feature contrasting the curse of overgrazing with the benefits to be derived from conservative grazing of our western range lands. A line fence bisected a western panorama, showing herds of beef cows and calves busy converting grass into beef. On one side of

## INTERNATIONAL LIVE STOCK EXPOSITION

the fence the depleted soil and sparse, scraggly vegetation showed the tell-tale signs of overgrazing, which was reflected in the thin, "leggy" cattle in the foreground. Across the fence were sleek, well-filled cattle of the same breed, enjoying an abundance of grass as a result of proper stocking by a ranchman who apparently appreciates that grass, like all crops, must be given a chance. To prove the sound advantage of the one system over the other, data was quoted from a series of ranch studies by the Forest Serv-

ice covering twelve years. Overgrazing was found to result in an average calf crop of but 53 per cent, while proper grazing averaged as many as 78 calves for each 100 cows. Death losses in the former case were 10 per cent as against but 3 per cent for the latter. Finally the mismanaged ranches suffered a loss of 5.8 per cent on their investment, while the system advocated by the exhibit enjoyed a profit of 7.4 per cent.

### Cafeteria Style for Hogs Profitable

A sow and her litter of thriving pigs were shown in a pen in the center of the exhibit room to illustrate the merits of the cafeteria or self-feeder system of raising sows and their litters. Considerably less labor cost is required than for the system of feeding by hand, and the pigs seem to possess the knack of selecting the proper proportion of feeds to make most profitable gains.

An exhibit on soybean culture, enumerated the particular varieties of soybeans which are best adapted for hay,

for seed, or for pasture in various sections of the country. This crop is more drought resistant and less sensitive to excess moisture than corn and yields an abundance of feed and forage. The seed should always be inoculated when soybeans are planted for the first time, warned this exhibit.

The proper use of soybeans in pork production, in order that a firm carcass of high quality will be produced, was the subject of another feature. The data presented were based upon results of a nation-wide study of the causes of

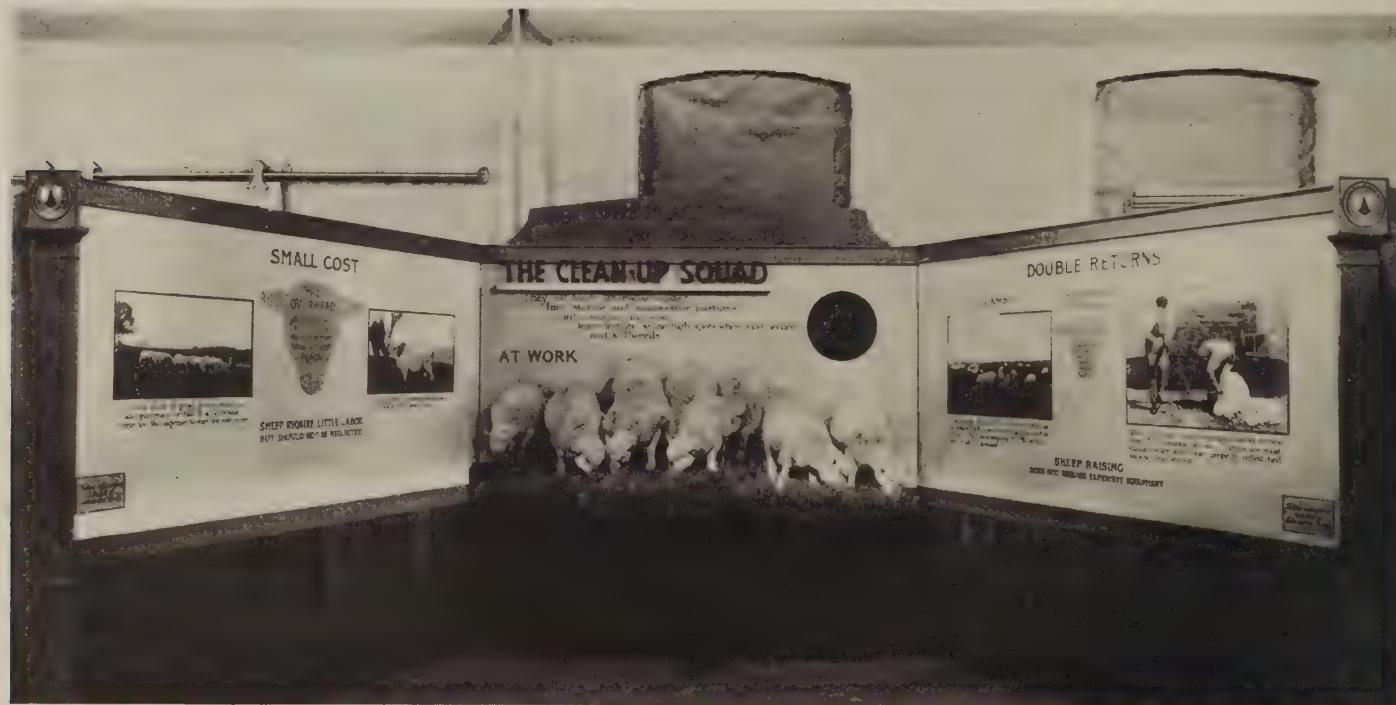

soft pork being conducted by the Government and eleven States. The exhibit pointed out that the initial weight of the hogs, the daily gain and the length of the feeding period are important factors in determining the firmness of the product.

### "The Clean-up Squad"

"The Clean-up Squad" is the title of another feature which portrayed the remarkable ability of a flock of sheep to "tidy-up" a farm and keep its fields and fence rows

free from weeds. While it is true that no practical sheepman will expect his flock to produce good mutton and strong wool on weeds alone, yet it is well known that much stubble, inaccessible pasture and feed that might be wasted is turned into good account by sheep. They even scatter fertility on the high spots where it is needed most.

Because of the comparatively small amount of labor required by sheep, the overhead expense on a live stock farm is about the same whether sheep are kept or not.

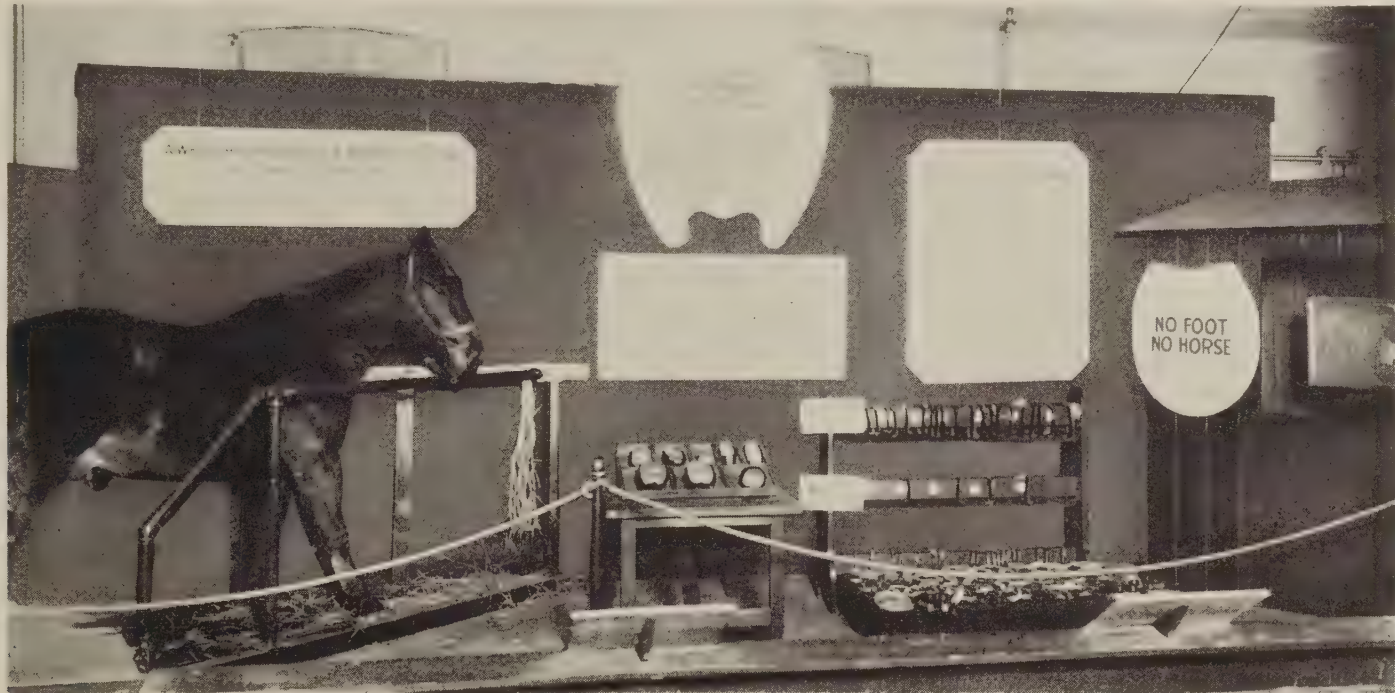

Their two crops a year—meat and wool—may be counted on to produce a gross return per ewe of from \$8 to \$15 per year, according to this exhibit.

#### Keeping Old Dobbin Shod

One exhibit offered a solution to the serious problem of locating a blacksmith shop, which confronts many farmers. With the village smithy supplanted in many localities by garages and filling stations, farmers have had considerable difficulty keeping their horses properly shod in recent years.

Built around the slogan, "No foot—no horse," this feature demonstrates to farmers a practical method of shoeing their own horses. Ready-to-wear shoes of various sizes, for either horses or mules, may be bought at local hardware stores and the animals shod on the farm. A horse with one foot untrimmed and in bad condition from neglect, a second foot properly trimmed and ready for measurement for the new shoe, the third foot showing the shoe properly nailed on, and the fourth showing the finished job, was used to forcibly demonstrate this feature.

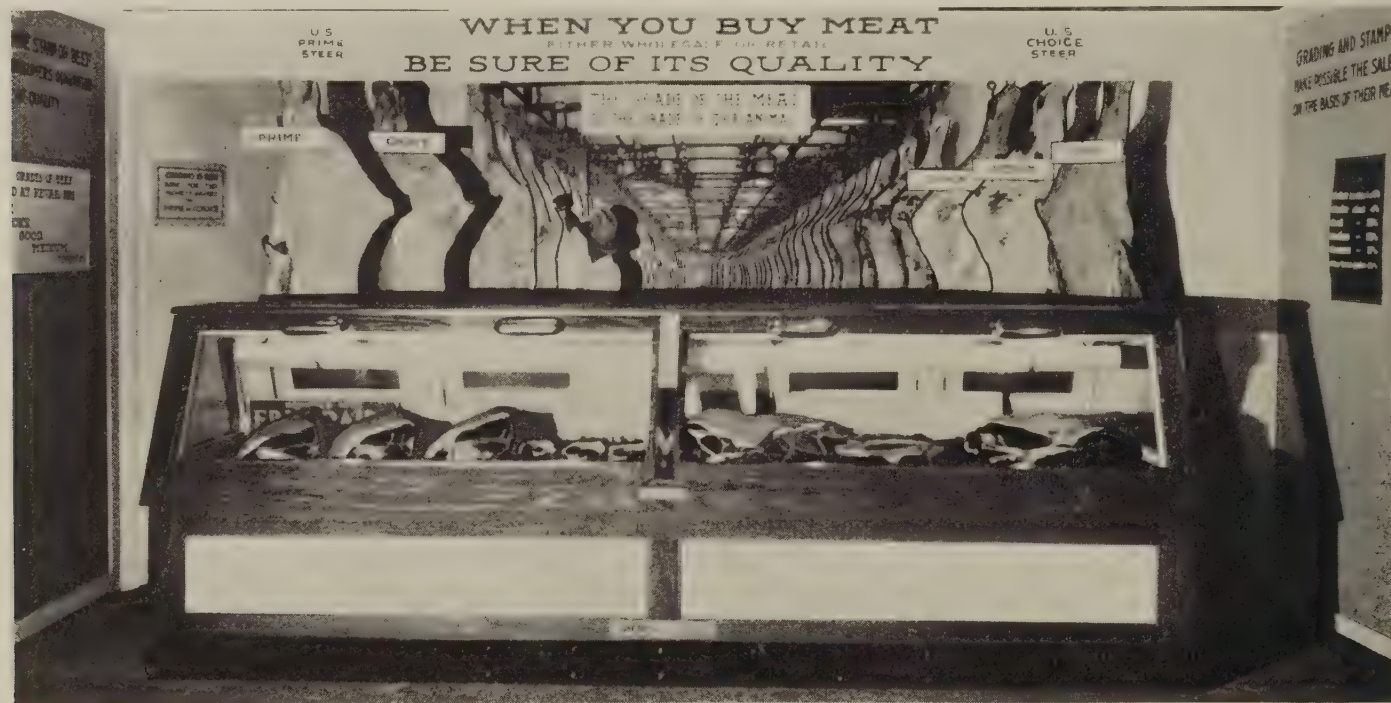

The praises of a remarkable pasture crop, which is also valuable for hay and silage, are sung in an exhibit on sweet clover. It will grow on many soils too poor for red clover or alfalfa. Its pasture is as nutritious as alfalfa and less likely to cause bloat. It adds nitrogen to the soil, as do other legumes, and the tenacious roots of a field of sweet clover travel a combined distance of thousands of miles into the earth for water. Although not particular as to the quality of soil it is grown upon,

sweet clover demands an abundance of lime and a compact seed bed.

### Housewife Not Neglected

The interest of housewives, whether from country or city, was considered again this year in an exhibit which illustrated proper methods of cooking representative tender and less tender cuts of beef. Representation of deliciously browned steaks and roasts, undistinguishable except for odor from the real thing, were accompanied by directions for the correct method of cooking each.

# *Aberdeen-Angus Cattle*

---

Home of Earl Marshall 183780 and Blackcap Revolution 287269, the world's greatest sires.

Of the kind the breeder wants to breed, the feeders like to feed and the buyers buy.

We don't ask you to accept our word; ask those who are capable to judge and who are in a position to know.

If you are interested in Aberdeen-Angus, you will want to see us first.

## Our Aim!

### *To Breed the Kind of Seedstock That the Present Day Market Demands*

That we have been fairly successful in our aim and that we are breeding the kind of cattle that the present day market demands is evidenced by the results of our three annual sales. Each year our sale average has been up amongst the top sale averages of the year.

Moreover Sni-a-Bar bred animals have, during the past several years, taken leading places at the majority of the great shows of the country.

Outstanding amongst the products of our herd have been the sons and daughters of our chief herd sire, Prentice—and that because of their breed character, good heads and straight, strong backs.

Discriminating breeders look for these qualities in their herd sires and that's why the "get of Prentice" has been in such demand and why we advise you to consult us regarding your next herd sire.
